A. ORIGIN OF THE REPORT

A1. Name of contracting Party: {TOKEN:ATTRIBUTE_1}
A2. Information on national contact responsible for preparation of the report:
A2a. Title
Mr
A2a[other]. Title [Other]
A2b. Family name
Saunders
A2c. First name
Nicolas
A2d. Full name of institution
Policy Analyst, Tobacco Control Directorate, Health Canada
A2e[A122]. Mailing address [Mailing address 1]
150 Tunneys Pasture
A2e[A123]. Mailing address [Mailing address 2]
Locator 0301A
A2e[A124]. Mailing address [Post code]
K1A0K9
A2e[A125]. Mailing address [Post box]

A2e[A126]. Mailing address [City]	Ottawa, Ontario
A2f. Country	Canada
A2g. E-mail	nicolas.saunders@canada.ca
A2h. Alternative email address	
A2i. Telephone number	613-415-7912
A2j. Fax number	613-946-6460
A3. Signature of government official submitting the report:	
A3a. Title	Mr
A3a[other]. Title [Other]	
A3b. Family name	Van Loon
A3c. First name	James
A3d. Full name of institution	Director General, Tobacco Control Directorate, Health Canada
A3e[A122]. Mailing address [Mailing address 1]	150 Tunneys Pasture
A3e[A123]. Mailing address [Mailing address 2]	Locator 0301A
A3e[A124]. Mailing address [Post code]	
A3e[A125]. Mailing address [Post box]	KIA 0K9
A3e[A126]. Mailing address [City]	Ottawa, Ontario
A3f. Country	Canada

B1. TOBACCO CONSUMPTION

B1. Prevalence of tobacco use
B11. Smoking prevalence in the adult population (all) (Please provide prevalence data for total adult population, and identify the age considered, e.g. 15 years old and over, 18-64 years; see B112)
B11A[1_SQ001]. Current smokers [MALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
15.6
B11A[1_SQ002]. Current smokers [MALE][Average number of the most-consumed smoking tobacco product used per day]
B11A[2_SQ001]. Current smokers [FEMALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
10.4
B11A[2_SQ002]. Current smokers [FEMALE][Average number of the most-consumed smoking tobacco product used per day]
B11A[3_SQ001]. Current smokers [TOTAL (males and females)][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
13.0
B11A[3_SQ002]. Current smokers [TOTAL (males and females)][Average number of the most-consumed smoking tobacco product used per day]
B11B[1_SQ001]. Daily smokers [MALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
10.9
B11B[1_SQ002]. Daily smokers [MALE][Average number of the most-consumed smoking tobacco product used per day]
15.2
B11B[2_SQ001]. Daily smokers [FEMALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
7.9
B11B[2_SQ002]. Daily smokers [FEMALE][Average number of the most-consumed smoking tobacco product used per day]
11.9

B11B[3_SQ001]. Daily smokers [TOTAL (males and females)][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
9.4
B11B[3_SQ002]. Daily smokers [TOTAL (males and females)][Average number of the most-consumed smoking tobacco product used per day]
13.8
B11C[1_SQ001]. Occasional smokers [MALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
4.8
B11C[2_SQ001]. Occasional smokers [FEMALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
2.5
B11C[3_SQ001]. Occasional smokers [TOTAL (males and females)][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
3.7
B11D[1_SQ001]. Former smokers [MALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
30.1
B11D[2_SQ001]. Former smokers [FEMALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
24.4
B11D[3_SQ001]. Former smokers [TOTAL (males and females)][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
27.2
B11E[1_SQ001]. Never smokers [MALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
54.2
B11E[2_SQ001]. Never smokers [FEMALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
65.2
B11E[3_SQ001]. Never smokers [TOTAL (males and females)][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
59.8
B111. Please indicate the smoking tobacco products included in calculating prevalence for question B11:
Cigarettes
B112[1_SQ001]. Please indicate the age range to which the data used to answer question B11 refer: [Age range][From]
15
B112[1_SQ002]. Please indicate the age range to which the data used to answer question B11 refer: [Age range][To]
100
B113A. Please indicate the year of the data used to answer question B11:
2015
B113B. Please indicate the source of the data used to answer question B11:
Canadian Tobacco, Alcohol and Drugs Survey (CTADS) 2015 English - https://www.canada.ca/en/health-canada/services/canadian-tobacco-alcohol-drugs-survey/2015-summary.html
B114[SQ001]. Please provide the definitions of "current smoker", "daily smoker", "occasional smoker", "former smoker" and "never smoker" used in this report. [Current smoker]
Current smoker: includes daily smokers and occasional smokers. Determined from the response to the question "At the present time do you smoke cigarettes every day, occasionally, or not at all?"
B114[SQ002]. Please provide the definitions of "current smoker", "daily smoker", "occasional smoker", "former smoker" and "never smoker" used in this report. [Daily smoker]
Daily smoker: refers to those who respond "Every day" to the question "At the present time do you smoke cigarettes every day, occasionally or not at all?"

B114[SQ003]. Please provide the definitions of “current smoker”, “daily smoker”, “occasional smoker”, “former smoker” and “never smoker” used in this report. [Occasional smoker]

Occasional smoker: refers to those who respond "Occasionally" to the question "At the present time do you smoke cigarettes every day, occasionally or not at all?"

B114[SQ004]. Please provide the definitions of “current smoker”, “daily smoker”, “occasional smoker”, “former smoker” and “never smoker” used in this report. [Former smoker]

Former smoker: was not smoking at the time of the interview, however, answered "YES" to the question "Have you smoked at least 100 cigarettes in your life?"

B114[SQ005]. Please provide the definitions of “current smoker”, “daily smoker”, “occasional smoker”, “former smoker” and “never smoker” used in this report. [Never smoker]

Never smoker: was not smoking at the time of the interview and answered "NO" to the question "Have you smoked at least 100 cigarettes in your life?"

B115. Please provide a brief explanation of the trend in smoking prevalence in the adult population in the past two years or since submission of your last report.

Overall smoking prevalence has declined since 1999. The prevalence of current cigarette smoking in 2015 was 13% (3.9 million smokers), a decrease from 15% (4.2 million smokers) in 2013 and the lowest national smoking rate ever recorded.

B12[B12a_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]

25

B12[B12a_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - end age]

34

B12[B12a_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

19

B12[B12b_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]

35

B12[B12b_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - end age]

44

B12[B12b_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

20

B12[B12c_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]

45

B12[B12c_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - end age]

54

B12[B12c_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

14

B12[B12d_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]

55

B12[B12d_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - end age]

64

B12[B12d_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

14

B12[B12e_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]

65

B12[B12e_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - end age]

100

B12[B12e_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

10

B12[B12ee_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]

B12[B12ee_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - end age]

B12[B12ee_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B12[B12eee_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]

B12[B12eee_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - end age]

B12[B12eee_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B12[B12eeee_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]

B12[B12eeee_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - end age]
B12[B12eeee_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
B12[B12f_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]
25
B12[B12f_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]
34
B12[B12f_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
10
B12[B12g_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]
35
B12[B12g_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]
44
B12[B12g_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
11
B12[B12h_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]
45
B12[B12h_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]
54
B12[B12h_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
12
B12[B12i_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]
55
B12[B12i_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]
64

B12[B12o_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - end age]

100

B12[B12o_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

7

B12[B12oo_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - start age]

B12[B12oo_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - end age]

B12[B12oo_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B12[B12ooo_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - start age]

B12[B12ooo_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - end age]

B12[B12ooo_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B12[B12oooo_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - start age]

B12[B12oooo_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - end age]

B12[B12oooo_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B121. Please indicate the smoking tobacco products included in calculating prevalence for question B12:

Cigarettes

B122A. Please indicate the year of the data used to answer question B12:

2015

B122B. Please indicate the source of the data used to answer question B12:

Canadian Tobacco, Alcohol and Drugs Survey (CTADS) 2015 English - <https://www.canada.ca/en/health-canada/services/canadian-tobacco-alcohol-drugs-survey/2015-summary.html>

B123. Please provide a brief explanation of the trend in current smoking prevalence by age group in the past two years or since submission of your last report, if data are available.

Overall, smoking prevalence has generally followed a downward trend across all age groups since 1999. Current smoking among females aged 35-44 years was statistically significantly lower in 2015 (11.1) compared to 2013 (18.1).

B13. Prevalence of smokeless tobacco use in the adult population (all) (Please provide prevalence data for total adult population, and identify the age considered in B132, e.g. 15 years old and over, 18–64 years; see B132)

B13A[1_B13x1]. Males [Current users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

0.8

B13A[2_B13x1]. Males [Daily users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13A[3_B13x1]. Males [Occasional users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13A[4_B13x1]. Males [Former users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13A[5_B13x1]. Males [Never users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13B[1_B13x1]. Females [Current users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13B[2_B13x1]. Females [Daily users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13B[3_B13x1]. Females [Occasional users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13B[4_B13x1]. Females [Former users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13B[5_B13x1]. Females [Never users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13C[1_B13x1]. TOTAL (males and females) [Current users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

0.4

B13C[2_B13x1]. TOTAL (males and females) [Daily users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13C[3_B13x1]. TOTAL (males and females) [Occasional users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13C[4_B13x1]. TOTAL (males and females) [Former users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13C[5_B13x1]. TOTAL (males and females) [Never users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B131. Please indicate the smokeless tobacco products included in calculating prevalence for question B13:

Chewing tobacco, pinch, snuff.

(Results for females are unreleasable due to low sample size).

B132[1_SQ001]. Please indicate the age range to which the data used to answer question B13 refer: [Age range][From]

15

B132[1_SQ002]. Please indicate the age range to which the data used to answer question B13 refer: [Age range][To]
100

B133A. Please indicate the year of the data used to answer question B13:
2015

B133B. Please indicate the source of the data used to answer question B13:
Canadian Tobacco, Alcohol and Drugs Survey (CTADS) 2015 English - <https://www.canada.ca/en/health-canada/services/canadian-tobacco-alcohol-drugs-survey/2015-summary.html>

B134[SQ001]. Please provide the definitions of "current user", "daily user", "occasional user", "former user" and "never user" (of smokeless tobacco products) used in this report in the space below. [Current user]
"Current user": used chewing tobacco, pinch, snuff in the past 30 days

B134[SQ002]. Please provide the definitions of "current user", "daily user", "occasional user", "former user" and "never user" (of smokeless tobacco products) used in this report in the space below. [Daily user]

B134[SQ003]. Please provide the definitions of "current user", "daily user", "occasional user", "former user" and "never user" (of smokeless tobacco products) used in this report in the space below. [Occasional user]

B134[SQ004]. Please provide the definitions of "current user", "daily user", "occasional user", "former user" and "never user" (of smokeless tobacco products) used in this report in the space below. [Former user]

B134[SQ005]. Please provide the definitions of "current user", "daily user", "occasional user", "former user" and "never user" (of smokeless tobacco products) used in this report in the space below. [Never user]

B135. Please provide a brief explanation of the trend in smokeless tobacco use in the adult population in the past two years or since submission of your last report.
Overall use of smokeless tobacco remains very low - less than 1% of the adult population (age 15+), unchanged from 2013.

B14[B12a_B12x1]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Range - start age]
15

B14[B12a_B12x3]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Range - end age]
24

B14[B12a_B12x2]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
3

B14[B12b_B12x1]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Range - start age]

B14[B12b_B12x3]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Range - end age]

B14[B12b_B12x2]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B14[B12jjj_B12x1]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers2][Range - start age]

B14[B12jjj_B12x3]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers2][Range - end age]

B14[B12jjj_B12x2]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers2][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B14[B12jjj_B12x1]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers2][Range - start age]

B14[B12jjj_B12x3]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers2][Range - end age]

B14[B12jjj_B12x2]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers2][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B14[B12k_B12x1]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers2][Range - start age]

15

B14[B12k_B12x3]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers2][Range - end age]

24

B14[B12k_B12x2]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers2][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

1

B14[B12l_B12x1]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers2][Range - start age]

B14[B12l_B12x3]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers2][Range - end age]

B14[B12l_B12x2]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers2][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B14[B12000_B12x1]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers2][Range - start age]

B14[B12000_B12x3]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers2][Range - end age]

B14[B12000_B12x2]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers2][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B14[B120000_B12x1]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers2][Range - start age]

B14[B120000_B12x3]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers2][Range - end age]

B14[B120000_B12x2]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers2][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B141. Please indicate the smokeless tobacco products included in the answer to question B14:

Chewing tobacco, pinch, snuff.

