B114[SQ005]. Please provide the definitions of “current smoker”, “daily smoker”, “occasional smoker”, “former smoker” and “never smoker” used in this report. [Never smoker]
nunca registro consumo de alguna frecuencia

B115. Please provide a brief explanation of the trend in smoking prevalence in the adult population in the past two years or since submission of your last report.
Esta población presentó una baja prevalencia de tabaquismo, junto con un bajo número de cigarrillos fumados diarios y bajos niveles de dependencia de la nicotina, a pesar de los bajos precios y el fácil acceso a los cigarrillos fabricados. Estos dos factores, conjugados con la ausencia actual de una política angoleña para el control del tabaco, aumentan la susceptibilidad al aumento general del consumo de tabaco en el futuro cercano.

B123. Please provide a brief explanation of the trend in current smoking prevalence by age group in the past two years or since submission of your last report, if data are available.

En el estudio se midió en una población un estudio longitudinal que presentó una baja prevalencia de tabaquismo, junto con un bajo número de cigarrillos fumados diarios y bajos niveles de dependencia de la nicotina, a pesar de los bajos precios y el fácil acceso a los cigarrillos fabricados. Estos dos factores, conjugados con la ausencia actual de una política angolense para el control del tabaco, aumentan la susceptibilidad al aumento general del consumo de tabaco en el futuro cercano.

B13. Prevalence of smokeless tobacco use in the adult population (all) (Please provide prevalence data for total adult population, and identify the age considered in B132, e.g. 15 years old and over, 18–64 years; see B132)

Angola has a National Revenue Authority (ARA) which is under the direct supervision of Ministry of Finance and therefore adheres to the MoF policies. The ARA is the department responsible for collection of customs data and taxes. It is independent of the tax directorate in the MoF and can propose a tax amendment upon request and justification by a relevant Ministry or agency. The approval of the amendment will however be submitted to MoF and the latter will submit it to the Cabinet, the National Assembly, and finally, the President. Angola is facing the challenge of illicit products including tobacco though it was reported to be infrequent. There has been seizure of illicit tobacco products mostly on their way to Namibia. This occurs because cigarettes are considered to be cheaper in Angola comparing to Namibia where the taxes are higher. The other source of illicit tobacco was mentioned to be China. Upon seizure, the products were kept under joint commission by the Revenue Authority, Ministry of Health, Ministry of Finance and Commerce and later burnt. There are fines too upon capture but these were not articulated in details. Any person traveling out of Angola who wishes to carry tobacco is allowed to take 20 packets for personal use.

C3115. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

National Revenue Authority (ARA) works with the National Police, the finance police (or financial police) and the Mobile Support Group to control illicit trade. The Finance and Mobile Support Group are independent of the National Police but administratively are located in the National Police offices across the country.

E. PRIORITIES AND COMMENTS

E1. What are the priorities for implementation of the WHO Framework Convention on Tobacco Control in your jurisdiction?
To adopt the national law and regulation on tobacco control and tobacco products; to strengthen enforcement of the WHO FCTC, including in terms of national legislation, monitoring, surveys and awareness campaigns; to reinforce the national mechanisms for tobacco control; to reinforce national capacities for the implementation of tobacco control at national level.

E2. Have you identified any specific gaps between the resources available and the needs assessed for implementing the WHO Framework Convention on Tobacco Control?
Yes

E3. Please provide details in the space below.
Financial resources
Human resources - capacity building

E4. What, if any, are the constraints or barriers, other than lack of resources, you have encountered in implementing the Convention?
Lack of a national law and regulations on tobacco control: poor enforcement of the FCTC, including in terms of national legislation, monitoring, surveys and awareness campaigns; need to reinforce the national mechanisms for tobacco control; need to reinforce national capacities for the implementation of tobacco control at national level; lack of regular studies and surveys on smoking prevalence at country level.

E5[1]. Do you have any of the following products available on your national tobacco market? [smokeless tobacco products]
No

E5[2]. Do you have any of the following products available on your national tobacco market? [water pipe tobacco]
No

E5[3]. Do you have any of the following products available on your national tobacco market? [ENDS/ENNDS]
Yes

E5[other]. Do you have any of the following products available on your national tobacco market? [Other]

E6[1]. Have you adopted and implemented any policy or regulation that is specific to the following tobacco products? [smokeless tobacco products]
No

E6[2]. Have you adopted and implemented any policy or regulation that is specific to the following tobacco products? [water pipe tobacco]
No

E6[3]. Have you adopted and implemented any policy or regulation that is specific to the following tobacco products? [ENDS/ENNDS]
No

E6[other]. Have you adopted and implemented any policy or regulation that is specific to the following tobacco products? [Other]

E7. If you have any relevant information related to questions E5 and E6, please provide details in the space below.
Data on tobacco use is not available in Angola. In spite of the lack of regular studies and surveys, the smoking prevalence at country level is very low.

E8. Please provide any other relevant information not covered elsewhere that you consider important.
Angola needs more assistance in terms of awareness and information and campaign materials on tobacco in Portuguese. Most of these materials are available in both English and French. Cooperation with other Portuguese countries like Brazil and Portugal would be very welcome.

E9. Your suggestions for further development and revision of the reporting instrument:
Its a very good and useful tool for countries to monitor the FCTC. Training for the capacity building of national staff at country level in this area would be very useful.
