Please indicate the tobacco products included in calculating prevalence for question B16:

Tobacco products included in the calculations: manufactured cigarettes, homemade tobacco and tobacco powder.

Please indicate the year of the data used to answer question B16:

2010 [11]

Please indicate the source of the data used to answer question B16:

GYTS, subnational survey in Angola-Huambo.

Please provide the definition of "current smoking/tobacco use" used to answer question B16 in the space below.

As defined in GYTS.

The categories in the table above correspond to the following categories in GYTS:

smoking tobacco: cigarettes (in GYTS)

smokeless tobacco: any tobacco product (in GYTS)

other tobacco: other tobacco products in GYTS

For details see the attached file.

Please provide a brief explanation of the trend in tobacco use by young persons in the past two years or since submission of your last report.

Our studies indicate that only 2% of the young respondents smoked manufactured cigarettes, while most of them consumed homemade tobacco because of social and cultural influence.

Yes [Y]

Please provide a brief description of the progress made in implementing Article 15 (*Illicit trade in tobacco products*) in the past two years or since submission of your last report.

Angola has a National Revenue Authority (ARA) which is under the direct supervision of Ministry of Finance and therefore adheres to the MoF policies. The ARA is the department responsible for collection of customs data and taxes. It is independent of the tax directorate in the MoF and can propose a tax amendment upon request and justification by a relevant Ministry or agency. The approval of the amendment will however be submitted to MoF and the latter will submit it to the Cabinet, the National Assembly, and finally, the President. Angola is facing the challenge of illicit products including tobacco though it was reported to be infrequent. There has been seizure of illicit tobacco products mostly on their way to Namibia. This occurs because cigarettes are considered to be cheaper in Angola comparing to Namibia where the taxes are higher. The other source of illicit tobacco was mentioned to be China. Upon seizure, the products were kept under joint commission by the Revenue Authority, Ministry of Health, Ministry of Finance and Commerce and later burnt. There are fines too upon capture but these were not articulated in details. Any person traveling out of Angola who wishes to carry tobacco is allowed to take 20 packets for personal use.

If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

National Revenue Authority (ARA) works with the National Police, the finance police (or financial police) and the Mobile Support Group to control illicit trade. The Finance and Mobile Support Group are independent of the National Police but administratively are located in the National Police offices across the country.

E. PRIORITIES AND COMMENTS

What are the priorities for implementation of the WHO Framework Convention on Tobacco Control in your jurisdiction?
To adopt the national law and regulation on tobacco control and tobacco products; to strengthen enforcement of the WHO FCTC, including in terms of national legislation, monitoring, surveys and awareness campaigns; to reinforce the national mechanisms for tobacco control; to reinforce national capacities for the implementation of tobacco control at national level.

Have you identified any specific gaps between the resources available and the needs assessed for implementing the WHO Framework Convention on Tobacco Control?
Yes [Y]

Please provide details in the space below.

Financial resources
Human resources - capacity building

What, if any, are the constraints or barriers, other than lack of resources, you have encountered in implementing the Convention?

Lack of a national law and regulations on tobacco control: poor enforcement of the FCTC, including in terms of national legislation, monitoring, surveys and awareness campaigns; need to reinforce the national mechanisms for tobacco control; need to reinforce national capacities for the implementation of tobacco control at national level; lack of regular studies and surveys on smoking prevalence at country level.

Have you adopted and implemented any policy or regulation that is specific to the following tobacco products? [Other]

If you have any relevant information related to questions E5 and E6, please provide details in the space below.

Data on tobacco use is not available in Angola. In spite of the lack of regular studies and surveys, the smoking prevalence at country level is very low.

Please provide any other relevant information not covered elsewhere that you consider important.

Angola needs more assistance in terms of awareness and information and campaign materials on tobacco in Portuguese. Most of these materials are available in both English and French. Cooperation with other Portuguese countries like Brazil and Portugal would be very welcome.

Your suggestions for further development and revision of the reporting instrument:

It's a very good and useful tool for countries to monitor the FCTC. Training for the capacity building of national staff at country level in this area would be very useful.
