En base a los estudio de Prevalencia Consumo de Tabaco en Población General elaborados por el Servicio Nacional para la Prevención y Rehabilitación del Consumo de Drogas y alcohol. (SENDA 2014)
Es posible analizar que la prevalencia diaria de tabaco detiene el descenso mostrado a lo largo de la década pasada, llegando a un 22,7% en esta versión. No obstante lo anterior, se observa un aumento significativo en mujeres pasando de un 20,1% en 2012 a un 22,2% en 2014, equiparándose las prevalencias de consumo respecto a hombres.
El número de personas que inició consumo de tabaco en el último año se mantuvo estable respecto a 2012 que corresponde a 639.213 individuos en 2014, de estas un 33,9% corresponde a adolescentes y jóvenes.
Al comparar las últimas dos encuestas, La prevalencia diaria de tabaco se mantiene estable tanto a nivel nacional como también por nivel socioeconómico. Los reportes de 2014 muestran una gradiente decreciente por nivel socioeconómico y el consumo reportado en los NSE bajos es significativamente mayor (N=577.981 en 2014) respecto a los niveles medio y altos. No se observan diferencias entre estos dos últimos.

Con respecto a la Protección contra la exposición al humo de tabaco, nuestro país ha alcanzado un gran logro al aprobarse las modificaciones de la Ley 19.419 mediante la Ley 20.660, el año 2013.

Entre las principales modificaciones se establece la prohibición de fumar en todo espacio cerrado que sea lugar accesible al público o de uso comercial colectivo, independientemente de quien sea el propietario o de quien tenga derecho de acceso a ellos y también en espacios abiertos de recintos deportivos y establecimientos públicos salvo en los espacios designados para fumar.

En el actual propuesta de modificación de la ley 19.419 se que los fiscalizadores de salud puedan implementar un sumario sanitario al identificar alguna infracción a la ley logrando de esta manera que el proceso de fiscalización y sanción sean mas eficaces

- Además para los fiscalizadores de los organismos competentes se elaboro el " Manual para la Fiscalización de la Ley de Tabaco". Disponible en http://web.minsal.cl/tabaco_introduccion.

Durante la discusión del proyecto de reforma de la Ley de Tabaco que derivó en la aprobación de la Ley 20.660 que modifica la ley 19.419, las directrices del convenio marco fueron entregadas y utilizadas como mecanismo para dirimir discrepancias en las discusiones de la Comisión de Salud de la Cámara de Diputados, de la Comisión de Salud de la Cámara del Senado, como en las diversas comisiones que así lo requiriesen. Los defensores de la Nueva Ley de tabaco utilizaron las directrices entre sus argumentos a favor de una nueva legislación en sus presentaciones en sala. La definición de espacio cerrado incorporada en el artículo 2 de la Ley 19.419 fue redactada en función de la definición de espacio cerrado plasmado en las Directrices del artículo 8.
