C227a. Banning tobacco smoking in indoor workplaces

Sauf dans les entreprises privées, bureaux privés, qui sont soumis au règlement intérieur.

C227b. Banning tobacco smoking in public transport

L'interdiction est totale dans tous les transports publics.

C227c. Banning tobacco smoking in indoor public places

La loi antitabac, entrée en vigueur le 1er janvier 2014 a étendu l'interdiction de fumer à tous les locaux à usage collectif, bars, disco, restaurants, hôtels, auberges, etc... Le nouveau projet de loi propose d'interdire de vapoter dans les lieux où il est interdit de fumer. Lieux couverts de loisirs, lieux couverts où des sports sont pratiqués, enceintes, halls et salles appartenant à l'administration publique et 7ou à l'état.

Depuis l'entrée en vigueur de la nouvelle loi antitabac du 13 juin 2017, le 1er août 2017. Il est également interdit de vapoter dans les lieux où il est interdit de fumer.

C228. Please provide a brief description of the progress made in implementing Article 8 (Protection from exposure to tobacco smoke) in the past two years or since submission of your last report.

Entrée en vigueur de la nouvelle loi antitabac du 13 juin 2017 qui ajoute les mesures suivantes, aux mesures déjà existantes, contre l'exposition à la fumée du tabac:

• Interdiction de fumer sur les aires de jeux :

L'interdiction de fumer dans les lieux publics sera étendue sur les aires de jeux. Cette mesure constitue un moyen de prévention qui s'adresse à ceux qui sont les plus vulnérables face aux méfaits du tabac. En évitant l'exposition des enfants au tabagisme, cette interdiction vise à réduire le nombre d'enfants qui vont commencer à fumer plus tard.

Elle oblige également les adultes à avoir un comportement responsable face aux enfants et à assumer leur devoir de protection. La loi contribue à responsabiliser les parents qui servent de modèles aux enfants.

• Interdiction de fumer dans les véhicules privés quand des enfants de moins de 12 ans sont à bord.

Toujours dans un esprit de protection des plus jeunes, l'interdiction de fumer sera étendue aux voitures privées transportant des mineurs de moins de 12 ans, en partie pour les mêmes raisons que celles invoquées pour l'interdiction de fumer sur les aires de jeux.

Cette mesure permet aussi d'adresser le problème de la nocivité accrue du tabagisme passif qui pose un problème particulièrement aigu dans l'espace extrêmement confiné qu'est l'habitacle d'une voiture. Même des fenêtres ouvertes et une climatisation à puissance maximale ne permettent d'évacuer la fumée de façon satisfaisante.

Cette mesure vise aussi à ne pas exposer les enfants à la vue d'adultes en train de fumer afin de ne pas induire l'acceptation inconsciente d'une image liée au tabagisme.

• Interdiction du vapotage aux mêmes endroits où s'applique l'interdiction de fumer.

Afin de protéger la santé des citoyens et des consommateurs contre les risques potentiels de la cigarette électronique, le projet de loi prévoit l'interdiction du « vapotage » aux mêmes endroits où s'applique l'interdiction de fumer.

La cigarette électronique constitue un risque potentiel pour la santé, notamment à cause de ses ingrédients principaux. En effet, des composés organiques indésirables, car toxiques ou cancérigènes, se retrouvent dans la vapeur inhalée et émise. Le propylène glycol, la glycérine, et la nicotine, à des concentrations variables, en sont les principaux constituants. Les e-liquides libèrent des substances irritantes et classées comme toxiques pour les consommateurs comme pour l'entourage, mais dans une moindre mesure que la cigarette conventionnelle.

En outre, comme l'utilisation de la cigarette électronique simule l'acte de fumer proprement dit, cela peut constituer une stimulation à l'initiation au tabagisme particulièrement chez les jeunes. Le vapotage « renormalise » également l'image de fumer en société, et anéantit des dizaines d'années d'efforts pour construire une société de demain sans tabac.

C2211. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

Des mesures efficaces de protection contre l'exposition à la fumée du tabac , comme celles qui sont envisagées à l'article 8 de la Convention-cadre de l'OMS , passent par une interdiction totale de fumer et par une élimination totale de la fumée du tabac dans un espace ou un environnement donnés , afin de créer un environnement à 100 % sans tabac. Le Luxembourg avait adopté en 2006 une première loi qui interdisait le tabagisme dans les lieux publics. Mais l'autorisation de fumer avait été maintenue dans les discothèques et les cafés, en dehors des heures des repas. La loi de 2014 a banni cette autorisation et a généralisé l'interdiction de fumer dans les lieux publics fermés .

