B1. TOBACCO CONSUMPTION

B1. Prevalence of tobacco use
B11. Smoking prevalence in the adult population (all) (Please provide prevalence data for total adult population, and identify the age considered, e.g. 15 years old and over, 18-64 years; see B112)
B11A[1_SQ001]. Current smokers [MALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
33.4
B11A[1_SQ002]. Current smokers [MALE][Average number of the most-consumed smoking tobacco product used per day]
B11A[2_SQ001]. Current smokers [FEMALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
22.2
B11A[2_SQ002]. Current smokers [FEMALE][Average number of the most-consumed smoking tobacco product used per day]
B11A[3_SQ001]. Current smokers [TOTAL (males and females)][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
27.5
B11A[3_SQ002]. Current smokers [TOTAL (males and females)][Average number of the most-consumed smoking tobacco product used per day]
B11B[1_SQ001]. Daily smokers [MALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
31.5
B11B[1_SQ002]. Daily smokers [MALE][Average number of the most-consumed smoking tobacco product used per day]
B11B[2_SQ001]. Daily smokers [FEMALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
20.8
B11B[2_SQ002]. Daily smokers [FEMALE][Average number of the most-consumed smoking tobacco product used per day]

B11B[3_SQ001]. Daily smokers [TOTAL (males and females)][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

25.8

B11B[3_SQ002]. Daily smokers [TOTAL (males and females)][Average number of the most-consumed smoking tobacco product used per day]

B11C[1_SQ001]. Occasional smokers [MALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

1.9

B11C[2_SQ001]. Occasional smokers [FEMALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

1.5

B11C[3_SQ001]. Occasional smokers [TOTAL (males and females)][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

1.7

B11D[1_SQ001]. Former smokers [MALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

22.1

B11D[2_SQ001]. Former smokers [FEMALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

15.3

B11D[3_SQ001]. Former smokers [TOTAL (males and females)][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

18.5

B11E[1_SQ001]. Never smokers [MALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

44.4

B11E[2_SQ001]. Never smokers [FEMALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

62.4

B11E[3_SQ001]. Never smokers [TOTAL (males and females)][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

53.9

B111. Please indicate the smoking tobacco products included in calculating prevalence for question B11:

manufactured cigarettes, hand-rolled cigarettes, cigars, cigarillos and pipe tobacco

B112[1_SQ001]. Please indicate the age range to which the data used to answer question B11 refer: [Age range][From]

15

B112[1_SQ002]. Please indicate the age range to which the data used to answer question B11 refer: [Age range][To]

B113A. Please indicate the year of the data used to answer question B11:

2014

B113B. Please indicate the source of the data used to answer question B11:

2014, European Health Interview Survey

B114[SQ001]. Please provide the definitions of "current smoker", "daily smoker", "occasional smoker", "former smoker" and "never smoker" used in this report. [Current smoker]

those who smoke daily or occasionally

B114[SQ002]. Please provide the definitions of "current smoker", "daily smoker", "occasional smoker", "former smoker" and "never smoker" used in this report. [Daily smoker]

those who smoke at least one cigarette per day

B114[SQ003]. Please provide the definitions of "current smoker", "daily smoker", "occasional smoker", "former smoker" and "never smoker" used in this report. [Occasional smoker]

those current smokers who do not smoke every day

B114[SQ004]. Please provide the definitions of “current smoker”, “daily smoker”, “occasional smoker”, “former smoker” and “never smoker” used in this report. [Former smoker]
those who used to smoke but are not current smokers more than 12 month ago

B114[SQ005]. Please provide the definitions of “current smoker”, “daily smoker”, “occasional smoker”, “former smoker” and “never smoker” used in this report. [Never smoker]
those who never smoked

B115. Please provide a brief explanation of the trend in smoking prevalence in the adult population in the past two years or since submission of your last report.
We can compare the 2014 smoking prevalence data to the results of a similar population survey conducted in 2009. According to the data, we can observe some decrease in smoking prevalence in case of both sexes: among males aged 15+, the proportion of daily smokers decreased from 32.4% to 31.5%; among females from 22.3% to 20.8%.

B12[B12a_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]
15

B12[B12a_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - end age]
17

B12[B12a_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
22

B12[B12b_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]
18

B12[B12b_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - end age]
34

B12[B12b_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
42

B12[B12c_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]
35

B12[B12c_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - end age]
64

B12[B12c_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
35

B12[B12d_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]
65

B12[B12eeee_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B12[B12f_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]
15

B12[B12f_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]
17

B12[B12f_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
14

B12[B12g_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]
18

B12[B12g_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]
34

B12[B12g_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
29

B12[B12h_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]
35

B12[B12h_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]
64

B12[B12h_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
27

B12[B12i_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]
65

B12[B12i_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]

B12[B12i_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
7

B12[B12j_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]

B12[B12j_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]

B12[B12j_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B12[B12jj_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]

B12[B12jj_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]

B12[B12jj_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B12[B12jjj_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]

B12[B12jjj_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]

B12[B12jjj_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B12[B12jjjj_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]

B12[B12jjjj_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]

B12[B12jjjj_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B12[B12k_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - start age]

B12[B12k_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - end age]

17

B12[B12k_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

18

B12[B12l_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - start age]

18

B12[B12l_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - end age]

34

B12[B12l_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

35

B12[B12m_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - start age]

35

B12[B12m_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - end age]

64

B12[B12m_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

31

B12[B12n_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - start age]

65

B12[B12n_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - end age]

B12[B12n_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

11

B12[B12o_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - start age]

B12[B12o_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - end age]

B12[B12o_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B12[B12oo_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - start age]

B12[B12oo_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - end age]

B12[B12oo_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B12[B12ooo_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - start age]

B12[B12ooo_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - end age]

B12[B12ooo_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B12[B12oooo_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - start age]

B12[B12oooo_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - end age]

B12[B12oooo_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B121. Please indicate the smoking tobacco products included in calculating prevalence for question B12:

manufactured cigarettes, hand-rolled cigarettes, cigars, cigarillos and pipe tobacco

B122A. Please indicate the year of the data used to answer question B12:

2014

B122B. Please indicate the source of the data used to answer question B12:

2014, European Health Interview Survey

B123. Please provide a brief explanation of the trend in current smoking prevalence by age group in the past two years or since submission of your last report, if data are available.

We can compare the 2014 smoking prevalence data to the results of a similar population health interview survey conducted in 2009. According to the data, we can observe some decrease in the smoking prevalence in the 18-34 age group in case of both sexes: while the proportion of current smokers was 44.3% for males and 34.1% for females in 2009, in 2014 it was 41.7% for males and 28.5% for females.

