B163. Please provide the definition of "current smoking/tobacco use" used to answer question B16 in the space below.
Current smokers among all respondents
B164. Please provide a brief explanation of the trend in tobacco use by young persons in the past two years or since submission of your last report.
The 2008 GYTS survey was conducted only for Western Area whilst 2017 GYTS survey was conducted for the whole country. Lifestyle in an urban setting like (Western Area) where the 2008 survey was conducted is different from the other parts of the country. Shisa for example, which is very popular in Western Area is not affordable in the other parts of the country. So it might not be fair to compare the data.

B84. Please briefly describe the trends in taxation for tobacco products in the past two years or since submission of your last report in your jurisdiction.
<p>Sales tax was 15% before 2010. Until now, in 2017, GST is still at 15%.</p> <p>The 2017 Financial Act (FA) proposed increment of IMPORT DUTY at point of entry</p> <p>From 10%-20% for cigarettes & Remains at 20% for cigars</p> <p>The 2017 FA also introduced: Excise duty from 0-30% recently in 2017 but payment based on sales</p> <p>However it is important to note that Import Duty paid at point of entry, is easier to implement compared to where Excise duty is taxed after sales.</p> <p>ECOWAS has adopted a new legal framework on tobacco taxation. The Directive set minimum the advalorem tax at 50% and a specific Excise tax on tobacco products at 0.02 USD per single stick, 20USD per kilogramme for all other tobacco products.</p>

B85. Do you earmark any percentage of your taxation income for funding any national plan or strategy on tobacco control in your jurisdiction?

Yes
C115. Please provide details (e.g. the nature of the national coordinating mechanism, the institution to which the focal point for tobacco control or the tobacco control unit belongs).
The focal point of the tobacco control unit is a staff of the Ministry of Health and Sanitation, attached to the Directorate of Noncommunicable Diseases. A National Tobacco Control Task force has been set up with representatives from wide range of Ministries, Departments and Agencies (MDAs), nongovernmental organizations (NGO's), Civil Society Organisations, Religious leaders. Different Committees will be setup within the task force composing technical people to address specific articles of the convention.
C116. Please provide a brief description of the progress made in implementing Article 5.1 and 5.2 (General obligations) in the past two years or since submission of your last report.
A National Tobacco Control Strategic Plan 2018 to 2022 has been approved by the Ministry of Health and sent to the WHO FCTC Secretariat. What we are looking forward to now is, finalize the draft bill and get it through parliament as soon as possible. The moment this is accomplished, the reactivated or newly setup task force will then accelerate efforts in working with the WHO Country office to implement the outlined activities. There existed a Noncommunicable Diseases Strategic Plan but it expired in 2016 and due for review.

C2211. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

Although there is no national legislation relating to the measures required under Article 8 of the Convention and its implementation guidelines, some administrative and executive orders have been adopted and implemented in a few settings.

The Minister responsible for health and Sanitation, advised by the Health Education Division of the Ministry, has banned smoking on its premises. The Ministry has also successfully implemented smoke-free zones in three tertiary hospitals (Children's Hospital, Connaught Hospital and Princess Christian Maternity Hospital), and through the involvement of respective student bodies, it has implemented smoke-free zones in two educational institutions: the Njala University and the Milton Margai College of Education and Technology.

The Attitudinal and Behavioural Change Secretariat of the Ministry of Information is working on creating smoke-free environments, particularly in the Yougi Building of the Government, which hosts several Government ministries. The code of conduct for employees of Statistics Sierra Leone forbids smoking within the premises of its offices.

Regarding children and young people, the Ministry of Education introduced a code of conduct for teachers stating that "no teacher can send a student to purchase cigarettes and teachers are not permitted to smoke on school grounds."

No

C2515. Please provide a brief description of the progress made in implementing Article 11 (Packaging and labelling of tobacco products) in the past two years or since submission of your last report.

The National Tobacco Control Strategy 2012-2016 requires that packages of cigarettes sold in Sierra Leone carry the warning "Smoking is dangerous to your health" on 10% of one of the main surface areas. The Strategy also foresees that commercialized cigarette packs will carry the statement "For Sale in Sierra Leone only". However, these proposals have not yet been enforced. At a widely used point of sale, few tobacco products offered for sale actually carry these warnings, but that most of the products checked only carried the warnings stipulated by the country of origin.

C2516. Have you utilized the "Guidelines for implementation of Article 11 of the WHO FCTC" when developing or implementing policies in this area?

C268. Please provide a brief description of the progress made in implementing Article 12 (Education, communication, training and public awareness) in the past two years or since submission of your last report.
Sensitization on the effects of tobacco has been going on with support from various Civil Society Organizations locally. Unfortunately there is poor coordination, lack technical skills and no funding to support them. Many tobacco users are not aware of the health hazards and addictive nature of tobacco, while non-tobacco users lack knowledge of the effects of exposure to tobacco smoke.

C269. Have you utilized the "Guidelines for implementation of Article 12 of the WHO FCTC" when developing and implementing policies in this area?

No

C332. Please provide a brief description of the progress made in implementing Article 17 (Provision of support for economically viable alternative activities) in the past two years or since submission of your last report.
Tobacco production and processing used to be a major activity in Sierra Leone before the civil war; the country was able to meet domestic demand and export tobacco. At that time the Aureol Tobacco Company enjoyed a monopoly of manufacturing and distribution of tobacco. Tobacco imports were banned. Although there were reports of smuggling, this was not to the level of threatening the viability of the local monopoly.
Tobacco farmers shifted to growing other crops, such as a new variety of potato (Roport) that had been propagated by the Agricultural Research Institute at the Njala University College. In the Northern Province, formerly the largest supplier of tobacco, reverted to groundnut and maize growing.
But small-scale tobacco growing still takes place in the Northern districts of Bombali and Kambia.

C413. Please provide a brief description of the progress made in implementing Article 18 (Protection of the environment and the health of persons) in the past two years or since submission of your last report.
Sierra Leone does not grow significant volumes of raw tobacco and there is no tobacco manufacturing in the country. However, the National Tobacco Control Strategy recognizes that given the current drive by multinational companies to invest in developing countries, Sierra Leone contains land that could potentially be the target of such investment. Furthermore, the Strategy warns that Sierra Leone must avoid the experiences of other African tobacco-producing countries in which tobacco farming has been a major cause of environmental destruction and desertification.

C438. Please provide a brief description of the progress made in implementing Article 20 (Research, surveillance and exchange of information) in the past two years or since submission of your last report.
Research undertaken so far has mostly focused on patterns of tobacco consumption, and was implemented in collaboration with WHO and its partners. For example, Sierra Leone has conducted two surveys on tobacco consumption among adults and young people, respectively
The Global Youth Tobacco Survey was conducted in 2008 and in 2017, in collaboration with WHO and the US Centers for Disease Control and Prevention, among young people aged 13–15 years. WHO STEPS survey was conducted nationally in 2009 among adults aged 25–64 years, funded by WHO. It included questions on tobacco use and exposure to tobacco smoke.
