A. ORIGIN OF THE REPORT

A1. Name of contracting Party: {TOKEN:ATTRIBUTE_1}
A2. Information on national contact responsible for preparation of the report:
A2a. Title
Mr
A2a[other]. Title [Other]
A2b. Family name
Chan
A2c. First name
Lit Fai
A2d. Full name of institution
Health Promotion Board
A2e[A122]. Mailing address [Mailing address 1]
3 Second Hospital Avenue
A2e[A123]. Mailing address [Mailing address 2]
A2e[A124]. Mailing address [Post code]
168937
A2e[A125]. Mailing address [Post box]

A2e[A126]. Mailing address [City]	Singapore
A2f. Country	Singapore
A2g. E-mail	chan_lit_fai@hpb.gov.sg
A2h. Alternative email address	chan_lit_fai@hpb.gov.sg
A2i. Telephone number	64353177
A2j. Fax number	64383609
A3. Signature of government official submitting the report:	
A3a. Title	Mr
A3a[other]. Title [Other]	
A3b. Family name	Khoo
A3c. First name	Gary
A3d. Full name of institution	Health Promotion Board
A3e[A122]. Mailing address [Mailing address 1]	3 Second Hospital Avenue
A3e[A123]. Mailing address [Mailing address 2]	
A3e[A124]. Mailing address [Post code]	168937
A3e[A125]. Mailing address [Post box]	
A3e[A126]. Mailing address [City]	Singapore
A3f. Country	Singapore
A3g. E-mail	gary_khoo@hpb.gov.sg
A3h. Alternative email address	
A3i. Telephone number	6435 3256

A3j. Fax number
6538 8416

B1. TOBACCO CONSUMPTION

B1. Prevalence of tobacco use
B11. Smoking prevalence in the adult population (all) (Please provide prevalence data for total adult population, and identify the age considered, e.g. 15 years old and over, 18-64 years; see B112)
B11A[1_SQ001]. Current smokers [MALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
25.4
B11A[1_SQ002]. Current smokers [MALE][Average number of the most-consumed smoking tobacco product used per day]
B11A[2_SQ001]. Current smokers [FEMALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
4.8
B11A[2_SQ002]. Current smokers [FEMALE][Average number of the most-consumed smoking tobacco product used per day]
B11A[3_SQ001]. Current smokers [TOTAL (males and females)][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
14.9
B11A[3_SQ002]. Current smokers [TOTAL (males and females)][Average number of the most-consumed smoking tobacco product used per day]
B11B[1_SQ001]. Daily smokers [MALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
23.1
B11B[1_SQ002]. Daily smokers [MALE][Average number of the most-consumed smoking tobacco product used per day]
B11B[2_SQ001]. Daily smokers [FEMALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
3.8
B11B[2_SQ002]. Daily smokers [FEMALE][Average number of the most-consumed smoking tobacco product used per day]

B11B[3_SQ001]. Daily smokers [TOTAL (males and females)][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
13.3
B11B[3_SQ002]. Daily smokers [TOTAL (males and females)][Average number of the most-consumed smoking tobacco product used per day]
B11C[1_SQ001]. Occasional smokers [MALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
2.3
B11C[2_SQ001]. Occasional smokers [FEMALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
1.0
B11C[3_SQ001]. Occasional smokers [TOTAL (males and females)][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
1.6
B11D[1_SQ001]. Former smokers [MALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
4.5
B11D[2_SQ001]. Former smokers [FEMALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
0.8
B11D[3_SQ001]. Former smokers [TOTAL (males and females)][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
2.6
B11E[1_SQ001]. Never smokers [MALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
70.1
B11E[2_SQ001]. Never smokers [FEMALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
94.4
B11E[3_SQ001]. Never smokers [TOTAL (males and females)][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
82.5
B111. Please indicate the smoking tobacco products included in calculating prevalence for question B11:
Cigarettes only
B112[1_SQ001]. Please indicate the age range to which the data used to answer question B11 refer: [Age range][From]
18
B112[1_SQ002]. Please indicate the age range to which the data used to answer question B11 refer: [Age range][To]
69
B113A. Please indicate the year of the data used to answer question B11:
2013
B113B. Please indicate the source of the data used to answer question B11:
National Health Surveillance Survey 2013
B114[SQ001]. Please provide the definitions of "current smoker", "daily smoker", "occasional smoker", "former smoker" and "never smoker" used in this report. [Current smoker]
Daily and occasional smokers
B114[SQ002]. Please provide the definitions of "current smoker", "daily smoker", "occasional smoker", "former smoker" and "never smoker" used in this report. [Daily smoker]
Smokes at least once a day
B114[SQ003]. Please provide the definitions of "current smoker", "daily smoker", "occasional smoker", "former smoker" and "never smoker" used in this report. [Occasional smoker]
Smokes but not every day

B114[SQ004]. Please provide the definitions of “current smoker”, “daily smoker”, “occasional smoker”, “former smoker” and “never smoker” used in this report. [Former smoker]
formerly a daily smoker but currently does not smoke at all

B114[SQ005]. Please provide the definitions of “current smoker”, “daily smoker”, “occasional smoker”, “former smoker” and “never smoker” used in this report. [Never smoker]
Never smoked before or smoked too little in the past to be regarded as a former smoker

B115. Please provide a brief explanation of the trend in smoking prevalence in the adult population in the past two years or since submission of your last report.
The prevalence of daily cigarette smoking among Singapore residents aged 18 to 69 years was 13.3% in 2013, a non-statistically-significant decline from 14.3% in 2010. The decline in daily cigarette smoking was observed in both genders although smoking prevalence was six times higher in males (23.1%) compared to females (3.8%).