(Results for age 25+ and females are unreleasable due to low sample size).

B142A. Please indicate the year of the data used to answer question B14:

2015

B142B. Please indicate the source of the data used to answer question B14:

Canadian Tobacco, Alcohol and Drugs Survey (CTADS) 2015 English - <https://www.canada.ca/en/health-canada/services/canadian-tobacco-alcohol-drugs-survey/2015-summary.html>

B143. Please provide a brief explanation of the trend in current use of smokeless tobacco by adult age groups in the past two years or since submission of your last report.

Overall use of smokeless tobacco remains very low in both males and females aged 15-24. Since 2008 the prevalence has remained steady since Group Two reporting in this age group (i.e. no statistically significant changes).

B15[B15a_B15x1]. Tobacco use by ethnic group(s) (please include all smoking or smokeless tobacco products in prevalence data) [Current users 3][Ethnic group(s)]

B15[B15a_B15x2]. Tobacco use by ethnic group(s) (please include all smoking or smokeless tobacco products in prevalence data) [Current users 3][MALES - Prevalence (%)]

B15[B15a_B15x3]. Tobacco use by ethnic group(s) (please include all smoking or smokeless tobacco products in prevalence data) [Current users 3][FEMALES - Prevalence (%)]

B15[B15a_B15x4]. Tobacco use by ethnic group(s) (please include all smoking or smokeless tobacco products in prevalence data) [Current users 3][TOTAL (males and females) - Prevalence (%)]

B161. Please indicate the tobacco products included in calculating prevalence for question B16:
Smoking tobacco products include cigarettes, pipes, little cigars, cigars, roll your own cigarettes, bidis, water-pipe to smoke sheesha, and blunt wraps.
Smokeless tobacco includes chewing tobacco, pinch, snuff or snus.
Other tobacco includes water-pipe (hookah) to smoke sheesha.

B162A. Please indicate the year of the data used to answer question B16:
2015

B162B. Please indicate the source of the data used to answer question B16:

Canadian Student Tobacco, Alcohol and Drugs Survey (CSTADS) 2014-15 English - <https://www.canada.ca/en/health-canada/services/canadian-student-tobacco-alcohol-drugs-survey/2014-2015-summary.html>

B163. Please provide the definition of “current smoking/tobacco use” used to answer question B16 in the space below.

For all tobacco products, current use has been defined as past 30 day use.

B164. Please provide a brief explanation of the trend in tobacco use by young persons in the past two years or since submission of your last report.

In Canada, the prevalence of current cigarette smoking has decreased statistically significantly among youth since 1994. In 2014-2015, 3.4% of students in grades 6 to 12 were current cigarette smokers, with 1.6% smoking daily and 1.9% smoking occasionally. The prevalence of current cigarette smoking (3.4%) among students in grades 6 to 12 decreased compared to 2012-2013 (4.5%).

In grades 6 to 12, the prevalence of past-30-day tobacco smoking (i.e. any smoked tobacco product) among males (11.2%) is statistically significantly greater than that of females (8.4%) (Table B16).

The prevalence of past 30 days smokeless tobacco use remains unchanged for both males (3.0%) and females (0.6%) (Table B16).

Among youth in grades 6 to 12, 3.8% reported past 30 day waterpipe use to smoke tobacco or herbal, unchanged from 2012-2013 (3.4%).

Note: Current cigarette smoker is defined as having smoked 100 cigarettes or more, and smoked in the last 30 days.

B4. Tobacco-related costs
B41. Do you have information on the economic burden of tobacco use in your population, e.g. the overall cost of tobacco use imposed on your society?
Yes
B42. Please provide details (e.g. direct (health care-related) and indirect costs and, if possible, the method used to estimate these costs).
The total costs of tobacco use in Canada were \$16.2 billion, with indirect costs accounting for \$9.5 billion, direct health care costs accounting for \$6.5 billion, and other direct costs responsible for the remainder. In estimating the smoking-specific direct health care costs, the study used a prevalence-based epidemiological approach. Direct costs were obtained from the Economic Burden of Illness in Canada (EBIC). For indirect costs, the report used a human capital approach to estimate lost production as a result of short- and long-term disability and premature mortality. http://www.conferenceboard.ca/e-library/abstract.aspx?did=9185

B62. Do you have any information on the percentage of illicit tobacco products on the national tobacco market?
No

B63. What percentage of the national tobacco market do illicit tobacco products constitute? (%)

B64. What is the trend over the past two years or since submission of your last report in the percentage of illicit tobacco products in relation to the national tobacco market?

B65. Please provide any further information on illicit tobacco products.
The Canada Border Services Agency (CBSA) and the Royal Canadian Mounted Police (RCMP) have shared responsibility for the surveillance, monitoring and enforcement of illicit tobacco activity along Canada's border and between ports of entry. The CBSA exercises its responsibilities at all ports of entry across Canada, while the RCMP is responsible for illicit tobacco activity between the ports of entry and domestically.

B66. Please indicate the source of the data used to answer questions in section B6:
Data was provided by CBSA and RCMP. The RCMP data was drawn from the 2016 RCMP Federal Tobacco Control Strategy annual report.

B67. Please attach the relevant documentation.

B67[filecount]. filecount - Please attach the relevant documentation.

B7. Tobacco-growing

B71. Is there any tobacco-growing in your jurisdiction?
Yes

B72. Please provide information on the number of workers involved in tobacco-growing. If available, please provide this figure broken down by gender.
Statistics Canada does not collect information specifically on the number of workers involved in tobacco-growing.
Statistics Canada Census of Agriculture data indicates the number of tobacco farms in Canada in 2016 was 195. All of these farms were in the province of Ontario. This represents an increase of 38% from 2011 to 2016. It should be noted that the number of tobacco farms in 2011 had decreased 75% from the 565 tobacco farms in 2006 and decreased 87% from the 1082 tobacco farms reported in 2001. Tobacco farms represented 0.1% of the 193,492 total farms in Canada in 2016.
On January 1, 2015, the Ontario Ministry of Finance began its oversight of the raw leaf tobacco industry. In June 2017 they reported 219 licensed growers of tobacco in Ontario. This represents a decrease of 16% from the 260 reported in 2015.

B73. Please provide, if available, the share of the value of tobacco leaf production in the national gross domestic product.
According to the Ontario Ministry of Agriculture, Food and Rural Affairs, the total value of tobacco production in Ontario in 2014 was \$132,879,000. This represents 0.067% of Canada's GDP of \$CDN 1,990,183 million in 2014.

B74A. Please indicate the year of the data used to answer questions in section B7:
2017

B74B. Please indicate the source of the data used to answer questions in section B7:
Statistics Canada Table 004-0014 Census of Agriculture, farms classified by the North American Industry Classification System (NAICS) 2001, 2006, 2011, 2016 <http://www5.statcan.gc.ca/cansim/a26?lang=eng&id=40014> Ontario Ministry of Finance 2017 - <http://www.fin.gov.on.ca/en/tax/tt/rawleaf.html>; Ontario Ministry of Agriculture, Food and Rural Affairs 2013 <http://www.omafra.gov.on.ca/english/stats/crops/index.html> Statistics Canada, CANSIM Table 384-0038 Gross domestic product, expenditure-based - 2016 <http://www5.statcan.gc.ca/cansim/a46?lang=eng&childId=3840038&CORId=3764&viewId=3> <http://www.statcan.gc.ca/tables-tableaux/sum-som/l01/cst01/econ15-eng.htm>

B84. Please briefly describe the trends in taxation for tobacco products in the past two years or since submission of your last report in your jurisdiction.

Federal excise duty rates for tobacco products increased in March 2017. During this reporting period, the rate of GST was unchanged. Provincial/ territorial tobacco tax rates either increased or stayed the same.

Federal tobacco tax rates will be increased every five years – indexed to Canada’s Consumer Price Index, starting in 2019.

B85. Do you earmark any percentage of your taxation income for funding any national plan or strategy on tobacco control in your jurisdiction?

No

B86. Please provide details in the space below.

B87A. Please indicate the year of the data used to answer questions B81 to B86:

2017

B87B. Please indicate the source of the data used to answer questions B81 to B86:

AS AT DECEMBER 31, 2017: Federal/Provincial/Territorial Statutes and Regulations and other information are available on each government's website. Tobacco products are taxed by both federal and provincial/territorial governments in Canada. At the federal level, the Excise Act, 2001 imposes an excise duty on tobacco products manufactured in Canada at the time manufacturers package them and on imported tobacco products at the time of importation. Structuring federal excise duty to apply at this early stage in the production and distribution process helps to protect the tobacco tax base. Following packaging or importation, the excise duty is embedded in the price of the product. Provincial/territorial tobacco taxes are consumption taxes that are imposed on the consumers who purchase tobacco products. The provinces/territories secure their tax base by requiring wholesalers to remit an amount equal to the tax when they supply the tobacco product to other dealers. The dealers then recover this amount from their customers when the tobacco products are sold. For tobacco products, the final consumer selling price includes the federal excise duty, provincial tobacco taxes, GST/HST or, where applicable, provincial sales taxes. Federal Excise Duties: Federal excise duties are applied on all tobacco products. Provincial/territorial tobacco taxes: Provincial/territorial tobacco tax rates are set by the respective province or territory. The provincial/territorial tobacco tax applies to tobacco products which are destined for sale in that particular jurisdiction. Value Added Tax: The Goods and Services Tax (GST) is levied on an ad valorem basis on most goods and services across Canada at the rate of 5%. Where a province/territory has chosen to harmonize its sales tax with the federal system, a Harmonized Sales Tax (HST) is levied on an ad valorem basis on most goods and services in that jurisdiction. Currently, HST may apply at 13% or 15%. Retail Sales Tax: A province/territory that has not harmonized with the federal value-added tax system may impose a retail sales tax on goods and services sold within its jurisdiction.

B92A. Please indicate the year of the data used to answer question B91:
2017
B92B. Please indicate the source of the data used to answer question B91:
2017 data sourced from The Nielsen Company of Canada, Health Canada tobacco industry reporting data, Health Canada store purchases
B93. Please briefly describe the trend in the prices of tobacco products in the past two years or since submission of your last report in your jurisdiction.
Overall tobacco prices have been increasing in Canada over the reporting period based on the fact that cigarettes make up 93% of the market (by value) and cigarette prices have been increasing. In the past two years cigarette prices have increased by 7%, smokeless tobacco prices have increased by 3% while cigar prices have remained steady. Tobacco prices have risen due to increases in several provincial excise tax rates as well as a strategy of increased pricing incorporated by the tobacco industry.
Note: With respect to the currency used to complete the "Rate or amount" section of question B83 and the "Retail price" section of question B91B, figures should be considered in light of CAD \$1 being US \$0.81 on January 5th, 2018.

C1. GENERAL OBLIGATIONS

C1. With reference to Article 5
C111. Have you developed and implemented comprehensive multisectoral national tobacco control strategies, plans and programmes in accordance with the Convention?
Yes
C112. Have you partially developed and implemented tobacco control strategies by including tobacco control in national health, public health or health promotion strategies, plans and programmes?
N/A
C113. Is any aspect of tobacco control that is referred to in the Convention included in any national strategy, plan or programme?
N/A
C114[C114a]. Have you established or reinforced and financed: [a focal point for tobacco control?]
Yes

C114[C114b]. Have you established or reinforced and financed: [a tobacco control unit?]

Yes

C114[C114c]. Have you established or reinforced and financed: [a national coordinating mechanism for tobacco control?]

Yes

C115. Please provide details (e.g. the nature of the national coordinating mechanism, the institution to which the focal point for tobacco control or the tobacco control unit belongs).

