B1. TOBACCO CONSUMPTION

Prevalence of tobacco use
Smoking prevalence in the adult population (all) (Please provide prevalence data for total adult population, and identify the age considered, e.g. 15 years old and over, 18-64 years; see B112)
Current smokers [MALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
36.3
Current smokers [MALE][Average number of the most-consumed smoking tobacco product used per day]
Current smokers [FEMALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
3.7
Current smokers [FEMALE][Average number of the most-consumed smoking tobacco product used per day]
Current smokers [TOTAL (males and females)][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
19.9
Current smokers [TOTAL (males and females)][Average number of the most-consumed smoking tobacco product used per day]
Daily smokers [MALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
24.8
Daily smokers [MALE][Average number of the most-consumed smoking tobacco product used per day]
9.1
Daily smokers [FEMALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
1.8
Daily smokers [FEMALE][Average number of the most-consumed smoking tobacco product used per day]
10.0

Daily smokers [TOTAL (males and females)][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
13.3
Daily smokers [TOTAL (males and females)][Average number of the most-consumed smoking tobacco product used per day]
9.1
Occasional smokers [MALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
Occasional smokers [FEMALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
Occasional smokers [TOTAL (males and females)][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
Former smokers [MALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
20.7
Former smokers [FEMALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
6.8
Former smokers [TOTAL (males and females)][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
13.7
Never smokers [MALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
43.0
Never smokers [FEMALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
89.5
Never smokers [TOTAL (males and females)][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
66.3
Please indicate the smoking tobacco products included in calculating prevalence for question B11:
Any forms of tobacco (including cigarettes, cigars and pipes).
Please indicate the age range to which the data used to answer question B11 refer: [Age range][From]
18
Please indicate the age range to which the data used to answer question B11 refer: [Age range][To]
69
Please indicate the year of the data used to answer question B11:
2016
Please indicate the source of the data used to answer question B11:
The STEPS Survey of Non-Communicable Disease (NCD) risk factors in Brunei Darussalam
Please provide the definitions of "current smoker", "daily smoker", "occasional smoker", "former smoker" and "never smoker" used in this report. [Current smoker]
Currently smokes any tobacco products
Please provide the definitions of "current smoker", "daily smoker", "occasional smoker", "former smoker" and "never smoker" used in this report. [Daily smoker]
Smokes tobacco products daily
Please provide the definitions of "current smoker", "daily smoker", "occasional smoker", "former smoker" and "never smoker" used in this report. [Occasional smoker]
Please provide the definitions of "current smoker", "daily smoker", "occasional smoker", "former smoker" and "never smoker" used in this report. [Former smoker]
People who have stopped smoking, regardless of when stopped

Please provide the definitions of “current smoker”, “daily smoker”, “occasional smoker”, “former smoker” and “never smoker” used in this report. [Never smoker]
Never tried to smoke

Please provide a brief explanation of the trend in smoking prevalence in the adult population in the past two years or since submission of your last report.
Trend in male smokers – slight increase.
Trend in female smokers – slightly decrease.

Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]
18

Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - end age]
29

Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
35

Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]
30

Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - end age]
44

Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
47

Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]
45

Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - end age]
59

Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
31

Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]
60

Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - end age]
69

Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - start age]

Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - end age]

Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - start age]

Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - end age]

Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - start age]

Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - end age]

Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

Please indicate the smoking tobacco products included in calculating prevalence for question B12:

Any forms of tobacco products.

Please indicate the year of the data used to answer question B12:

2016

Please indicate the source of the data used to answer question B12:

The STEPS Survey of Non-Communicable Disease (NCD) risk factors in Brunei Darussalam

Please provide a brief explanation of the trend in current smoking prevalence by age group in the past two years or since submission of your last report, if data are available.

Males: the trend is decreasing in the younger age group (18-29 years) and is increasing in the older age group (30-44, 45-59 and 60-69 years).

Females: the trend is decreasing in the 18-29 and 60-69 years age group, and increasing in the 30-44 and 45-59 years age group.

