B161. Please indicate the tobacco products included in calculating prevalence for question B16:
Tobacco products smoked" include only cigarettes. For "smokeless use", this includes chewing tobacco, snuff or dip. It is likely that Palauan youth who use tobacco with betel nut respond positively to this question (i.e., they will respond "yes" if they add any tobacco product to their betel quid)

B162A. Please indicate the year of the data used to answer question B16:
2013

B162B. Please indicate the source of the data used to answer question B16:
Palau Youth Tobacco Survey

B163. Please provide the definition of "current smoking/tobacco use" used to answer question B16 in the space below.
For the youth data, "current use" means the respondent has smoked a cigarette or used chewing tobacco, snuff or dip on at least 1 day in the past 30 days before the survey.

B164. Please provide a brief explanation of the trend in tobacco use by young persons in the past two years or since submission of your last report.
Youth smoking rates have risen while chewing with betel nut has gone down slightly.

B84. Please briefly describe the trends in taxation for tobacco products in the past two years or since submission of your last report in your jurisdiction.

RPPL 9-7 (passed July 31, 2013) changed the taxation of cigarettes and all other tobacco products to a weight based rate so all tobacco products are taxed similarly. Other legislation (RPPL 9-15 passed in September, 2013) set a tax increase that took effect in January 2014 (an increase of \$1.50 to the existing \$2.00 for a total tax of \$3.50 on a pack of 20 cigarettes). Another increase of \$1.50 took effect in January, 2015. Cigarettes and other tobacco products are now taxed at a rate of \$5.00/.017 kg. Packs weighing less than .017 kg are taxed at the rate of \$5.00/pack.

B85. Do you earmark any percentage of your taxation income for funding any national plan or strategy on tobacco control in your jurisdiction?

Yes

B86. Please provide details in the space below.

RPPL 9-57, signed on February 17, 2016, allocates ten percent of the revenues derived from the taxes of alcohol and tobacco to fund the newly established Palau National Coordinating Mechanism (CM) and allows it to fund programs that it determines are best able to prevent Non-Communicable Diseases in Palau. CM is a committee of government, semi-government, civil society and private sector agencies and organizations that will facilitate and coordinate efforts to combat the occurrences and impacts of Non-Communicable Disease and its Risk Factors in the Republic of Palau.

C1. GENERAL OBLIGATIONS

C1. With reference to Article 5

C111. Have you developed and implemented comprehensive multisectoral national tobacco control strategies, plans and programmes in accordance with the Convention?
Yes

C112. Have you partially developed and implemented tobacco control strategies by including tobacco control in national health, public health or health promotion strategies, plans and programmes?
N/A

C113. Is any aspect of tobacco control that is referred to in the Convention included in any national strategy, plan or programme?
N/A

C114[C114a]. Have you established or reinforced and financed: [a focal point for tobacco control?]
Yes

C114[C114b]. Have you established or reinforced and financed: [a tobacco control unit?]
Yes

C114[C114c]. Have you established or reinforced and financed: [a national coordinating mechanism for tobacco control?]
Yes

C115. Please provide details (e.g. the nature of the national coordinating mechanism, the institution to which the focal point for tobacco control or the tobacco control unit belongs).
The focal point and the tobacco control unit are set within the structure of the Bureau of Public Health in the Ministry of Health and are largely funded by US Federal grant funds. The coordinating mechanism was established in May, 2015 by Executive Order 379 (see attached) and includes representation of each Ministry of the Executive Branch as well as semi government and civil society organizations.

C116. Please provide a brief description of the progress made in implementing Article 5.1 and 5.2 (General obligations) in the past two years or since submission of your last report.
With reference to Article 5.1, the Palau National NCD Plan was finalized in 2015 and the section on Tobacco Control serves as the FCTC implementation plan (see attached). With reference to Article 5.2, the CM was formally established in May, 2015 through Executive Order 379 as described above. Funding for activities to implement the NCD national plan will be available from tobacco and alcohol taxes as described in B 86 above.

C117. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.
One of the duties of the Coordinating Mechanism (CM) per Executive Order 379 is to develop an explicit code of behavior/conduct for the CM members with respect to industry interference. This is in development and a draft will be considered in the next meeting of the CM in April 2016.

C12. Protection of public health policies with respect to tobacco control from commercial and other vested interests of the tobacco industry Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C121. protecting public health policies with respect to tobacco control from commercial and other vested interests of the tobacco industry?
No

C122. ensuring that the public has access, in accordance with Article 12(c), to a wide range of information on tobacco industry activities relevant to the objectives of the Convention, such as in a public repository?
No

C123. Please provide details in the space below.

C124. Please provide a brief description of the progress made in implementing Article 5.3 in the past two years or since submission of your last report.

