B84. Please briefly describe the trends in taxation for tobacco products in the past two years or since submission of your last report in your jurisdiction.

Cuando los productos de tabaco provienen de la región de Centro América no se aplica el Impuesto de Derecho Arancelario. Es importante señalar que el 80% del cigarrillo importado proviene de la región, por lo cual no paga dichos Derechos arancelarios a la importación.

B85. Do you earmark any percentage of your taxation income for funding any national plan or strategy on tobacco control in your jurisdiction?

Yes

B86. Please provide details in the space below.

El Fondo Solidario para la Salud, FOSALUD, recibe hasta el 35% de los ingresos fiscales provenientes del tabaco, bebidas alcohólicas, armas y municiones. Estos fondos se utilizan para implementar campañas preventivas para reducir el consumo de tabaco, alcohol, y para proveer asistencia sanitaria para la cesación del tabaco y alcohol. De igual forma se proveen servicios de salud en el primer nivel de atención y otros programas especiales como el sistema de emergencias médicas, las clínicas de atención a Víctimas de violencia, Hogares de espera materna, entre otros.

B92B. Please indicate the source of the data used to answer question B91:
2018: Monitoreo de precios de cigarrillo marzo 2018. Se realizó un monitoreo de precio en 72 establecimientos donde se vende cigarrillo, la muestra es representativa a nivel nacional y se selección de manera aleatoria, utilizando como marco de muestreo el listado de establecimientos autorizados para la venta en 2017, siendo un total de 746 establecimientos autorizado para ese año. También se digitalizaron los formularios de formularios de declaración jurada de los precios sugeridos al consumidor que los importadores presentan al Ministerio de hacienda, se sacaron precios promedio para 2017. 2017. Formulario F-962: Lista de precios sugeridos de venta al público o consumidor final

B93. Please briefly describe the trend in the prices of tobacco products in the past two years or since submission of your last report in your jurisdiction.

Hay una variación máxima del 10% entre el promedio de los precios sugeridos al consumidor y el promedio de precios de venta en los establecimientos. Esto puede deberse a incrementos no autorizados en los precios o bien al desfase entre los registros administrativos de 2017 y los precios corrientes en los establecimientos donde se vende cigarrillo ya que el monitoreo se realizó en marzo 2018. Este es el primer monitoreo de precios y servirá como línea base de los precios de venta en los establecimientos. Con base en los registros administrativos de las declaraciones de precios sugeridos al público, se ha visto un incremento progresivo de los precios en los últimos años 7 años.

La ley de control de tabaco cumple con la totalidad de requisitos sobre prohibición de la venta a menores y por menores. Se tienen algunos problemas de implementación de las leyes.

La Encuesta Mundial sobre Tabaco en Jóvenes 2015 mostró que:

- 4 de cada 10 estudiantes (44.1 %) que fuman cigarrillos, suelen comprarlos en tiendas, negocios, a vendedores callejeros o en quioscos, mostrando que existe una alta disponibilidad de cigarrillos entre los estudiantes de 13 a 15 años.
- 6 de cada 10 estudiantes (60.9 %) no tuvieron problemas para realizar la compra de cigarrillos debido a su edad, a pesar de que la Ley para el Control de Tabaco estipula la prohibición total de venta de cigarrillos a menores de edad, así como la venta de cigarrillos por menores de edad.
- La mitad de los estudiantes fumadores (49.1 %) compran cigarrillos por unidad o al menudeo, reflejando el incumplimiento del Art. 9 de la Ley para el Control del Tabaco, que expresa la prohibición de venta de cigarrillo al menudeo.

Estos datos plantean la necesidad de fortalecer la vigilancia del cumplimiento de la Ley para el Control del Tabaco, principalmente en relación a la venta a menores de edad y la venta al menudeo.
