la question d'affectation des ressources à la prevention des conséquences de tabgisme a été débattue au sein du Comité National de lutte contre le tabagisme lors d'un atelier sur la taxation organisé en 2016 et le principe et un mécanisme d'affectation de taxes a été identifié et soumis à la hiérarchie avec des requetes d'affectations de ses ressources qui ont été faites. la requete a été approuvée par les députés en 2016. CEPENDANT, l'allocation des ressources n'a pas été effective à cause d'instabilité politique qui fait que jusque là, les taxes n'ont pas été affectées à la prévention des conséquences de tabagisme.

B93. Please briefly describe the trend in the prices of tobacco products in the past two years or since submission of your last report in your jurisdiction.

la tendance des prix depuis 2015 est à la hausse à cause des images chauquantes appostées sur les paquets de cigarette qui découragent ou font peurs aux consommateurs donc certaines personnes font recourt aux produits frauduleux comme malboro vendus sans ces avertissemensts sanitaires donc ces produits frauduleux ont tendance à augmenter le prix malgré leur interdiction d'importation sur le territoire tchadien.