Canada's Federal Tobacco Control Strategy (FTCS) is led by Health Canada in partnership with Public Safety Canada, the Royal Canadian Mounted Police (RCMP), Canada Revenue Agency, Canada Border Services Agency, and the Public Health Agency of Canada.

Health Canada is responsible for administering and enforcing the Tobacco Act. This Act regulates the manufacture, sale, labelling and promotion of tobacco products. Health Canada also undertakes and promotes initiatives that reduce or prevent the negative health impacts associated with smoking. The FTCS is championed by the Tobacco Control Directorate (TCD) of the Healthy Environments and Consumer and Safety Branch within Health Canada.

The FTCS provides funding to the Canadian Revenue Agency, Canada Border Services Agency and the Royal Canadian Mounted Police to address illicit contraband tobacco and to ensure compliance with Canada's tobacco tax laws. Health Canada's demand reduction activities such as prevention and cessation initiatives complement the contraband control activities of these partners.

Canada places a strong emphasis on collaboration between the federal, provincial, territorial and municipal governments, as well as non-governmental organizations, tobacco control researchers, academics, and community organizations.

C116. Please provide a brief description of the progress made in implementing Article 5.1 and 5.2 (General obligations) in the past two years or since submission of your last report.

The Government of Canada addresses the public health issue of tobacco control through the Federal Tobacco Control Strategy (FTCS). Launched in 2001, the FTCS was designed as a comprehensive, integrated and sustained approach to achieving reductions in tobacco use.

The Government of Canada renewed the Federal Tobacco Control Strategy (FTCS) for five years in 2012.

The current phase of the FTCS has two objectives: to preserve the gains in tobacco control made since 2001 and to maintain the downward trend in smoking prevalence. Priorities include:

- supporting the pan-Canadian quitline and web portal to help inform Canadians about the availability of cessation services, and to support provinces and territories (P/Ts) in their efforts to provide cessation services;
- on-Reserve First Nations and Inuit tobacco control initiatives;
- marketing, awareness and outreach campaign to encourage cessation;
- introducing matched funding and pay-for-performance for chronic disease focused grants and contributions; and
- continuing coordination and support for Canada's membership in the World Health Organization's Framework Convention on Tobacco Control (WHO-FCTC).

The current phase of the FTCS expires on March 31, 2018. Public consultations on the future of tobacco control were carried out in 2017 and steps are underway to renew the strategy.

Canada has a comprehensive tobacco control environment with responsibilities shared by multiple levels of government. In addition to federal initiatives, all provinces and territories (P/Ts) currently have tobacco control legislation in place, some with restrictions beyond those found in the federal Tobacco Act. For example, a number of Canada's provinces and territories have enacted legislation addressing electronic cigarettes. Rules on smoke-free spaces are generally the responsibility of P/T and municipal governments, with the exception of federal workplaces and federally regulated spaces, such as banks and commercial aircraft.

All P/Ts also have extensive tobacco control strategies in place. P/T spending on tobacco control is estimated to represent more than half of the total tobacco control expenditure in Canada. P/T roles in tobacco control and health care service delivery will be taken into consideration in the development of the next phase of the FTCS.

Recent federal initiatives on tobacco:

The federal government has implemented nearly all of the available measures recognized by the WHO as good practices in tobacco control.

Recent federal initiatives include:

Flavouring additives

- In 2009, Canada became the first country in the world to ban the use of certain additives, including flavours like chocolate and bubble gum in cigarettes, little cigars and blunt wraps that were making these tobacco products more appealing to youth.
- The Schedule to the Tobacco Act was amended in 2009 to further restrict the use of flavouring additives in additional cigar types that appeal to youth. Building on changes that came into force in 2009 and 2015, which banned the use of certain additives, including flavours like chocolate and bubble gum to make them less attractive to youth, the Government of Canada finalized amendment to the Tobacco Act in 2017 to ban the use of menthol in cigarettes, blunt wraps and most cigars sold on the Canadian market.

Graphic health warnings

- In 2000, Canada became the first country in the world to require pictorial health warnings on tobacco packages. In 2011, Health Canada increased the size of the graphic health warning messages from 50% to 75% of the front and back of cigarette and little cigar packages. The messages also include the toll-free pan-Canadian quitline number and web address to inform smokers about the availability of cessation services.
- Regulations to introduce a new rotation of graphic health warning messages are under development.

Advertising prohibitions:

- The advertising of tobacco products has been further restricted by prohibiting advertising in Canadian publications that are typically viewed by young persons. Provinces and territories have also taken action to ban tobacco retail displays. In the province of Quebec, in November, 2015, royal assent was granted for Bill n° 44 : An Act to bolster tobacco control. This act introduced restrictions unique to Quebec regarding the advertising of tobacco products by tobacco manufacturers/importers/wholesalers directed at retailers.

Increased outreach as part of the 2012-2017 FTCS renewal:

- [?] A marketing, awareness, and outreach campaign has been implemented with a focus on encouraging cessation behaviour for young adult smokers (\$4.8M over five years).

Contraband tobacco

- [?] A new Criminal Code offence with mandatory penalties of imprisonment for repeat offenders was created in 2014 to combat the trafficking and cross-border smuggling of contraband tobacco. These illegal, lower-priced cigarettes fund criminality and undermine tax and public health measures put in place to reduce tobacco use.

Plain Packaging

Canada is committed to introduce plain packaging requirements for tobacco products.

Health Canada undertook consultations in 2016 with partners and stakeholders, including provinces and territories, on the development of a proposal for plain packaging. A bill to enable plain and standardized packaging of tobacco products was introduced in parliament in November, 2016.

C117. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

Canada's NGO's play an important role in monitoring implementation of the FCTC in Canada. For instance, in October 2017, the Canadian Cancer Society released a report entitled "Overview Summary of Federal/Provincial/Territorial Tobacco Control Legislation in Canada". It can be found at http://convio.cancer.ca/documents/Legislative_Overview-Tobacco_Control-F-P-T-2017-final.pdf.

C12. Protection of public health policies with respect to tobacco control from commercial and other vested interests of the tobacco industry Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C121. protecting public health policies with respect to tobacco control from commercial and other vested interests of the tobacco industry?

Yes

C122. ensuring that the public has access, in accordance with Article 12(c), to a wide range of information on tobacco industry activities relevant to the objectives of the Convention, such as in a public repository?

Yes

C123. Please provide details in the space below.

Canada has reviewed the Article 5.3 Guidelines in relation to the Canadian policy, legal and constitutional context and has adopted administrative measures, such as Health Canada's policy of not partnering with the tobacco industry on tobacco control programming.

Lobbying at the federal level in Canada is regulated under the Lobbyist Registration Act. It is illegal for corporations of any kind to contribute to political campaigns for electoral purposes. Some provinces also regulate lobbying. Furthermore, the Lobbyist Registration Act introduced a requirement that consultant lobbyists (ie: tobacco related activities) file a return with the Commissioner of Lobbying if they communicate with a designated public office holder under certain conditions. This registry can be searched by anyone through a publicly-accessible website.

Health Canada continues to discuss the Article 5.3 Guidelines with its federal partner departments and with relevant departments of provincial/territorial governments who are collaborators in the Federal Tobacco Control Strategy (FTCS). Generally, in Canada the primary channels of communication between governments and the tobacco industry are limited to (i) technical discussions in regard to both health and tax-related regulations and (ii) litigation-related responses.

In Canada, many aspects of the tobacco industry's health policy, business and promotional activities are matters of public record. In addition, civil society organizations keep close track of tobacco industry activities and maintain web sites, publications etc. for this and related purposes. The tobacco industry must report to government on its research and promotional activities pursuant to Tobacco Reporting Regulations of the Tobacco Act. Public access to information about the tobacco industry which is reported to the government pursuant to these Regulations is governed by the Canadian Charter of Rights and Freedoms, Access to Information & Privacy Act, and the common law as it relates to confidential business information.

C124. Please provide a brief description of the progress made in implementing Article 5.3 in the past two years or since submission of your last report.

Canada continues to review the provisions of Article 5.3 of the FCTC in a Canadian context and has taken steps to inform other federal government departments of the commitment. Canada continues to work with sub-national levels of government to ensure that they are aware of Article 5.3. Canada's civil society also engages in monitoring and putting forward policies and recommendations that are useful in both federal and sub-national tobacco control activities. In Alberta, in 2017, staff in the Ministry of Health were directed that any and all interaction with the tobacco industry must comply with Article 5.3. Interaction with industry is limited only to those meetings that are absolutely necessary to regulate the industry.

Health Canada recognizes the importance of Article 5.3 and, as such, now requires participants in consultation processes to declare perceived or actual conflicts of interest in making their submissions.

C125. Have you utilized the "Guidelines for implementation of Article 5.3 of the WHO FCTC" when developing or implementing policies in this area?

No

C126. Please provide details in the space below or refer to section I of the additional questionnaire. Response to this question or to the additional questionnaire is voluntary. <https://extranet.who.int/dataform/655321?token={TOKEN}&=en>

C127. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

C2. MEASURES RELATING TO THE REDUCTION OF DEMAND FOR TOBACCO

C2. With reference to Articles 6–14

C21. Price and tax measures to reduce the demand for tobacco Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C211. tax policies and, where appropriate, price policies on tobacco products so as to contribute to the health objectives aimed at reducing tobacco consumption?

Yes

C212. prohibiting or restricting, as appropriate, sales to international travellers of tax- and duty-free tobacco products?

Yes

C213. prohibiting or restricting, as appropriate, imports by international travellers of tax- and duty-free tobacco products?

Yes

C214. Please provide a brief description of the progress made in implementing Article 6 (Price and tax measures to reduce the demand for tobacco) in the past two years or since submission of your last report.

Canada was in compliance with Article 6 at the time of ratification. Canada's sub national authorities maintain price and tax measures within their respective jurisdictions and make progress in implementing Article 6.

Canada adjusted the excise duty on cigarettes and other tobacco products in 2014 to account for inflation since 2002. Rates increased from \$0.425 per 5 cigarettes to \$0.52575 per 5 cigarettes, resulting in an increase of \$4.03 per carton of 200 cigarettes. Since the last submission, federal excise duty rates on tobacco products increased in March 2017 (e.g., by \$0.53 per carton of 200 cigarettes) and February 2018 (e.g., by \$2.29 per carton of 200 cigarettes). The March 2017 increase maintained the intended tax burden of the manufacturers' surtax on tobacco products following its repeal.

To ensure that they retain their real value in the future, federal excise duty rates are indexed to Canada's Consumer Price Index and will be automatically adjusted accordingly every five years, starting in 2019.

C215. Have you utilized the "Guidelines for implementation of Article 6 of the WHO FCTC" when developing or implementing policies in this area?

No

C216. Please provide details in the space below or refer to section H of the additional questionnaire. Response to this question or to the additional questionnaire is voluntary. <https://extranet.who.int/dataform/655321?token={TOKEN}&en>

C217. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

C218. Please attach the relevant documentation.

C22. Protection from exposure to tobacco smoke Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C221. banning tobacco smoking in indoor workplaces, public transport, indoor public places and, as appropriate, other public places ?

Yes

C222[1]. What is the type/nature of the measure providing for the ban? [national law]

Yes

C222[2]. What is the type/nature of the measure providing for the ban? [subnational law(s)]

Yes

C222[3]. What is the type/nature of the measure providing for the ban? [administrative and executive orders]

Yes

C222[4]. What is the type/nature of the measure providing for the ban? [voluntary agreements]

Yes

C222[5]. What is the type/nature of the measure providing for the ban? [other measures (please specify in C223 below)]

Yes

C223. Please provide a brief explanation of the type/nature and content of the measures providing for the ban.

Canada has comprehensive national and sub-national legislation protecting Canadians from exposure to tobacco smoke. Refer to the Canadian Cancer Society report entitled "Overview Summary of Federal/Provincial/Territorial Tobacco Control Legislation in Canada" (see http://convio.cancer.ca/documents/Legislative_Overview-Tobacco_Control-F-P-T-2017-final.pdf)

C224. Do any of these measures provide for a mechanism/ infrastructure for enforcement?

