B62. Do you have any information on the percentage of illicit tobacco products on the national tobacco market?
Yes

B63. What percentage of the national tobacco market do illicit tobacco products constitute? (%)
1.8000000000

B64. What is the trend over the past two years or since submission of your last report in the percentage of illicit tobacco products in relation to the national tobacco market?
There is no official estimate of the percentage of illegal tobacco in the legal tobacco market in Denmark.

The most comprehensive estimate of the illegal trade in cigarettes in Denmark comes from KPMG's "Project Sun". "Project Sun" estimates annually the extent of the illegal cigarette market in a number of European countries. There has been criticism of KPMG's "Project Star" (former name of "Project Sun") for lack of transparency, lack of independence from the industry and an overestimation of the size of the illegal cigarette market (Gilmore et al, 2014; Joossens others, 2014; Ross, 2015). By 2016, the illegal cigarettes represented 1.8% of total Danish consumption, which represents 110 million cigarettes out of a total consumption of 5.94 billion cigarettes (KPMG, 2017, p. 58).

The consumption of illegal cigarettes in Denmark has been almost 3% of total consumption in the last 10 years, placing Denmark among the five EU countries that have had the lowest percentage of illegal cigarettes. By comparison, the average EU share has been almost 10%. In Denmark, there has been a further decline in the size of the illegal cigarette market since 2008 and onwards, whereas the decline in the total EU only began in 2012.

B65. Please provide any further information on illicit tobacco products.
The total quantity of seized illicit tobacco products in 2015 was: 27,187,804 pieces.
The total quantity of seized illicit tobacco products in 2014 was: 11.4 million pieces.

This includes illicit smoking tobacco products, smokeless tobacco products and other tobacco products. It is not at the moment possible to split the number into subcategories. By using the same conversion method as CUP (Customs Union Performance) 1 gram of smoking tobacco products is converted into 1 piece.

The Smoke Free Environmental Act applies to all public and private workplaces, institutions for children and adolescents, indoor facilities to which the public has access, including means of public transport (the public space) and hospitality establishments. As a general rule, smoking is not permitted indoors at these premises.

The Act also includes some exceptions. In general, it is permitted to establish smoking booths and special rooms for smoking at the above mentioned places. Moreover, in drop-in centres for the socially exposed, it may be decided that smoking is permitted and at nursing homes, residential rooms for adults and the like, each resident may decide whether smoking is permitted in the room or dwelling that serves as the resident's private home.

In child-care centres, kindergartens, primary and lower secondary schools, high schools that mainly have enrolled children and adolescents younger than 18 years, smoking are not allowed anyone, that is, children, students, teachers, and parents etc., to smoke indoor or outdoor.

The national law is a minimum requirement and the owner of private or public enterprises can set more firm rules.

C2814. Please provide a brief description of the progress made in implementing Article 14 (Demand reduction measures concerning tobacco dependence and cessation) in the past two years or since submission of your last report.

Counselling sessions concerning smoking cessation are offered in the majority of municipalities at no costs for the smokers. Some municipalities cover some expenses to smoking cessation medications at their own costs. General practitioners (GP's) are more involved in giving brief advice to smokers than seen before.

In 2013 the Government ensured funds for 2014-2017 (42 million DKK) to help heavy smokers to quite smoking which also include the covering of parts of the cost of pharmaceutical products to smokers, where relevant, together with counselling sessions concerning smoking cessation. A number of municipalities is running time limited programmes through these funds.

In 2011, the Government and the majority of the political parties of the Parliament have earmarked new funds for 2012-2015 (16 million DKK) to prevention measures aimed at preventing youth smoking and to the launch of a national strategy to combat smoking among young people.