Prevalence of smokeless tobacco use in the adult population (all) (Please provide prevalence data for total adult population, and identify the age considered in B132, e.g. 15 years old and over, 18-64 years; see B132)

Males [Current users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

1.7

Males [Daily users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]
0.3
Males [Occasional users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

0.2
TOTAL (males and females) [Occasional users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]
TOTAL (males and females) [Former users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]
2.2
TOTAL (males and females) [Never users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]
95.9
Please indicate the smokeless tobacco products included in calculating prevalence for question B13:
Any smokeless tobacco such as snuff, chewing tobacco, betel.
Please indicate the age range to which the data used to answer question B13 refer: [Age range][From]
18
Please indicate the age range to which the data used to answer question B13 refer: [Age range][To]
69
Please indicate the year of the data used to answer question B13:
2016
Please indicate the source of the data used to answer question B13:
The STEPS Survey of Non-Communicable Disease (NCD) risk factors in Brunei Darussalam
Please provide the definitions of "current user", "daily user", "occasional user", "former user" and "never user" (of smokeless tobacco products) used in this report in the space below. [Current user]
Currently uses any smokeless tobacco
Please provide the definitions of "current user", "daily user", "occasional user", "former user" and "never user" (of smokeless tobacco products) used in this report in the space below. [Daily user]
Uses smokeless tobacco products daily

Please provide the definitions of "current user", "daily user", "occasional user", "former user" and "never user" (of smokeless tobacco products) used in this report in the space below. [Occasional user]

Please provide the definitions of "current user", "daily user", "occasional user", "former user" and "never user" (of smokeless tobacco products) used in this report in the space below. [Former user]

People who have stopped using, regardless of when stopped

Please provide the definitions of "current user", "daily user", "occasional user", "former user" and "never user" (of smokeless tobacco products) used in this report in the space below. [Never user]

Never tried

Please provide a brief explanation of the trend in smokeless tobacco use in the adult population in the past two years or since submission of your last report.

The trend is decreasing in both males and females.

Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Range - start age]

18

Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Range - end age]

29

Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

2

Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Range - start age]

30

Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Range - end age]

44

Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

1

Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Range - start age]

45

Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Range - end age]

59

Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

1

Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Range - start age]

60

Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers2][Range - end age]

Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers2][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers2][Range - start age]

Please indicate the tobacco products included in calculating prevalence for question B16:
Cigarettes.

Please indicate the year of the data used to answer question B16:
2014

Please indicate the source of the data used to answer question B16:
Global School-Based Student Health Survey Brunei Darussalam 2014

Please provide the definition of "current smoking/tobacco use" used to answer question B16 in the space below.
Current smoker – smoked cigarettes on one or more days during the past 30 days.

Please provide a brief explanation of the trend in tobacco use by young persons in the past two years or since submission of your last report.
The trend is decreasing in the 13-15 years age group in both males in females.

Please attach the relevant documentation.

Male [Never smokers][Average number of the most-consumed smoking tobacco product used per day]

B2-B9. HEALTH, SOCIAL AND ECONOMIC INDICATORS

Exposure to tobacco smoke

Do you have any data on exposure to tobacco smoke in your population?

Yes

Please provide details in the space below (e.g. exposure by gender, at home, in the workplace, on public transport).

Exposure to smoke (% who reported people smoked in their presence): total: 41.1%; by gender: males 47.3% & females 34.9%.

Please indicate the year of the data used to answer question B21:

2014

Please indicate the source of the data used to answer question B21:

GSHS - Brunei Darussalam 2014 (13-17 years old).

Please attach the relevant documentation.

1

Tobacco-related mortality

Do you have information on tobacco-related mortality in your population?

No

What is the estimated total number of deaths attributable to tobacco use in your population?

If available, please provide any additional information on mortality attributable to tobacco use (e.g. lung cancer, cardiovascular diseases) in your jurisdiction.

Please indicate the source of the data used to answer questions B32 and B33:

Please submit a copy of the study you refer to:

filecount - Please submit a copy of the study you refer to:

0

Tobacco-related costs

Do you have information on the economic burden of tobacco use in your population, e.g. the overall cost of tobacco use imposed on your society?

No

Please provide details (e.g. direct (health care-related) and indirect costs and, if possible, the method used to estimate these costs).

Please indicate the source of the data used to answer question B42:

Please submit a copy of the study you refer to:

Do you have any information on the percentage of illicit tobacco products on the national tobacco market?
No

What percentage of the national tobacco market do illicit tobacco products constitute? (%)

What is the trend over the past two years or since submission of your last report in the percentage of illicit tobacco products in relation to the national tobacco market?