B13. Prevalence of smokeless tobacco use in the adult population (all) (Please provide prevalence data for total adult population, and identify the age considered in B132, e.g. 15 years old and over, 18–64 years; see B132)

B13A[1_B13x1]. Males [Current users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]
0.08

B13A[2_B13x1]. Males [Daily users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13A[3_B13x1]. Males [Occasional users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13A[4_B13x1]. Males [Former users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13A[5_B13x1]. Males [Never users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13B[1_B13x1]. Females [Current users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]
0.09

B13B[2_B13x1]. Females [Daily users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13B[3_B13x1]. Females [Occasional users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13B[4_B13x1]. Females [Former users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13B[5_B13x1]. Females [Never users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13C[1_B13x1]. TOTAL (males and females) [Current users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]
0.09

B13C[2_B13x1]. TOTAL (males and females) [Daily users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13C[3_B13x1]. TOTAL (males and females) [Occasional users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13C[4_B13x1]. TOTAL (males and females) [Former users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13C[5_B13x1]. TOTAL (males and females) [Never users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B131. Please indicate the smokeless tobacco products included in calculating prevalence for question B13:
snuff, chewing tobacco

B132[1_SQ001]. Please indicate the age range to which the data used to answer question B13 refer: [Age range][From]
15

B132[1_SQ002]. Please indicate the age range to which the data used to answer question B13 refer: [Age range][To]

B133A. Please indicate the year of the data used to answer question B13:
2014

B133B. Please indicate the source of the data used to answer question B13:
2014, European Health Interview Survey

B134[SQ001]. Please provide the definitions of “current user”, “daily user”, “occasional user”, “former user” and “never user” (of smokeless tobacco products) used in this report in the space below. [Current user]

B134[SQ002]. Please provide the definitions of “current user”, “daily user”, “occasional user”, “former user” and “never user” (of smokeless tobacco products) used in this report in the space below. [Daily user]

B134[SQ003]. Please provide the definitions of “current user”, “daily user”, “occasional user”, “former user” and “never user” (of smokeless tobacco products) used in this report in the space below. [Occasional user]

B134[SQ004]. Please provide the definitions of “current user”, “daily user”, “occasional user”, “former user” and “never user” (of smokeless tobacco products) used in this report in the space below. [Former user]

B134[SQ005]. Please provide the definitions of “current user”, “daily user”, “occasional user”, “former user” and “never user” (of smokeless tobacco products) used in this report in the space below. [Never user]

B135. Please provide a brief explanation of the trend in smokeless tobacco use in the adult population in the past two years or since submission of your last report.
In lack of previous data, we cannot make comparisons.

B14[B12a_B12x1]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Range - start age]

B14[B12a_B12x3]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Range - end age]

B14[B12a_B12x2]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B14[B12b_B12x1]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Range - start age]

B14[B12b_B12x3]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Range - end age]

B14[B12b_B12x2]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B14[B12c_B12x1]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Range - start age]

B14[B12eee_B12x3]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Range - end age]

B14[B12eee_B12x2]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B14[B12eeee_B12x1]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Range - start age]

B14[B12eeee_B12x3]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Range - end age]

B14[B12eeee_B12x2]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B161. Please indicate the tobacco products included in calculating prevalence for question B16:
We calculated the prevalence based on the questions about different tobacco products consumption.

B162A. Please indicate the year of the data used to answer question B16:
2016

B162B. Please indicate the source of the data used to answer question B16:
Global Youth Tobacco Survey 2016.

B163. Please provide the definition of "current smoking/tobacco use" used to answer question B16 in the space below.
Smoking tobacco: cigarette;
Smokeless tobacco: snuff and chewing tobacco
Other tobacco: waterpipe
Current smoking: cigarette smoked/tobacco used in the last 30 days

B164. Please provide a brief explanation of the trend in tobacco use by young persons in the past two years or since submission of your last report.
In 2013, 23,5% of students (7-8-9 grade students) used cigarette, 2,02% used smokeless tobacco (snuff, chewing tobacco) and 16,75% used waterpipe int the last 30 days. In 2016, 18% used cigarette, 1% used smokeless tobacco and 9% used waterpipe int the last 30 days.
In 2013, 9,5% of students who were current cigarette users, used cigarette on daily bases. 47% of the boys and 44% of the girls had ever tried smoking. 24% of the boys and 23,5% of the girls are current cigarette smokers. In 2016, 6,5% of students who were current cigarette users, used cigarette on daily bases. 32% of the boys and 32% of the girls had ever tried smoking. 16% of the boys and 20 % of the girls are current cigarette smokers.
Summarizing the data, from 2013 there is a clear downward trend in the prevalence of smoking of young people: the proportion of current users and daily smokers in both sexes decreased by 2016.

B2-B9. HEALTH, SOCIAL AND ECONOMIC INDICATORS

B2. Exposure to tobacco smoke
B21. Do you have any data on exposure to tobacco smoke in your population?
Yes
B22. Please provide details in the space below (e.g. exposure by gender, at home, in the workplace, on public transport).
84.5% of the population (82.3% for males and 86.4% for females) is never exposed to passive tobacco smoking in their home; 80.3% (76.1% and 84.1%) is never exposed to passive tobacco smoking in other places.
B23A. Please indicate the year of the data used to answer question B21:
2014
B23B. Please indicate the source of the data used to answer question B21:
2014, European Health Interview Survey

B3. Tobacco-related mortality

B31. Do you have information on tobacco-related mortality in your population?

Yes

B32. What is the estimated total number of deaths attributable to tobacco use in your population?

21746.0000000000

B33. If available, please provide any additional information on mortality attributable to tobacco use (e.g. lung cancer, cardiovascular diseases) in your jurisdiction.

Absolute numbers of smoking-attributable deaths, Hungary 2000-2012

Year	Total

B4. Tobacco-related costs
B41. Do you have information on the economic burden of tobacco use in your population, e.g. the overall cost of tobacco use imposed on your society?
Yes
B42. Please provide details (e.g. direct (health care-related) and indirect costs and, if possible, the method used to estimate these costs).
Direct and indirect costs deriving from smoking of the Hungarian population in 2010 were more than HUF 441 billion.

B62. Do you have any information on the percentage of illicit tobacco products on the national tobacco market?
Yes

B63. What percentage of the national tobacco market do illicit tobacco products constitute? (%)
8.3000000000

B64. What is the trend over the past two years or since submission of your last report in the percentage of illicit tobacco products in relation to the national tobacco market?
Since activities on the illicit market have been decreasing, we had the best result in 2016. In 2017 (based on empty pack surveys) we experienced a slight increase.

B65. Please provide any further information on illicit tobacco products.
B63 result is from the latest days and shows the proportion of cigarettes untaxed in Hungary (includes non-domestic legal consumption). The closely estimated blackmarket of cigarettes in Hungary was at 4.1% according to the international researches (EPS result 2016: 6.4%, best in five years) Counterfeit cigarettes were below 0,5%. Belorussian cigarettes' role fades, Ukrainian products are back on the lead in illicit market.