Yes

C225. Please provide details of this system.

National, sub-national and municipal legislation includes enforcement support. Annex B highlights the various mechanisms and infrastructure support.

C226a[1]. Please specify the settings and extent/comprehensiveness of measures applied in indoor workplaces, public transport, indoor public places and, as appropriate, other public places. Indoor workplaces: [government buildings]

Complete

C226a[2]. Please specify the settings and extent/comprehensiveness of measures applied in indoor workplaces, public transport, indoor public places and, as appropriate, other public places. Indoor workplaces: [health-care facilities]

Complete

C226a[3]. Please specify the settings and extent/comprehensiveness of measures applied in indoor workplaces, public transport, indoor public places and, as appropriate, other public places. Indoor workplaces: [educational facilities⁶]

Complete

C226a[4]. Please specify the settings and extent/comprehensiveness of measures applied in indoor workplaces, public transport, indoor public places and, as appropriate, other public places. Indoor workplaces: [universities]

Complete

C226a[5]. Please specify the settings and extent/comprehensiveness of measures applied in indoor workplaces, public transport, indoor public places and, as appropriate, other public places. Indoor workplaces: [private workplaces]

Complete

C226a[6]. Please specify the settings and extent/comprehensiveness of measures applied in indoor workplaces, public transport, indoor public places and, as appropriate, other public places. Indoor workplaces: [other (please specify below)]

Partial

C226aa. Please provide a brief explanation of any "other" policies in the space below

Designated smoking rooms (DSR) are permitted by a few sub-national jurisdictions in very limited circumstances (eg: in some cases on a compassionate basis) where traditional public spaces are deemed to be residential such as palliative care and addiction treatment facilities where residents have permanent or extended residence.)

C226b[1]. Please specify the settings and extent/comprehensiveness of measures applied in indoor workplaces, public transport, indoor public places and, as appropriate, other public places. Public transport: [airplanes]

Complete

C226b[2]. Please specify the settings and extent/comprehensiveness of measures applied in indoor workplaces, public transport, indoor public places and, as appropriate, other public places. Public transport: [trains]

Complete

C226b[3]. Please specify the settings and extent/comprehensiveness of measures applied in indoor workplaces, public transport, indoor public places and, as appropriate, other public places. Public transport: [ferries]

Complete

C226b[4]. Please specify the settings and extent/comprehensiveness of measures applied in indoor workplaces, public transport, indoor public places and, as appropriate, other public places. Public transport: [ground public transport (buses, trolleybuses, trams)]

Complete

C226b[5]. Please specify the settings and extent/comprehensiveness of measures applied in indoor workplaces, public transport, indoor public places and, as appropriate, other public places. Public transport: [motor vehicles used as places of work (taxis, ambulances, delivery vehicles)]

Complete

C226b[6]. Please specify the settings and extent/comprehensiveness of measures applied in indoor workplaces, public transport, indoor public places and, as appropriate, other public places. Public transport: [private vehicles]

C226b[7]. Please specify the settings and extent/comprehensiveness of measures applied in indoor workplaces, public transport, indoor public places and, as appropriate, other public places. Public transport: [other (please specify below)]

C226bb. Please provide a brief explanation of any "other" policies in the space below

C226c[1]. Please specify the settings and extent/comprehensiveness of measures applied in indoor workplaces, public transport, indoor public places and, as appropriate, other public places. Indoor public places: [cultural facilities]
Complete

C226c[2]. Please specify the settings and extent/comprehensiveness of measures applied in indoor workplaces, public transport, indoor public places and, as appropriate, other public places. Indoor public places: [shopping malls]
Complete

C226c[3]. Please specify the settings and extent/comprehensiveness of measures applied in indoor workplaces, public transport, indoor public places and, as appropriate, other public places. Indoor public places: [pubs and bars]
Complete

C226c[4]. Please specify the settings and extent/comprehensiveness of measures applied in indoor workplaces, public transport, indoor public places and, as appropriate, other public places. Indoor public places: [nightclubs]
Complete

C226c[5]. Please specify the settings and extent/comprehensiveness of measures applied in indoor workplaces, public transport, indoor public places and, as appropriate, other public places. Indoor public places: [restaurants]
Complete

C226c[6]. Please specify the settings and extent/comprehensiveness of measures applied in indoor workplaces, public transport, indoor public places and, as appropriate, other public places. Indoor public places: [other (please specify below)]
Partial

C226cc. Please provide a brief explanation of any "other" policies in the space below
Group living facilities and specified hotel rooms. Extensive regulations exist for ventilation and for resident use only.

C227. Please provide a brief summary of complete and partial measures, with specific details of the partial measures that have been implemented:

C227a. Banning tobacco smoking in indoor workplaces
Canada has comprehensive smoke-free legislation in public workplaces, primarily governed through sub-national jurisdictions. Recognizing that over 98% of indoor workplaces in Canada are smoke-free, there do exist, in a limited number of jurisdictions, provisions for tightly regulated designated smoking rooms in indoor workplaces.

C227b. Banning tobacco smoking in public transport
National and sub-national jurisdictions provide for complete smoking bans in public transportation. A number of jurisdictions have implemented smoking bans in private vehicles where children are present. (The majority of jurisdictions identify children as under 16.)

C227c. Banning tobacco smoking in indoor public places
Canada has virtually eliminated smoking in all indoor public places with the exception of group living facilities and specified hotel rooms. The number of designated smoking rooms has been drastically reduced.

C228. Please provide a brief description of the progress made in implementing Article 8 (Protection from exposure to tobacco smoke) in the past two years or since submission of your last report.
There have been extensive developments in implementing Article 8. Comprehensive smoke-free legislation has been passed in all sub-national jurisdictions and numerous municipalities in Canada have adopted bylaws or policies to prohibit smoking in public places such as patios, play grounds and parks.

For example, as of Nov. 26, 2017, all colleges (CEGEP), universities and hospitals in Quebec were required by provincial legislation to adopt a policy regarding smoking on their grounds. While they need not adopt a 100% smoke-free outdoor policy, at least one has opted to do so.

C229. Have you utilized the "Guidelines for implementation of Article 8 of the WHO FCTC" when developing or implementing policies in this area?
No

C2210. Please provide details in the space below or refer to section B of the additional questionnaire. Response to this question or to the additional questionnaire is voluntary. <https://extranet.who.int/dataform/655321?token={TOKEN}&en>

C2211. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

Manitoba became the first province to ban smoking on playgrounds and beaches of provincial parks as of July 2014.

The 2015 Ontario Budget committed to addressing contraband tobacco through a balanced approach of partnership and enforcement, including ensuring better coordination between inspections conducted by Public Health Units under the Smoke-Free Ontario Act and inspections conducted by the Ministry of Finance under the Tobacco Tax Act. Cross-designating tobacco inspectors under each Act would optimize the effectiveness of compliance efforts and enhance the oversight of tobacco retailers. The pilot planning launched in early 2016.

C23. Regulation of the contents of tobacco products Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C231. testing and measuring the contents of tobacco products?

Yes

C232. testing and measuring the emissions of tobacco products?

Yes

C233. regulating the contents of tobacco products?

Yes

C234. regulating the emissions of tobacco products?

No

C235. Please provide a brief description of the progress made in implementing Article 9 (Regulation of the contents of tobacco products) in the past two years or since submission of your last report.

Please refer to C238

C236. Have you utilized the "Guidelines for implementation of Articles 9 and 10 of the WHO FCTC" when developing or implementing policies in this area?

No

C237. Please provide details in the space below or refer to section C of the additional questionnaire. Response to this question or to the additional questionnaire is voluntary. <https://extranet.who.int/dataform/655321?token={TOKEN}<=en>

C238. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

In 2017, Canada amended the Tobacco Act to prohibit the use of menthol in cigarettes, blunt wraps and most cigars.

In 2015, Canada amended the Tobacco Act to prohibit the use of appealing additives including flavours in additional types of cigars (weighing more than 1.4 g but not more than 6 g and cigars with tipping paper or a wrapper with a straight seam). The amendment was in response to the introduction of new flavoured cigars to the Canadian market. Additives that impart a wine, port, whisky or rum flavours were exempted in certain cigars.

On May 31, 2015 Nova Scotia became the first jurisdiction in the world to implement legislation banning the sale of menthol flavoured tobacco as part of a broader flavoured tobacco ban. Many other provinces have since implemented bans on flavoured products.

In 2009, Canada amended its Tobacco Act to prohibit the use of additives in cigarettes, little cigars and blunt wraps that contribute to make these products more attractive to youth. The prohibited additives are listed in a Schedule annexed to the Act. This list includes most flavouring preparations, spices, seasonings and herbs, sugars and sweeteners, vitamins and mineral nutrients, fruits and vegetables, essential fatty acids, and other additives. Menthol additives were excluded from the list of prohibited additives.

In 2005, Canada enacted the Cigarette Ignition Propensity Regulations, to require all cigarettes manufactured or imported for sale in Canada have reduced their likelihood of igniting upholstered furniture, mattresses and bedding. As per the regulations cigarettes must meet a standard that they must burn their full length no more than 25% of the time when tested using ASTM International method E2187-04; Standard Test Method for Measuring the Ignition Strength of Cigarettes.

In 2000, Canada enacted the Tobacco Reporting Regulations that set out the requirements for the reporting of information on the sales, manufacturing processes, ingredients, toxic constituents, toxic emissions of tobacco products sold in Canada, as well as research activities and promotional activities undertaken by tobacco manufacturers and importers.

C239. Please attach the relevant documentation.

C239[filecount]. filecount - Please attach the relevant documentation.

C24. Regulation of tobacco product disclosures Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C241[1]. requiring manufacturers or importers of tobacco products to disclose to Government authorities information about the: [contents of tobacco products?]

Yes

C241[2]. requiring manufacturers or importers of tobacco products to disclose to Government authorities information about the: [emissions of tobacco products?]

Yes

C242[1]. requiring public disclosure of information about the: [contents of tobacco products?]

No

C242[2]. requiring public disclosure of information about the: [emissions of tobacco products?]

No

C243. Please provide a brief description of the progress made in implementing Article 10 (Regulation of tobacco product disclosures) in the past two years or since submission of your last report.

The Tobacco Reporting Regulations enacted in 2000 require that tobacco manufacturers report to the Government the content and emissions of consumer tobacco products sold in Canada.

Under the previous labelling requirements, the toxic emissions statements displayed numerical values for six toxic emissions (tar; nicotine; carbon monoxide; formaldehyde; hydrogen cyanide; and, benzene). Research conducted by Health Canada has shown that the numerical values were not clearly understood by some smokers and most had little idea what the range of numbers displayed for each chemical meant. The numerical values have been replaced by four text-based statements that provide clear, concise and easy to understand information about the toxic substances found in tobacco smoke.

C244. Have you utilized the "Guidelines for implementation of Articles 9 and 10 of the WHO FCTC" when developing or implementing policies in this area?

No

C245. Please provide details in the space below or refer to section C of the additional questionnaire. Response to this question or to the additional questionnaire is voluntary. <https://extranet.who.int/dataform/655321?token={TOKEN}<=en>

C246. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

C247. Please attach the relevant documentation.

[]

C247[filecount]. filecount - Please attach the relevant documentation.

0

C25. Packaging and labelling of tobacco products Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C251. requiring that packaging, individual cigarettes or other tobacco products do not carry advertising or promotion?

No

C252. requiring that packaging and labelling do not promote a product by any means that are false, misleading, deceptive or likely to create an erroneous impression about its characteristics, health effects, hazards or emissions?

Yes

C253. requiring that each unit packet and package of tobacco products and any outside packaging and labelling of such products carry health warnings describing the harmful effects of tobacco use?

Yes

C254. ensuring that the health warnings are approved by the competent national authority?

Yes

C255. ensuring that the health warnings are rotated?

Yes

C256. ensuring that the health warnings are clear, visible and legible?

Yes

C257. Does your law mandate, as a minimum, a style, size and colour of font to render the warning clear, visible and legible?

Yes

C258. ensuring that the health warnings occupy no less than 30% of the principal display areas?