Please provide any further information on illicit tobacco products.
Pursuant to Section 31 of Brunei Customs Order Law 2006, tobacco products are prescribed under Prohibited and Restricted Goods on import and export which stated the Minister can prohibit any importation and exportation of any goods or class of goods. In case of goods that are object of Criminal Proceedings, Section 140 in Customs Order 2006 prescribes the penalty of an offence which accumulated in the criminal act, which in this case is smuggling of tobacco products.

C1. GENERAL OBLIGATIONS

With reference to Article 5
Have you developed and implemented comprehensive multisectoral national tobacco control strategies, plans and programmes in accordance with the Convention?
Yes
Have you partially developed and implemented tobacco control strategies by including tobacco control in national health, public health or health promotion strategies, plans and programmes?
N/A
Is any aspect of tobacco control that is referred to in the Convention included in any national strategy, plan or programme?
N/A
Have you established or reinforced and financed: [a focal point for tobacco control?]
Yes
Have you established or reinforced and financed: [a tobacco control unit?]
No
Have you established or reinforced and financed: [a national coordinating mechanism for tobacco control?]
Yes
Please provide details (e.g. the nature of the national coordinating mechanism, the institution to which the focal point for tobacco control or the tobacco control unit belongs).
Multi-sectoral Taskforce for Health (reducing tobacco use) includes the various agencies and ministries relevant to tobacco control and is chaired by the Minister of Health; the focal point for tobacco control is under the Ministry of Health. Prior to 2012, a specific tobacco control unit was in existence. However, with the enforcement of a very stringent tobacco control laws and supported by strong tobacco taxation laws, the focus is currently on enforcing smoke-free areas, smoking cessation, health promotion and illicit trade. These activities are under the purview of Health Enforcement Unit, Health Promotion Centre and Department of Royal Customs and Excise. The responsibilities of the tobacco control unit has since been absorbed under the Environmental Health Department.
Please provide a brief description of the progress made in implementing Article 5.1 and 5.2 (General obligations) in the past two years or since submission of your last report.
Implementation of Tobacco Order 2005 and its Regulations since 1st June 2008; the Order is currently being reviewed. Brunei Darussalam also enforces a very strict Anti-Corruption Laws.
If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.
Protection of public health policies with respect to tobacco control from commercial and other vested interests of the tobacco industry Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:
protecting public health policies with respect to tobacco control from commercial and other vested interests of the tobacco industry?
Yes
ensuring that the public has access, in accordance with Article 12(c), to a wide range of information on tobacco industry activities relevant to the objectives of the Convention, such as in a public repository?
No
Please provide details in the space below.
Development of Code of Conduct on protection of tobacco control policies from tobacco industry interference for civil servants.
Please provide a brief description of the progress made in implementing Article 5.3 in the past two years or since submission of your last report.
The Code of Conduct is currently being finalised by Prime Minister's Office.

Have you utilized the "Guidelines for implementation of Article 5.3 of the WHO FCTC" when developing or implementing policies in this area?
Yes
Please provide details in the space below or refer to section I of the additional questionnaire. Response to this question or to the additional questionnaire is voluntary. https://extranet.who.int/dataform/655321?token={TOKEN}&=en
As reference.
If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.
Please attach the relevant documentation.

C3. MEASURES RELATING TO THE REDUCTION OF THE SUPPLY OF TOBACCO

With reference to Articles 15-17

Illicit trade in tobacco products Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

requiring marking of all unit packets and packages of tobacco products and any outside packaging of such products to assist in determining the origin of the product?
No

requiring marking of all unit packets and packages of tobacco products and any outside packaging of such products to assist in determining whether the product is legally sold on the domestic market?
No

requiring that unit packets and packages of tobacco products for retail and wholesale use that are sold on the domestic market carry the statement: "Sales only allowed in ..." or carry any other effective marking indicating the final destination of the product?
No

developing a practical tracking and tracing regime that would further secure the distribution system and assist in the investigation of illicit trade?
No

requiring that marking is presented in legible form and/or appears in the principal language or languages of the country?
No

requiring the monitoring and collection of data on cross-border trade in tobacco products, including illicit trade?
No

facilitating the exchange of this information among customs, tax and other authorities, as appropriate, and in accordance with national law and applicable bilateral and multilateral agreements?
Yes

enacting or strengthening legislation, with appropriate penalties and remedies, against illicit trade in tobacco products, including counterfeit and contraband cigarettes?
Yes

requiring that confiscated manufacturing equipment, counterfeit and contraband cigarettes and other tobacco products derived from illicit trade are destroyed, using environment-friendly methods where possible, or disposed of in accordance with national law?
Yes

adopting and implementing measures to monitor, document and control the storage and distribution of tobacco products held or moving under suspension of taxes or duties?
Yes

enabling the confiscation of proceeds derived from illicit trade in tobacco products?
Yes

promoting cooperation between national agencies and relevant regional and international intergovernmental organizations in investigations, prosecutions and proceedings, with a view to eliminating illicit trade in tobacco products, with special emphasis on cooperation at regional and subregional levels?
Yes

licensing or other actions to control or regulate production and distribution in order to prevent illicit trade?
Yes