B7. Tobacco-growing
B71. Is there any tobacco-growing in your jurisdiction?
Yes
B72. Please provide information on the number of workers involved in tobacco-growing. If available, please provide this figure broken down by gender.
120 persons were directly participating in the activities of the companies involved in the tobacco sector, i.e. employees, persons employed for less than 60 hours a month and other employed persons. 934 farmers were involved in tobacco growing, contacted with first processors. The acreage of tobacco was 3366 ha. The provided data may be used for further calculation of the estimated number of workers involved in tobacco growing, taking into account the characteristics of regional practices.
B73. Please provide, if available, the share of the value of tobacco leaf production in the national gross domestic product.
0,012%

B84. Please briefly describe the trends in taxation for tobacco products in the past two years or since submission of your last report in your jurisdiction. Hungary has gradually increased the excise tax rate for cigarettes in three steps to implement the provisions of the 2011/64/EU Directive. By September 1, 2016, the minimum tax was raised to 28 400 HUF. By January 1, 2017, Specific excise duty was raised to 16 200 HUF and the minimum tax was raised to 28 800 HUF. By July, 2017 the amount of the minimum tax was raised to 29 200 HUF
B85. Do you earmark any percentage of your taxation income for funding any national plan or strategy on tobacco control in your jurisdiction? No

C1. GENERAL OBLIGATIONS

C1. With reference to Article 5

C111. Have you developed and implemented comprehensive multisectoral national tobacco control strategies, plans and programmes in accordance with the Convention?
No

C112. Have you partially developed and implemented tobacco control strategies by including tobacco control in national health, public health or health promotion strategies, plans and programmes?
Yes

C113. Is any aspect of tobacco control that is referred to in the Convention included in any national strategy, plan or programme?
N/A

C114[C114a]. Have you established or reinforced and financed: [a focal point for tobacco control?]
Yes

C114[C114b]. Have you established or reinforced and financed: [a tobacco control unit?]
Yes

C114[C114c]. Have you established or reinforced and financed: [a national coordinating mechanism for tobacco control?]
Yes

C115. Please provide details (e.g. the nature of the national coordinating mechanism, the institution to which the focal point for tobacco control or the tobacco control unit belongs).

The Tobacco Focal Point functioned in one of The Ministry of Human Capacities' relevant agencies up until 2017.03.31. After this, from 2017.04.01. the National Institute for Health Development Tobacco Focal Point's successor is the Ministry of Human Capacities Chief Medical Office Deputy Secretary Of State Tobacco Focal Point.

The Tobacco Focal Point's main tasks:

- a) Design and coordination according to the 4th article's 2nd paragraph: comprehensive multi-sectoral measures and the construction and support of coordinated answers;
- b) comprehensive strategy and program planning tasks (5th article, 1st point);
- c) comprehensive monitoring and evaluation tasks (5th article, 1st point) about tobacco politics' contents and effects;
- d) the coordination of national research projects (20th article, 1st point);
- e) the surveillance of the collecting of social, economic and health indicators concerning and related to the tobacco consumption (20th article, 3rd paragraph, point a);
- f) the development and the maintenance of an up-to-date database of the laws and regulations (and the information about the appliance of them) related to the tobacco consumption control. (20th article, 4th paragraph, point a);
- g) the coordination of the participation in the international cooperation, mostly in the aforementioned fields;
- h) Providing reports about the appliance of the Framework Convention for the Conference of the Parties (21st article, 1st paragraph);
- i) contact with persons working in the field of tobacco control, including non-governmental organisations as well as institutions and authorities led by other departments;
- j) Processing and evaluating the working documents and preparing the draft governmental negotiation position related to the Conference of the Parties of the Framework Convention.

The task of the National Koranyi Institute of TBC and Pulmonology functional since 2012 is aimed to provide methodological help to the evidence-based cessation support, as well as to combine and manage professional activities related to the tobacco control, moreover to initiate the construction of relevant professional guidelines, additionally to make sure that information and personalised help can reach the widest circle possible through its individual and group based guidance.

Pulmonologies' work in tobacco control the support of smoking cessation was one of the primary concerns of all (148) pulmonology institutes in the examination period.

Government offices monitors the restrictions and prohibitions related to smoking.

The 61 health-development agencies, which have been founded with the support of the European Union, must also do minimal intervention related to tobacco. In the framework of the comprehensive health promotion in schools, the suppression of smoking through preventing habituation and supporting cessation is a major task.

C116. Please provide a brief description of the progress made in implementing Article 5.1 and 5.2 (General obligations) in the past two years or since submission of your last report.

In the period of reports the followings have been functioning constantly:

☒☒The Tobacco Focal Point

☒☒The Methodological Support Center for Smoking Cessation's call center (06 80 44-20-44, callable free of charge); website (www.leszokaspont.hu)

☒☒Pulmonologies' personal and group cessation support

☒☒Government offices has been monitoring the restrictions and prohibitions related to smoking.

The European Parliament and The Council released their 2014/40/EU directive on 3rd April 2014. (DIRECTIVE 2014/40/EU OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 3 April 2014 on the approximation of the laws, regulations and administrative provisions of the Member States concerning the manufacture, presentation and sale of tobacco and related products and repealing Directive 2001/37/EC), based on it, Hungary was obliged to take measures on the harmonisation of legislations. We have successfully implemented the Directive. The definitions of tobacco products, smoking, and combined health warnings were corrected.

From 2016, August 20th the introduction of integrated (without brand designation) packaging: the new cigarettes and tobacco products can only be circulated with this packaging. Products already in circulation will have temporary exemption, however from 2019 May 20th every cigarette and tobacco product must have the integrated (neutral) packaging.

The harmonization of law of the directive's implementing decisions is happening with changes in the relevant legislation, which will probably not end until 2020 May 20th.

C117. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

Based on the WHO FCTC enounced through the Act III of 2005, the Parties, as Hungary establishes or strengthens and finances a national coordination mechanism or focal points for combatting the tobacco consumption (Article 5, item 2.a.) in order to efficiently implement the Framework Agreement.

The Tobacco Focal Point is a national institution which provides decision-making and daily objects of the coordinating, policy-monitoring and evaluation, data-collectioning and planning, national reporting as well as international communication tasks during the implementation of national coordination activities related to the control of tobacco consumption.

Its further activities are:

Comprehensive and evaluation activities,

Supervision of collecting social, economic and health indicators related to the tobacco consumption, research, organization, coordination,

Implementation of multi-sectoral strategic planning and coordination activity related to the reduce of tobacco use,

Tobacco-using prevention related to the youth, preparing prevention programmes, collecting the best practices, registry-creating and suggesting programmes for the educational institutions. Preparation of framework of the national spreading and participation in the realisation process,

Implementation of model-programmes and supervision of its efficiency,

Implementation of national and international programmes, cooperation with several foreign partners at all levels active in the reducing of tobacco use, utilization of international experiences in the national programming,

Monitoring of activities of the NGOs, cooperation, joint programming,

Creating and running database related to the laws, regulations of the reducing of tobacco use and the information of their adaptations.

Participation in the preparation, implementation and evaluation processes related to the Framework Convention on Tobacco Control and in the national implementation of the convention.

C12. Protection of public health policies with respect to tobacco control from commercial and other vested interests of the tobacco industry Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C121. protecting public health policies with respect to tobacco control from commercial and other vested interests of the tobacco industry?