Yes

C259. ensuring that the health warnings occupy 50% or more of the principal display areas?

Yes

C2510. ensuring that health warnings are in the form of, or include, pictures or pictograms?

Yes

C2511. Does the Government own the copyright to these pictures and pictograms?

Yes

C2512. Would you grant a non-exclusive and royalty-free licence for the use of health warnings developed in your jurisdiction with other Parties?

Yes

C2513[1]. requiring that each unit packet and package of tobacco products and any outside packaging and labelling of such products contain information on relevant: [constituents of tobacco products?]

Yes

C2513[2]. requiring that each unit packet and package of tobacco products and any outside packaging and labelling of such products contain information on relevant: [emissions of tobacco products?]

Yes

C2514. requiring that the warnings and other textual information appear on each unit packet and package and on any outside packaging and labelling in the principal language or languages of the country?
Yes

C2515. Please provide a brief description of the progress made in implementing Article 11 (Packaging and labelling of tobacco products) in the past two years or since submission of your last report.
The Tobacco Products Labelling Regulations (Cigarettes and Little Cigars) (TPLR-CLC) came into force in September 2011 and define new health-related labelling requirements for packages of cigarettes and little cigars intended for retail sale in Canada. The TPLR-CLC requires a health warning on at least 75% of the front and back panels, a qualitative toxic emissions statement on a side panel, and a health information message to be included either on the upper slide-flap, the exterior surface of the slide, or on a leaflet inserted in the package.
There are 16 different health warnings which are randomly available at point of sale locations. These will effectively rotate health warnings for cigarettes and little cigars.
Under the previous labelling requirements in the Tobacco Product Information Regulations, the toxic emissions statements displayed numerical values for six toxic emissions (tar, nicotine, carbon monoxide, formaldehyde, hydrogen cyanide and benzene). However, research conducted by Health Canada has shown that the numerical values were not clearly understood by some smokers and most had little idea what the range of numbers displayed for each chemical meant. Therefore, the numerical values have been replaced by four text-based statements that provide clear, concise and easy to understand information about the toxic substances found in tobacco smoke.

C2516. Have you utilized the "Guidelines for implementation of Article 11 of the WHO FCTC" when developing or implementing policies in this area?
No

C2517. Please provide details in the space below or refer to section D of the additional questionnaire. Response to this question or to the additional questionnaire is voluntary. <https://extranet.who.int/dataform/655321?token={TOKEN}&=en>

C2518. If you have any other relevant information pertaining to or not covered in this section, please provide details in the space below.
Canadas health warnings are displayed in full colour with English on one side of the package and French on the other.
Some products with a small market share, such as water-pipe tobacco, are not required to display a health warning, while the health warnings on some cigar and pipe packages may not occupy less than 30% of the main panels on occasions. Cigars sold individually are not required to display health warnings.
With respect to C2511, the Government owns the copyright for most, but not all, of the pictures used in the health warnings.

C2519. Please attach the relevant documentation.

C2519[filecount]. filecount - Please attach the relevant documentation.

Students, Tobacco Retailers

C268. Please provide a brief description of the progress made in implementing Article 12 (Education, communication, training and public awareness) in the past two years or since submission of your last report.

Reporting on activities prescribed in Section C26 presented challenges for Canada. Responsibility for education, communication, training and public awareness is shared between federal, provincial and territorial governments. While a number of activities have national application, there are some that are supported in select sub-national jurisdictions but not in others.

To accurately report activities under Article 12, Canada has responded in the affirmative in instances where activities take place. Activities that vary between sub-national jurisdictions are described in the following narrative.

In response to question C262 of those jurisdictions that responded:

- 42 % reported "Yes" for programs targeting men
- 45% reported "Yes" for programs targeting women
- 27% reported "Yes" for targeted programs for ethnic groups
- 45% reported "Yes" for programs targeted at pregnant women
- 92% reported "Yes" for programs targeted at children and young people
- 83% reported "Yes" for programs targeted at adults or the general public

In response to question C263 of those jurisdictions that responded:

- 33% reported "Yes" for delivering educational and public awareness programs by gender.
- 50% reported "Yes" based on cultural background.
- 92% reported "Yes" for programs targeted at children and young people
- 36% reported "Yes" based on educational background.
- 50% reported "Yes" based on socioeconomic status.

In response to question C265 of those who responded:

- 60% of respondents of the respondents indicated that they have participation of private organizations in the development and implementation of intersectoral programs and strategies for tobacco control.
- 92% of respondents indicated that they have participation of non-governmental organizations in the development and implementation of intersectoral programs and strategies for tobacco control.

In response to question C267 of those who responded,:

- 83% reported "Yes" for community workers.
- 42% reported "Yes" for social workers.
- 8% reported "Yes" for media.
- 75% reported "Yes" for educators.
- 50% reported "Yes" for decision makers.
- 42% reported "Yes" for administrators.
- 100% reported "Yes" for health care workers.
- 75% responded that training was offered to other groups such as students and tobacco retailers. For instance, the Province of Saskatchewan adapted the Health Canada Toolkit for Responsible Tobacco Retailers to reflect the Saskatchewan legislation and youth test shopping program.

In addition, the Province of Alberta reported that public awareness campaigns greatly increased utilization of provincial tobacco cessation services.

C269. Have you utilized the "Guidelines for implementation of Article 12 of the WHO FCTC" when developing and implementing policies in this area?

Yes

C2610. Please provide details in the space below or refer to section E of the additional questionnaire. Response to this question or to the additional questionnaire is voluntary. <https://extranet.who.int/dataform/655321?token={TOKEN}&=en>

The Province of Ontario introduced Tobacco and E-cigarette Protocols and Guidelines for Public Health Units as part of Standards for Public Health Programs and Services.

C27. Tobacco advertising, promotion and sponsorship Have you adopted and implemented, where appropriate, any legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes:

C271. instituting a comprehensive ban on all tobacco advertising, promotion and sponsorship?
No

C272[1]. Does your ban cover: [display and visibility of tobacco products at points of sales?]
N/A

C272[2]. Does your ban cover: [the domestic Internet?]
N/A

C272[3]. Does your ban cover: [the global Internet?]
N/A

C272[4]. Does your ban cover: [brand stretching and/or brand sharing?]
N/A

C272[5]. Does your ban cover: [product placement as a means of advertising or promotion?]
N/A

C272[6]. Does your ban cover: [the depiction of tobacco or tobacco use in entertainment media products?]
N/A

C272[7]. Does your ban cover: [tobacco sponsorship of international events or activities and/or participants therein?]
N/A

C272[8]. Does your ban cover: [contributions from tobacco companies to any other entity for "socially responsible causes" and/or any other activities implemented under the umbrella of "corporate social responsibility" by the tobacco industry?]
N/A

C272[9]. Does your ban cover: [cross-border advertising, promotion and sponsorship originating from your territory?]
N/A

C272[10]. Does your ban cover: [the same forms of cross-border advertising, promotion and sponsorship entering your territory for which domestic regulation apply?]
N/A

C273. are you precluded by your constitution or constitutional principles from undertaking a comprehensive ban on tobacco advertising, promotion and sponsorship?
Yes

C274. applying restrictions on all tobacco advertising, promotion and sponsorship?
Yes

C275. applying restrictions on cross-border advertising, promotion and sponsorship originating from your territory with cross-border effects?
No

C276. prohibiting those forms of tobacco advertising, promotion and sponsorship that promote a tobacco product by any means that are false, misleading, deceptive or likely to create an erroneous impression about its characteristics, health effects, hazards or emissions?
Yes

C277. requiring that health or other appropriate warnings or messages accompany all tobacco advertising, promotion and sponsorship?
No

C278. restricting the use of direct or indirect incentives that encourage the purchase of tobacco products by the public?
Yes

C279. requiring the disclosure to relevant Government authorities of expenditures by the tobacco industry on advertising, promotion and sponsorship not yet prohibited?
Yes

C2710[1]. restricting tobacco advertising, promotion and sponsorship on: [radio?]
Yes

C2710[2]. restricting tobacco advertising, promotion and sponsorship on: [television?]
Yes

C2710[3]. restricting tobacco advertising, promotion and sponsorship on: [print media?]
Yes

C2710[4]. restricting tobacco advertising, promotion and sponsorship on: [the domestic Internet?]
Yes

C2710[5]. restricting tobacco advertising, promotion and sponsorship on: [the global Internet?]
Yes

C2710[6]. restricting tobacco advertising, promotion and sponsorship on: [other media (please specify below)?]
Yes

C2710[other]. restricting tobacco advertising, promotion and sponsorship on: [Other]
Signs in adult only locations and publications provided by mail to a named adult.

C2711[1]. restricting tobacco sponsorship of: [international events and activities?]
Yes

C2711[2]. restricting tobacco sponsorship of: [participants therein?]
Yes

C2712. cooperating with other Parties in the development of technologies and other means necessary to facilitate the elimination of cross-border advertising?
No

C2713. imposing penalties for cross-border advertising equal to those applicable to domestic advertising, promotion and sponsorship originating from your territory in accordance with national law?
No

C2714. Please provide a brief description of the progress made in implementing Article 13 (Tobacco advertising, promotion and sponsorship) in the past two years or since submission of your last report.

C2715. Have you utilized the "Guidelines for implementation of Article 13 of the WHO FCTC" when developing and implementing policies in this area?
No

C2716. Please provide details in the space below or refer to section F of the additional questionnaire. Response to this question or to the additional questionnaire is voluntary. https://extranet.who.int/dataform/655321?token={TOKEN}&_en

C2717. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.
The promotion of tobacco products in Canada is prohibited except as authorized by the Tobacco Act and its regulations. For example, tobacco products advertising is restricted to informative and brand-preference advertising on signs in adult-only locations such as in nightclubs, and in publications that are provided by mail and addressed to named adults. Furthermore, Canada has legislated a prohibition of lifestyle tobacco products advertising, including a total ban on sponsorship promotion by way of tobacco product-related brand names and manufacturers names.
The Promotion of Tobacco Products and Accessories Regulations (Prohibited Terms) came into force on September 22, 2011. They prohibit the use of the terms "light" and "mild", and variations thereof, on various tobacco products, their packaging, promotions, retail displays, as well as on tobacco accessories. These regulations apply to cigarettes, little cigars, cigarette tobacco, kreteks, bidis, tobacco sticks, cigarette papers, cigarette tubes and filters.

C28. Demand reduction measures concerning tobacco dependence and cessation Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C281. developing and disseminating appropriate, comprehensive and integrated guidelines based on scientific evidence and best practices?
Yes

C282[1]. programmes to promote cessation of tobacco use, including: [media campaigns emphasizing the importance of quitting?]
Yes

C282[2]. programmes to promote cessation of tobacco use, including: [programmes specially designed for underage girls and young women?]
Yes

C282[3]. programmes to promote cessation of tobacco use, including: [programmes specially designed for women?]
Yes

C282[4]. programmes to promote cessation of tobacco use, including: [programmes specially designed for pregnant women?]
Yes

C282[5]. programmes to promote cessation of tobacco use, including: [telephone quitlines?]
Yes

C282[6]. programmes to promote cessation of tobacco use, including: [local events, such as activities related to World No Tobacco Day or National No Smoking Day, if appropriate?]
Yes

C282[7]. programmes to promote cessation of tobacco use, including: [other (please specify)?]
Yes

C282[other]. programmes to promote cessation of tobacco use, including: [Other]
In the Province of Québec, awareness programming about the synergistic effects of radon and tobacco smoking.