B12[B12a_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]
18

B12[B12a_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - end age]
29

B12[B12a_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
19

B12[B12b_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]
30

B12[B12b_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - end age]
39

B12[B12b_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
25

B12[B12c_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]
40

B12[B12c_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - end age]
49

B12[B12c_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
28

B12[B12d_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]
50

B12[B12d_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - end age]

59

B12[B12d_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

24

B12[B12e_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]

60

B12[B12e_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - end age]

69

B12[B12e_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

17

B12[B12ee_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]

B12[B12ee_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - end age]

B12[B12ee_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B12[B12eee_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]

B12[B12eee_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - end age]

B12[B12eee_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B12[B12eeee_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]

B12[B12eeee_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - end age]

B12[B12eeee_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B12[B12f_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]
18

B12[B12f_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]
29

B12[B12f_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
7

B12[B12g_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]
30

B12[B12g_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]
39

B12[B12g_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
5

B12[B12h_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]
40

B12[B12h_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]
49

B12[B12h_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
4

B12[B12i_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]
50

B12[B12i_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]
59

B12[B12i_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
2

B12[B12j_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]

60

B12[B12j_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]

69

B12[B12j_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

1

B12[B12jj_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]

B12[B12jj_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]

B12[B12jj_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B12[B12jjj_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]

B12[B12jjj_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]

B12[B12jjj_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B12[B12jjjj_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]

B12[B12jjjj_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]

B12[B12jjjj_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B12[B12k_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - start age]

18

B12[B12k_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - end age]	29
B12[B12k_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]	13
B12[B12l_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - start age]	30
B12[B12l_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - end age]	39
B12[B12l_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]	15
B12[B12m_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - start age]	40
B12[B12m_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - end age]	49
B12[B12m_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]	16
B12[B12n_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - start age]	50
B12[B12n_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - end age]	59
B12[B12n_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]	13

Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - end age]

B12[B12oooo_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B121. Please indicate the smoking tobacco products included in calculating prevalence for question B12:
Data indicated is for daily smokers defined as smoked at least once a day

B122A. Please indicate the year of the data used to answer question B12:
2013

B122B. Please indicate the source of the data used to answer question B12:
National Health Surveillance Survey 2013

B123. Please provide a brief explanation of the trend in current smoking prevalence by age group in the past two years or since submission of your last report, if data are available.
A decline in the prevalence of daily cigarette smoking was observed in the younger adults aged 18 to 39 years and the older adults aged 60 to 69 years.

B13. Prevalence of smokeless tobacco use in the adult population (all) (Please provide prevalence data for total adult population, and identify the age considered in B132, e.g. 15 years old and over, 18–64 years; see B132)

B13A[1_B13x1]. Males [Current users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13A[2_B13x1]. Males [Daily users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13A[3_B13x1]. Males [Occasional users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13A[4_B13x1]. Males [Former users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13A[5_B13x1]. Males [Never users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13B[1_B13x1]. Females [Current users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B161. Please indicate the tobacco products included in calculating prevalence for question B16:
Cigarettes. Defined as smoked once in the last 30 days

B162A. Please indicate the year of the data used to answer question B16:
2015

B162B. Please indicate the source of the data used to answer question B16:
Students Health Survey 2015

B163. Please provide the definition of "current smoking/tobacco use" used to answer question B16 in the space below.
Current users - Proportion of boys and girls who smoked at least 1 day in the last 30 days

B164. Please provide a brief explanation of the trend in tobacco use by young persons in the past two years or since submission of your last report.
Since the previous SHS in 2012, the percentage of boys who smoked at least one day in the last 30 days has increased decreased from 9% to 3% in 2015. For girls, this has decreased from 4% to 1% in 2015. The overall prevalence of current users has dropped to 2% in 2015.

B165. Please attach the relevant documentation.

B165[filecount]. filecount - Please attach the relevant documentation.

B11new[SQ004_SQ002]. Male [Former smokers][Average number of the most-consumed smoking tobacco product used per day]

B11new[SQ005_SQ001]. Male [Never smokers][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B11new[SQ005_SQ002]. Male [Never smokers][Average number of the most-consumed smoking tobacco product used per day]

B2-B9. HEALTH, SOCIAL AND ECONOMIC INDICATORS

B2. Exposure to tobacco smoke

B21. Do you have any data on exposure to tobacco smoke in your population?

No

B22. Please provide details in the space below (e.g. exposure by gender, at home, in the workplace, on public transport).

B23B. Please indicate the source of the data used to answer question B21:

B24. Please attach the relevant documentation.

B24[filecount]. filecount - Please attach the relevant documentation.

0

B3. Tobacco-related mortality

B31. Do you have information on tobacco-related mortality in your population?

Yes

B32. What is the estimated total number of deaths attributable to tobacco use in your population?

B33. If available, please provide any additional information on mortality attributable to tobacco use (e.g. lung cancer, cardiovascular diseases) in your jurisdiction.

Lung cancer = 909, Cardiovascular diseases (i.e. IHD, Stroke) = 489, COPD = 239, Others = 412

B34A. Please indicate the year of the data used to answer question B32 and 33:
2010

B34B. Please indicate the source of the data used to answer questions B32 and B33:
Singapore Comparative Risk Assessment 2010

B35. Please submit a copy of the study you refer to:

B35[filecount]. filecount - Please submit a copy of the study you refer to:
0

B4. Tobacco-related costs

B41. Do you have information on the economic burden of tobacco use in your population, e.g. the overall cost of tobacco use imposed on your society?
Yes

B42. Please provide details (e.g. direct (health care-related) and indirect costs and, if possible, the method used to estimate these costs).
The social cost of smoking was estimated to be around US\$479.8 million in 2014. The bulk of which (US\$464.9 million) could be attributed to lost productivity. In terms of direct healthcare costs ischemic heart disease (US\$7.3 million) and lung cancer (US\$4.1 million) had the highest cost burden.