Yes

C122. ensuring that the public has access, in accordance with Article 12(c), to a wide range of information on tobacco industry activities relevant to the objectives of the Convention, such as in a public repository?

No

C123. Please provide details in the space below.

No further steps have been made in the implementation of Article 5.3.

C124. Please provide a brief description of the progress made in implementing Article 5.3 in the past two years or since submission of your last report.

Hungary made use of all the options that the aforementioned 2014/40/EU directive provides:

regulation of electronic cigarettes, the introduction of a single, neutral packaging system of tobacco products, the banning of menthol capsules, the use of combined health-warnings on all tobacco products, the regulation of additives in tobacco products.

The State Secretariat for Health of the Ministry of Human Capacities is not related to the representatives of the tobacco industry.

C125. Have you utilized the "Guidelines for implementation of Article 5.3 of the WHO FCTC" when developing or implementing policies in this area?

N/A

C126. Please provide details in the space below or refer to section I of the additional questionnaire. Response to this question or to the additional questionnaire is voluntary. <https://extranet.who.int/dataform/655321?token={TOKEN}<=en>

C22. Protection from exposure to tobacco smoke Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C221. banning tobacco smoking in indoor workplaces, public transport, indoor public places and, as appropriate, other public places ?
Yes

C222[1]. What is the type/nature of the measure providing for the ban? [national law]
Yes

C222[2]. What is the type/nature of the measure providing for the ban? [subnational law(s)]
Yes

C222[3]. What is the type/nature of the measure providing for the ban? [administrative and executive orders]
Yes

C222[4]. What is the type/nature of the measure providing for the ban? [voluntary agreements]
No

C222[5]. What is the type/nature of the measure providing for the ban? [other measures (please specify in C223 below)]
No

C223. Please provide a brief explanation of the type/nature and content of the measures providing for the ban.

Based on the the Act XLII of 1999 on the Protection of Non-Smokers and Certain Regulations on the Consumption and Distribution of Tobacco Products, it is forbidden to smoke in commercial enclosed public spaces and community places. It is still forbidden to smoke in, apart from the selected sites, public institutions open to public premises, or public transport vehicles, workplaces, underpasses open to pedestrian traffic, and other, enclosed public traffic sites, connecting spaces, as well as in public playgrounds and within 5 metersmeasured from the outer zone of playgrounds.

It is also forbidden to smoke in areas used by passengers in railway stations, as well as in bus, trolleybus and tram stops, and in waiting areas and within their 5 meter zone.

It is forbidden to set up / establish smoking areas in public institutions and workplaces' enclosed premises, local public transport vehicles, in the HÉV (inter-urban train), in the coach, and in scheduled passenger trains.

Not only in the public education, child welfare and child protection institutions, but in the health care providers it is forbidden to set up / establish smoking areas, even in open air-space places. In correctional institutions, for the detainees – including the mentally ill -, in psychiatric institutes for the psychiatric patients, and for thoseemployeesworking in places where the corrected workspace climate temperature exceeds 24 °, and under certain conditions in increased flammable and explosive areas, flammable and explosive areas, and also in flammable workplaces, it is possible to set up / establish enclosed smoking areas.

However, the workplaces were not indicated as a non-smoker workplace, an open air-space smoking area must be set up / established. It is prohibited to smoke in shared, enclosed premises in apartment-houses and housing cooperatives if minimum four-fifths of the owners or housing cooperative members do not decide otherwise.

The local government can mark public spaces as non-smoker public spaces in their regulation.

The legislative amendment, in effect from 2016.05.20., states that in places that are smoking restricted, electronic cigarettes and smoking imitating electronic devices must not be used.

C224. Do any of these measures provide for a mechanism/ infrastructure for enforcement?
Yes

C225. Please provide details of this system.

Yes the Article 12 of the Decree 39/2013 (II.14.) on the production, the entry into service and the controlling of tobacco products, the joint warnings and the detailed rules of the application of health-care fine includes the rules related to the health-care fine.

The government body responsible for health monitors the observing of smoking restrictions and in case of their breach, it imposes health-care fine on the infringing natural/legal person or institution without legal personality. The amount of the fine did not change, it means:

a) in case of breach of smoking-related prohibitions or restrictions: minimum HUF 20,000, maximum HUF 50,000;

b) the non-execution or improper execution of the obligation of setting up smoking areas, as well as the failure to adhere to the obligation to oversee smoking-related prohibitions and restrictions:

ba) minimum HUF 100,000, maximum HUF 250,000 in case of the person responsible for the observation of these rules;

bb) minimum HUF 1,000,000, maximum HUF 2,500,000 in case of institutions, organisations, operators or business organisations.

The Office of the Chief Medical Officer and government offices constantly examine the observation of the smoking-related prohibitions and restrictions, in case of breach of the smoking prohibition, it is possible to make a report.

C226cc. Please provide a brief explanation of any "other" policies in the space below

C227. Please provide a brief summary of complete and partial measures, with specific details of the partial measures that have been implemented:

C227a. Banning tobacco smoking in indoor workplaces

Under Legislation, the smoking in enclosed workplaces is forbidden, regarding the following exceptions.

Act XLII of 1999:

„2. §

(5) According to the provisions of Subsections (7)-(9) indoor smoking areas may be designated:

- a) in the cases described in Section 9;
 - b) in penal institutions, police detention facilities, lockups and compounds of restricted access for the inmates and detainees, including those suffering in some form of mental disorder;
 - c) in the psychiatric institutions referred to in Paragraph a) of Section 188 of the HCA, for psychiatric patients;
 - d) for workers, where the adjusted effective temperature - defined in specific other legislation - in indoor workplaces is higher than 24 °C;
 - e) for workers working in places rated extremely or highly flammable or in workplaces and facilities of moderate fire risk where areas may not be designated outdoors for smoking:
 - ea) in harmony with break-times provided under the Labor Code,
 - eb) in compliance with fire regulations, and
 - ec) in accord with the nature of the activity pursued,
- or may be designated only at the expense of causing serious danger to safety of life or property, or to the national economy.”

C227b. Banning tobacco smoking in public transport

The following rule is still in force:

No area can be designated for smoking in case of public transport local public transport services, trains local railway services, buses/coaches domestic intercity public transport services based on service schedules as well as of passenger trains in scheduled railway services.

The same rule applies for areas of railway operation facilities in place for the provision of public railway services and in the accessories of the railway track that are open to the public, in the stops and stations constructed or designated as passenger boarding or alighting from the means of public transport, in waiting areas or rooms, and within a distance of 5 metres of the external borderlines of outdoor stops or waiting areas.

In case of other means of public transport in service in the public transport system or in private transport services, decision on the designation of smoking areas shall be made by the operator of the service.

C227c. Banning tobacco smoking in indoor public places

No smoking area can be designated for smoking in public institutions, in rooms of closed air spaces, even in open air spaces in public education institutions, in child welfare and child protection institutions, in the premises of health service providers. Smoking area may also be designated in a closed air space for detainees held in penitentiary institutions and prisons, for psychiatric patients in psychiatric institutions.