C283[1]. design and implementation of programmes aimed at promoting the cessation of tobacco use, in such locations as: [educational institutions?]
Yes

C283[2]. design and implementation of programmes aimed at promoting the cessation of tobacco use, in such locations as: [health-care facilities?]
Yes

C283[3]. design and implementation of programmes aimed at promoting the cessation of tobacco use, in such locations as: [workplaces?]
Yes

C283[4]. design and implementation of programmes aimed at promoting the cessation of tobacco use, in such locations as: [sporting environments?]
Yes

C283[5]. design and implementation of programmes aimed at promoting the cessation of tobacco use, in such locations as: [other (please specify)?]
Yes

C283[other]. design and implementation of programmes aimed at promoting the cessation of tobacco use, in such locations as: [Other]
Community Organization Family Resource Centers

C284[1]. inclusion of diagnosis and treatment of tobacco dependence and counselling services for cessation of tobacco use in national programmes, plans and strategies for: [tobacco control?]
Yes

C284[2]. inclusion of diagnosis and treatment of tobacco dependence and counselling services for cessation of tobacco use in national programmes, plans and strategies for: [health?]
Yes

C284[3]. inclusion of diagnosis and treatment of tobacco dependence and counselling services for cessation of tobacco use in national programmes, plans and strategies for: [education?]
Yes

C285. inclusion of programmes on the diagnosis and treatment of tobacco dependence in your health-care system?
Yes

C286[1]. Which structures in your health-care system provide programmes for the diagnosis and treatment of tobacco dependence? [primary health care]
Yes

C286[2]. Which structures in your health-care system provide programmes for the diagnosis and treatment of tobacco dependence? [secondary and tertiary health care]
Yes

C286[3]. Which structures in your health-care system provide programmes for the diagnosis and treatment of tobacco dependence? [specialist health-care systems (please specify below)]
Yes

C286[4]. Which structures in your health-care system provide programmes for the diagnosis and treatment of tobacco dependence? [specialized centres for cessation counselling and treatment of tobacco dependence]
Yes

C286[5]. Which structures in your health-care system provide programmes for the diagnosis and treatment of tobacco dependence? [rehabilitation centres]
Yes

C286[other]. Which structures in your health-care system provide programmes for the diagnosis and treatment of tobacco dependence? [Other]
Public Health Units in Ontario

C287[1]. Are the services provided in these settings covered by public funding or reimbursement schemes? [primary health care]
Partially

C287[2]. Are the services provided in these settings covered by public funding or reimbursement schemes? [secondary and tertiary health care]
Partially

C287[3]. Are the services provided in these settings covered by public funding or reimbursement schemes? [specialist health-care systems (please specify below)]
Partially

C287[4]. Are the services provided in these settings covered by public funding or reimbursement schemes? [specialized centres for cessation counselling and treatment of tobacco dependence]
Partially

C287[5]. Are the services provided in these settings covered by public funding or reimbursement schemes? [rehabilitation centres]
Partially

C287[6]. Are the services provided in these settings covered by public funding or reimbursement schemes? [other (please specify below)]

C287b. Please provide other details in the space below.

C288[1]. Which health and other professionals are involved in programmes offering treatment for tobacco dependence and counselling services? Health professionals including: [physicians]
Yes

C288[2]. Which health and other professionals are involved in programmes offering treatment for tobacco dependence and counselling services? Health professionals including: [dentists]
Yes

C288[3]. Which health and other professionals are involved in programmes offering treatment for tobacco dependence and counselling services? Health professionals including: [family doctors]
Yes

C288[4]. Which health and other professionals are involved in programmes offering treatment for tobacco dependence and counselling services? Health professionals including: [practitioners of traditional medicine]
Yes
C288[5]. Which health and other professionals are involved in programmes offering treatment for tobacco dependence and counselling services? Health professionals including: [other medical professionals (please specify below)]
Yes
C288[6]. Which health and other professionals are involved in programmes offering treatment for tobacco dependence and counselling services? Health professionals including: [nurses]
Yes
C288[7]. Which health and other professionals are involved in programmes offering treatment for tobacco dependence and counselling services? Health professionals including: [midwives]
Yes
C288[8]. Which health and other professionals are involved in programmes offering treatment for tobacco dependence and counselling services? Health professionals including: [pharmacists]
Yes
C288[9]. Which health and other professionals are involved in programmes offering treatment for tobacco dependence and counselling services? Health professionals including: [Community workers]
Yes
C288[10]. Which health and other professionals are involved in programmes offering treatment for tobacco dependence and counselling services? Health professionals including: [Social workers]
Yes
C288[11]. Which health and other professionals are involved in programmes offering treatment for tobacco dependence and counselling services? Health professionals including: [other (please specify)]
Yes
C288[other]. Which health and other professionals are involved in programmes offering treatment for tobacco dependence and counselling services? Health professionals including: [Other]
Respiratory Therapists
C289[1]. training on tobacco dependence treatment incorporated into the curricula of health professional training at pre- and post-qualification levels at the following schools: [medical?]
Yes
C289[2]. training on tobacco dependence treatment incorporated into the curricula of health professional training at pre- and post-qualification levels at the following schools: [dental?]
Yes
C289[3]. training on tobacco dependence treatment incorporated into the curricula of health professional training at pre- and post-qualification levels at the following schools: [nursing?]
Yes

Yes
C289[other]. training on tobacco dependence treatment incorporated into the curricula of health professional training at pre- and post-qualification levels at the following schools: [Other]
Respiratory Therapy
C2810. facilitating accessibility and/or affordability of pharmaceutical products for the treatment of tobacco dependence?
Yes
C2811. Where and how can these products be legally purchased in your country?
Pharmacies and Health Centers.
C2812[1]. Which pharmaceutical products are legally available for the treatment of tobacco dependence in your jurisdiction? [nicotine replacement therapy]
Yes

C2812[2]. Which pharmaceutical products are legally available for the treatment of tobacco dependence in your jurisdiction?
[bupropion]
Yes

C2812[3]. Which pharmaceutical products are legally available for the treatment of tobacco dependence in your jurisdiction?
[varenicline]
Yes

C2812[4]. Which pharmaceutical products are legally available for the treatment of tobacco dependence in your jurisdiction?
[other (please specify)]
No

C2812[other]. Which pharmaceutical products are legally available for the treatment of tobacco dependence in your jurisdiction?
[Other]

C2813[1]. Are the costs of these products covered by public funding or reimbursement? [nicotine replacement therapy]
Partially

C2813[2]. Are the costs of these products covered by public funding or reimbursement? [bupropion]
Partially

C2813[3]. Are the costs of these products covered by public funding or reimbursement? [varenicline]
Partially

C2813[4]. Are the costs of these products covered by public funding or reimbursement? [other (please specify below)]

C2813b. Please provide other details in the space below.

C2814. Please provide a brief description of the progress made in implementing Article 14 (Demand reduction measures concerning tobacco dependence and cessation) in the past two years or since submission of your last report.

Demand reduction, in the Canadian context, is a responsibility shared through federal policy and provincial/territorial service delivery. A number of projects have been developed/supported in implementing Article 14.

In response to question C28, Canada experienced difficulty in reporting on variations between the sub-national authorities. Responses are provided to those questions that had consistent answers by all jurisdictions. The following narratives address the variations between jurisdictions.

In response to C286, of those jurisdictions that responded:

42% provided programs for the diagnosis and treatment of tobacco dependence in specialized centers for cessation counseling
36% responding as having programs in rehabilitation centers
92% responding as having programs in treatment in primary health care
83% responding as having programs in secondary health care
33% responding as having programs with specialists

In response to question C287 on reimbursements:

50% reported "full" and 42% reported "partial" coverage in primary health care.
50% reported "full" and 42% reported "partial" in secondary health care programs.

In response to specialist health care, 30% reported having "full" coverage; 30% reported having "partial" coverage.
In response to special centers for cessation, 36% reported having "full" coverage and 18% reported "partial" coverage.
In response to rehabilitation centers, 10% had "full funding" while 30% "partial" coverage

In response to question C288 on health professionals:

22% of those responding indicated "Yes" for practitioners of traditional medicine.
82% reported "Yes" for community workers.
40% reported "Yes" for social workers.
92% reported "Yes" for physicians.
92% reported "Yes" for family doctors.
67% reported "Yes" for dentists.
100% reported "Yes" for nurses.
92% reported "Yes" pharmacists.

In responding to C289 on training curriculum, there was varied response. Education is governed at the sub-national level. Of the sub-national jurisdictions that responded:

50% did not provide training in medical programs
70% did not provide training in dental programs
36% did not provide training in nursing programs
40% did not provide training in pharmacy programs

In responding to question C2810 on providing access to treatment, 100% responded "Yes" with the primary source being a pharmacy.

In responding to question C2813 on funding for NRT, the majority of jurisdictions indicated support for partial funding. Specifically:

83% reported partial support for NRT,
100% reported partial support for bupropion.
100% reported partial support for varenicline

C2815. Have you utilized the "Guidelines for implementation of Article 14 of the WHO FCTC" when developing and implementing policies in this area?

Yes

C2816. Please provide details in the space below or refer to section G of the additional questionnaire. Response to this question or to the additional questionnaire is voluntary. <https://extranet.who.int/dataform/655321?token={TOKEN}&=en>

C2817. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

CancerCare Manitoba offers a Quit Smoking Program (QSP) to patients, their families and staff. The program includes an interdisciplinary clinic involving a nurse practitioner, nurse, social worker, pharmacist and pharmacy technician. The clinic's services help participants deal with the emotional and physical aspects of quitting smoking through a full range of supportive cessation treatments. Patients are screened, assessed, counsel'ed and provided treatment of nicotine replacement and drug therapy at no cost to participants.

In January, 2016 up to \$1.0 million in new funding was provided for the implementation of a provincial nicotine replacement therapy (NRT) program that provides, free of charge, up to 8 weeks of NRT annually to eligible smokers looking to quit.

In Ontario, one of Canadas sub-national jurisdiction, new social marketing campaigns were implemented that targets adult regular smokers, and public education campaigns were implemented to advise the public about new smoking regulations. The 2015 Pan American and Parapan American Games were hosted in the City of Toronto and declared smoke-free and secondly, as a legacy component, the public was educated about the importance of smoke-free outdoor public spaces, particularly sporting fields.

The Public Health Agency of Canada (PHAC), a federal partner in Canadas Federal Tobacco Control Strategy, co-funded a number of tobacco projects designed to promote healthy living and to prevent chronic disease.

- Led by Manitoba Tobacco Reduction Alliance, the MANTRA project is establishing a certification program in tobacco addiction treatment at University of Manitoba and expanding Cancer Care Manitoba's Quit Smoking Program to seven outreach centres across the province. The MANTRA project complements the Canadian Partnership Against Cancer work to better integrate tobacco cessation into cancer care settings to improve patient access to healthcare professionals trained in tobacco addiction treatment. Partners for this project include Cancer Care Manitoba and Canadian Network for Respiratory Care. The project expects to reach 250 healthcare professionals.

- The Picking Up the PACE project led by the Centre for Addiction and Mental Health (CAMH) is enhancing the content of online training and implementing a peer coaching model with the aim of increasing the ability of healthcare professionals to offer interventions to address modifiable risk factors and improve smoking cessation outcomes. CAMH is partnering with the Medical Psychiatry Alliance in the development of the content that will be used with 350 healthcare providers in Ontario and will inform the online component of the Training Enhancement in Applied Cessation Counselling and Health (TEACH), an evidence-based program accredited by the University of Toronto Faculty of Medicine, professional regulatory bodies and the international Association for the Treatment of Tobacco Use and Dependence.

- Evidence in the field of tobacco control recognizes the relationship between tobacco cessation behaviour and other risk factors (e.g., unhealthy eating and inactivity) and identifies the need for chronic disease prevention strategies that address these interrelated risks. As a result a more recent, Canada-wide project called Run to Quit was launched, in partnership with the Canadian Cancer Society and the Running Room, to implement a tobacco cessation project while improving physical activity levels. Early results showed that 28% of participants had quit smoking and had successfully not smoked in six months. In addition, 43% of participants interviewed said they were still running, on average, three times a week. Participants also noted increased physical and mental wellbeing and confidence to quit smoking. These results are encouraging since rates for people trying to quit "cold turkey" average around 4%.

The Province of Alberta provides a number of resources which target under aged girls, young women, and pregnant women. These include the "Reproductive Years Guidelines" for health care providers which was designed to assist health care providers in supporting women and girls to stop or reduce the use of tobacco. They also provide a practical hands on guide entitled "Baby Steps Help Guide" for health care providers working with girls and women who use tobacco and tobacco-like products and are planning a pregnancy, are pregnant, or postpartum.

