B115. Please provide a brief explanation of the trend in smoking prevalence in the adult population in the past two years or since submission of your last report.

l'Enquête Nationale Santé 2016 (THES 2016) a montré que la prévalence des fumeurs parmi les hommes âgés de 15 ans et plus est de 45,5 % et une prévalence de 2,7% parmi les femmes âgées de 15 ans et plus. Ces données montrent une baisse par rapport à l'enquête spécifique concernant le tabagisme de 2005 (TAHINA 2005). Cette baisse peut être expliquée par :

- l'enquête santé de 2016 n'est pas spécifique au tabagisme.
- beaucoup d'efforts ont été fournis par le Ministère de la Santé, surtout en matière de ; la sensibilisation du grand public sur les méfaits du tabac, l'interdiction ferme de la publicité directe dans les mass média pour le tabac et de la promotion de l'aide au sevrage tabagique...

Actuellement il n'existe qu'une seule phrase "le tabac nuit à la santé" écrite en très petit sur le haut du paquet

Il existe également le Taux de certains constituants

Mais depuis l'apparition d'un projet d'arrêté du ministre de la santé fin 2012, la RNTA a donné une grande importance quant à l'application de ce projet qui vise à modifier l'arrêté du 24 février 1999 fixant les modalités d'inscription des mentions qui doivent être portés sur la couverture extérieure des paquets de cigarettes et des cartouches et qui sont exposés directement aux consommateurs

La RNTA a prévu sur les emballages de prescrire les inscriptions préventives dessinées sur 40% de l'espace principal extérieur et ce avec les deux langues arabe et français imprimées en caractères lisibles et avec les % des différents constituants et produits émis (nicotine, goudron, Co)

E. PRIORITIES AND COMMENTS

E1. What are the priorities for implementation of the WHO Framework Convention on Tobacco Control in your jurisdiction?

La révision de la loi 17/98 relative à la prévention des méfaits du tabac a été finalisée et est en cours de ratification par le parlement, cette révision a été faite dans le sens de :

- Interdire de fumer dans les espaces à utilisation collective et clos
- Mettre les avertissements sanitaires schématisés et écrits sur au moins 80% de la surface du paquet de cigarettes et de l'emballage
- Procéder à l'analyse des émissions du tabac
- Interdire la vente de cigarettes en détails et aux mineurs de moins de 18 ans
- Interdiction de la publicité directe et indirecte dans les mass médias
- Majoration des amendes prévus pour les infractions

E2. Have you identified any specific gaps between the resources available and the needs assessed for implementing the WHO Framework Convention on Tobacco Control?

Yes

E3. Please provide details in the space below.

Les fonds prévus pour la lutte antitabac ne sont pas définis selon les besoins relatifs à l'application des directives de la convention cadre de lutte contre le tabac qui exige beaucoup de moyens pour le contrôle de la mise en oeuvre de la convention cadre, les analyses et tests d'émissions, le contrôle transfrontalier.

Le budget disponible ne tien compte que des activités de sensibilisation, de formation et de la fourniture d'un appoint en substituts nicotiques

E4. What, if any, are the constraints or barriers, other than lack of resources, you have encountered in implementing the Convention?

- la loi 17/98 a été révisée selon les directives de la convention cadre. Néanmoins, nous sommes en attente de la ratification de cette nouvelle loi par le parlement
- le non respect de la loi dans les espaces où il est interdit de fumer
- le manque d'implication des autres partenaires impliqués dans la lutte antitabac