There has been significant activity to advance our efforts on this provision. The tobacco control working group (TCWG) of the Coordinating Mechanism completed the Pacific Tobacco Industry Interference Index that was subsequently submitted to WHO for a brief analysis and scoring. In addition, the report included recommendations for steps to implement the Article 5.3 Guidelines. The TCWG has also submitted comments/suggested edits to the national government's Bureau of Public Service System (BPSS) for the revision of their rules and regulations to include elements of Article 5.3. The TCWG is also finalizing a code of behavior for members and organizations of the NCD Coordinating Mechanism (CM) per Executive Order 379 (duties of the CM). At least two presentations on Article 5.3 have been delivered to members of the CM. Plans are also underway to design a campaign to raise awareness of the harm caused by tobacco use and role of tobacco industry interference to mislead the public.

C125. Have you utilized the "Guidelines for implementation of Article 5.3 of the WHO FCTC" when developing or implementing policies in this area?

Yes

C126. Please provide details in the space below or refer to section I of the additional questionnaire. Response to this question or to the additional questionnaire is voluntary. <https://extranet.who.int/dataform/655321?token={TOKEN}&=en>

The Pacific Tobacco Industry Interference Index is based on the Guidelines. Palau will address each of the provisions over time starting with codes of conduct.

C2. MEASURES RELATING TO THE REDUCTION OF DEMAND FOR TOBACCO

C2. With reference to Articles 6-14

C21. Price and tax measures to reduce the demand for tobacco Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C211. tax policies and, where appropriate, price policies on tobacco products so as to contribute to the health objectives aimed at reducing tobacco consumption?

Yes

C212. prohibiting or restricting, as appropriate, sales to international travellers of tax- and duty-free tobacco products?

Yes

C213. prohibiting or restricting, as appropriate, imports by international travellers of tax- and duty-free tobacco products?

Yes

C214. Please provide a brief description of the progress made in implementing Article 6 (Price and tax measures to reduce the demand for tobacco) in the past two years or since submission of your last report.

As mentioned, on February 17, 2016, Palau's President approved legislation RPPL 9-57 that allocates 10% of taxes on tobacco and alcohol to non-communicable disease prevention, 10% of the annual tobacco excise tax revenues and 10% of taxes on alcohol to fund healthcare coverage subscription costs for citizens who are not working and are at least 60 years of age or disabled. Also, the provision of the tax law (RPPL 9-15 regarding the prohibition on duty free sales to international travelers) is now being enforced.

C215. Have you utilized the "Guidelines for implementation of Article 6 of the WHO FCTC" when developing or implementing policies in this area?

Significant progress was made with RPPL 8-27 coming into effect in February, 2012. Only a few exemptions make it less than 100% comprehensive. A notable achievement was the ban of point of sales (POS). The law states "No person shall advertise or otherwise promote any tobacco brand, manufacturer or seller by any means, directly or indirectly that is intended to have or is likely to have the direct or indirect effect of promoting the purchase or use of tobacco or a tobacco brand, or of promoting a tobacco manufacturer or seller. Ads and promotions include words, messages, mottos, slogans, letters, numbers, pictures, images, graphics, sounds or any other auditory, visual, or sensory matter, in whole or part that are commonly identified or associated with a tobacco brand, manufacturer or seller. This prohibition includes a total ban on any display and on the visibility of tobacco products at points of sales (POS) but does not include the broadcast of television programming generated from outside Palau. Brand-stretching is prohibited. Tobacco sponsorships are prohibited. Sweepstakes, contests, rebates are prohibited. Cigarettes cannot be sold as single sticks; no person shall manufacture or distribute any product designed for or likely to appeal to children that evokes an association with a tobacco product, including but not limited to, candy or gum cigarettes or other sweets or snacks in the form of tobacco products.

C438. Please provide a brief description of the progress made in implementing Article 20 (Research, surveillance and exchange of information) in the past two years or since submission of your last report.
Adult data was collected through the WHO STEPS during the last reporting period, and will be collected again this reporting period. The CDC's Behavioral Risk Factor Surveillance System (BRFSS) was also administered during this last reporting period but results are not yet available. Collection of youth data continued on a regular basis.
Research on tobacco use by pregnant and breastfeeding women was conducted in 2014.

D. INTERNATIONAL COOPERATION AND ASSISTANCE

D0. Pursuant to Article 21.1(c) and in accordance with Article 26, have you either provided or received financial or technical assistance (be it through unilateral, bilateral, regional, subregional or other multilateral channels, including relevant regional and international intergovernmental or nongovernmental organizations and financial and development institutions) for the development and strengthening of multisectoral, comprehensive tobacco control programmes of developing country Parties and Parties with economies in transition in any of the following areas:

D1[1]. development, transfer and acquisition of technology, knowledge, skills, capacity and expertise related to tobacco control? [Assistance provided]

No

D1[2]. development, transfer and acquisition of technology, knowledge, skills, capacity and expertise related to tobacco control? [Assistance received]

Yes

D2[1]. provision of technical, scientific, legal and other expertise to establish and strengthen national tobacco control strategies, plans and programmes? [Assistance provided]

No

D2[2]. provision of technical, scientific, legal and other expertise to establish and strengthen national tobacco control strategies, plans and programmes? [Assistance received]

No

D6[2]. promotion of research to increase the affordability of comprehensive treatment of nicotine addiction? [Assistance received]
No

D7. Please identify the Party or Parties from which assistance was received or to which assistance was provided.
As described below, the assistance received was not received from a Party or Parties but from WHO, CDC, and civil society.