Please provide a brief description of the progress made in implementing Article 15 (Illicit trade in tobacco products) in the past two years or since submission of your last report.
1) Customs Excise Order 2017 has been amended by increasing the tax on tobacco products by 100%.
2) Cooperation(s) between other enforcement agencies have been enhanced in areas encompassing inland, maritime and border areas.

If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

Sales to and by minors Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

prohibiting the sales of tobacco products to minors?
Yes

Please specify the legal age:
18

requiring that all sellers of tobacco products place a clear and prominent indicator inside their point of sale about the prohibition of tobacco sales to minors?
Yes

requiring that, in case of doubt, each seller of tobacco products requests that the purchaser provides appropriate evidence of having reached full legal age?

Yes

banning the sale of tobacco products in any manner by which they are directly accessible, such as open store shelves?

Yes

prohibiting the manufacture and sale of sweets, snacks, toys or any other objects in the form of tobacco products which appeal to minors?

Yes

prohibiting the sale of tobacco products from vending machines?

Yes

Do you ensure that tobacco vending machines are not accessible to minors and/or do not promote the sale of tobacco products to minors?

N/A

prohibiting and/or promoting the prohibition of the distribution of free tobacco products: [to the public?]

Yes

prohibiting and/or promoting the prohibition of the distribution of free tobacco products: [to minors?]

Yes

prohibiting the sale of cigarettes individually or in small packets?

Yes

providing for penalties against sellers and distributors in order to ensure compliance?

Yes

prohibiting the sales of tobacco products by minors?

Yes

Please provide a brief description of the progress made in implementing Article 16 (Sales to and by minors) in the past two years or since submission of your last report.

Prohibition of sales to and by minors has been enforced since 2008 through the Tobacco Order 2005.

D. INTERNATIONAL COOPERATION AND ASSISTANCE

Pursuant to Article 21.1(c) and in accordance with Article 26, have you either provided or received financial or technical assistance (be it through unilateral, bilateral, regional, subregional or other multilateral channels, including relevant regional and international intergovernmental or nongovernmental organizations and financial and development institutions) for the development and strengthening of multisectoral, comprehensive tobacco control programmes of developing country Parties and Parties with economies in transition in any of the following areas:

development, transfer and acquisition of technology, knowledge, skills, capacity and expertise related to tobacco control? [Assistance provided]

Yes

development, transfer and acquisition of technology, knowledge, skills, capacity and expertise related to tobacco control? [Assistance received]

Yes

provision of technical, scientific, legal and other expertise to establish and strengthen national tobacco control strategies, plans and programmes? [Assistance provided]

No

provision of technical, scientific, legal and other expertise to establish and strengthen national tobacco control strategies, plans and programmes? [Assistance received]

Yes

appropriate training or sensitization programmes for appropriate personnel in accordance with Article 12? [Assistance provided]

No

appropriate training or sensitization programmes for appropriate personnel in accordance with Article 12? [Assistance received]

Yes

provision of the necessary material, equipment and supplies, as well as logistic support, for tobacco control strategies, plans and programmes? [Assistance provided]

Yes

provision of the necessary material, equipment and supplies, as well as logistic support, for tobacco control strategies, plans and programmes? [Assistance received]

Yes

identification of methods for tobacco control, including comprehensive treatment of nicotine addiction? [Assistance provided]

No

identification of methods for tobacco control, including comprehensive treatment of nicotine addiction? [Assistance received]

Yes

promotion of research to increase the affordability of comprehensive treatment of nicotine addiction? [Assistance provided]

No

promotion of research to increase the affordability of comprehensive treatment of nicotine addiction? [Assistance received]

No

Please identify the Party or Parties from which assistance was received or to which assistance was provided.