B43A. Please indicate the year of the data used to answer question B42:
2014

B43B. Please indicate the source of the data used to answer question B42:
Cher BP, Chen C, Yoong J. Prevalence-based, disease-specific estimate of the social cost of smoking in Singapore. BMJ Open. 2017; 8:e014377

B8. Taxation of tobacco products (with reference to Articles 6.2(a) and 6.3)

B81. What proportion of the retail price of the most popular price category of tobacco product consists of taxes (e.g. sum of excise, sales and import duties (if applicable) and value added tax/goods and services tax (VAT/GST))?
68.0000000000

B82[SQ001]. How are the excise taxes levied (what types of taxes are levied)? [Specific tax only]
Yes

B82[SQ002]. How are the excise taxes levied (what types of taxes are levied)? [Ad valorem tax only]
No

B82[SQ003]. How are the excise taxes levied (what types of taxes are levied)? [Combination of specific and ad valorem taxes]
No

B82[SQ004]. How are the excise taxes levied (what types of taxes are levied)? [More complex structure (please explain below)]
No

B82a. If a more complex structure of taxes (please explain):

B83[B83a_B83x1]. If available, please provide details on the rates of taxation for tobacco products at all levels of Government and be as specific as possible (specify the type of tax, e.g. VAT, sales, import duties) [Smoking tobacco products][Product]
Ang Hoon

B83[B83g_B83x1]. If available, please provide details on the rates of taxation for tobacco products at all levels of Government and be as specific as possible (specify the type of tax, e.g. VAT, sales, import duties) [Other tobacco products][Product]

Other manufactured tobacco for cigarette making

B83[B83g_B83x2]. If available, please provide details on the rates of taxation for tobacco products at all levels of Government and be as specific as possible (specify the type of tax, e.g. VAT, sales, import duties) [Other tobacco products][Type of tax]

Specific

B83[B83g_B83x3]. If available, please provide details on the rates of taxation for tobacco products at all levels of Government and be as specific as possible (specify the type of tax, e.g. VAT, sales, import duties) [Other tobacco products][Rate or amount]

SGD 388

B83[B83g_B83x4]. If available, please provide details on the rates of taxation for tobacco products at all levels of Government and be as specific as possible (specify the type of tax, e.g. VAT, sales, import duties) [Other tobacco products][Base of tax5]

C1. GENERAL OBLIGATIONS

C1. With reference to Article 5

C111. Have you developed and implemented comprehensive multisectoral national tobacco control strategies, plans and programmes in accordance with the Convention?
Yes

C112. Have you partially developed and implemented tobacco control strategies by including tobacco control in national health, public health or health promotion strategies, plans and programmes?
N/A

C113. Is any aspect of tobacco control that is referred to in the Convention included in any national strategy, plan or programme?
N/A

C114[C114a]. Have you established or reinforced and financed: [a focal point for tobacco control?]
Yes

C114[C114b]. Have you established or reinforced and financed: [a tobacco control unit?]
Yes

C114[C114c]. Have you established or reinforced and financed: [a national coordinating mechanism for tobacco control?]
Yes

C115. Please provide details (e.g. the nature of the national coordinating mechanism, the institution to which the focal point for tobacco control or the tobacco control unit belongs).
<p>Tobacco control efforts in Singapore started in the early 1970s, when legislations were enacted to ban smoking in public places and prohibit tobacco advertising and promotion. The National Smoking Control Programme (NSCP) was launched in 1986 to develop and implement initiatives to reduce smoking rates in Singapore. The NSCPs multi-pronged approach includes legislation, taxation, public education, partnerships to prevent the initiation of smoking especially by youths, and encourage smokers to quit the habit of smoking. The NSCP has now been renamed the National Tobacco Control Programme (NTCP).</p> <p>The Health Promotion Board (HPB) is a statutory board under the Ministry of Health, which formulates national policies, develops evidence-based strategies and innovative programmes for health promotion, disease prevention and patient education. HPB is the national focal point for tobacco control in Singapore and manages the NTCP.</p> <p>In addition, the National Coordinating Committee on Tobacco Control (NCCTC) provides strategic coordination and facilitates the formulation of whole-of-government on tobacco control policies.</p>

C116. Please provide a brief description of the progress made in implementing Article 5.1 and 5.2 (General obligations) in the past two years or since submission of your last report.

The multi-pronged approach employed by the National Tobacco Control Programme (NTCP) strives to reduce both the demand and supply of tobacco. This includes taxation, tobacco control legislation, public education and the provision of smoking cessation services. Many of these efforts are through collaborative partnerships with governmental and non-governmental agencies, at both regional and international levels. In addition, the NTCP is moving towards a more ground-up approach, encompassing new media strategies and advocacy in delivering programmes to reach target populations in recognition of the fact that the buy-in and the participation of our target population is key to an effective programme.

HPB, which is the national focal point for tobacco control, works together with partner agencies such as the Health Sciences Authority, which enforces licensing regime of tobacco sellers; the National Environment Agency, which enforces ban of smoking in certain places and the Singapore Customs, which enforces licensing of trade in tobacco and regulates border control of any tobacco products.

. In 2016, MOH amended the Tobacco (Control of Advertisement and Sales) Act to ban the Point-of-Sale Display (POSD) of tobacco products at retail outlets, this came into effect 1st August 2017.

A ban on shisha came into effect on 28 Nov 2014. As a transitional measure, existing licensed tobacco importers and retailers who import or sell shisha tobacco will be allowed to continue importing and retailing shisha until 31 July 2016. This is to allow them ample time to deplete their stock and restructure their businesses away from Shisha. From 1 Aug 2016, no importers or retailers will be allowed to import or retail shisha as well.