La législation est simple et claire et peut être appliquée dans la pratique. La société civile a joué un rôle central en soutenant les mesures de protection contre la fumée du tabac.

La mise en oeuvre de la législation sur les environnements sans tabac ainsi que son application pratique et son impact font l'objet d'une surveillance et d'une évaluation annuelle.

La protection de la population contre l'exposition à la fumée du tabac a encore été renforcée et étendue depuis : le nouveau projet de loi interdit ainsi de fumer dans toutes les aires de jeux pour enfants et dans les véhicules privés quand des mineurs de moins de 13 ans sont à bord. En outre, le vapotage de la cigarette électronique sera également interdit là où il est interdit de fumer.

La publicité en faveur des produits du tabac continue à être fortement réglementée par l'article 3 de notre loi du 13 juin 2017:

1) La publicité en faveur du tabac, de ses produits, de ses ingrédients, des cigarettes électroniques et des flacons de recharge, ainsi que toute distribution gratuite d'un produit du tabac ou d'une cigarette électronique ou d'un flacon de recharge sont interdites.

Cette interdiction englobe l'utilisation de l'emblème de la marque ou du nom de la marque du tabac ou de la cigarette électronique ou du flacon de recharge ainsi que l'utilisation de toute autre représentation ou mention susceptible de s'y référer sur des objets usuels autres que ceux qui sont directement liés à l'usage du tabac ou de la cigarette électronique.

(2) Ne sont pas à considérer comme publicité au sens du paragraphe qui précède:

- les panneaux ou enseignes apposés aux fins de les signaler sur les bâtiments des établissements dans lesquels les produits visés par la présente loi sont fabriqués ou entreposés, du moment qu'ils ne contiennent pas d'autre indication que le nom du fabricant ou distributeur, le nom de la marque produite ou distribuée ou une représentation graphique ou photographique de la marque ou de son emballage ou de son emblème;

- la simple indication, sur un véhicule servant ordinairement au commerce du tabac, ou de ses produits ou des cigarettes électroniques et des flacons de recharge, de la dénomination du produit, de sa composition, du nom et de l'adresse du fabricant et, le cas échéant, du distributeur, ainsi que la représentation graphique ou photographique du produit, de son emballage et de l'emblème de la marque.

(3) Les dispositions du paragraphe 1er ne s'appliquent pas:

- aux publications et services de communication en ligne édités par les organisations professionnelles de producteurs, fabricants et distributeurs des produits du tabac, des cigarettes électroniques et des flacons de recharge réservés à leurs adhérents, ni aux publications professionnelles spécialisées, ni aux services de communication en ligne édités à titre professionnel qui ne sont accessibles qu'aux professionnels de la production, de la fabrication et de la distribution des produits du tabac et des cigarettes électroniques et des flacons de recharge.

- aux publications imprimées et éditées et aux services de communication en ligne mis à disposition du public par des personnes établies dans un pays n'appartenant pas à l'Union européenne, lorsque ces publications et services de communication en ligne ne sont pas principalement destinés au marché communautaire.

(4) Les dispositions du paragraphe 1er ne s'appliquent pas à la publicité faite à l'intérieur des débits de tabac. Dans les commerces offrant en vente également des produits ne relevant pas de la présente loi, la présente dérogation ne vaut que dans les surfaces réservées à la vente des produits du tabac ainsi que des cigarettes électroniques et des flacons de recharge et, dans les commerces ne comportant aucune subdivision en surfaces de vente, à proximité immédiate des étalages exposant des produits du tabac, des cigarettes électroniques ou des flacons de recharge.

La publicité autorisée en vertu de l'alinéa qui précède ne peut être effectuée qu'au moyen d'affiches et de panneaux réclames. Elle ne peut s'adresser spécialement à un public de mineurs, ni faire usage d'arguments axés sur la santé, ni comporter un texte, une dénomination ou un signe figuratif laissant croire qu'un produit particulier est moins nocif qu'un autre, ni contenir une représentation d'une personne connue du grand public.

(5) Toute opération de parrainage en faveur du tabac ou de produits du tabac ou de cigarettes électroniques ou de flacons de recharge est interdite.