C3. MEASURES RELATING TO THE REDUCTION OF THE SUPPLY OF TOBACCO

C3. With reference to Articles 15-17

C31. Illicit trade in tobacco products Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C311. requiring marking of all unit packets and packages of tobacco products and any outside packaging of such products to assist in determining the origin of the product?
Yes

C312. requiring marking of all unit packets and packages of tobacco products and any outside packaging of such products to assist in determining whether the product is legally sold on the domestic market?
Yes

C313. requiring that unit packets and packages of tobacco products for retail and wholesale use that are sold on the domestic market carry the statement: "Sales only allowed in ..." or carry any other effective marking indicating the final destination of the product?
Yes

C314. developing a practical tracking and tracing regime that would further secure the distribution system and assist in the investigation of illicit trade?
No

C315. requiring that marking is presented in legible form and/or appears in the principal language or languages of the country?
Yes

C316. requiring the monitoring and collection of data on cross-border trade in tobacco products, including illicit trade?
Yes

C317. facilitating the exchange of this information among customs, tax and other authorities, as appropriate, and in accordance with national law and applicable bilateral and multilateral agreements?
Yes

C318. enacting or strengthening legislation, with appropriate penalties and remedies, against illicit trade in tobacco products, including counterfeit and contraband cigarettes?
No

C319. requiring that confiscated manufacturing equipment, counterfeit and contraband cigarettes and other tobacco products derived from illicit trade are destroyed, using environment-friendly methods where possible, or disposed of in accordance with national law?
Yes

C3110. adopting and implementing measures to monitor, document and control the storage and distribution of tobacco products held or moving under suspension of taxes or duties?
Yes

C3111. enabling the confiscation of proceeds derived from illicit trade in tobacco products?
Yes

C3112. promoting cooperation between national agencies and relevant regional and international intergovernmental organizations in investigations, prosecutions and proceedings, with a view to eliminating illicit trade in tobacco products, with special emphasis on cooperation at regional and subregional levels?
Yes

C3113. licensing or other actions to control or regulate production and distribution in order to prevent illicit trade?
Yes

C3114. Please provide a brief description of the progress made in implementing Article 15 (Illicit trade in tobacco products) in the past two years or since submission of your last report.

C3115. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

C3116. Please attach the relevant documentation.

C3116[filecount]. filecount - Please attach the relevant documentation.

C32. Sales to and by minors Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C321. prohibiting the sales of tobacco products to minors?

Yes

C321a. Please specify the legal age:

18

C322. requiring that all sellers of tobacco products place a clear and prominent indicator inside their point of sale about the prohibition of tobacco sales to minors?

Yes

C323. requiring that, in case of doubt, each seller of tobacco products requests that the purchaser provides appropriate evidence of having reached full legal age?

Yes

C324. banning the sale of tobacco products in any manner by which they are directly accessible, such as open store shelves?

Yes

C325. prohibiting the manufacture and sale of sweets, snacks, toys or any other objects in the form of tobacco products which appeal to minors?

No

C326. prohibiting the sale of tobacco products from vending machines?

Yes

C327. Do you ensure that tobacco vending machines are not accessible to minors and/or do not promote the sale of tobacco products to minors?

N/A

C328[1]. prohibiting and/or promoting the prohibition of the distribution of free tobacco products: [to the public?]

Yes

C328[2]. prohibiting and/or promoting the prohibition of the distribution of free tobacco products: [to minors?]

Yes

C329. prohibiting the sale of cigarettes individually or in small packets?

Yes

C3210. providing for penalties against sellers and distributors in order to ensure compliance?

Yes

C3211. prohibiting the sales of tobacco products by minors?

No

C3212. Please provide a brief description of the progress made in implementing Article 16 (Sales to and by minors) in the past two years or since submission of your last report.

In order to protect youth from inducements to use tobacco products and the consequent dependence on them, the Government of Canada is further reducing the attractiveness of tobacco products by limiting the availability of menthol-flavoured tobacco products in Canada. To achieve this objective, the Government of Canada implemented in 2017 an Order Amending the Tobacco Act to prohibit the use of these menthol additives in the manufacture of cigarettes, blunt wraps and most cigars and their sale. This amendment will also mean that the prohibition on the promotion of menthol additives on tobacco product packaging will be applicable.

C3213. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

In response to C321a, the legal age differs by province being either 18 or 19 years of age.

In response to C325 while Canada does not have a federal prohibition, two Canadian territories, Yukon and Nunavut, have legislation prohibiting candy or sweets that look like tobacco products.

In response to C327. the federal Tobacco Act bans vending machines in public places except in a bar, tavern or beverage room that have a prescribed security mechanism. Several provinces/territories go further. Manitoba, Ontario, Quebec, Nova Scotia, Prince Edward Island, the Northwest Territories and Nunavut ban the sale of tobacco products through vending machines.

C3214. Please attach the relevant documentation.

C3214[filecount]. filecount - Please attach the relevant documentation.

C33. Provision of support for economically viable alternative activities Have you adopted and implemented, where appropriate, measures or programmes on any of the following:

C331[1]. promoting economically viable and sustainable alternatives for: [tobacco growers?]

No

C331[2]. promoting economically viable and sustainable alternatives for: [tobacco workers?]

No

C331[3]. promoting economically viable and sustainable alternatives for: [tobacco individual sellers?]

No

C332. Please provide a brief description of the progress made in implementing Article 17 (Provision of support for economically viable alternative activities) in the past two years or since submission of your last report.

Tobacco Transition Program:

In 2009, Agriculture and Agri-Food Canada introduced the Tobacco Transition Program, which was aimed at removing the outdated tobacco quota system in Ontario. The program also included funds to help tobacco growing regions of Southern Ontario to transition to a non-tobacco economy.

This program is now completed and the quota system has been removed.

Current Grant and Contribution Programming:

At this time there are no tobacco specific federal only grant and contribution programs administered by Agriculture and Agri-Food Canada. Moreover, there are no cost-shared tobacco specific programs being delivered by provinces and territories under Canada's current national agriculture policy framework (Growing Forward 2), under which the federal-provincial-territorial governments share the costs of a wide range of agricultural programs.

However, as agricultural producers, tobacco producers are eligible to receive funding from a number of Agriculture and Agri-Food Canada's programs, according to each program's eligibility criteria. The list of such programs can be found on Agriculture and Agri-Food Canada's web site at: <http://www.agr.gc.ca/eng/programs-and-services/list-of-programs-and-services/?id=1362151577626>.

C333. Have you utilized the "Policy options and recommendations on economically sustainable alternatives to tobacco growing (in relation to Articles 17 and 18 of the WHO FCTC)" when developing and implementing policies in this area?

No

C334. Please provide details in the space below or refer to section I of the additional questionnaire. Response to this question or to the additional questionnaire is voluntary. <https://extranet.who.int/dataform/655321?token={TOKEN}&=en>

C4. OTHER MEASURES AND POLICIES

C4. With reference to Articles 18–21

C41. Protection of the environment and the health of persons Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C411[1]. implementing measures in respect of tobacco cultivation within your territory, which take into consideration: [the protection of the environment?]

Yes

C411[2]. implementing measures in respect of tobacco cultivation within your territory, which take into consideration: [the health of persons in relation to the environment?]

Yes

C412[1]. implementing measures in respect of tobacco manufacturing within your territory, which take into consideration: [the protection of the environment?]

Yes

C412[2]. implementing measures in respect of tobacco manufacturing within your territory, which take into consideration: [the health of persons in relation to the environment?]

Yes

C413. Please provide a brief description of the progress made in implementing Article 18 (Protection of the environment and the health of persons) in the past two years or since submission of your last report.

Health Canadas Pest Management Regulatory Agency (PMRA) regulates pesticides for all agricultural crops, including tobacco. In doing so, it takes health and the environment into consideration.

While the Tobacco Act does not provide environmental measures with respect to manufacturing, Canada has extensive national and sub-national legislation and regulations that provide for the protection of the environment, labour standards, and measures that protect the health of persons in relation to the environment.

C414. Have you utilized the “Policy options and recommendations on economically sustainable alternatives to tobacco growing (in relation to Articles 17 and 18 of the WHO FCTC)” when developing and implementing policies in this area?

No

C415. Please provide details in the space below or refer to section I of the additional questionnaire. Response to this question or to the additional questionnaire is voluntary. <https://extranet.who.int/dataform/655321?token={TOKEN}<=en>

C416. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

C417. Please attach the relevant documentation.

C417[filecount]. filecount - Please attach the relevant documentation.

0

C42. Liability Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C421[SQ001]. Does your tobacco control legislation contain measures regarding criminal liability for any violations of that tobacco control legislation? []

Yes

C422[SQ001]. Do you have separate criminal liability provisions in relation to tobacco control (outside of the tobacco control legislation)?

Yes

C423[SQ001]. Do you have any civil liability measures that are specific to tobacco control?

Yes

C424[SQ001]. Do you have any general civil liability provisions that could apply to tobacco control?

Yes

C425[SQ001]. Do you have civil or criminal liability provisions that provide for compensation for adverse health effects and/or for reimbursement of medical, social or other relevant costs?

Yes

C426[SQ001]. Has any person in your jurisdiction launched any criminal and/or civil liability action, including compensation where appropriate, against any tobacco company in relation to any adverse health effect caused by tobacco use?

Yes

C427[SQ001]. Have you taken, as appropriate, any legislative, executive, administrative and/or other action against the tobacco industry for full or partial reimbursement of medical, social and other relevant costs related to tobacco use in your jurisdiction?

Yes

C428. Please provide a brief description of any progress made, as appropriate, in implementing Article 19 (Liability) in the past two years or since submission of your last report.

In April 2012, JTI-Macdonald Corp. (JTI) and Imperial Tobacco Canada Ltd. (ITC) each launched constitutional challenges to the Tobacco Products Labelling Regulations (Cigarettes and Little Cigars). They asserted that the increase in size of health warning messages from 50 percent to 75 percent of the packages of tobacco products violates the corporations' right to freedom of expression under the Canadian Charter of Rights and Freedoms. No court dates have yet been scheduled.

All Canadian provinces and territories except Yukon have passed legislation to enable the pursuit of health care cost recovery actions against tobacco companies. All ten provinces have now launched actions seeking to recover health care costs from tobacco companies. Canada was named as a third party in three of these actions (i.e., British Columbia, New Brunswick and Ontario). The third party claims against Canada have been struck in the BC case (Supreme Court of Canada decision of 2011) and the New Brunswick case (New Brunswick Court of Queen's Bench decision of 2012) while in the Ontario Health Care Cost recovery, the three tobacco companies (JTI, ITC and RHB) discontinued their third party claims against Canada on June 19, 2014, August 28, 2014 and September 24, 2014, respectively.

In the Blais and Létourneau class actions, on November 12, 2012 the Quebec Court of Appeal struck out the defendants (JTI MacDonalld Corp, Imperial Tobacco Canada Ltd and Rothmans, Benson & Hedges ('tobacco companies')) actions in warranty against Canada. As a result, Canada is no longer a party to the actions that were brought against the tobacco companies on behalf of approximately one million Quebecers suffering from tobacco-related diseases or addicted to nicotine. On June 9, 2015 the Honourable Justice Brian Riordan rendered his final judgement and granted the plaintiffs' claims in part and awarded damages totalling over \$15 billion. On October 27, 2015, the Court of Appeal granted the plaintiffs' motions for security pending the appeal of the June 9, 2015 decision of Justice Riordan. ITC and RBH were ordered to furnish just under \$1 billion in security. The Court of Appeal has not rendered its decision on the tobacco companies' appeal.

The tobacco industry has also brought multiple challenges to provincial legislation that prohibits the sale of menthol tobacco products. No court decisions have been released yet.

C429. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

C4210. Please attach the relevant documentation.

C4210[filecount]. filecount - Please attach the relevant documentation.

C43. Research, surveillance and exchange of information Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C431[1]. developing and/or promoting research that addresses: [determinants of tobacco consumption?]