In addition, a two-phased ban came into force to prohibit emerging tobacco products. The first phase that was implemented on 15 Dec 2015 included products not available in Singapore (e.g. dissolvable tobacco). The second phase that will be effected from 1 Aug 2016 will include products that are already sold in Singapore (e.g. gutka).

In Nov 2017, the TCASA was amended to increase the minimum legal age (MLA) for the purchase, use and possession of tobacco products from 18 to 21. This change will take place in a stepwise fashion, whereby the MLA will be increased yearly from 2019 to 2021 (i.e. MLA will be 19 from 1 Jan 2019, 20 from 1 Jan 2020 and finally 21 from 1 Jan 2021). The TCASA was also amended to prohibit the purchase, use and possession of imitation and emerging tobacco products, in addition to their sale, distribution and offer for sale, on 1st Feb 2018.

C117. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

MOH launched a public consultation on the 6th Feb 2018 for 6 weeks on the proposal to introduce standardised packaging of tobacco products in Singapore to:

-Set out the Government's rationale and proposal for the SP Proposal;

- Set out the Government's evaluation of the feedback and views received on

standardised packaging and enlargement of graphic health warnings, including those

received during the 2015/2016 public consultation; and

- Gather the views of interested individuals, businesses and organisations

C12. Protection of public health policies with respect to tobacco control from commercial and other vested interests of the tobacco industry Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C121. protecting public health policies with respect to tobacco control from commercial and other vested interests of the tobacco industry?

Yes

C122. ensuring that the public has access, in accordance with Article 12(c), to a wide range of information on tobacco industry activities relevant to the objectives of the Convention, such as in a public repository?

No

C123. Please provide details in the space below.

Government wide Code of Conduct and internal guidelines for relevant agencies govern interaction with the tobacco industry.

C124. Please provide a brief description of the progress made in implementing Article 5.3 in the past two years or since submission of your last report.

C125. Have you utilized the "Guidelines for implementation of Article 5.3 of the WHO FCTC" when developing or implementing policies in this area?

Yes

C126. Please provide details in the space below or refer to section I of the additional questionnaire. Response to this question or to the additional questionnaire is voluntary. <https://extranet.who.int/dataform/655321?token={TOKEN}&=en>

C2. MEASURES RELATING TO THE REDUCTION OF DEMAND FOR TOBACCO

C2. With reference to Articles 6-14

C21. Price and tax measures to reduce the demand for tobacco Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C211. tax policies and, where appropriate, price policies on tobacco products so as to contribute to the health objectives aimed at reducing tobacco consumption?

Yes

C212. prohibiting or restricting, as appropriate, sales to international travellers of tax- and duty-free tobacco products?

No

C213. prohibiting or restricting, as appropriate, imports by international travellers of tax- and duty-free tobacco products?

Yes

C214. Please provide a brief description of the progress made in implementing Article 6 (Price and tax measures to reduce the demand for tobacco) in the past two years or since submission of your last report.

In 2018, tobacco excise levels were increased by 10% for cigarettes and other manufactured tobacco products to 42.7 cents per stick and SGD 427 per kg respectively.

There are no Duty free concessions of tobacco allowed in Singapore

C215. Have you utilized the "Guidelines for implementation of Article 6 of the WHO FCTC" when developing or implementing policies in this area?

Yes

C216. Please provide details in the space below or refer to section H of the additional questionnaire. Response to this question or to the additional questionnaire is voluntary. <https://extranet.who.int/dataform/655321?token={TOKEN}&=en>

C22. Protection from exposure to tobacco smoke Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C221. banning tobacco smoking in indoor workplaces, public transport, indoor public places and, as appropriate, other public places ?
Yes

C222[1]. What is the type/nature of the measure providing for the ban? [national law]
Yes

C222[2]. What is the type/nature of the measure providing for the ban? [subnational law(s)]

C222[3]. What is the type/nature of the measure providing for the ban? [administrative and executive orders]
Yes

C222[4]. What is the type/nature of the measure providing for the ban? [voluntary agreements]
Yes

C222[5]. What is the type/nature of the measure providing for the ban? [other measures (please specify in C223 below)]

C223. Please provide a brief explanation of the type/nature and content of the measures providing for the ban.
Smoking is prohibited under the Smoking (Prohibition in Certain Places) Act administered by the National Environment Agency (NEA). In addition, voluntary smoking restrictions in indoor places (house-rules) such as hotel rooms, private clubs, places of worship, casinos, are also administratively implemented and enforced by premises owners.

C224. Do any of these measures provide for a mechanism/ infrastructure for enforcement?
Yes

C225. Please provide details of this system.
Under the Act, any person caught smoking at prohibited places is liable on conviction (in Court) to a fine not exceeding \$1,000. Premises manager or operator caught for not performing their duties (i.e. inform person who smoke at prohibited places to cease smoking, or request the person to leave the premises should the person refuse to cease smoking) shall be liable on conviction (in Court) to a fine not exceeding \$1,000 for the 1st offence and not exceeding \$2,000 for the 2nd and subsequent offences. NEA officers carry out enforcement rounds at prohibited places on a daily basis.

C226cc. Please provide a brief explanation of any "other" policies in the space below

C227. Please provide a brief summary of complete and partial measures, with specific details of the partial measures that have been implemented:

C227a. Banning tobacco smoking in indoor workplaces
Places where smoking is prohibited under the Smoking (Prohibition in Certain Places) Act is given in the website: <http://www.nea.gov.sg/public-health/smoking>.

C227b. Banning tobacco smoking in public transport
Please refer to the above link for types of public transport covered under NEAs Smoking (Prohibition in Certain Places) Act. In addition, under the Air Navigation Act (Division 5, Section 8B (4) (b) administered by the Civil Aviation Authority of Singapore (CAAS), smoking is prohibited in any compartment of a Singapore aircraft. [Source: https://sso.agc.gov.sg/Act/ANA1966] For trains, the Rapid Transit Systems Regulations (Part III, Section 6(a)) prohibits smoking in any part of the railway premises where smoking is expressly prohibited by notice. [Source: https://sso.agc.gov.sg/SL/RTSA1995-RG1?DocDate=20100913&ValidDate=20140330&TransactionDate=20140330 For board vessels such as ships, ferries etc. smoking in or near any part of a vessel is prohibited unless permitted to do so by the master or person-in-charge – under the Maritime and Port Authority of Singapore (Port) Regulations (Part II, Section 15 (1)). [Source: https://sso.agc.gov.sg/SL/MPASA1996-RG7?DocDate=20120502
C227c. Banning tobacco smoking in indoor public places
Please refer to: http://www.nea.gov.sg/public-health/smoking for the list of smoke-free public places
C228. Please provide a brief description of the progress made in implementing Article 8 (Protection from exposure to tobacco smoke) in the past two years or since submission of your last report. NEA regularly reviews the smoking prohibition policy taking into consideration inputs from the public and other Ministries/Agencies to extend the smoking prohibition to other parts of Singapore. NEA's long-term policy goal is to prohibit smoking at all public areas except at designated smoking points. From 1 June 2016, the smoking prohibition has been extended to reservoirs and certain parks. With effect from 30 Jun 2017, new smoking corners at food retail establishments island-wide will no longer be approved. From 1 Oct 2017, the smoking prohibition has been further extended to private -hire cars, when used to carry paying passengers; trishaws; excursion buses; Autonomous Universities'; Private Education Institutions; and a radius of five metres from the compounds of all educational institutions.
C229. Have you utilized the "Guidelines for implementation of Article 8 of the WHO FCTC" when developing or implementing policies in this area?
Yes

C25. Packaging and labelling of tobacco products Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C251. requiring that packaging, individual cigarettes or other tobacco products do not carry advertising or promotion?
Yes
C252. requiring that packaging and labelling do not promote a product by any means that are false, misleading, deceptive or likely to create an erroneous impression about its characteristics, health effects, hazards or emissions?
Yes
C253. requiring that each unit packet and package of tobacco products and any outside packaging and labelling of such products carry health warnings describing the harmful effects of tobacco use?
Yes
C254. ensuring that the health warnings are approved by the competent national authority?
Yes
C255. ensuring that the health warnings are rotated?
Yes
C256. ensuring that the health warnings are clear, visible and legible?
Yes
C257. Does your law mandate, as a minimum, a style, size and colour of font to render the warning clear, visible and legible?
Yes
C258. ensuring that the health warnings occupy no less than 30% of the principal display areas?
Yes
C259. ensuring that the health warnings occupy 50% or more of the principal display areas?
Yes
C2510. ensuring that health warnings are in the form of, or include, pictures or pictograms?
Yes
C2511. Does the Government own the copyright to these pictures and pictograms?
Yes
C2512. Would you grant a non-exclusive and royalty-free licence for the use of health warnings developed in your jurisdiction with other Parties?
Yes
C2513[1]. requiring that each unit packet and package of tobacco products and any outside packaging and labelling of such products contain information on relevant: [constituents of tobacco products?]
No
C2513[2]. requiring that each unit packet and package of tobacco products and any outside packaging and labelling of such products contain information on relevant: [emissions of tobacco products?]
Yes
C2514. requiring that the warnings and other textual information appear on each unit packet and package and on any outside packaging and labelling in the principal language or languages of the country?
Yes
C2515. Please provide a brief description of the progress made in implementing Article 11 (Packaging and labelling of tobacco products) in the past two years or since submission of your last report.
Health warning labelling requirements are specified in the Tobacco (Control of Advertising and Sales) Act and Regulations. The latest amendments were in 2013 and lists provisions to ban misleading labelling as well as a new set of graphic and text health warning labels.
C2516. Have you utilized the "Guidelines for implementation of Article 11 of the WHO FCTC" when developing or implementing policies in this area?
Yes

[Other]

C268. Please provide a brief description of the progress made in implementing Article 12 (Education, communication, training and public awareness) in the past two years or since submission of your last report.

Identifying, developing and sustaining partnerships is key to the implementation and effectiveness of programmes. The Health Promotion Board actively engages educational institutions, private workplaces, the uniformed services, health professionals, youth organisations, community and religious groups, and parents, to promote a smoke-free lifestyle. Partnership is often in the form of capacity building and consultative service to improve knowledge and skills pertaining to tobacco control, as well as providing assistance in the organisation of implementing appropriate tobacco control programmes for various target audiences.

Healthcare Institutions

Healthcare professionals are equipped with the skills and knowledge to provide opportunistic smoking cessation advice to patients through a structured smoking cessation training programme, known as the Certification for Quit Smoking Consultants (CQSC).

HPB works in collaboration with restructured hospitals (owned by the Government and receives a government subsidy, but is run as a private company) to fund their inpatient smoking cessation programme. As smoking could aggravate or induce many health conditions, the inpatient smoking cessation program aims to nudge smokers kick start their quitting journey during their stay in the hospital.

Smoking cessation counselling is also available at more than 150 healthcare touch points island-wide, which include retail pharmacies and primary care institutions.

Workplaces

HPB works with workplaces to develop customized workplace smoking control programmes that aim to help employees who smoke quit the habit to achieve better health, finances and productivity at work. These programmes fall into three broad categories: awareness, cessation, and sustenance. For awareness, HPB conducts motivational talks that encourage smokers to contemplate quitting and non-smokers to continue maintaining a smoke-free lifestyle. HPB also distributes support resources such as posters and pamphlets to workplaces. These help to de-stigmatize smoking and foster a supportive work environment for smokers to quit. For cessation, HPB conducts group counselling sessions for smokers in their workplaces over a period of 6 weeks. Smokers are also encouraged to sign up for the I Quit 28-day countdown challenge to complement their participation in the workplace programme. For sustenance, HPB provides smoking cessation counselling training for interested staff so that they are equipped to provide opportunistic counselling advice to their smoker colleagues.

HPB also works with the Uniformed Services, including both recruits and management personnel, to develop and implement smoking cessation programmes specifically tailored to their needs and setting. This includes holistic health seminars where smoking is introduced as a negative coping mechanism, group cessation programmes with interactive activities, as well as capacity building workshops for interested personnel. Since 2014, HPB has been working with the Singapore Armed Forces to expand the suite of smoking control programmes to more units.

Youth Programmes

Education and awareness, with appropriate interventions, are critical in preventing tobacco use and initiation among youths. HPB works closely with the Ministry of Education (MOE) and Institutes of Higher Learning (IHLs) to incorporate anti-tobacco messages into the curriculum and co-curricular activities. These initiatives aim to raise awareness about the benefits of leading a tobacco-free lifestyle, dispel common misconceptions about smoking, and equip youth with life skills to refuse cigarette offers.

HPB also adopts a targeted approach by offering smoking cessation interventions to youth smokers in schools and community organisations. These cessation programmes for youth are underpinned by a strengths-based approach that seeks to harness positive aspects of the youth to bring about behaviour change. This approach is based on the understanding that youth will be more ready to address their problems when they feel empowered and more confident about their own abilities.

HPB's cessation programme helps youth channel their attention away from smoking and other risky behaviours by engaging in healthy activities aligned with their strengths. It also equips youth with the knowledge and skills to kick the habit and learn coping strategies to better deal with stress, anger, frustration or boredom.

Student Health Advisors (SHAs) provide tailored smoking cessation counselling to youth smokers in schools. Counselling sessions are conducted on an individual and/or group basis, depending on the youth's specific needs and preferences.

HPB complements the school-based smoking cessation efforts with a youth-targeted web-based smoking cessation programme, www.breakfree.sg, which helps youth to understand the harms of smoking and equips them with coping strategies to deal with withdrawal symptoms and quit the habit for good. Counselling support is also provided via HPB's Quitline (Tel: 1800 438 2000) services.

Community

Besides preventing smoking initiation among youth, HPB also focuses on smoking cessation to encourage quitting among the general population. To this end, HPB launched the I Quit Movement in June 2011 to inspire smokers to quit with the use of inspiring testimonials and role models coupled with a strong support network which smokers can tap on.

As part of its 2013 I Quit campaign, HPB introduced the Let's Quit: The 28-Day Countdown. The 28-Day Countdown is based on findings that smokers who stay smoke-free for 28 days are five times more likely to succeed for good. The 28-Day Countdown helps smokers quit smoking by breaking down the quit journey into daily, small actionable steps, and equip them with the knowledge and support to remain smoke-free through the crucial period of 28 days.

Since 2014, the programme has reached out to approximately 10,000 smokers per year and that 10% of the participants stayed smoke-free for 28 days.

In 2018, HPB will continue to reach out to smokers via roadshows at community and workplace settings. HPB will also expand its outreach and support network

C269. Have you utilized the "Guidelines for implementation of Article 12 of the WHO FCTC" when developing and implementing policies in this area?

social workers

C2810. facilitating accessibility and/or affordability of pharmaceutical products for the treatment of tobacco dependence?

Yes

C2811. Where and how can these products be legally purchased in your country?

Over the counter at pharmacies for Nicotine Replacement Products. Doctor's prescription for bupropion and varenicline

C2812[1]. Which pharmaceutical products are legally available for the treatment of tobacco dependence in your jurisdiction?

[nicotine replacement therapy]

Yes

C2812[2]. Which pharmaceutical products are legally available for the treatment of tobacco dependence in your jurisdiction?

[bupropion]

Yes

C2812[3]. Which pharmaceutical products are legally available for the treatment of tobacco dependence in your jurisdiction?

[varenicline]

Yes

C2812[4]. Which pharmaceutical products are legally available for the treatment of tobacco dependence in your jurisdiction?

[other (please specify)]

No

C2812[other]. Which pharmaceutical products are legally available for the treatment of tobacco dependence in your jurisdiction?

[Other]

C2813[1]. Are the costs of these products covered by public funding or reimbursement? [nicotine replacement therapy]

Partially

C2813[2]. Are the costs of these products covered by public funding or reimbursement? [bupropion]

Partially

C2813[3]. Are the costs of these products covered by public funding or reimbursement? [varenicline]

Partially

C2813[4]. Are the costs of these products covered by public funding or reimbursement? [other (please specify below)]

C2813b. Please provide other details in the space below.

C2814. Please provide a brief description of the progress made in implementing Article 14 (Demand reduction measures concerning tobacco dependence and cessation) in the past two years or since submission of your last report.

Since the last update, HPB has implemented a targeted holistic tobacco control programme in schools with a high reported number of underage smokers. Schools are encouraged to implement a comprehensive tobacco control programme, focusing on both preventing initiation and supporting cessation for youth smokers. These cessation programmes for youth are underpinned by a strengths-based approach that seeks to harness positive aspects of the youth to bring about behaviour change. This approach is based on the understanding that youth will be more ready to address their problems when they feel empowered and more confident about their own abilities.

HPB's cessation programme helps youth channel their attention away from smoking and other risky behaviours by engaging in healthy activities aligned with their strengths. It also equips youth with the knowledge and skills to kick the habit and learn coping strategies to better deal with stress, anger, frustration or boredom.

Student Health Advisors (SHAs) also provide tailored smoking cessation counselling to youth smokers in schools. Counselling sessions are conducted on an individual and/or group basis, depending on the youth's specific needs and preferences.

Since 2016, HPB has also intensified and expanded smoking control programmes for uniformed services personnel. In the units that HPB is currently working with, a holistic health seminar, which covers a comprehensive range of health topics including smoking and alcohol use, is conducted for all recruits upon enlistment. This is followed up by an intensive group cessation programme where selected recruits (after a screening procedure to identify motivated quitters) undergo weekly customized activities designed to help them quit or reduce. HPB is working with the Singapore Armed Forces to expand these programmes to more units to achieve service-wide coverage eventually.

C2815. Have you utilized the "Guidelines for implementation of Article 14 of the WHO FCTC" when developing and implementing policies in this area?

Yes

C3. MEASURES RELATING TO THE REDUCTION OF THE SUPPLY OF TOBACCO

C3. With reference to Articles 15-17

C31. Illicit trade in tobacco products Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C311. requiring marking of all unit packets and packages of tobacco products and any outside packaging of such products to assist in determining the origin of the product?

No

C312. requiring marking of all unit packets and packages of tobacco products and any outside packaging of such products to assist in determining whether the product is legally sold on the domestic market?

No

C313. requiring that unit packets and packages of tobacco products for retail and wholesale use that are sold on the domestic market carry the statement: "Sales only allowed in ..." or carry any other effective marking indicating the final destination of the product?

No

C314. developing a practical tracking and tracing regime that would further secure the distribution system and assist in the investigation of illicit trade?
No

C315. requiring that marking is presented in legible form and/or appears in the principal language or languages of the country?
Yes

C316. requiring the monitoring and collection of data on cross-border trade in tobacco products, including illicit trade?
Yes

C317. facilitating the exchange of this information among customs, tax and other authorities, as appropriate, and in accordance with national law and applicable bilateral and multilateral agreements?
Yes

C318. enacting or strengthening legislation, with appropriate penalties and remedies, against illicit trade in tobacco products, including counterfeit and contraband cigarettes?
Yes

C319. requiring that confiscated manufacturing equipment, counterfeit and contraband cigarettes and other tobacco products derived from illicit trade are destroyed, using environment-friendly methods where possible, or disposed of in accordance with national law?
Yes

C3110. adopting and implementing measures to monitor, document and control the storage and distribution of tobacco products held or moving under suspension of taxes or duties?
Yes

C3111. enabling the confiscation of proceeds derived from illicit trade in tobacco products?
Yes

C3112. promoting cooperation between national agencies and relevant regional and international intergovernmental organizations in investigations, prosecutions and proceedings, with a view to eliminating illicit trade in tobacco products, with special emphasis on cooperation at regional and subregional levels?
Yes

C3113. licensing or other actions to control or regulate production and distribution in order to prevent illicit trade?
Yes

C3114. Please provide a brief description of the progress made in implementing Article 15 (Illicit trade in tobacco products) in the past two years or since submission of your last report.
Singapore Customs is a member of World Customs Organisation (WCO) Regional Intelligence Liaison Offices Asia Pacific (RILO AP) and participates in Regional Expert Group (REG) for Regional Illicit Tobacco Enforcement Package (RITEP). This is an extended enforcement package from the existing "Project Crocodile", which is a project that combats cigarette smuggling in the AP region. The RITEP included the formation of a Regional Experts Group (REG) and set-up of the Regional Targeting Unit (RTU), incorporating elements on information exchange, risk analysis and capacity building to identify the sophisticated methodologies used by cigarette smugglers to circumvent border control.

D. INTERNATIONAL COOPERATION AND ASSISTANCE

D0. Pursuant to Article 21.1(c) and in accordance with Article 26, have you either provided or received financial or technical assistance (be it through unilateral, bilateral, regional, subregional or other multilateral channels, including relevant regional and international intergovernmental or nongovernmental organizations and financial and development institutions) for the development and strengthening of multisectoral, comprehensive tobacco control programmes of developing country Parties and Parties with economies in transition in any of the following areas:

D1[1]. development, transfer and acquisition of technology, knowledge, skills, capacity and expertise related to tobacco control? [Assistance provided]

Yes

D1[2]. development, transfer and acquisition of technology, knowledge, skills, capacity and expertise related to tobacco control? [Assistance received]

No

D2[1]. provision of technical, scientific, legal and other expertise to establish and strengthen national tobacco control strategies, plans and programmes? [Assistance provided]

Yes

D2[2]. provision of technical, scientific, legal and other expertise to establish and strengthen national tobacco control strategies, plans and programmes? [Assistance received]

Yes

D3[1]. appropriate training or sensitization programmes for appropriate personnel in accordance with Article 12? [Assistance provided]

Yes

D3[2]. appropriate training or sensitization programmes for appropriate personnel in accordance with Article 12? [Assistance received]

No

D4[1]. provision of the necessary material, equipment and supplies, as well as logistic support, for tobacco control strategies, plans and programmes? [Assistance provided]

No

D4[2]. provision of the necessary material, equipment and supplies, as well as logistic support, for tobacco control strategies, plans and programmes? [Assistance received]

No

D5[1]. identification of methods for tobacco control, including comprehensive treatment of nicotine addiction? [Assistance provided]

Yes

D5[2]. identification of methods for tobacco control, including comprehensive treatment of nicotine addiction? [Assistance received]

No

D6[1]. promotion of research to increase the affordability of comprehensive treatment of nicotine addiction? [Assistance provided]

No

D6[2]. promotion of research to increase the affordability of comprehensive treatment of nicotine addiction? [Assistance received]

No

D7. Please identify the Party or Parties from which assistance was received or to which assistance was provided.

Knowledge transfer

Singapore was invited as a technical advisor to conduct workshops on taxation policy and developing smoke-free environments in the lead up to the ASEAN SOHM meetings and SEATCA workshops.

Between January 2016 and January 2018, Singapore hosted 32 study trips for Parties from the SEARO / WPRO regions. Besides sharing Singapore's whole-of-government, multi-pronged tobacco control measures, these visits also provided Singapore and the visiting parties opportunities to discuss services such as establishing cessation services and enforcing graphic health warning labels. Subject matter for the study trips have been varied ranging from setting up cessation services/quit line, compliance and enforcement of graphic health warnings to taxation policy.

2016

Date? Visitation Info

13 Jan? Beijing Medical Delegation Visit

18 Jan? Study Trip by the S. Korean University Students (Hosted by Substance Abuse Dept)

27-29 Jan? Hong Kong Department of Health (Hosted by Youth Preventive Services)

8 Mar? NTU-MFA Healthcare Visit*

4 Apr? Nursing Visitors from Thailand (Hosted by YPS)

26 Apr? MOH Brunei Visit

27-29 Apr? MOH Malaysia Attachment of HPB

24-30 Jun? ASEAN Fellowship Exchange Programme – Dr Kyi Lwin Oo, Myanmar

29 Jun? Thai Delegation Field Study in Singapore

15 Jul? NUS Faculty of Arts & Social Sciences – Site Visit for University of Berkeley Students*

2-3 Aug? ASEAN Health Policy Fellowship – Dr Aizuniza Bte Abdullah (Public Health Physician at Ministry of Health HQ Putrajaya), Malaysia

11 Aug? Nurses from Chongqing China (Nursing Pedagogy) (Hosted by YPS)

D8. Please provide information about any assistance provided or received in the space below.

Technical Support / Capacity Building Programmes

Singapore through WHO TobLabNet and in synergy with various WHO platforms, continues to support the work requested by COP in capacity building by providing technical training and consultation in tobacco testing. Singapore provides tobacco testing service to regulatory agencies for countries at the western pacific region. Through WHO TobLabNet platform: Singapore involved in the following activities requested by COP:

- Provision of technical input and facilitated the finalization of Standard Operating Procedures (SOP) for determination of toxicants in mainstream cigarette smoke under ISO and intense smoking regime for aldehydes (SOP08) and volatile organics (SOP09).
- Lead the assessment in evaluating the applicability of TobLabNet's SOP in nicotine content testing in smokeless tobacco.
- Completed the assessment on the applicability of TobLabNet's validated SOPs for nicotine TSNA and B[a]P in smokeless tobacco.
- Provision of technical inputs on activities requested by COP on waterpipes, ENDS/ENNDS, heat not burn products to WHO and sharing of technical experience at various WHO meeting platforms.

D9. If you have not received or provided assistance in any of the aforementioned areas, please identify any financial or technical assistance that may be under consideration, if appropriate.

Nil.

D10. Have you encouraged relevant regional and international intergovernmental organizations and financial and development institutions in which you are represented to provide financial assistance for developing country Parties and for Parties with economies in transition to assist them in meeting their obligations under the Convention?

No

D11. Please provide details in the space below.

E. PRIORITIES AND COMMENTS

E1. What are the priorities for implementation of the WHO Framework Convention on Tobacco Control in your jurisdiction?

Singapore considers the implementation of the FCTC holistically and in ensuring that all the obligations are met, Singapore had focused on the time-bound implementation as well as targeting measures to control both the supply and demand of tobacco products domestically. One key area of focus for Singapore is to counter tobacco interference and we will be looking at developing guidelines in accordance with Article 5.3.

In reducing the demand of tobacco, Singapore places a strong emphasis on the implementation of Article 12 on the education and the creating public awareness as well as capacity building and leveraging on strategic partners to communicate our anti-tobacco messages. Singapore is in its advanced stage of implementation, with constant reviews for further strengthening or to address any gaps in the implementation of Articles 6-14 on demand control, particularly on Articles 6, 8 and 11. With the adoption of Guidelines of Articles 9 and 10, national implementation measures on those provisions may be further addressed. Article 13, will remain a key focal area and Singapore will be closely monitoring international developments in line with our commitments to the FCTC.

Implementation of Articles 15-17 which targets reduction of supply are in the process of implementation. Singapore considers implementation of Article 16 of importance to protect the youth from exposure to smoking.

Singapore constantly reviews our national policies with the various Ministries/ Agencies in Singapore to ensure a whole of government approach in implementing the FCTC obligations.

E2. Have you identified any specific gaps between the resources available and the needs assessed for implementing the WHO Framework Convention on Tobacco Control?

No

E3. Please provide details in the space below.

E4. What, if any, are the constraints or barriers, other than lack of resources, you have encountered in implementing the Convention?

E5[1]. Do you have any of the following products available on your national tobacco market? [smokeless tobacco products]

No

E5[2]. Do you have any of the following products available on your national tobacco market? [water pipe tobacco]
No

E5[3]. Do you have any of the following products available on your national tobacco market? [ENDS/ENNDS]
No

E5[other]. Do you have any of the following products available on your national tobacco market? [Other]

E6[1]. Have you adopted and implemented any policy or regulation that is specific to the following tobacco products? [smokeless tobacco products]
Yes

E6[2]. Have you adopted and implemented any policy or regulation that is specific to the following tobacco products? [water pipe tobacco]
Yes

E6[3]. Have you adopted and implemented any policy or regulation that is specific to the following tobacco products? [ENDS/ENNDS]
Yes

E6[other]. Have you adopted and implemented any policy or regulation that is specific to the following tobacco products? [Other]

E7. If you have any relevant information related to questions E5 and E6, please provide details in the space below.
The above products are prohibited under the TOBACCO (CONTROL OF ADVERTISEMENTS AND SALE) (PROHIBITED TOBACCO PRODUCTS) regulations 2014
