B121. Please indicate the smoking tobacco products included in calculating prevalence for question B12:

Cigarettes, cigars and household produced rolled tobacco product

B122A. Please indicate the year of the data used to answer question B12:

2015

B122B. Please indicate the source of the data used to answer question B12:

For the adult data – 2015 STEPS Survey data (report to be published 2018)

B123. Please provide a brief explanation of the trend in current smoking prevalence by age group in the past two years or since submission of your last report, if data are available.

The data is from 2006 STEPS and we will be conducting the follow up STEPS Survey this year, so we are not able to observe any trend, however anecdotally we have seen an increase uptake in women taking on the habit over the past two years

B13. Prevalence of smokeless tobacco use in the adult population (all) (Please provide prevalence data for total adult population, and identify the age considered in B132, e.g. 15 years old and over, 18–64 years; see B132)

B13A[1_B13x1]. Males [Current users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B162B. Please indicate the source of the data used to answer question B16:
Global Youth Tobacco Survey 2008

B163. Please provide the definition of "current smoking/tobacco use" used to answer question B16 in the space below.
Having smoked or used tobacco in the last 30 days.

B164. Please provide a brief explanation of the trend in tobacco use by young persons in the past two years or since submission of your last report.
We have observed that the uptake of the use of tobacco in the youth in the Solomon Islands has increased over the past two years, however I would like to think that with the recent anti-tobacco campaigns and the awareness programs of the tobacco control legislature of recent months the number would have reduced somewhat. The answer will be clear when we repeat the GSHS/GYTS in August of this year 2018.

Owner of importing company

B93. Please briefly describe the trend in the prices of tobacco products in the past two years or since submission of your last report in your jurisdiction.

This importer is the only one importer licensee in country and he is running duty free sales from his duty free shop at the only International airport in the country. It is interesting to note from his records that he is not even importing cigarettes as the cigarettes sold from his shop are all locally produced from the Solomon Islands Tobacco Company (SITCO) the British American Tobacco branch here in country. His set up is new and he has been here for the past two years now. The shop is selling a sleeve of 10 packets and he is selling packets of 25 cigarette initially until September when SITCO introduced their packet of 20s which is what most people are buying from the duty free shop now.

C1. GENERAL OBLIGATIONS

C1. With reference to Article 5

C111. Have you developed and implemented comprehensive multisectoral national tobacco control strategies, plans and programmes in accordance with the Convention?
No

C112. Have you partially developed and implemented tobacco control strategies by including tobacco control in national health, public health or health promotion strategies, plans and programmes?
Yes

C113. Is any aspect of tobacco control that is referred to in the Convention included in any national strategy, plan or programme?
N/A

C114[C114a]. Have you established or reinforced and financed: [a focal point for tobacco control?]
Yes

C114[C114b]. Have you established or reinforced and financed: [a tobacco control unit?]
Yes

C114[C114c]. Have you established or reinforced and financed: [a national coordinating mechanism for tobacco control?]
Yes

C115. Please provide details (e.g. the nature of the national coordinating mechanism, the institution to which the focal point for tobacco control or the tobacco control unit belongs).

A national coordinating mechanism for tobacco control in the country was established May 2014 with the formulation of a national stakeholder group for tobacco control and also the endorsement of a technical advisory group. Prior to May 2014, the national coordinating group/committee for tobacco control in the country was the Tobacco Control Taskforce Committee (TCTFC). The TCTFC was mandated by the Minister of Health with the task of formulating the tobacco control regulations. However, in the absence of a national coordinating mechanism the TCTFC has been the interim advisory group for tobacco control in the country. This group consisted of a chairman (under secretary of Health Improvement), a vice chairman (National Director, Health Promotions), the national tobacco control focal point (National Director of NCD Prevention and Control) and members which also includes the National Tobacco Control Coordinator. Other members include a Ministry of Education representative, Ministry of Finance and Treasury and the civil society. TCTFC has been coordinating all the efforts geared towards tobacco control from 2010 up till the year of 2014, May, when a wider and more extended group of stakeholders met and the national tobacco control stakeholders committee was established along with the endorsement of the technical advisory group (TAG) for tobacco control. The TAG for tobacco control is generally an extension of the TCTFC.

As mentioned above the national focal point for tobacco control is the Director for NCDs prevention and control, and this commenced in 2010. Before 2010, the focal point was the Director of Health Promotions. We now have a tobacco control unit, with two people coordinating this unit with support from the staff from both the NCD Department and the Health Promotions Department. Tobacco Focal Point now is still the Director for NCDs.

We are now looking at legislating a technical advisory group for tobacco control in the amendments for the Tobacco Control Act 2010 which we will be putting through Cabinet this year. This group will continue to coordinate tobacco control activities in the country especially the implementation and enforcement of the Tobacco Control legislation. We will be doing recruitments as well for the Tobacco Control Unit to bulk up the work force for compliance and enforcement of the tobacco control laws.

C116. Please provide a brief description of the progress made in implementing Article 5.1 and 5.2 (General obligations) in the past two years or since submission of your last report.

Tobacco Focal Point shifted from Health Promotions department to NCD Department.

Tobacco Control Taskforce Committee has been the coordinating body for efforts concerning tobacco control in the country for the past two year under the leadership and guidance of the tobacco control focal point who is also the Director for NCDs in country.

Tobacco Control Multisectoral Committee following their establishment 4 years ago continues to meet quarterly.

TCTFC plus additional members endorsed to be the technical advisory group (TAG) for tobacco control in the country and provisions for the Tobacco Control TAG is reflected in the amendments of the Tobacco Control Act 2010

C117. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

We are also working on establishing advisory boards as well and this will be reflected in the amendments of the Tobacco Control Act 2010 as well as Tobacco Control Regulations 2013 upon the approval of the Parliament.

C12. Protection of public health policies with respect to tobacco control from commercial and other vested interests of the tobacco industry Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C21. protecting public health policies with respect to tobacco control from commercial and other vested interests of the tobacco industry?
Yes

C122. ensuring that the public has access, in accordance with Article 12(c), to a wide range of information on tobacco industry activities relevant to the objectives of the Convention, such as in a public repository?
Yes

C123. Please provide details in the space below.
We have guidelines developed as part of a Bloomberg Project on Article 5.3 which we are using along with a presentation of tobacco industry interference to inform all line ministries. We are also in the process of setting up a 5.3 teaching module for public servants as part of the ongoing IPAM training conducted by a department within the Ministry of Public Service. The idea is to include factor in Article 5.3 into the code of conduct for public servants.
As far as Article 12 is concerned, a national campaign to educate the public on the dangers of tobacco use and running awareness on the Tobacco Control Act 2010 was conducted at the latter part of 2012. Ongoing use of media which included radio talkback shows and 15 minutes spots informing the public on the tobacco control legislation and other issues concerning tobacco use and control were aired on the national radio station.
The document for the amendment of the Tobacco Control Act 2010 also has provisions for Article 5.3 as well. We are working towards having these amendments discussed by the Parliament this year if we can.

C124. Please provide a brief description of the progress made in implementing Article 5.3 in the past two years or since submission of your last report.
Development of guidelines for interactions with the industry
Discussions with Ministry of Public Service to factor in elements in Article 5.3 into the code of conduct
Public Service training program to include FCTC and specifically Article 5.3
Draft amendment for Article 5.3 to be part of the Tobacco Control Act. The amendment document is at its final draft now and we will be putting it to Cabinet and later the Parliament hopefully before the end of the year.

C125. Have you utilized the "Guidelines for implementation of Article 5.3 of the WHO FCTC" when developing or implementing policies in this area?
Yes

Part 5 of the Tobacco Control Act 2010 provides for smoke-free areas which includes banning tobacco smoking in indoor workplaces, public transport, indoor public places and, as appropriate, other public places . We have developed a smoke-free policy for schools and we are working on smoke-free policies for workplace, health facilities and public transport. There is also an administrative and executive order from Permanent Secretary for the Ministry of Health and Medical Services present that bans smoking within the Ministry of Health Compound with billboards and signs to enforce this order. This includes the main office/headquarters as well as living quarters of health workers within the medical compound.

C224. Do any of these measures provide for a mechanism/ infrastructure for enforcement?

Yes

C225. Please provide details of this system.

We have now in final draft an Enforcement/ Compliance Strategy Plan to support our enforcement policy along with enforcement training manuals. The Enforcement/Compliance Strategy Plan has three major components and one of the major components is the control of second hand smoking.

WHO, WHO TFI, FCTC Convention secretariat , Secretariat of the South Pacific (SPC), McCabe Cancer Centre (Melbourne)
D8. Please provide information about any assistance provided or received in the space below.
The main party that has been assisting us on tobacco control is WHO. In the past two years their work has involved training and workshops on accelerating excise tax on tobacco. WHO, together with the McCabe Cancer Centre (Melbourne) have rendered technical assistance towards the strengthening of tobacco control legislation as well as tobacco control enforcement work.
D9. If you have not received or provided assistance in any of the aforementioned areas, please identify any financial or technical assistance that may be under consideration, if appropriate.
D10. Have you encouraged relevant regional and international intergovernmental organizations and financial and development institutions in which you are represented to provide financial assistance for developing country Parties and for Parties with economies in transition to assist them in meeting their obligations under the Convention?
No
D11. Please provide details in the space below.

E. PRIORITIES AND COMMENTS

E1. What are the priorities for implementation of the WHO Framework Convention on Tobacco Control in your jurisdiction?
Implementation of FCTC in the Solomon Islands is high in the priorities. And we are looking at low hanging fruits from the Needs Assessment work done in 2012 to guide us. Looking at gaps and recommendations and working to minimize the gaps where we can. Currently we are targeting 3 areas: 1. Second Hand Smoking 2. Sale to minors (as well as working to amend legislation to include sale by minors as well) 3. Sale of single cigarette sticks
E2. Have you identified any specific gaps between the resources available and the needs assessed for implementing the WHO Framework Convention on Tobacco Control?
Yes
E3. Please provide details in the space below.
The Solomon Islands conducted the Tobacco Control Needs Assessment in collaboration with the convention secretariat in March of 2012 where gaps were identified and recommendations made. The Solomon Islands is committed to ensure that the gaps identified be nullified as we progress to implement the recommendations. See Needs Assessment document attached.) This document continues to guide us in prioritizing the areas of tobacco control going forward.
E4. What, if any, are the constraints or barriers, other than lack of resources, you have encountered in implementing the Convention?
Mixed bag of political commitment, lack of awareness of FCTC, tobacco industry interference, lack of funds

E5[1]. Do you have any of the following products available on your national tobacco market? [smokeless tobacco products]
No

E5[2]. Do you have any of the following products available on your national tobacco market? [water pipe tobacco]

E7. If you have any relevant information related to questions E5 and E6, please provide details in the space below.
The smokeless tobacco that people are using now is just taken from cigarette rolls and chewed mainly with betel nut. We do not sell smokeless tobacco products nor do we have water pipe tobacco or ENDS.

E8. Please provide any other relevant information not covered elsewhere that you consider important.
