The elimination of all forms of illicit trade in tobacco products, including smuggling, illicit manufacturing and counterfeiting are essential components of tobacco control. Therefore, all unit packets and packages of tobacco products and any outside packaging of such products are marked (special excise stamps) to assist in determining the origin of tobacco products. However, a sharp increase of the sale of illegal cigarettes is noticed since the taxes increased and also due to the crisis in Suriname the current exchange rate of the US \$ increased twice as high as 2 years before for the SR \$ (Surinamese Dollar). More stringent measures has been taken to enact and enforce the provision of the law and Regulation E35 (Smuggling Regulation) which regulate all goods confiscated from smuggling and the Law "Tegen gaan Smokkelen" State Gazette 1986 no 03.