Yes

C431[2]. developing and/or promoting research that addresses: [consequences of tobacco consumption?]
Yes

C431[3]. developing and/or promoting research that addresses: [social and economic indicators related to tobacco consumption?]
Yes

C431[4]. developing and/or promoting research that addresses: [tobacco use among women, with special regard to pregnant women?]
Yes

C431[5]. developing and/or promoting research that addresses: [the determinants and consequences of exposure to tobacco smoke?]
Yes

C431[6]. developing and/or promoting research that addresses: [identification of effective programmes for the treatment of tobacco dependence?]
Yes

C431[7]. developing and/or promoting research that addresses: [identification of alternative livelihoods?]
Yes

C431[other]. developing and/or promoting research that addresses: [Other]

C432. training and support for all persons engaged in tobacco control activities, including research, implementation and evaluation?
Yes

C433[1]. a national system for epidemiological surveillance of: [patterns of tobacco consumption?]
Yes

C433[2]. a national system for epidemiological surveillance of: [determinants of tobacco consumption?]
Yes

C433[3]. a national system for epidemiological surveillance of: [consequences of tobacco consumption?]
No

C433[4]. a national system for epidemiological surveillance of: [social, economic and health indicators related to tobacco consumption?]
Yes

C433[5]. a national system for epidemiological surveillance of: [exposure to tobacco smoke?]
Yes

C433[other]. a national system for epidemiological surveillance of: [Other]

C434. Please list all surveys, including the year of the survey, that you have undertaken in the past.

Regular measurements of the prevalence of tobacco use by the Canadian population are obtained by the Canadian Tobacco, Alcohol and Drugs Survey (CTADS) which is the current general population survey for those aged 15 years and older, and for school-aged children in grades 6-12, the Canadian Student Tobacco, Alcohol and Drugs Survey (CSTADS). The Canadian Tobacco, Alcohol and Drugs Survey (CTADS) was developed to provide Health Canada and its partners with timely, reliable, and continual data on tobacco use and related issues. The survey's primary objective is to track changes in smoking status and amount smoked, especially for 15-24-year-olds, who are most at risk for taking up smoking.

The Canadian Student Tobacco, Alcohol and Drugs Survey (CSTADS) provides timely and accurate monitoring of the tobacco use in school aged children (grades 6-12). CSTADS contributes an essential input to the development of sound and effective tobacco control policies and programs.

Canadian Tobacco Use Monitoring Survey (CTUMS) 1999-2012; Canadian Tobacco, Alcohol and Drugs Survey (CTADS) 2013, 2015.

Youth Smoking Survey (YSS) 1994, 2002, 2004-05, 2006-07, 2008-09, 2010-2011, 2012-2013;

Canadian Student Tobacco, Alcohol and Drugs Surveys (CSTADS) 2014-15.

C435. Does your country have any plans to repeat any of the above or to undertake a new tobacco survey within three to five years of your last survey? Please provide details in the space below.

Canadian Student Tobacco, Alcohol and Drugs Survey (CSTADS) is a biennial survey. The next release (2016-17 data) is expected to be in Spring/Summer of 2018.

Canadian Tobacco, Alcohol and Drugs Survey (CTADS) is a biennial survey. The next release (2017 data) is expected to be in Fall 2018.

C436[1]. regional and global exchange of publicly available national: [scientific, technical, socioeconomic, commercial and legal information?]

Yes

C436[2]. regional and global exchange of publicly available national: [information on the practices of the tobacco industry?]

Yes

C436[3]. regional and global exchange of publicly available national: [information on the cultivation of tobacco?]

Yes

C437[1]. an updated database of: [laws and regulations on tobacco control?]

Yes

C437[2]. an updated database of: [information about the enforcement of laws on tobacco control?]

Yes

C437[3]. an updated database of: [pertinent jurisprudence?]

Yes

C438. Please provide a brief description of the progress made in implementing Article 20 (Research, surveillance and exchange of information) in the past two years or since submission of your last report.

NGOs play a role providing information on the practices of the tobacco industry in Canada.

In 2016, Physicians for a Smoke-free Canada published a shadow report on Industry Interference (http://www.smoke-free.ca/pdf_1/2016/Article5POINT3-shadowreport-final.pdf).

In terms of providing access to tobacco related laws, regulations and jurisprudence, the Canadian Legal Information Institute (CanLII) is a non-profit organization created and funded by the Federation of Law Societies of Canada on behalf of its 14 member societies. CanLII is a member of the Free Access to Law Movement, which includes the primary stakeholders involved in free, open publication of law throughout the world (<https://www.canlii.org/en/>).

C439. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

C4310. Please attach the relevant documentation.

C4310[filecount]. filecount - Please attach the relevant documentation.

D. INTERNATIONAL COOPERATION AND ASSISTANCE

D0. Pursuant to Article 21.1(c) and in accordance with Article 26, have you either provided or received financial or technical assistance (be it through unilateral, bilateral, regional, subregional or other multilateral channels, including relevant regional and international intergovernmental or nongovernmental organizations and financial and development institutions) for the development and strengthening of multisectoral, comprehensive tobacco control programmes of developing country Parties and Parties with economies in transition in any of the following areas:

D1[1]. development, transfer and acquisition of technology, knowledge, skills, capacity and expertise related to tobacco control? [Assistance provided]

Yes

D1[2]. development, transfer and acquisition of technology, knowledge, skills, capacity and expertise related to tobacco control? [Assistance received]
No

D2[1]. provision of technical, scientific, legal and other expertise to establish and strengthen national tobacco control strategies, plans and programmes? [Assistance provided]
Yes

D2[2]. provision of technical, scientific, legal and other expertise to establish and strengthen national tobacco control strategies, plans and programmes? [Assistance received]
No

D3[1]. appropriate training or sensitization programmes for appropriate personnel in accordance with Article 12? [Assistance provided]
Yes

D3[2]. appropriate training or sensitization programmes for appropriate personnel in accordance with Article 12? [Assistance received]
No

D4[1]. provision of the necessary material, equipment and supplies, as well as logistic support, for tobacco control strategies, plans and programmes? [Assistance provided]
Yes

D4[2]. provision of the necessary material, equipment and supplies, as well as logistic support, for tobacco control strategies, plans and programmes? [Assistance received]
No

D5[1]. identification of methods for tobacco control, including comprehensive treatment of nicotine addiction? [Assistance provided]
Yes

D5[2]. identification of methods for tobacco control, including comprehensive treatment of nicotine addiction? [Assistance received]
No

D6[1]. promotion of research to increase the affordability of comprehensive treatment of nicotine addiction? [Assistance provided]
No

D6[2]. promotion of research to increase the affordability of comprehensive treatment of nicotine addiction? [Assistance received]
No

D7. Please identify the Party or Parties from which assistance was received or to which assistance was provided.
During the 2016-17 reporting period, Canada provided:

Extra budgetary contributions to the FCTC Convention Secretariat for technical assistance within the Americas Region

Parties:
Brazil
Uruguay

D8. Please provide information about any assistance provided or received in the space below.
Canada provided technical information to both countries on measures to regulate flavours in tobacco products.

D9. If you have not received or provided assistance in any of the aforementioned areas, please identify any financial or technical assistance that may be under consideration, if appropriate.

The Government of Canada provided funding and human resources to the FCTC Convention Secretariat to support the work of the working group responsible for the development of the WHO FCTC medium-term strategic framework to guide the development of biennial work plans, budgets and implementation support for consideration by the Conference of the Parties.

Health Canada led two technical workshops on Plain and Standardized packaging, one for the WHO Americas Region, and the second targeting countries in developing areas on “Legal Challenges in Policy Design and Implementation”.

Complimenting Canada’s domestic engagement in tobacco control activities and health policy, Canada’s International Development Research Center (IDRC) provides funding to support low- and middle-income country (LMIC) researchers to develop the local evidence needed to inform the adoption and effective implementation of tobacco control policies. During the period 1 January 2016 to 31 December 2017, IDRC allocated 2.2 million CAD to various research projects aiming to better understand and contribute to the economic rationale for tobacco control in LMICs. For further information, please visit www.idrc.ca.

The list of IDRC-led Tobacco Control Projects (2016-2017) can be found below:

- The impact of tobacco pricing and packaging strategies in middle-income countries (Chile, Ecuador and Colombia)
- The impact of tobacco pricing and packaging strategies in middle-income countries (South Africa)
- The impact of tobacco pricing and packaging strategies in middle-income countries (Vietnam)
- Economics of Tobacco Control Research Initiative (Global)
- Technical Review Committee for Economics of Tobacco Research Call (Global)
- Tax and poverty analyses for a leap forward with global tobacco control (Colombia, India, Mexico, Philippines)
- Research Dissemination at the World Conference on Tobacco or Health 2018

D10. Have you encouraged relevant regional and international intergovernmental organizations and financial and development institutions in which you are represented to provide financial assistance for developing country Parties and for Parties with economies in transition to assist them in meeting their obligations under the Convention?

No

D11. Please provide details in the space below.

E. PRIORITIES AND COMMENTS

E1. What are the priorities for implementation of the WHO Framework Convention on Tobacco Control in your jurisdiction?

Canada recognizes the importance of a comprehensive approach to tobacco control and remains committed to the implementation of the provisions of the FCTC, subject to sovereign right.

Canada continues to implement the FCTC through the Federal Tobacco Control Strategy (FTCS). The FTCS has helped reduce smoking rates to an all-time low. The comprehensive and collaborative approach of the Strategy will help to preserve the gains of the past decade and continue the downward trend in smoking to reduce tobacco related death and disease among Canadians.

To protect Canadians, especially young people, from the health consequences of tobacco use, Canada continues to focus on:

- preventing children and youth from starting to smoke;
- helping people to quit smoking; helping Canadians protect themselves from second-hand smoke; and
- regulating the manufacture, sale, labeling and promotion of tobacco products by administering the Tobacco Act.

The Government of Canada will continue to implement and enforce a strict regulatory environment that limits the tobacco industry's ability to use marketing to attract new smokers, and will continue to inform Canadians about the health hazards of smoking. This includes introducing plain packaging requirements for all tobacco products.

The 2012-17 Strategy places a specific emphasis on two groups with higher rates of smoking than most Canadians and on tobacco as a risk factor for serious disease. Specifically, Health Canada is committed to working with First Nations and Inuit partners to take steps to reduce and prevent commercial tobacco use, and has launched a marketing awareness and outreach campaign in partnership with the Canadian Cancer Society, using popular channels like Facebook and Twitter, to get young people talking together about smoking, about quitting, and remaining smoke-free.

Canada remains a strong and committed global partner to reduce tobacco use. Canada will continue to follow and promote best practices set out in the Framework Convention on Tobacco Control. Canada will also cooperate on cross-border efforts to stop trafficking of illegal tobacco products. Canada will continue to participate in multilateral negotiations to develop international guidelines and respond to requests to share our expertise in tobacco control.

E2. Have you identified any specific gaps between the resources available and the needs assessed for implementing the WHO Framework Convention on Tobacco Control?

No

E3. Please provide details in the space below.

E4. What, if any, are the constraints or barriers, other than lack of resources, you have encountered in implementing the Convention?

E5[1]. Do you have any of the following products available on your national tobacco market? [smokeless tobacco products]

Yes

E5[2]. Do you have any of the following products available on your national tobacco market? [water pipe tobacco]

Yes

E5[3]. Do you have any of the following products available on your national tobacco market? [ENDS/ENNDS]

Yes

E5[other]. Do you have any of the following products available on your national tobacco market? [Other]

E6[1]. Have you adopted and implemented any policy or regulation that is specific to the following tobacco products? [smokeless tobacco products]

Yes

E6[2]. Have you adopted and implemented any policy or regulation that is specific to the following tobacco products? [water pipe tobacco]

Yes

E6[3]. Have you adopted and implemented any policy or regulation that is specific to the following tobacco products? [ENDS/ENNDS]

No

E6[other]. Have you adopted and implemented any policy or regulation that is specific to the following tobacco products? [Other]

E7. If you have any relevant information related to questions E5 and E6, please provide details in the space below.

E8. Please provide any other relevant information not covered elsewhere that you consider important.

E9. Your suggestions for further development and revision of the reporting instrument:
