B8. Taxation of tobacco products (with reference to Articles 6.2(a) and 6.3)
B81. What proportion of the retail price of the most popular price category of tobacco product consists of taxes (e.g. sum of excise, sales and import duties (if applicable) and value added tax/goods and services tax (VAT/GST))?
52.4800000000
B82[SQ001]. How are the excise taxes levied (what types of taxes are levied)? [Specific tax only]
Yes
B82[SQ002]. How are the excise taxes levied (what types of taxes are levied)? [Ad valorem tax only]
No
B82[SQ003]. How are the excise taxes levied (what types of taxes are levied)? [Combination of specific and ad valorem taxes]
No
B82[SQ004]. How are the excise taxes levied (what types of taxes are levied)? [More complex structure (please explain below)]
Yes
B82a. If a more complex structure of taxes (please explain):
The taxes provided below are other taxes. Only SCT is considered an excise tax. And therefore it is a specific tax only. The taxes and fees levied on cigarette are Import Duty (ID), General Consumption Tax (GCT), Special Consumption Tax (SCT), Standard Compliance Fee (SCF), Environmental Levy (ENVL) and Customs Administration Fee (CAF). The ad Valorem taxes are levied on the Cost, Insurance and Freight (CIF) value of the commodity. The SCT is a specific tax and is therefore levied on the quantity or volume of imports, in this case, the number of sticks imported. GCT has a cascading effect. It is the last tax type computed. GCT is levied on the sum of the CIF value and the amount of all the aforementioned taxes.

Yes
C115. Please provide details (e.g. the nature of the national coordinating mechanism, the institution to which the focal point for tobacco control or the tobacco control unit belongs).
A National Multi-sectoral and Multidisciplinary Technical Working Group was established. The focal point for tobacco control resides within the Ministry of Health.
C116. Please provide a brief description of the progress made in implementing Article 5.1 and 5.2 (General obligations) in the past two years or since submission of your last report.
On July 15, 2013 the Public Health (Tobacco Control) Regulations 2013 was promulgated and subsequently amended in 2014. Over the past two years, there has been increased collaboration with several ministries, departments and agencies with a view to understanding and adhering to Jamaica's obligations under the FCTC and enforcing the regulations. Jamaica commenced implementation of a National Strategic Plan for the Prevention and Control of NCDs in Jamaica 2013 to 2018. We have engaged stakeholders and have obtained written comments in relation to a Cabinet Submission on the impending Framework Convention on Tobacco Control (Implementation) Bill. The Cabinet Submission has been reviewed based on stakeholder feedback is now being finalized for presentation to Cabinet for approval to proceed with the drafting of the Bill in short order.
C117. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.
The Ministry intends to have the legislation in place for the 2018/2019 legislative year.

D11. Please provide details in the space below.
We have approached WHO and PAHO, UN Development entities and philanthropic organizations to provide funding to support implementation of legislation, research and tobacco counter interference

E. PRIORITIES AND COMMENTS

E1. What are the priorities for implementation of the WHO Framework Convention on Tobacco Control in your jurisdiction?
Our current priority remains the implementation of a comprehensive tobacco control legislation to address all the provisions of the FCTC which have not been included in the existing tobacco control regulations.
Other priorities include: the strengthening enforcement of the existing law and a national tobacco control communication campaign.

E2. Have you identified any specific gaps between the resources available and the needs assessed for implementing the WHO Framework Convention on Tobacco Control?
Yes

E3. Please provide details in the space below.

There are inadequate funds to carry research in the area of costing of health, the impact of tobacco consumption and in general for programme implementation e.g. health promotion and education regarding tobacco control.

Other gaps identified relate to resource constraints in enforcement activities and initiatives.

E4. What, if any, are the constraints or barriers, other than lack of resources, you have encountered in implementing the Convention?

Interference by the Tobacco Industry and lack of capacity for enforcement in some areas. High attrition rates and the need for re-sensitization is also a factor.

E5[1]. Do you have any of the following products available on your national tobacco market? [smokeless tobacco products]

Yes

E5[2]. Do you have any of the following products available on your national tobacco market? [water pipe tobacco]

E6[3]. Have you adopted and implemented any policy or regulation that is specific to the following tobacco products? [ENDS/ENNDS]

Yes

E6[other]. Have you adopted and implemented any policy or regulation that is specific to the following tobacco products? [Other]

E7. If you have any relevant information related to questions E5 and E6, please provide details in the space below.

Our Tobacco Control Regulations make provision for all tobacco products. Tobacco products are defined widely to include ENDS and water pipe tobacco products.

E8. Please provide any other relevant information not covered elsewhere that you consider important.

E9. Your suggestions for further development and revision of the reporting instrument:

The current instrument is very lengthy. Could be more user-friendly.