D8. Please provide information about any assistance provided or received in the space below.
We have not received assistance from any Party or Parties, but the government has received significant assistance from WHO on the following: Article 5.3: report on Pacific Tobacco Industry Interference Index, Article 11: focus group training for development of Palau appropriate Graphic Health Warnings, Brief Tobacco Intervention Skills Training for Clinicians and Non-Clinicians. CDC has supported Training of Trainers for Brief Tobacco Intervention Skills, and has also supported Data for Decisions Making Training. CDC will provide Epi Aid training (later in 2016) to develop public health intervention on tobacco use among pregnant women and breastfeeding mothers. Civil society has been helpful during the process of establishing the CM and training on 5.3.

D9. If you have not received or provided assistance in any of the aforementioned areas, please identify any financial or technical assistance that may be under consideration, if appropriate.
None is under consideration from or to any other parties. See E3 for a description of assistance needed.

D10. Have you encouraged relevant regional and international intergovernmental organizations and financial and development institutions in which you are represented to provide financial assistance for developing country Parties and for Parties with economies in transition to assist them in meeting their obligations under the Convention?
No

D11. Please provide details in the space below.

E. PRIORITIES AND COMMENTS

E1. What are the priorities for implementation of the WHO Framework Convention on Tobacco Control in your jurisdiction?
Palau's 2012 needs assessment report based on the 2011 assessment identified multiple areas of need. However, our priorities are now Article 5.2(a) continued strengthening of the Coordinating Mechanism, Article 5.3 (industry interference), Article 11 (packaging and labeling) and Article 14 (cessation) and strengthening of the enforcement of our current legislation

E2. Have you identified any specific gaps between the resources available and the needs assessed for implementing the WHO Framework Convention on Tobacco Control?
Yes

E3. Please provide details in the space below.
We have gaps; however we have not assessed the cost of implementation of the FCTC and therefore cannot determine the extent of the gap. We would also need assistance to determine the return on the investment (ROI) in tobacco control. As documented in the 2014 report we also need resources to 1) conduct local research including the economic impact of tobacco use; 2) increase enforcement capacity (e.g. more police officers), 3) fund media campaigns including funds for computer and software to improve media/marketing and education activities; 4) implement Article 14 guidelines and establishment of subsequent cessation services, and 5) implement Articles 5.3 and 11. We also need funding assistance to have at least 2 participants attend COP meetings so that we can more fully participate in meetings and activities that often occur simultaneously. We need guidance as to who we can request assistance for these above mentioned activities. Our NGO partners also have little funding to participate in FCTC implementation.

E4. What, if any, are the constraints or barriers, other than lack of resources, you have encountered in implementing the Convention?

E5[1]. Do you have any of the following products available on your national tobacco market? [smokeless tobacco products]
Yes

E5[2]. Do you have any of the following products available on your national tobacco market? [water pipe tobacco]
No

E5[3]. Do you have any of the following products available on your national tobacco market? [ENDS/ENNDS]
No

E5[other]. Do you have any of the following products available on your national tobacco market? [Other]

E6[1]. Have you adopted and implemented any policy or regulation that is specific to the following tobacco products? [smokeless tobacco products]

No

E6[2]. Have you adopted and implemented any policy or regulation that is specific to the following tobacco products? [water pipe tobacco]

No

E6[3]. Have you adopted and implemented any policy or regulation that is specific to the following tobacco products? [ENDS/ENNDS]

No

E6[other]. Have you adopted and implemented any policy or regulation that is specific to the following tobacco products? [Other]

E7. If you have any relevant information related to questions E5 and E6, please provide details in the space below.

Electronic cigarettes are included in the definition of "tobacco" in our comprehensive tobacco control legislation RPPL 8-27.

E8. Please provide any other relevant information not covered elsewhere that you consider important.

E9. Your suggestions for further development and revision of the reporting instrument:

This revised/current reporting instrument is great, however, instead of a link sent on an email reminder, a website with username and password provided to all member countries could be better. Also, a 'save' button along with the 'resume later' button could be very useful too. Both suggestions are good for countries like us with slow internet connection. It makes it easier for us to log in to the site whenever possible, and make necessary edits to any parts of it, or continue on any sections that we left blank.

It would also be helpful if the % of survey completed was updated each time a response is entered and is relevant to the whole survey, not just certain sections.

With this new instrument, we experienced some difficulties - there were times that we had to restart all over again as we were not prompted to the sections we left blank or to continue, and sometimes the page did not save the answers automatically - all of which is due to our slow internet connection. Thank you.