Public spaces can be designated as non-smoking public space by the local government through regulations.

C228. Please provide a brief description of the progress made in implementing Article 8 (Protection from exposure to tobacco smoke) in the past two years or since submission of your last report.

In Hungary it is a milestone, that the Parliament decided the modification of the Act XLII of 1999 on the certain rules of the protection of non-smokers and of the consumption and marketing of tobacco products by extremely high – 84 % - qualified majority on 26 April 2011 whereby it has been forbidden since 1 January 2012 to smoke in enclosed public places and public spaces. According to the surveys and the monitorings it can be stated that the legislative amendment is highly appreciated (85%) in the society and people comply with it properly.

By modifying the law, Hungary has joined those countries, which had implemented one of the most modern anti-smoking legislation of Europe. Based on it, they meet the criteria of the health policy, technical requirements and recommendations of the EU and the WHO.

After the amendment of national property law, the average concentration of the indoor air pollution, which is mainly attributable to the tobacco smoke, has been reduced by 90% in the entertainment and dining areas. According to the results of the European population health survey done in 2014 it can be stated that there has been a further significant improvement in relation with the exposure to passive smoking compared to the 2009 data.

Smoke-free Hungary Case Study (2014)

The Smoking Focal Point (NOEFI) has prepared a case study (Smoke-free Hungary) on the impact assessment of the amendment of legislation on the protection of non-smokers with the support of WHO.

The case study is aimed to present the actions effectively enhancing the reduction of smoking which were introduced in the past years. The introduction of these measures is unique among the FCTC Parties of WHO and the Member States of the EU.

<http://www.euro.who.int/en/countries/france/publications3/tobacco-control-in-practice/article-8-protection-from-exposure-to-tobacco-smoke-the-story-of-hungary>

C229. Have you utilized the "Guidelines for implementation of Article 8 of the WHO FCTC" when developing or implementing policies in this area?

N/A

C2210. Please provide details in the space below or refer to section B of the additional questionnaire. Response to this question or to the additional questionnaire is voluntary. <https://extranet.who.int/dataform/655321?token={TOKEN}&=en>

C2211. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

According to the Act XLII of 1999:

„Section 2

„(3) By way of derogation from Paragraph a) of Subsection (1), smoking is permitted without the designation of a smoking area:

a)

b) in the enclosed rooms of institutions providing accommodations, if let and expressly designated as a room for smokers; provided that smoking is not prohibited by other provisions of this Act or by fire regulations.”

„(6) The government body in charge of the healthcare system and the fire protection authority shall inspect designated smoking areas for compliance with the provisions of this Act and from the point of view of fire prevention, respectively.

(7) Areas and spaces where smoking and the use of electronic cigarette and electronic device imitating smoking is prohibited, and areas, spaces and public places designated for smoking and for the use of electronic cigarette and electronic device imitating smoking must be clearly indicated as such by means of a symbol or other explicit sign, or a standard prohibitive sign or pictogram in the event of prohibition under fire regulations.

(8) Where an enclosed area is designated for smoking under this Act, such smoking section can not be designated in the same room where a non-smoking area is also located. In the case of enclosed smoking areas, an adequate supply of fresh air must be ensured through windows or by the installation of other technical means, where tobacco smoke must not be allowed to enter the non-smoking areas. In the application of this Subsection, circulation of air shall be considered adequate if:

a) a ventilation mechanism providing a steady supply of fresh air and the removal of spent air is installed, and

b) the designation of the smoking areas and the air ventilation of the premises are designed in such a way that tobacco smoke flows directly from where it originates through the ventilation conduit without the non-smoking areas being in the direction of the flow.”

C23. Regulation of the contents of tobacco products Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C231. testing and measuring the contents of tobacco products?

Yes

C232. testing and measuring the emissions of tobacco products?

Yes

C233. regulating the contents of tobacco products?

Yes

C234. regulating the emissions of tobacco products?

Yes

C235. Please provide a brief description of the progress made in implementing Article 9 (Regulation of the contents of tobacco products) in the past two years or since submission of your last report.

A new legislation of the relevant field has been adopted: Directive 2014/40/EU of the European Parliament and of the Council of 3 April 2014 on the approximation of the laws, regulations and administrative provisions of the Member States concerning the manufacture, presentation and sale of tobacco and related products and repealing Directive 2001/37/EC. The relevant provisions of the Directive have been transposed at national level.

C236. Have you utilized the “Guidelines for implementation of Articles 9 and 10 of the WHO FCTC” when developing or implementing policies in this area?

N/A

C237. Please provide details in the space below or refer to section C of the additional questionnaire. Response to this question or to the additional questionnaire is voluntary. <https://extranet.who.int/dataform/655321?token={TOKEN}&=en>

C238. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

C25. Packaging and labelling of tobacco products Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C251. requiring that packaging, individual cigarettes or other tobacco products do not carry advertising or promotion?
Yes

C252. requiring that packaging and labelling do not promote a product by any means that are false, misleading, deceptive or likely to create an erroneous impression about its characteristics, health effects, hazards or emissions?
Yes

C253. requiring that each unit packet and package of tobacco products and any outside packaging and labelling of such products carry health warnings describing the harmful effects of tobacco use?
Yes

C254. ensuring that the health warnings are approved by the competent national authority?
Yes

C255. ensuring that the health warnings are rotated?
Yes

C256. ensuring that the health warnings are clear, visible and legible?
Yes

C257. Does your law mandate, as a minimum, a style, size and colour of font to render the warning clear, visible and legible?
Yes

C258. ensuring that the health warnings occupy no less than 30% of the principal display areas?
Yes

C259. ensuring that the health warnings occupy 50% or more of the principal display areas?
No

C2510. ensuring that health warnings are in the form of, or include, pictures or pictograms?
Yes

C2511. Does the Government own the copyright to these pictures and pictograms?
No

C2512. Would you grant a non-exclusive and royalty-free licence for the use of health warnings developed in your jurisdiction with other Parties?
No

C2513[1]. requiring that each unit packet and package of tobacco products and any outside packaging and labelling of such products contain information on relevant: [constituents of tobacco products?]
Yes

C2513[2]. requiring that each unit packet and package of tobacco products and any outside packaging and labelling of such products contain information on relevant: [emissions of tobacco products?]
No

C2514. requiring that the warnings and other textual information appear on each unit packet and package and on any outside packaging and labelling in the principal language or languages of the country?
Yes

C2515. Please provide a brief description of the progress made in implementing Article 11 (Packaging and labelling of tobacco products) in the past two years or since submission of your last report.
With regard to the protection of non-smokers it has been determined in 2016.05.20., that the package unit, the package labeling and the tobacco products can not contain any element or solution as follows:

- Which advertises the tobacco product in a false impressive manner with regard to the product specifications, its effects on health, its risks or the emissions, moreover in this way, it encourages its consumption;
- Which does mark no information of the nicotine-, tar-, and carbon monoxide content of the tobacco product;
- Which suggests, that the particular tobacco product is less harmful than other products, or it refers to its revitalizing, energizing, healing, rejuvenating, natural and organic characteristics;
- Which refers to taste, smell, flavor or other additives or lack of them by misleading the consumers;
- Which reminds of food or cosmetic product;
- Which suggests, that certain tobacco products can decompose biologically easily or have other environmental benefits;
- Which refers to economic advantage (e.g.: „buy one, get one free”)

Tobacco products distance sales is prohibited.

From 2016, August 20th the introduction of integrated (without brand designation) packaging: the new cigarettes and tobacco products can only be circulated with this packaging. Products already in circulation will have temporary exemption, however from 2019 May 20th every cigarette and tobacco product must have the integrated packaging.

C2516. Have you utilized the “Guidelines for implementation of Article 11 of the WHO FCTC” when developing or implementing policies in this area?
N/A

C2517. Please provide details in the space below or refer to section D of the additional questionnaire. Response to this question or to the additional questionnaire is voluntary. <https://extranet.who.int/dataform/655321?token={TOKEN}&=en>

C2518. If you have any other relevant information pertaining to or not covered in this section, please provide details in the space below.

For point 3.2.5.13: from emission tar, nicotine and carbone-monoxide shall be depicted on the packaging.

C2519. Please attach the relevant documentation.

C2519[filecount]. filecount - Please attach the relevant documentation.

C26. Education, communication, training and public awareness Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C261. educational and public awareness programmes? (Please refer to programmes implemented since submission of your two-year report.)

Yes

C262[1]. To whom are these programmes targeted? [adults or the general public]

Yes

C262[2]. To whom are these programmes targeted? [children and young people]

Yes

C262[3]. To whom are these programmes targeted? [men]

Yes

C262[4]. To whom are these programmes targeted? [women]

Yes

C262[5]. To whom are these programmes targeted? [pregnant women]

No

C262[6]. To whom are these programmes targeted? [ethnic groups]

No

C262[7]. To whom are these programmes targeted? [other (please specify)]

No

C262[other]. To whom are these programmes targeted? [Other]

C263[1]. Do you reflect the following key differences among targeted population groups in educational and public awareness programmes? [age]

Yes

C263[2]. Do you reflect the following key differences among targeted population groups in educational and public awareness programmes? [gender]

No

C263[3]. Do you reflect the following key differences among targeted population groups in educational and public awareness programmes? [educational background]

No

C263[4]. Do you reflect the following key differences among targeted population groups in educational and public awareness programmes? [cultural background]

No

C263[5]. Do you reflect the following key differences among targeted population groups in educational and public awareness programmes? [socioeconomic status]

No

C263[6]. Do you reflect the following key differences among targeted population groups in educational and public awareness programmes? [other (please specify)]

Yes

C263[other]. Do you reflect the following key differences among targeted population groups in educational and public awareness programmes? [Other]
occupation

C264[1]. Do these educational and public awareness programmes cover: [health risks of tobacco consumption?]
Yes

C264[2]. Do these educational and public awareness programmes cover: [health risks of exposure to tobacco smoke?]
Yes

C264[3]. Do these educational and public awareness programmes cover: [benefits of the cessation of tobacco use and tobacco-free lifestyles?]
Yes

C264[4]. Do these educational and public awareness programmes cover: [adverse economic consequences of tobacco production?]
No

C264[5]. Do these educational and public awareness programmes cover: [adverse economic consequences of tobacco consumption?]
No

C264[6]. Do these educational and public awareness programmes cover: [adverse environmental consequences of tobacco production?]
No

C264[7]. Do these educational and public awareness programmes cover: [adverse environmental consequences of tobacco consumption?]
No

C265[1]. awareness and participation of the following agencies and organizations in development and implementation of intersectoral programmes and strategies for tobacco control: [public agencies?]
Yes

C265[2]. awareness and participation of the following agencies and organizations in development and implementation of intersectoral programmes and strategies for tobacco control: [nongovernmental organizations not affiliated with the tobacco industry?]
No

C265[3]. awareness and participation of the following agencies and organizations in development and implementation of intersectoral programmes and strategies for tobacco control: [private organizations?]
No

C265[4]. awareness and participation of the following agencies and organizations in development and implementation of intersectoral programmes and strategies for tobacco control: [other (please specify)?]
No

C265[other]. awareness and participation of the following agencies and organizations in development and implementation of intersectoral programmes and strategies for tobacco control: [Other]

C266. Are the elaboration, management and implementation of communication, education, training and public awareness programmes guided by research and do they undergo pre-testing, monitoring and evaluation?
Yes

C267[1]. Are appropriate and special training or sensitization and awareness programmes on tobacco control addressed to: [health workers?]
No

C267[2]. Are appropriate and special training or sensitization and awareness programmes on tobacco control addressed to: [community workers?]
No

C267[3]. Are appropriate and special training or sensitization and awareness programmes on tobacco control addressed to: [social workers?]
No

C267[4]. Are appropriate and special training or sensitization and awareness programmes on tobacco control addressed to: [media professionals?]
No

C267[5]. Are appropriate and special training or sensitization and awareness programmes on tobacco control addressed to: [educators?]
Yes

C267[6]. Are appropriate and special training or sensitization and awareness programmes on tobacco control addressed to: [decision-makers?]
No

C267[7]. Are appropriate and special training or sensitization and awareness programmes on tobacco control addressed to: [administrators?]
No

C267[8]. Are appropriate and special training or sensitization and awareness programmes on tobacco control addressed to: [other (please specify)]
No

C267[other]. Are appropriate and special training or sensitization and awareness programmes on tobacco control addressed to: [Other]

C268. Please provide a brief description of the progress made in implementing Article 12 (Education, communication, training and public awareness) in the past two years or since submission of your last report.
The Secretary of State for Public Education at the Ministry of Human Capacities organized a conference with the Hungarian Institute for Educational Research and Development (OFI) on 03.10.2014. The title was „Educators for health”. The aim of the conference was to introduce health prevention programs and best-practices, which are suitable from nursery to elementary and secondary schools for every age. One of the main purpose of the public education system is health education and to introduce healthy life paths as institutional actors. Previously OFI collected the exemplary and well established health programs in the educational institutions of the country. The prevention of smoking and the fight against smoking are essential parts of these programs.

C269. Have you utilized the “Guidelines for implementation of Article 12 of the WHO FCTC” when developing and implementing policies in this area?
N/A

C27. Tobacco advertising, promotion and sponsorship Have you adopted and implemented, where appropriate, any legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes:

C271. instituting a comprehensive ban on all tobacco advertising, promotion and sponsorship?
Yes

C272[1]. Does your ban cover: [display and visibility of tobacco products at points of sales?]
No

C272[2]. Does your ban cover: [the domestic Internet?]
Yes

C272[3]. Does your ban cover: [the global Internet?]
Yes

C272[4]. Does your ban cover: [brand stretching and/or brand sharing?]	No
C272[5]. Does your ban cover: [product placement as a means of advertising or promotion?]	Yes
C272[6]. Does your ban cover: [the depiction of tobacco or tobacco use in entertainment media products?]	Yes
C272[7]. Does your ban cover: [tobacco sponsorship of international events or activities and/or participants therein?]	Yes
C272[8]. Does your ban cover: [contributions from tobacco companies to any other entity for "socially responsible causes" and/or any other activities implemented under the umbrella of "corporate social responsibility" by the tobacco industry?]	No
C272[9]. Does your ban cover: [cross-border advertising, promotion and sponsorship originating from your territory?]	Yes
C272[10]. Does your ban cover: [the same forms of cross-border advertising, promotion and sponsorship entering your territory for which domestic regulation apply?]	Yes
C273. are you precluded by your constitution or constitutional principles from undertaking a comprehensive ban on tobacco advertising, promotion and sponsorship?	N/A
C274. applying restrictions on all tobacco advertising, promotion and sponsorship?	N/A
C275. applying restrictions on cross-border advertising, promotion and sponsorship originating from your territory with cross-border effects?	N/A
C276. prohibiting those forms of tobacco advertising, promotion and sponsorship that promote a tobacco product by any means that are false, misleading, deceptive or likely to create an erroneous impression about its characteristics, health effects, hazards or emissions?	N/A
C277. requiring that health or other appropriate warnings or messages accompany all tobacco advertising, promotion and sponsorship?	N/A
C278. restricting the use of direct or indirect incentives that encourage the purchase of tobacco products by the public?	N/A
C279. requiring the disclosure to relevant Government authorities of expenditures by the tobacco industry on advertising, promotion and sponsorship not yet prohibited?	N/A
C2710[1]. restricting tobacco advertising, promotion and sponsorship on: [radio?]	N/A
C2710[2]. restricting tobacco advertising, promotion and sponsorship on: [television?]	N/A
C2710[3]. restricting tobacco advertising, promotion and sponsorship on: [print media?]	N/A
C2710[4]. restricting tobacco advertising, promotion and sponsorship on: [the domestic Internet?]	N/A
C2710[5]. restricting tobacco advertising, promotion and sponsorship on: [the global Internet?]	N/A

C2710[6]. restricting tobacco advertising, promotion and sponsorship on: [other media (please specify below)?]
N/A
C2711[1]. restricting tobacco sponsorship of: [international events and activities?]
N/A
C2711[2]. restricting tobacco sponsorship of: [participants therein?]
N/A
C2712. cooperating with other Parties in the development of technologies and other means necessary to facilitate the elimination of cross-border advertising?
No
C2713. imposing penalties for cross-border advertising equal to those applicable to domestic advertising, promotion and sponsorship originating from your territory in accordance with national law?
Yes
C2714. Please provide a brief description of the progress made in implementing Article 13 (Tobacco advertising, promotion and sponsorship) in the past two years or since submission of your last report.
C2715. Have you utilized the "Guidelines for implementation of Article 13 of the WHO FCTC" when developing and implementing policies in this area?
N/A

C28. Demand reduction measures concerning tobacco dependence and cessation Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:
C281. developing and disseminating appropriate, comprehensive and integrated guidelines based on scientific evidence and best practices?
Yes
C282[1]. programmes to promote cessation of tobacco use, including: [media campaigns emphasizing the importance of quitting?]
No
C282[2]. programmes to promote cessation of tobacco use, including: [programmes specially designed for underage girls and young women?]
No
C282[3]. programmes to promote cessation of tobacco use, including: [programmes specially designed for women?]
No
C282[4]. programmes to promote cessation of tobacco use, including: [programmes specially designed for pregnant women?]
Yes
C282[5]. programmes to promote cessation of tobacco use, including: [telephone quitlines?]
Yes

C282[6]. programmes to promote cessation of tobacco use, including: [local events, such as activities related to World No Tobacco Day or National No Smoking Day, if appropriate?]
Yes
C282[7]. programmes to promote cessation of tobacco use, including: [other (please specify)?]
No
C282[other]. programmes to promote cessation of tobacco use, including: [Other]
C283[1]. design and implementation of programmes aimed at promoting the cessation of tobacco use, in such locations as: [educational institutions?]
Yes
C283[2]. design and implementation of programmes aimed at promoting the cessation of tobacco use, in such locations as: [health-care facilities?]
Yes
C283[3]. design and implementation of programmes aimed at promoting the cessation of tobacco use, in such locations as: [workplaces?]
Yes
C283[4]. design and implementation of programmes aimed at promoting the cessation of tobacco use, in such locations as: [sporting environments?]
No
C283[5]. design and implementation of programmes aimed at promoting the cessation of tobacco use, in such locations as: [other (please specify)?]
No
C283[other]. design and implementation of programmes aimed at promoting the cessation of tobacco use, in such locations as: [Other]
C284[1]. inclusion of diagnosis and treatment of tobacco dependence and counselling services for cessation of tobacco use in national programmes, plans and strategies for: [tobacco control?]
Yes
C284[2]. inclusion of diagnosis and treatment of tobacco dependence and counselling services for cessation of tobacco use in national programmes, plans and strategies for: [health?]
Yes
C284[3]. inclusion of diagnosis and treatment of tobacco dependence and counselling services for cessation of tobacco use in national programmes, plans and strategies for: [education?]
Yes
C285. inclusion of programmes on the diagnosis and treatment of tobacco dependence in your health-care system?
Yes
C286[1]. Which structures in your health-care system provide programmes for the diagnosis and treatment of tobacco dependence? [primary health care]
Yes
C286[2]. Which structures in your health-care system provide programmes for the diagnosis and treatment of tobacco dependence? [secondary and tertiary health care]
Yes
C286[3]. Which structures in your health-care system provide programmes for the diagnosis and treatment of tobacco dependence? [specialist health-care systems (please specify below)]
Yes
C286[4]. Which structures in your health-care system provide programmes for the diagnosis and treatment of tobacco dependence? [specialized centres for cessation counselling and treatment of tobacco dependence]
No

C286[5]. Which structures in your health-care system provide programmes for the diagnosis and treatment of tobacco dependence? [rehabilitation centres]
Yes

C286[other]. Which structures in your health-care system provide programmes for the diagnosis and treatment of tobacco dependence? [Other]
Pulmonology

C287[1]. Are the services provided in these settings covered by public funding or reimbursement schemes? [primary health care]
Partially

C287[2]. Are the services provided in these settings covered by public funding or reimbursement schemes? [secondary and tertiary health care]
Partially

C287[3]. Are the services provided in these settings covered by public funding or reimbursement schemes? [specialist health-care systems (please specify below)]
Partially

C287[4]. Are the services provided in these settings covered by public funding or reimbursement schemes? [specialized centres for cessation counselling and treatment of tobacco dependence]
None

C287[5]. Are the services provided in these settings covered by public funding or reimbursement schemes? [rehabilitation centres]
Partially

C287[6]. Are the services provided in these settings covered by public funding or reimbursement schemes? [other (please specify below)]
None

C287b. Please provide other details in the space below.

C288[1]. Which health and other professionals are involved in programmes offering treatment for tobacco dependence and counselling services? Health professionals including: [physicians]
Yes

C288[2]. Which health and other professionals are involved in programmes offering treatment for tobacco dependence and counselling services? Health professionals including: [dentists]
No

C288[3]. Which health and other professionals are involved in programmes offering treatment for tobacco dependence and counselling services? Health professionals including: [family doctors]
Yes

C288[4]. Which health and other professionals are involved in programmes offering treatment for tobacco dependence and counselling services? Health professionals including: [practitioners of traditional medicine]
No

C288[5]. Which health and other professionals are involved in programmes offering treatment for tobacco dependence and counselling services? Health professionals including: [other medical professionals (please specify below)]
Yes

C288[6]. Which health and other professionals are involved in programmes offering treatment for tobacco dependence and counselling services? Health professionals including: [nurses]
Yes

C288[7]. Which health and other professionals are involved in programmes offering treatment for tobacco dependence and counselling services? Health professionals including: [midwives]
No

C288[8]. Which health and other professionals are involved in programmes offering treatment for tobacco dependence and counselling services? Health professionals including: [pharmacists]
No

C288[9]. Which health and other professionals are involved in programmes offering treatment for tobacco dependence and counselling services? Health professionals including: [Community workers]
No
C288[10]. Which health and other professionals are involved in programmes offering treatment for tobacco dependence and counselling services? Health professionals including: [Social workers]
No
C288[11]. Which health and other professionals are involved in programmes offering treatment for tobacco dependence and counselling services? Health professionals including: [other (please specify)]
Yes
C288[other]. Which health and other professionals are involved in programmes offering treatment for tobacco dependence and counselling services? Health professionals including: [Other]
health visitors
C289[1]. training on tobacco dependence treatment incorporated into the curricula of health professional training at pre- and post-qualification levels at the following schools: [medical?]
Yes
C289[2]. training on tobacco dependence treatment incorporated into the curricula of health professional training at pre- and post-qualification levels at the following schools: [dental?]
No
C289[3]. training on tobacco dependence treatment incorporated into the curricula of health professional training at pre- and post-qualification levels at the following schools: [nursing?]
Yes
C289[4]. training on tobacco dependence treatment incorporated into the curricula of health professional training at pre- and post-qualification levels at the following schools: [pharmacy?]
No
C289[other]. training on tobacco dependence treatment incorporated into the curricula of health professional training at pre- and post-qualification levels at the following schools: [Other]
health visitors
C2810. facilitating accessibility and/or affordability of pharmaceutical products for the treatment of tobacco dependence?
Yes
C2811. Where and how can these products be legally purchased in your country?
Nicotine replacement products can be purchased at pharmacies as an OTC product or based on the recommendation of a cessation counselling specialist. Varenicline purchase is prescription based and can only be offered by a physician.
C2812[1]. Which pharmaceutical products are legally available for the treatment of tobacco dependence in your jurisdiction? [nicotine replacement therapy]
Yes
C2812[2]. Which pharmaceutical products are legally available for the treatment of tobacco dependence in your jurisdiction? [bupropion]
No
C2812[3]. Which pharmaceutical products are legally available for the treatment of tobacco dependence in your jurisdiction? [varenicline]
Yes
C2812[4]. Which pharmaceutical products are legally available for the treatment of tobacco dependence in your jurisdiction? [other (please specify)]
No
C2812[other]. Which pharmaceutical products are legally available for the treatment of tobacco dependence in your jurisdiction? [Other]
Bupropion can be prescribed by psychiatrist specialists in the indication of depressive disorders, therefore it may be available for smoking cessation in patients with depression.
C2813[1]. Are the costs of these products covered by public funding or reimbursement? [nicotine replacement therapy]
None

C2813[2]. Are the costs of these products covered by public funding or reimbursement? [bupropion]
None

C2813[3]. Are the costs of these products covered by public funding or reimbursement? [varenicline]
None

C2813[4]. Are the costs of these products covered by public funding or reimbursement? [other (please specify below)]

C2813b. Please provide other details in the space below.

C2814. Please provide a brief description of the progress made in implementing Article 14 (Demand reduction measures concerning tobacco dependence and cessation) in the past two years or since submission of your last report.
The National Methodological Centre for Smoking Cessation continued its wide array of smoking cessation programmes (TÁMOP). The Centre is responsible for running the national quitline service, providing courses on tobacco dependence and cessation training, being present at public community events aiming at health promotion and collaborating nationally with specialists for comprehensive tobacco dependence treatment.

C2815. Have you utilized the "Guidelines for implementation of Article 14 of the WHO FCTC" when developing and implementing policies in this area?
Yes

C2816. Please provide details in the space below or refer to section G of the additional questionnaire. Response to this question or to the additional questionnaire is voluntary. <https://extranet.who.int/dataform/655321?token={TOKEN}&=en>
Bearing in mind the WHO FCTC recommendations and taking into account local characteristics, new areas are being reached out to in tobacco control (such as extending education and new approaches to promote tobacco cessation by participating at community events). The National Methodological Centre for Smoking Cessation is a participating partner in the Eastern Europe Nurses' Centre of Excellence for Tobacco Control (EE-COE) project, sponsored by the International Society of Nurses in Cancer Care (ISNCC), designed to develop nurse champions for tobacco dependence treatment and to strengthen nurses' commitment to remain smoke-free. Nurses are uniquely positioned to implement Article 14 and offer cessation assistance to patients given that they are in contact with patients and family throughout the hospitalization experience and in follow-up visits. In 2017, the Centre reached 383 healthcare workers across the country through various educational activities.

C2817. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

C3. MEASURES RELATING TO THE REDUCTION OF THE SUPPLY OF TOBACCO

C3. With reference to Articles 15–17

C31. Illicit trade in tobacco products Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C311. requiring marking of all unit packets and packages of tobacco products and any outside packaging of such products to assist in determining the origin of the product?
No

C312. requiring marking of all unit packets and packages of tobacco products and any outside packaging of such products to assist in determining whether the product is legally sold on the domestic market?
Yes

C313. requiring that unit packets and packages of tobacco products for retail and wholesale use that are sold on the domestic market carry the statement: "Sales only allowed in ..." or carry any other effective marking indicating the final destination of the product?
Yes

C314. developing a practical tracking and tracing regime that would further secure the distribution system and assist in the investigation of illicit trade?
No

C315. requiring that marking is presented in legible form and/or appears in the principal language or languages of the country?
Yes

C316. requiring the monitoring and collection of data on cross-border trade in tobacco products, including illicit trade?
Yes

C317. facilitating the exchange of this information among customs, tax and other authorities, as appropriate, and in accordance with national law and applicable bilateral and multilateral agreements?
Yes

C318. enacting or strengthening legislation, with appropriate penalties and remedies, against illicit trade in tobacco products, including counterfeit and contraband cigarettes?
Yes

C319. requiring that confiscated manufacturing equipment, counterfeit and contraband cigarettes and other tobacco products derived from illicit trade are destroyed, using environment-friendly methods where possible, or disposed of in accordance with national law?
Yes