Kiribati, Malaysia, Singapore, Thailand, Indonesia, WHO (WPRO), Korea, Australia.

Please provide information about any assistance provided or received in the space below.

SEATCA - Provided funding to attend related training workshops; provided advice on some aspects of tobacco control programme in Brunei; compiled information from Brunei for the publication of ASEAN Tobacco Control Report.

Kiribati - provided permission to use the PHW available in WHO database.

Workshop for the development of National Action Plan on Tobacco Control, facilitated by Dr. Susan Mercado.

Malaysia – Assistance for the commencement of the smoking cessation programme and operational issues, provided information requested by Malaysia.

Singapore – Assistance in drafting the current tobacco control legislation and operational issues, assistance in obtaining images for the next rotation of PHWs.

Thailand – Assistance in obtaining images for the next rotation of PHWs.

Indonesia – Shared experience of implementing PHWs.

WHO WPRO – i) Assistance in developing the National Tobacco Control Action Plan. ii) Information and advisories on the use of ENDS iii) Brunei Darussalam hosted the “WHO Meeting on Generic Packaging of Tobacco Products” from 10-11 January 2012.

Australia – Assisting in the establishment of Quitline.

Korea - Assisting in the establishment of Quitline.

If you have not received or provided assistance in any of the aforementioned areas, please identify any financial or technical assistance that may be under consideration, if appropriate.

Have you encouraged relevant regional and international intergovernmental organizations and financial and development institutions in which you are represented to provide financial assistance for developing country Parties and for Parties with economies in transition to assist them in meeting their obligations under the Convention?

No

Please provide details in the space below.

E. PRIORITIES AND COMMENTS

What are the priorities for implementation of the WHO Framework Convention on Tobacco Control in your jurisdiction?

1. Packaging and labelling of tobacco products
2. Protection from exposure to tobacco smoke
3. Sales to and by minors
4. Education, communication, training and public awareness
5. Tobacco dependence treatment
6. Illicit trade in tobacco products
7. Revision of Tobacco Order 2005 and its regulations (amendments) 2012.

Have you identified any specific gaps between the resources available and the needs assessed for implementing the WHO Framework Convention on Tobacco Control?

Yes

Please provide details in the space below.

1. Lack of resources/ competing resources (particularly expertise/manpower in conducting programmes & activities; manpower and technology in conducting enforcement, particularly cross-border issues; as well as in conducting surveillance/research activities).
2. Tobacco control is seen as a lower-priority issue by some non-health agencies.

What, if any, are the constraints or barriers, other than lack of resources, you have encountered in implementing the Convention?

The fact that tobacco products have not been imported nor sold formally in the country since end of 2014 makes it a bit challenging in moving some of the agenda forward. Also, the fact there are now many different types of tobacco products, such as e-cigarettes, heat-not-burn cigarettes etc, being developed at a fast rate & which have controversial findings that makes it difficult to sometimes explain to the public in a simple way as well as to include these within the local Tobacco Control Order and Regulations.

Do you have any of the following products available on your national tobacco market? [smokeless tobacco products]

No

Do you have any of the following products available on your national tobacco market? [water pipe tobacco]

Yes

Do you have any of the following products available on your national tobacco market? [ENDS/ENNDS]

Yes

Do you have any of the following products available on your national tobacco market? [Other]

Have you adopted and implemented any policy or regulation that is specific to the following tobacco products? [smokeless tobacco products]

No

Have you adopted and implemented any policy or regulation that is specific to the following tobacco products? [water pipe tobacco]

No

Have you adopted and implemented any policy or regulation that is specific to the following tobacco products? [ENDS/ENNDS]

No

Have you adopted and implemented any policy or regulation that is specific to the following tobacco products? [Other]

If you have any relevant information related to questions E5 and E6, please provide details in the space below.

ENDS currently falls under Section 6: Prohibition of sale of imitation tobacco products.

Smokeless tobacco products and waterpipe are included as tobacco products thus covered by the Tobacco Order 2005.

Amendments to the Order are currently being reviewed to include specific mention of these types of tobacco products.

Please provide any other relevant information not covered elsewhere that you consider important.

Brunei Darussalam is a very small country of 5765 sq km with a population of about 393, 372. Brunei Darussalam is not a tobacco grower or manufacturer and all tobacco products sold in the country are imported. After May 2014, there was no licensed tobacco importer.

Your suggestions for further development and revision of the reporting instrument:
