## B1. TOBACCO CONSUMPTION

B1. Prevalence of tobacco use
B11. Smoking prevalence in the adult population (all) (Please provide prevalence data for total adult population, and identify the age considered, e.g. 15 years old and over, 18-64 years; see B112)
B11A[1_SQ001]. Current smokers [MALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
24.8
B11A[1_SQ002]. Current smokers [MALE][Average number of the most-consumed smoking tobacco product used per day]
12.63
B11A[2_SQ001]. Current smokers [FEMALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
18.7
B11A[2_SQ002]. Current smokers [FEMALE][Average number of the most-consumed smoking tobacco product used per day]
9.96
B11A[3_SQ001]. Current smokers [TOTAL (males and females)][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
21.4
B11A[3_SQ002]. Current smokers [TOTAL (males and females)][Average number of the most-consumed smoking tobacco product used per day]
11.29
B11B[1_SQ001]. Daily smokers [MALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
17.2
B11B[1_SQ002]. Daily smokers [MALE][Average number of the most-consumed smoking tobacco product used per day]
15.33
B11B[2_SQ001]. Daily smokers [FEMALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
14.0
B11B[2_SQ002]. Daily smokers [FEMALE][Average number of the most-consumed smoking tobacco product used per day]
11.94
B11B[3_SQ001]. Daily smokers [TOTAL (males and females)][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
15.4
B11B[3_SQ002]. Daily smokers [TOTAL (males and females)][Average number of the most-consumed smoking tobacco product used per day]
13.57

B11C[1_SQ001]. Occasional smokers [MALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
7.6
B11C[2_SQ001]. Occasional smokers [FEMALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
4.7
B11C[3_SQ001]. Occasional smokers [TOTAL (males and females)][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
6.0
B11D[1_SQ001]. Former smokers [MALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
22.4
B11D[2_SQ001]. Former smokers [FEMALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
18.9
B11D[3_SQ001]. Former smokers [TOTAL (males and females)][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
20.4
B11E[1_SQ001]. Never smokers [MALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
51.4
B11E[2_SQ001]. Never smokers [FEMALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
61.8
B11E[3_SQ001]. Never smokers [TOTAL (males and females)][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
57.4
B111. Please indicate the smoking tobacco products included in calculating prevalence for question B11: Smoking tobacco products includes use of cigarettes (factory-made or self-rolled cigarettes).
B112[1_SQ001]. Please indicate the age range to which the data used to answer question B11 refer: [Age range][From]
15
B112[1_SQ002]. Please indicate the age range to which the data used to answer question B11 refer: [Age range][To]
64
B113A. Please indicate the year of the data used to answer question B11:
2014
B113B. Please indicate the source of the data used to answer question B11: Data for the question B11 were derived from "Health Behaviour and Health among the Finnish Adult Population" (AVTK) -report and data which present the results of the spring 2014 survey. For the 2014 survey, a random sample (n=5000) of Finnish adults aged between 15 and 64 was derived from the Population Register. A questionnaire was mailed in April 2014 with three reminders. The number of respondents was 2630 (response rate 53 %). <a href="https://www.thl.fi/en/web/thlfi-en/research-and-expertwork/population-studies/health-behaviour-and-health-among-the-finnish-adult-population-avtk">https://www.thl.fi/en/web/thlfi-en/research-and-expertwork/population-studies/health-behaviour-and-health-among-the-finnish-adult-population-avtk</a> ; report is also attached to this reporting instrument.
B114[SQ001]. Please provide the definitions of "current smoker", "daily smoker", "occasional smoker", "former smoker" and "never smoker" used in this report. [Current smoker] Smoking status was acquired by smoking index variable. Derivation of smoking index is described in appendix: "Health behaviour and health among Finnish adult population, Spring 2014". "Current smokers" includes both daily and occasional smokers.
B114[SQ002]. Please provide the definitions of "current smoker", "daily smoker", "occasional smoker", "former smoker" and "never smoker" used in this report. [Daily smoker] Smoking status was acquired by smoking index variable. Derivation of smoking index is described in appendix: "Health behaviour and health among Finnish adult population, Spring 2014". "Daily smokers" includes daily smokers.
B114[SQ003]. Please provide the definitions of "current smoker", "daily smoker", "occasional smoker", "former smoker" and "never smoker" used in this report. [Occasional smoker] Smoking status was acquired by smoking index variable. Derivation of smoking index is described in appendix: "Health behaviour and health among Finnish adult population, Spring 2014". "Occasional smokers" includes occasional smokers.

B114[SQ004]. Please provide the definitions of "current smoker", "daily smoker", "occasional smoker", "former smoker" and "never smoker" used in this report. [Former smoker]

Smoking status was acquired by smoking index variable. Derivation of smoking index is described in appendix: "Health behaviour and health among Finnish adult population, Spring 2014". "Former smokers" includes quitters given up smoking 1-12 months ago and over a year ago.

B114[SQ005]. Please provide the definitions of "current smoker", "daily smoker", "occasional smoker", "former smoker" and "never smoker" used in this report. [Never smoker]

Smoking status was acquired by smoking index variable. Derivation of smoking index is described in appendix: "Health behaviour and health among Finnish adult population, Spring 2014". "Never smokers" includes respondents who have never smoked.

B115. Please provide a brief explanation of the trend in smoking prevalence in the adult population in the past two years or since submission of your last report.

Trends in smoking prevalence 2013-2014

The prevalence of daily smoking decreased slightly from 16 % to 15 %. The prevalence of occasional smokers remained on the same level (6 %). The percentage of ex-smokers decreased slightly in men, but in women it stayed on the same level. The prevalence of never smokers increased slightly both among men (from 50 % to 51 %) and women (from 61 % to 62 %).

B12[B12a\_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]

15

B12[B12a\_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - end age]

24

B12[B12a\_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

20

B12[B12b\_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]

25

B12[B12b\_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - end age]

34

B12[B12b\_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

33

B12[B12c\_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]

35

B12[B12c\_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - end age]

44

B12[B12c\_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

24

B12[B12d\_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]

45

B12[B12d\_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - end age]

54

B12[B12d\_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

24

B12[B12e\_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]

55

B12[B12e\_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - end age]

64

B12[B12e\_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

24

B12[B12ee\_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]

B12[B12ee\_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - end age]

B12[B12ee\_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B12[B12eee\_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]

B12[B12eee\_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - end age]

B12[B12eee\_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B12[B12eeee\_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]

B12[B12eeee\_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - end age]

B12[B12eeee\_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B12[B12f\_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]  
15

B12[B12f\_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]  
24

B12[B12f\_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]  
23

B12[B12g\_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]  
25

B12[B12g\_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]  
34

B12[B12g\_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]  
20

B12[B12h\_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]  
35

B12[B12h\_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]  
44

B12[B12h\_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]  
17

B12[B12i\_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]  
45

B12[B12i\_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]  
54

B12[B12i\_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]  
19

B12[B12j\_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]

55

B12[B12j\_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]

64

B12[B12j\_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

17

B12[B12jj\_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]

B12[B12jj\_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]

B12[B12jj\_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B12[B12jjj\_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]

B12[B12jjj\_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]

B12[B12jjj\_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B12[B12jjjj\_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]

B12[B12jjjj\_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]

B12[B12jjjj\_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B12[B12k\_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - start age]

15

B12[B12k\_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - end age]

24

B12[B12k\_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

22

B12[B12l\_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - start age]

25

B12[B12l\_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - end age]

34

B12[B12l\_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

25

B12[B12m\_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - start age]

35

B121. Please indicate the smoking tobacco products included in calculating prevalence for question B12:  
Smoking tobacco products includes use of cigarettes (factory-made or self-rolled cigarettes).

B122A. Please indicate the year of the data used to answer question B12:  
2014

B122B. Please indicate the source of the data used to answer question B12:  
Data for the question B12 were derived from "Health Behaviour and Health among the Finnish Adult Population" (AVTK) -report and data which present the results of the spring 2014 survey. For the 2014 survey, a random sample (n=5000) of Finnish adults aged between 15 and 64 was derived from the Population Register. A questionnaire was mailed in April 2014 with three reminders. The number of respondents was 2630 (response rate 53 %). <https://www.thl.fi/en/web/thlfi-en/research-and-expertwork/population-studies/health-behaviour-and-health-among-the-finnish-adult-population-avtk>

B123. Please provide a brief explanation of the trend in current smoking prevalence by age group in the past two years or since submission of your last report, if data are available.

The trend in smoking prevalence 2013-2014

Males

Smoking has decreased notably among 35-44-year old males (from 30 % to 24 %) and among 45-54-year-olds (from 27 % to 24 %). Smoking has increased slightly among 15-24-year old and 55-64-year old males.

Females

Smoking has increased among females except among 25-44-year-olds. The increase among 15-24-year-olds is from 19 % to 23 % and among 55-64-year-olds from 14 % to 17 %. The decrease among 25-34-year-olds is notable, from 29 % to 20 %.

B13. Prevalence of smokeless tobacco use in the adult population (all) (Please provide prevalence data for total adult population, and identify the age considered in B132, e.g. 15 years old and over, 18-64 years; see B132)

B13A[1\_B13x1]. Males [Current users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

5.6

B13A[2\_B13x1]. Males [Daily users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

2.4

B13A[3\_B13x1]. Males [Occasional users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

3.2

1.1

B13C[3\_B13x1]. TOTAL (males and females) [Occasional users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

1.5

B13C[4\_B13x1]. TOTAL (males and females) [Former users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

5.4

B13C[5\_B13x1]. TOTAL (males and females) [Never users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

92.0

B131. Please indicate the smokeless tobacco products included in calculating prevalence for question B13:  
Swedish type moist snuff (snus).

B132[1\_SQ001]. Please indicate the age range to which the data used to answer question B13 refer: [Age range][From]  
15

B132[1\_SQ002]. Please indicate the age range to which the data used to answer question B13 refer: [Age range][To]  
64

B133A. Please indicate the year of the data used to answer question B13:  
2014

B133B. Please indicate the source of the data used to answer question B13:  
Data for the question B13 were derived from "Health Behaviour and Health among the Finnish Adult Population" (AVTK) -report and data which present the results of the spring 2014 survey. For the 2014 survey, a random sample (n=5000) of Finnish adults aged between 15 and 64 was derived from the Population Register. A questionnaire was mailed in April 2014 with three reminders. The number of respondents was 2630 (response rate 53 %). <https://www.thl.fi/en/web/thlfi-en/research-and-expertwork/population-studies/health-behaviour-and-health-among-the-finnish-adult-population-avtk>

B134[SQ001]. Please provide the definitions of "current user", "daily user", "occasional user", "former user" and "never user" (of smokeless tobacco products) used in this report in the space below. [Current user]  
In the question the respondents were asked whether they currently use snus. "Current users" includes both daily and occasional users of snus.

B134[SQ002]. Please provide the definitions of "current user", "daily user", "occasional user", "former user" and "never user" (of smokeless tobacco products) used in this report in the space below. [Daily user]  
In the question the respondents were asked whether they currently use snus. "Daily users" includes daily users of snus.

B134[SQ003]. Please provide the definitions of "current user", "daily user", "occasional user", "former user" and "never user" (of smokeless tobacco products) used in this report in the space below. [Occasional user]  
In the question the respondents were asked whether they currently use snus. "Occasional users" includes occasional users of snus.

B134[SQ004]. Please provide the definitions of "current user", "daily user", "occasional user", "former user" and "never user" (of smokeless tobacco products) used in this report in the space below. [Former user]  
In the question the respondents were asked whether they currently use snus. "Former users" includes respondents choosing the answer "Not at all nowadays".

B134[SQ005]. Please provide the definitions of "current user", "daily user", "occasional user", "former user" and "never user" (of smokeless tobacco products) used in this report in the space below. [Never user]  
In the question the respondents were asked whether they currently use snus. "Never users" includes persons reporting that they never have used snus.

B135. Please provide a brief explanation of the trend in smokeless tobacco use in the adult population in the past two years or since submission of your last report.  
Males  
The prevalence of smokeless tobacco (snus) use in the adult population in 2014 has remained the same level as in 2013.  
Females  
Snus use among females remained to be very marginal.

B14[B12a\_B12x1]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Range - start age]

Data for the question B14 were derived from "Health Behaviour and Health among the Finnish Adult Population" (AVTK) -report and data which present the results of the spring 2014 survey. For the 2014 survey, a random sample (n=5000) of Finnish adults aged between 15 and 64 was derived from the Population Register. A questionnaire was mailed in April 2014 with three reminders. The number of respondents was 2630 (response rate 53 %). <https://www.thl.fi/en/web/thlfi-en/research-and-expertwork/population-studies/health-behaviour-and-health-among-the-finnish-adult-population-avtk>

B143. Please provide a brief explanation of the trend in current use of smokeless tobacco by adult age groups in the past two years or since submission of your last report.

The trend in snus use 2013-2014

Males

There is a significant decrease in snus use among 35-44-year old males (from 13 % to 8 %). In other age-groups the prevalence decreased only slightly or has remained at the same level compared to 2013.

Females

The prevalence of snus use among 15-24-year old females has decreased from 3 % to 1 %. Otherwise the use of snus shows a slight decrease, but the prevalence of snus use is very low for adult women.

B153A. Please indicate the year of the data used to answer question B15:  
2011

B153B. Please indicate the source of the data used to answer question B15:  
"Migrant health and wellbeing. A study on persons of Russian, Somali and Kurdish origin in Finland" report, which presents the results from the year 2011. The data was gathered in conjunction with a longitudinal survey named "Health 2011" by The National Institute for Health and Welfare. One thousand participants were invited from each migrant group. The data were gathered from six different cities. Response rates for persons of Russian, Somali and Kurdish origin were 70 %, 51 % and 63 % respectively. NB: Indicator used in question B15 is daily smoking. The figures of tobacco use by ethnic groups are the same as in the 2014 report.

B161. Please indicate the tobacco products included in calculating prevalence for question B16:  
Smoking tobacco=daily use of cigarettes, smokeless tobacco = current (daily and occasional) use of snus

B162A. Please indicate the year of the data used to answer question B16:  
2015

B162B. Please indicate the source of the data used to answer question B16:  
Tobacco use in the adolescent population (12 to 18 years) has been monitored via the nationwide 'Adolescent Health and Lifestyle Survey', a mail survey conducted biennially since 1977 with comparable methods. The latest survey was conducted in the spring of 2015 to which a total of 4,213 adolescents responded (45 %). Data presented here originates from this 2015 survey. The survey report "The Adolescent Health and Lifestyle Survey 2015. Adolescent smoking, alcohol and substance use in 1977-2015" is attached to this report instrument; <http://urn.fi/URN:ISBN:978-952-00-3592-1>. The report does not include observations necessary for calculating the total prevalence (boys and girls together) but was separately attained.

B163. Please provide the definition of "current smoking/tobacco use" used to answer question B16 in the space below.  
Current smoking tobacco equals here daily use of cigarettes. To be labelled as daily smoker in 'Adolescent Health and Lifestyle Survey' survey (12-18-year-olds) equals having smoked over 50 cigarettes in lifetime, having smoked during last seven days and smoking at least once a day. Also those who reported smoking "at least once a week, but not daily" but still smoked at least one cigarette per day were labelled into daily cigarette smokers.  
Current smokeless tobacco equals here daily or occasional use of snus (usually Swedish-type moist snuff). To be labelled as current user of snus in 'Adolescent Health and Lifestyle Survey' (12-18-year-olds) equals using snus occasionally or at least once a day.  
Total numbers were not presented in the original reports by age groups. Those are calculated to this reporting instrument from the percentages of males and females in each age group.

B164. Please provide a brief explanation of the trend in tobacco use by young persons in the past two years or since submission of your last report.  
Tobacco use trend 2013-2015 by young persons  
Among Finnish adolescents (12-18-year-olds), the decreasing trend in tobacco experiments and daily smoking continued over the past two years, both among boys and girls. Experimenting with snus has increased among older boys (16- and 18-year-olds) and girls (18-year-olds).

## B2-B9. HEALTH, SOCIAL AND ECONOMIC INDICATORS

B2. Exposure to tobacco smoke
B21. Do you have any data on exposure to tobacco smoke in your population?
Yes
B22. Please provide details in the space below (e.g. exposure by gender, at home, in the workplace, on public transport).
Exposure to tobacco smoke at work (less than hour a day or more): men 8,2 % and women 3,4 %.
Exposure to tobacco smoke at home by partner, other adult and a person under 18 years (non-smokers and ex-smokers): men 2,1 % and women 3,9 %.
B23A. Please indicate the year of the data used to answer question B21:
2014
B23B. Please indicate the source of the data used to answer question B21:
Data for the question B21 were derived from "Health Behaviour and Health among the Finnish Adult Population" (AVTK) -report and data which present the results of the spring 2014 survey. For the 2014 survey, a random sample (n=5000) of Finnish adults aged between 15 and 64 was derived from the Population Register. A questionnaire was mailed in April 2014 with three reminders. The number of respondents was 2630 (response rate 53 %). <a href="https://www.thl.fi/en/web/thlfi-en/research-and-expertwork/population-studies/health-behaviour-and-health-among-the-finnish-adult-population-avtk">https://www.thl.fi/en/web/thlfi-en/research-and-expertwork/population-studies/health-behaviour-and-health-among-the-finnish-adult-population-avtk</a> ; report is also attached to this reporting instrument. Exposure to tobacco smoke at home is not presented in the report but was calculated for this report instrument.

B24. Please attach the relevant documentation.

B3. Tobacco-related mortality

B31. Do you have information on tobacco-related mortality in your population?

Yes

B32. What is the estimated total number of deaths attributable to tobacco use in your population?

4310.0000000000

B33. If available, please provide any additional information on mortality attributable to tobacco use (e.g. lung cancer, cardiovascular diseases) in your jurisdiction.

Below are the estimated fractions of all deaths attributable to conditions that were used in calculating the total smoking-attributable deaths:

Cancer / Malignant neoplasm (47 % of deaths attributable to cancer/malignant neoplasm)

Respiratory Conditions (48 % of deaths attributable to respiratory conditions)

Cardiovascular conditions (8 % of deaths attributable to cardiovascular conditions)

B34A. Please indicate the year of the data used to answer question B32 and 33:

2012

B34B. Please indicate the source of the data used to answer questions B32 and B33:

"Social costs of smoking and their assessment methods", a report by National Institute for Health and Welfare (THL). In this report, social costs of smoking are estimated, and as a part, tobacco-related deaths are estimated as well (see table 2, page 21). Report is in Finnish but includes English summary.

B35. Please submit a copy of the study you refer to:

[[{"title":"Social costs of smoking and their assessment methods","comment":"","size":"580.087","name":"V%C3%A4h%C3%A4nen%202015\_Social%20costs%20of%20smoking%20and%20their%20assessment%20methods.pdf","filename":"fu\_cq7zvfjpd8kmfu","ext":"pdf"}]]

B35[filecount]. filecount - Please submit a copy of the study you refer to:

1

B4. Tobacco-related costs

B41. Do you have information on the economic burden of tobacco use in your population, e.g. the overall cost of tobacco use imposed on your society?

Yes

B42. Please provide details (e.g. direct (health care-related) and indirect costs and, if possible, the method used to estimate these costs).

It is estimated that the direct costs of smoking totalled around EUR 290–294 million in 2012. Smoking-attributable income transfers are estimated to total some EUR 327 million. The total direct economic burden of smoking is, thus, estimated to be around EUR 617–621 million. The indirect costs of smoking are estimated at around EUR 840–930 million. The total economic burden of smoking is, thus, estimated to be around EUR 1.5 billion.

The smoking-attributable fractions were calculated using the adjusted relative risk estimates of the CPS-II-study and the survey data on gender- and age-specific proportions of smokers and former smokers in the Finnish population.

Productivity costs for smoking-attributable mortality and morbidity costs were estimated by using a human capital method and they were discounted with 3 % discount rate.

Data on healthcare services utilization for specialized somatic healthcare and for basic healthcare were derived from the national care register for health care. Data on medical reimbursements came from the Finnish statistic on medicines. The occupational health care costs were estimated according to the distribution of the smoking attributable basic health care utilization.

The other direct costs of smoking included the costs of fires and monitoring and prevention costs due to smoking. The costs of fires attributable to smoking were estimated using the national fire statistics and the monitoring and prevention costs were estimated from the annual report of the authorities that conduct tobacco monitoring and prevention.

The productive losses included also the costs of lost productivity due to smoking breaks and the lost productivity due to sickness leave. The productivity losses due to smoking breaks were estimated using the method presented in Berman et al. (Berman M et al. Estimating the cost of a smoking employe. Tobacco Control 2014; 23: 428-433, doi:10.1136/tobaccocontrol-2012-050888). The productivity losses due to sick leaves due to smoking were estimated using the gender and age-group information on average wages and the smoking attributable fraction on sick leaves.

The direct income transfers attributable to smoking were also estimated. The sick leave compensations and disability pensions were estimated with the smoking attributable fraction method. The family pension compensations attributable to smoking were estimated indirectly according to the smoking attributable mortality and aggregate level information on family pension.

B43A. Please indicate the year of the data used to answer question B42:

2012

B43B. Please indicate the source of the data used to answer question B42:

"Social costs of smoking and their assessment methods", a report by National Institute for Health and Welfare (THL). In this report, social costs of smoking are estimated. Report is in Finnish but includes English summary.

B8. Taxation of tobacco products (with reference to Articles 6.2(a) and 6.3)

B81. What proportion of the retail price of the most popular price category of tobacco product consists of taxes (e.g. sum of excise, sales and import duties (if applicable) and value added tax/goods and services tax (VAT/GST))?  
83.2000000000

B82[SQ001]. How are the excise taxes levied (what types of taxes are levied)? [Specific tax only]

B82[SQ002]. How are the excise taxes levied (what types of taxes are levied)? [Ad valorem tax only]

B82[SQ003]. How are the excise taxes levied (what types of taxes are levied)? [Combination of specific and ad valorem taxes]  
Yes

B82[SQ004]. How are the excise taxes levied (what types of taxes are levied)? [More complex structure (please explain below)]  
Yes

B82a. If a more complex structure of taxes (please explain):
The excise duty on cigarettes and fine-cut smoking tobacco comprises of a combination of specific and ad valorem taxes and a minimum excise duty, which is levied as a specific tax if the combination of the specific and ad valorem tax does not exceed a certain threshold.

## C1. GENERAL OBLIGATIONS

C1. With reference to Article 5
C111. Have you developed and implemented comprehensive multisectoral national tobacco control strategies, plans and programmes in accordance with the Convention?
Yes
C112. Have you partially developed and implemented tobacco control strategies by including tobacco control in national health, public health or health promotion strategies, plans and programmes?
N/A
C113. Is any aspect of tobacco control that is referred to in the Convention included in any national strategy, plan or programme?
N/A
C114[C114a]. Have you established or reinforced and financed: [a focal point for tobacco control?]
Yes
C114[C114b]. Have you established or reinforced and financed: [a tobacco control unit?]
Yes
C114[C114c]. Have you established or reinforced and financed: [a national coordinating mechanism for tobacco control?]
No
C115. Please provide details (e.g. the nature of the national coordinating mechanism, the institution to which the focal point for tobacco control or the tobacco control unit belongs).
<p>The Ministry of Social Affairs and Health has a leading role in tobacco control in Finland. Tobacco control is located under the Department for Promotion of Welfare and Health in the Unit that coordinates substance abuse and harm prevention policies. The Ministry is responsible for law-drafting, general strategic guidance as well as international cooperation in this field.</p> <p>The National Institute for Health and Welfare (THL) and the Finnish Institute of Occupational Health(TTL) are the main specialist bodies in activities to reduce smoking. The former, in cooperation with Regional State Administrative Agencies, is responsible for the nation-wide and regional action to reduce smoking. It is also responsible for providing other State authorities and local authorities with material on the dangers and harms to health originating from smoking and issuing instructions and providing methods for reducing smoking.</p> <p>The regulations of the Tobacco Act are overseen by the National Supervisory Authority for Welfare and Health (Valvira).</p> <p>There is active coordination between these State authorities but no specific or sustainable coordinating structure (board/committee etc.).</p>
C116. Please provide a brief description of the progress made in implementing Article 5.1 and 5.2 (General obligations) in the past two years or since submission of your last report.
<p>- "Roadmap to a Tobacco-Free Finland - Action Plan on Tobacco" was published By the Ministry of Social Affairs and Health in June 2014.</p> <p>- Reform of the Tobacco Act has been prepared since 2014. The governmental proposal of the Act was sent to the Parliament 25th February 2016.</p>
C117. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.
C12. Protection of public health policies with respect to tobacco control from commercial and other vested interests of the tobacco industry Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:
C121. protecting public health policies with respect to tobacco control from commercial and other vested interests of the tobacco industry?
Yes

C122. ensuring that the public has access, in accordance with Article 12(c), to a wide range of information on tobacco industry activities relevant to the objectives of the Convention, such as in a public repository?  
No

C123. Please provide details in the space below.  
Finnish public health policies are well protected from the tobacco industry. The interaction with the industry is limited mainly to open requests for comment. However there is no extensive public repository on industry's activities. Several reports on the tobacco industry activities have been published.  
  
Many non-governmental organizations report that they actively disseminate information and raise discussion on the industry's activities, interests and methods. For example Finland's ASH disseminates information and reveals the tactics of the tobacco industry and encourages public discussion on the tobacco industry's methods to ensure their profits. In addition, Finland's ASH and many other NGOs have adopted the policy not to interact with the tobacco companies, their affiliates or any other companies which work with tobacco industry, such as advertising agencies.

C124. Please provide a brief description of the progress made in implementing Article 5.3 in the past two years or since submission of your last report.

C125. Have you utilized the "Guidelines for implementation of Article 5.3 of the WHO FCTC" when developing or implementing policies in this area?  
Yes

C126. Please provide details in the space below or refer to section I of the additional questionnaire. Response to this question or to the additional questionnaire is voluntary. <https://extranet.who.int/dataform/655321?token={TOKEN}&=en>

C127. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

C128. Please attach the relevant documentation.

C128[filecount]. filecount - Please attach the relevant documentation.  
0

## C2. MEASURES RELATING TO THE REDUCTION OF DEMAND FOR TOBACCO

C2. With reference to Articles 6-14

C21. Price and tax measures to reduce the demand for tobacco Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C211. tax policies and, where appropriate, price policies on tobacco products so as to contribute to the health objectives aimed at reducing tobacco consumption?  
Yes

C212. prohibiting or restricting, as appropriate, sales to international travellers of tax- and duty-free tobacco products?  
Yes

C213. prohibiting or restricting, as appropriate, imports by international travellers of tax- and duty-free tobacco products?  
Yes

C214. Please provide a brief description of the progress made in implementing Article 6 (Price and tax measures to reduce the demand for tobacco) in the past two years or since submission of your last report.  
Tobacco tax has been increased in 2014, 2015 and 2016. In 2014 the tax rates were increased by on average 10 % and in 2015 on average 9 %. In the years 2016-2017 tax rates will be increased 4 times every 6 months altogether by on average 24 %. The first tax increase of this series of tax increases has taken place in January 2016.

C215. Have you utilized the "Guidelines for implementation of Article 6 of the WHO FCTC" when developing or implementing policies in this area?

No

C216. Please provide details in the space below or refer to section H of the additional questionnaire. Response to this question or to the additional questionnaire is voluntary. <https://extranet.who.int/dataform/655321?token={TOKEN}&lang=en>

C217. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

C218. Please attach the relevant documentation.

C218[filecount]. filecount - Please attach the relevant documentation.

0

C22. Protection from exposure to tobacco smoke Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C221. banning tobacco smoking in indoor workplaces, public transport, indoor public places and, as appropriate, other public places ?

Yes

C222[1]. What is the type/nature of the measure providing for the ban? [national law]

Yes

C222[2]. What is the type/nature of the measure providing for the ban? [subnational law(s)]

No

C222[3]. What is the type/nature of the measure providing for the ban? [administrative and executive orders]

No

C222[4]. What is the type/nature of the measure providing for the ban? [voluntary agreements]

Yes

C222[5]. What is the type/nature of the measure providing for the ban? [other measures (please specify in C223 below)]

No

C223. Please provide a brief explanation of the type/nature and content of the measures providing for the ban.

Smoking bans enacted in the Tobacco Act apply nationally. In addition, almost 80% of Finnish municipalities have declared themselves smokefree.

C224. Do any of these measures provide for a mechanism/ infrastructure for enforcement?

Yes

C225. Please provide details of this system.

Under Section 17 of the Tobacco Act, local authorities must supervise the compliance with prohibitions and restrictions on smoking within their territory. If any activities contrary to provisions are observed during an inspection or otherwise, the local authority must prohibit the activities contrary to the provisions. The local authority may give notice of the matter to the prosecutor. The local authority may also reinforce the prohibition by a conditional fine or by the threat that any action not taken within the time limit laid down will be carried out at the defaulter's expense.

Under Section 32 of the Tobacco Act, a person who continues to smoke on indoor or outdoor premises where smoking is prohibited under the provisions of section 12 despite an objection from the proprietor of the means of public transport, indoor or outdoor premises in question, or their representative, or the organiser of a public event or a person acting as a steward, or the supervisory authority shall be sentenced to a fine for a smoking violation.

Under Section 33 of the Tobacco Act, the proprietor of a means of public transport or of indoor or outdoor premises or his or her representative, or the organiser of a public event that deliberately or through gross carelessness

- 1) allows smoking contrary to section 12 on indoor or outdoor premises where it is prohibited;
  - 2) fails, contrary to the provisions of section 12, paragraph 2, section 13 or 13 b, to undertake the action required by the prohibition or regulations issued by the local authority under section 17 in an individual case in order to prevent tobacco smoke from spreading into indoor premises where tobacco smoking is prohibited; or
  - 3) allows use of the smoking area for another purpose than that referred to in section 13 b,
- shall, unless the failure can be considered insignificant or a more severe punishment is prescribed for the action elsewhere in the law, be sentenced to a fine for failing to take protective measures required by the Tobacco Act.

C226cc. Please provide a brief explanation of any "other" policies in the space below

C227. Please provide a brief summary of complete and partial measures, with specific details of the partial measures that have been implemented:

C227a. Banning tobacco smoking in indoor workplaces

Under Section 12 of the Tobacco Act, smoking is prohibited on the joint and public indoor premises of workplaces and on their indoor premises intended for clients and customers.

Under Section 13 of the Tobacco Act, the proprietors of indoor premises may, however, allow smoking in a room intended for this purpose or in part of the facilities or space as long as no tobacco smoke can enter those indoor premises where smoking is prohibited. A separate room or other space for smoking shall not, however, be located in conjunction with indoor premises primarily used by persons under the age of eighteen.

Under Section 13 b of the Tobacco Act, smoking can be allowed on the indoor premises of restaurants only in a separate smoking area approved for smoking. In that case it must, however, be seen to it that tobacco smoke does not spread to the area where smoking is prohibited. It is prohibited to serve food or drink, or to eat or drink in the smoking area.

C227b. Banning tobacco smoking in public transport

Under Section 12 of the Tobacco Act, smoking is prohibited inside public means of transport.

Under Section 13 of the Tobacco Act, the proprietors of public means of transport may, however, allow smoking in a room intended for this purpose or in part of the facilities or space as long as no tobacco smoke can enter those indoor premises where smoking is prohibited. A separate room or other space for smoking shall not, however, be located in conjunction with indoor premises primarily used by persons under the age of eighteen.

C227c. Banning tobacco smoking in indoor public places

Under Section 12 of the Tobacco Act, smoking is prohibited on the indoor premises of government agencies and authorities and comparable public bodies intended for the public and clients. Smoking is also prohibited at public events arranged indoors.

Under Section 13 of the Tobacco Act, the proprietors of indoor premises and the organisers of public events may, however, allow smoking in a room intended for this purpose or in part of the facilities or space as long as no tobacco smoke can enter those indoor premises where smoking is prohibited. A separate room or other space for smoking shall not, however, be located in conjunction with indoor premises primarily used by persons under the age of eighteen.

C228. Please provide a brief description of the progress made in implementing Article 8 (Protection from exposure to tobacco smoke) in the past two years or since submission of your last report.

"Roadmap to a Tobacco-Free Finland - Action Plan on Tobacco" (Ministry of Social Affairs and Health, 2014) aims to expand smokefree environments to prevent citizens from exposing to tobacco smoke. The Action Plan recommends to ban smoking in: private balconies, private cars when children are present, beaches, playing parks etc.

C229. Have you utilized the "Guidelines for implementation of Article 8 of the WHO FCTC" when developing or implementing policies in this area?

Yes

C2210. Please provide details in the space below or refer to section B of the additional questionnaire. Response to this question or to the additional questionnaire is voluntary. <https://extranet.who.int/dataform/655321?token={TOKEN}<=en>

C2211. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

C2212. Please attach the relevant documentation.

C2212[filecount]. filecount - Please attach the relevant documentation.

C25. Packaging and labelling of tobacco products Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C251. requiring that packaging, individual cigarettes or other tobacco products do not carry advertising or promotion?  
Yes

C252. requiring that packaging and labelling do not promote a product by any means that are false, misleading, deceptive or likely to create an erroneous impression about its characteristics, health effects, hazards or emissions?  
Yes

C253. requiring that each unit packet and package of tobacco products and any outside packaging and labelling of such products carry health warnings describing the harmful effects of tobacco use?  
Yes

C254. ensuring that the health warnings are approved by the competent national authority?  
Yes

C255. ensuring that the health warnings are rotated?  
Yes

C256. ensuring that the health warnings are clear, visible and legible?  
Yes

C257. Does your law mandate, as a minimum, a style, size and colour of font to render the warning clear, visible and legible?  
Yes

C258. ensuring that the health warnings occupy no less than 30% of the principal display areas?  
Yes

C259. ensuring that the health warnings occupy 50% or more of the principal display areas?  
No

C2510. ensuring that health warnings are in the form of, or include, pictures or pictograms?  
No

C2511. Does the Government own the copyright to these pictures and pictograms?  
N/A

C2512. Would you grant a non-exclusive and royalty-free licence for the use of health warnings developed in your jurisdiction with other Parties?  
N/A

C2513[1]. requiring that each unit packet and package of tobacco products and any outside packaging and labelling of such products contain information on relevant: [constituents of tobacco products?]  
Yes

C2513[2]. requiring that each unit packet and package of tobacco products and any outside packaging and labelling of such products contain information on relevant: [emissions of tobacco products?]  
Yes

C2514. requiring that the warnings and other textual information appear on each unit packet and package and on any outside packaging and labelling in the principal language or languages of the country?  
Yes

C2515. Please provide a brief description of the progress made in implementing Article 11 (Packaging and labelling of tobacco products) in the past two years or since submission of your last report.

C2516. Have you utilized the "Guidelines for implementation of Article 11 of the WHO FCTC" when developing or implementing policies in this area?  
No

C2517. Please provide details in the space below or refer to section D of the additional questionnaire. Response to this question or to the additional questionnaire is voluntary. <https://extranet.who.int/dataform/655321?token={TOKEN}&=en>

C26. Education, communication, training and public awareness Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C261. educational and public awareness programmes? (Please refer to programmes implemented since submission of your two-year report.)  
Yes

C262[1]. To whom are these programmes targeted? [adults or the general public]  
Yes

C262[2]. To whom are these programmes targeted? [children and young people]  
Yes

C262[3]. To whom are these programmes targeted? [men]  
Yes

C262[4]. To whom are these programmes targeted? [women]  
Yes

C262[5]. To whom are these programmes targeted? [pregnant women]  
Yes

C262[6]. To whom are these programmes targeted? [ethnic groups]  
No

C262[7]. To whom are these programmes targeted? [other (please specify)]  
No

C262[other]. To whom are these programmes targeted? [Other]

C263[1]. Do you reflect the following key differences among targeted population groups in educational and public awareness programmes? [age]  
Yes

C263[2]. Do you reflect the following key differences among targeted population groups in educational and public awareness programmes? [gender]  
Yes

C263[3]. Do you reflect the following key differences among targeted population groups in educational and public awareness programmes? [educational background]  
Yes

C263[4]. Do you reflect the following key differences among targeted population groups in educational and public awareness programmes? [cultural background]  
No

C263[5]. Do you reflect the following key differences among targeted population groups in educational and public awareness programmes? [socioeconomic status]  
Yes

C263[6]. Do you reflect the following key differences among targeted population groups in educational and public awareness programmes? [other (please specify)]  
No

C263[other]. Do you reflect the following key differences among targeted population groups in educational and public awareness programmes? [Other]

C264[1]. Do these educational and public awareness programmes cover: [health risks of tobacco consumption?]  
Yes

C264[2]. Do these educational and public awareness programmes cover: [health risks of exposure to tobacco smoke?]  
Yes

C264[3]. Do these educational and public awareness programmes cover: [benefits of the cessation of tobacco use and tobacco-free lifestyles?]  
Yes

C264[4]. Do these educational and public awareness programmes cover: [adverse economic consequences of tobacco production?]  
No

C264[5]. Do these educational and public awareness programmes cover: [adverse economic consequences of tobacco consumption?]
No
C264[6]. Do these educational and public awareness programmes cover: [adverse environmental consequences of tobacco production?]
No
C264[7]. Do these educational and public awareness programmes cover: [adverse environmental consequences of tobacco consumption?]
No
C265[1]. awareness and participation of the following agencies and organizations in development and implementation of intersectoral programmes and strategies for tobacco control: [public agencies?]
Yes
C265[2]. awareness and participation of the following agencies and organizations in development and implementation of intersectoral programmes and strategies for tobacco control: [nongovernmental organizations not affiliated with the tobacco industry?]
Yes
C265[3]. awareness and participation of the following agencies and organizations in development and implementation of intersectoral programmes and strategies for tobacco control: [private organizations?]
Yes

[Other]

C268. Please provide a brief description of the progress made in implementing Article 12 (Education, communication, training and public awareness) in the past two years or since submission of your last report.

#### NGOs

Finland's ASH has organized several training seminars on the novel tobacco/nicotine products and their marketing tactics/public awareness of the health risks associated with tobacco use/public support on tobacco legislation and its' implementation/tobacco legislation public opinion, and publicity in the Finnish media etc. Finland's ASH actively disseminates information in public, aim to raise public interest and to activate the political leaders. Finland ASH also draws up and releases publications and brochures on tobacco-related issues. Finland's ASH also carries out and coordinates the activities of the Tobacco-free Finland network which supports the objective of the Finnish Tobacco Act (2010) to put an end to the use of tobacco products in Finland. The network organizes an annual seminar on topical tobacco issues to the various actors and bodies which are willing to support the aim for Tobacco-free Finland. Finland's ASH also follows media publicity and changes in public awareness in order to disseminate appropriate information.

The Cancer Society of Finland has had programme to reduce smoking among young people (2001-2016). The programme has recently emphasized following elements: 1) communication and campaigns with young people, 2) development and education projects in the main living spheres of young people, such as primary schools, trade schools, youth work, sports organizations and army, 3) training for cessation support 4) policy work on protecting youth from tobacco and nicotine products, for example through smuggling and illegal trade of smokeless tobacco. Active involvement of young people themselves is emphasized. There will be a responsive digital service with a website and active social media as a home base for all the activities.  
[www.tobaccobody.fi](http://www.tobaccobody.fi), Voice of Addiction: <https://www.youtube.com/watch?v=mpLjFMnCCAs>

Finnish Lung Health Association (Filha) has developed a peer support based tobacco cessation group counselling model. The model has been piloted among unemployed in 5 cities in collaboration with the Finnish National and local organizations of the unemployed during 2014-2015. During the beginning of 2016 the cessation model has been tailored for use also in other vulnerable groups such as people with mental health challenges and young people.

Filha has started in 2013 a four year tobacco control project in collaboration with the Defense Forces of Finland. The project aims at influencing attitudes and practices regarding the "tobacco culture" in the defense forces, developing cessation support and knowledge and through these actions decrease tobacco consumption.

Filha has conducted nation-wide trainings of health professionals in tobacco dependence treatment best practices ever since the national Current Care guideline first was introduced in 2002. Developing more tailored trainings for example for mental health and maternal and child health as well as surgeons (tobacco free surgery) has been in focus during 2014-2016.

The Finnish Heart Association has implemented the Smart Family Programme since 2006. Originally, Smart Family provided advice and assistance about healthy lifestyle to families with children (or expecting a child) through public maternity clinics and child health clinics. Initially the focus was mainly on nutrition and exercise. Since 2011, the programme has gradually been extended to elementary schools. In addition, the scope of the programme has been expanded to support smoke-free domestic environments to children and their parents. Smart Family method is applied in 115/320 municipalities in Finland.

In addition to providing tools and method for health professionals working with families, today the Smart Families offers help, support and tools also directly to families. Websites [www.neuvokasperhe.fi](http://www.neuvokasperhe.fi) were opened in 2014 and social media (facebook) is one way to reach families. The Smart Family is intended for every family, but especially we offer support to families with overweight children.

The Organisation for Respiratory Health in Finland maintains a tobacco cessation phone line and an Internet portal called Stumppi ([www.stumppi.fi](http://www.stumppi.fi)). The Internet contains a lot of information on tobacco consumption and cessation as well as peer support. The Organisation for Respiratory Health in Finland also coordinates a project to reduce the consumption of tobacco products especially among adult population. Several other NGOs have taken part in this project until 2016, but from 2017 onward there will be a change from mutual project towards networking independently (independent projects) due to Finland's Slot Machine Association's funding strategy. The Quit and Win competition for smoking cessation has been organized every year by the North Karelia Center for Public Health.

EHYT (Finnish Association for Substance Abuse Prevention) is organizing a school-based smoking prevention action called SmokeFree which is mainly targeted at pupils and students in elementary schools, lower secondary schools and vocational schools nationwide. The objective of SmokeFree is to promote nicotine-free lifestyle among young people.

The class competition is a central form of SmokeFree. Classes commit not to smoke, use snus or electronic cigarettes during the six month competition period. During the latest period in 2015-2016, 1334 classes - altogether over 24 000 pupils - from all over Finland participated in the competition. During the competition period pupils were also encouraged to arrange activities in schools. The aim of these activities was to increase pupils' involvement in promoting well-being in schools.

SmokeFree Activity Course -education material was developed for 5th and 6th grade teachers. In addition, SmokeFree has distributed financial subsidies to promote well-being in schools/educational institutions from the non-smoking viewpoint.

SmokeFree has produced materials and education for professionals to be utilized in smoking prevention work. As an NGO EHYT has also actively participated in public debate and made advocacy in smoking prevention.

C269. Have you utilized the "Guidelines for implementation of Article 12 of the WHO FCTC" when developing and implementing policies in this area?

Yes

C27. Tobacco advertising, promotion and sponsorship Have you adopted and implemented, where appropriate, any legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes:

C271. instituting a comprehensive ban on all tobacco advertising, promotion and sponsorship?

Yes

C272[1]. Does your ban cover: [display and visibility of tobacco products at points of sales?]

Yes

C272[2]. Does your ban cover: [the domestic Internet?]

Yes

C272[3]. Does your ban cover: [the global Internet?]

Yes

C272[4]. Does your ban cover: [brand stretching and/or brand sharing?]

No

C272[5]. Does your ban cover: [product placement as a means of advertising or promotion?]

Yes

C272[6]. Does your ban cover: [the depiction of tobacco or tobacco use in entertainment media products?]

No

C272[7]. Does your ban cover: [tobacco sponsorship of international events or activities and/or participants therein?]

Yes

C272[8]. Does your ban cover: [contributions from tobacco companies to any other entity for "socially responsible causes" and/or any other activities implemented under the umbrella of "corporate social responsibility" by the tobacco industry?]

Yes

C272[9]. Does your ban cover: [cross-border advertising, promotion and sponsorship originating from your territory?]

Yes

C272[10]. Does your ban cover: [the same forms of cross-border advertising, promotion and sponsorship entering your territory for which domestic regulation apply?]

Yes

C273. are you precluded by your constitution or constitutional principles from undertaking a comprehensive ban on tobacco advertising, promotion and sponsorship?

N/A

C274. applying restrictions on all tobacco advertising, promotion and sponsorship?

N/A

C275. applying restrictions on cross-border advertising, promotion and sponsorship originating from your territory with cross-border effects?
N/A
C276. prohibiting those forms of tobacco advertising, promotion and sponsorship that promote a tobacco product by any means that are false, misleading, deceptive or likely to create an erroneous impression about its characteristics, health effects, hazards or emissions?
N/A
C277. requiring that health or other appropriate warnings or messages accompany all tobacco advertising, promotion and sponsorship?
N/A
C278. restricting the use of direct or indirect incentives that encourage the purchase of tobacco products by the public?
N/A
C279. requiring the disclosure to relevant Government authorities of expenditures by the tobacco industry on advertising, promotion and sponsorship not yet prohibited?
N/A
C2710[1]. restricting tobacco advertising, promotion and sponsorship on: [radio?]
N/A

Yes

C283[3]. design and implementation of programmes aimed at promoting the cessation of tobacco use, in such locations as: [workplaces?]  
Yes

C283[4]. design and implementation of programmes aimed at promoting the cessation of tobacco use, in such locations as: [sporting environments?]  
Yes

C283[5]. design and implementation of programmes aimed at promoting the cessation of tobacco use, in such locations as: [other (please specify)?]  
No

C283[other]. design and implementation of programmes aimed at promoting the cessation of tobacco use, in such locations as: [Other]

C284[1]. inclusion of diagnosis and treatment of tobacco dependence and counselling services for cessation of tobacco use in national programmes, plans and strategies for: [tobacco control?]  
Yes

C284[2]. inclusion of diagnosis and treatment of tobacco dependence and counselling services for cessation of tobacco use in national programmes, plans and strategies for: [health?]  
Yes

C284[3]. inclusion of diagnosis and treatment of tobacco dependence and counselling services for cessation of tobacco use in national programmes, plans and strategies for: [education?]  
Yes

C285. inclusion of programmes on the diagnosis and treatment of tobacco dependence in your health-care system?  
Yes

C286[1]. Which structures in your health-care system provide programmes for the diagnosis and treatment of tobacco dependence? [primary health care]  
Yes

C286[2]. Which structures in your health-care system provide programmes for the diagnosis and treatment of tobacco dependence? [secondary and tertiary health care]  
Yes

C286[3]. Which structures in your health-care system provide programmes for the diagnosis and treatment of tobacco dependence? [specialist health-care systems (please specify below)]  
Yes

C286[4]. Which structures in your health-care system provide programmes for the diagnosis and treatment of tobacco dependence? [specialized centres for cessation counselling and treatment of tobacco dependence]  
Yes

C286[5]. Which structures in your health-care system provide programmes for the diagnosis and treatment of tobacco dependence? [rehabilitation centres]  
No

C286[other]. Which structures in your health-care system provide programmes for the diagnosis and treatment of tobacco dependence? [Other]

C287[1]. Are the services provided in these settings covered by public funding or reimbursement schemes? [primary health care]  
Partially

C287[2]. Are the services provided in these settings covered by public funding or reimbursement schemes? [secondary and tertiary health care]  
Partially

C287[3]. Are the services provided in these settings covered by public funding or reimbursement schemes? [specialist health-care systems (please specify below)]  
Partially

C287[4]. Are the services provided in these settings covered by public funding or reimbursement schemes? [specialized centres for cessation counselling and treatment of tobacco dependence]  
Partially

C287[5]. Are the services provided in these settings covered by public funding or reimbursement schemes? [rehabilitation centres]  
None

C287[6]. Are the services provided in these settings covered by public funding or reimbursement schemes? [other (please specify below)]

C287b. Please provide other details in the space below.

C288[1]. Which health and other professionals are involved in programmes offering treatment for tobacco dependence and counselling services? Health professionals including: [physicians]  
Yes

C288[2]. Which health and other professionals are involved in programmes offering treatment for tobacco dependence and counselling services? Health professionals including: [dentists]  
Yes

C288[3]. Which health and other professionals are involved in programmes offering treatment for tobacco dependence and counselling services? Health professionals including: [family doctors]  
Yes

C288[4]. Which health and other professionals are involved in programmes offering treatment for tobacco dependence and counselling services? Health professionals including: [practitioners of traditional medicine]  
No

C288[5]. Which health and other professionals are involved in programmes offering treatment for tobacco dependence and counselling services? Health professionals including: [other medical professionals (please specify below)]  
No

C288[6]. Which health and other professionals are involved in programmes offering treatment for tobacco dependence and counselling services? Health professionals including: [nurses]  
Yes

C288[7]. Which health and other professionals are involved in programmes offering treatment for tobacco dependence and counselling services? Health professionals including: [midwives]  
Yes

C288[8]. Which health and other professionals are involved in programmes offering treatment for tobacco dependence and counselling services? Health professionals including: [pharmacists]  
Yes

C288[9]. Which health and other professionals are involved in programmes offering treatment for tobacco dependence and counselling services? Health professionals including: [Community workers]  
Yes

C288[10]. Which health and other professionals are involved in programmes offering treatment for tobacco dependence and counselling services? Health professionals including: [Social workers]  
Yes

C288[11]. Which health and other professionals are involved in programmes offering treatment for tobacco dependence and counselling services? Health professionals including: [other (please specify)]  
No

C288[other]. Which health and other professionals are involved in programmes offering treatment for tobacco dependence and counselling services? Health professionals including: [Other]

C289[1]. training on tobacco dependence treatment incorporated into the curricula of health professional training at pre- and post-qualification levels at the following schools: [medical?]  
Yes

C289[2]. training on tobacco dependence treatment incorporated into the curricula of health professional training at pre- and post-qualification levels at the following schools: [dental?]  
Yes

C289[3]. training on tobacco dependence treatment incorporated into the curricula of health professional training at pre- and post-qualification levels at the following schools: [nursing?]  
Yes

C289[4]. training on tobacco dependence treatment incorporated into the curricula of health professional training at pre- and post-qualification levels at the following schools: [pharmacy?]  
Yes

C289[other]. training on tobacco dependence treatment incorporated into the curricula of health professional training at pre- and post-qualification levels at the following schools: [Other]

C2810. facilitating accessibility and/or affordability of pharmaceutical products for the treatment of tobacco dependence?  
Yes

C2811. Where and how can these products be legally purchased in your country?  
Pharmacies by prescription of physician, supermarkets, restaurants (NRT) over-the-counter

C2812[1]. Which pharmaceutical products are legally available for the treatment of tobacco dependence in your jurisdiction?  
[nicotine replacement therapy]  
Yes

C2812[2]. Which pharmaceutical products are legally available for the treatment of tobacco dependence in your jurisdiction?  
[bupropion]  
Yes

C2812[3]. Which pharmaceutical products are legally available for the treatment of tobacco dependence in your jurisdiction?  
[varenicline]  
Yes

C2812[4]. Which pharmaceutical products are legally available for the treatment of tobacco dependence in your jurisdiction?  
[other (please specify)]  
Yes

C2812[other]. Which pharmaceutical products are legally available for the treatment of tobacco dependence in your jurisdiction?  
[Other]

C2813[1]. Are the costs of these products covered by public funding or reimbursement? [nicotine replacement therapy]  
None

C2813[2]. Are the costs of these products covered by public funding or reimbursement? [bupropion]  
None

C2813[3]. Are the costs of these products covered by public funding or reimbursement? [varenicline]  
Partially

C2813[4]. Are the costs of these products covered by public funding or reimbursement? [other (please specify below)]

C2813b. Please provide other details in the space below.

C2814. Please provide a brief description of the progress made in implementing Article 14 (Demand reduction measures concerning tobacco dependence and cessation) in the past two years or since submission of your last report.  
- Current care -cessation guidelines (2012) should be used by health care professionals. Current Care is a Finnish unit producing evidence-based treatment guidelines for the Finnish Medical Society Duodecim. These guidelines are drawn up in support of health care professionals and for the benefit of patients.  
- Finnish Lung Health Association (Filha): cessation peer support groups among unemployed, cessation support in the Defence Forces of Finland, national-wide trainings of health professionals  
- Annual Quit and Win competition for adults (by North Karelia Centre for Public Health)  
- A tobacco cessation phone line and an Internet portal called Stumppi (www.stumppi.fi) by the Organisation for Respiratory Health

C2815. Have you utilized the "Guidelines for implementation of Article 14 of the WHO FCTC" when developing and implementing policies in this area?  
Yes

C2816. Please provide details in the space below or refer to section G of the additional questionnaire. Response to this question or to the additional questionnaire is voluntary. <https://extranet.who.int/dataform/655321?token={TOKEN}&=en>

### C3. MEASURES RELATING TO THE REDUCTION OF THE SUPPLY OF TOBACCO

C3. With reference to Articles 15-17

C31. Illicit trade in tobacco products Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C311. requiring marking of all unit packets and packages of tobacco products and any outside packaging of such products to assist in determining the origin of the product?

Yes

C312. requiring marking of all unit packets and packages of tobacco products and any outside packaging of such products to assist in determining whether the product is legally sold on the domestic market?

Yes

C313. requiring that unit packets and packages of tobacco products for retail and wholesale use that are sold on the domestic market carry the statement: "Sales only allowed in ..." or carry any other effective marking indicating the final destination of the product?

Yes

C314. developing a practical tracking and tracing regime that would further secure the distribution system and assist in the investigation of illicit trade?

Yes

C315. requiring that marking is presented in legible form and/or appears in the principal language or languages of the country?

Yes

C316. requiring the monitoring and collection of data on cross-border trade in tobacco products, including illicit trade?

Yes

C317. facilitating the exchange of this information among customs, tax and other authorities, as appropriate, and in accordance with national law and applicable bilateral and multilateral agreements?

Yes

C318. enacting or strengthening legislation, with appropriate penalties and remedies, against illicit trade in tobacco products, including counterfeit and contraband cigarettes?

Yes

C319. requiring that confiscated manufacturing equipment, counterfeit and contraband cigarettes and other tobacco products derived from illicit trade are destroyed, using environment-friendly methods where possible, or disposed of in accordance with national law?

Yes

C3110. adopting and implementing measures to monitor, document and control the storage and distribution of tobacco products held or moving under suspension of taxes or duties?

Yes

C3111. enabling the confiscation of proceeds derived from illicit trade in tobacco products?

Yes

C3112. promoting cooperation between national agencies and relevant regional and international intergovernmental organizations in investigations, prosecutions and proceedings, with a view to eliminating illicit trade in tobacco products, with special emphasis on cooperation at regional and subregional levels?

Yes

C3113. licensing or other actions to control or regulate production and distribution in order to prevent illicit trade?

Yes

C3114. Please provide a brief description of the progress made in implementing Article 15 (Illicit trade in tobacco products) in the past two years or since submission of your last report.

The EU has enacted new stricter legislation regarding tobacco and tobacco products in the form of the new tobacco products directive (2014/40/EU). One of the aims of this new directive is to implement the WHO FCTC protocol to eliminate illicit trade in tobacco products. Finland is in the process of implementing this EU directive into its national tobacco legislation. This new national legislation will also cover issues relating to tracking & tracing, markings and security features, record-keeping, licencing, penalties and remedies etc. Finland is also taking part in the EU level discussions on the technical features and options for a new EU level tracking & tracing system.

C3115. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

C3116. Please attach the relevant documentation.

C32. Sales to and by minors Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C321. prohibiting the sales of tobacco products to minors?

Yes

C321a. Please specify the legal age:

18

C322. requiring that all sellers of tobacco products place a clear and prominent indicator inside their point of sale about the prohibition of tobacco sales to minors?

Yes

C323. requiring that, in case of doubt, each seller of tobacco products requests that the purchaser provides appropriate evidence of having reached full legal age?

Yes

C324. banning the sale of tobacco products in any manner by which they are directly accessible, such as open store shelves?

No

C325. prohibiting the manufacture and sale of sweets, snacks, toys or any other objects in the form of tobacco products which appeal to minors?

No

C326. prohibiting the sale of tobacco products from vending machines?

Yes

C327. Do you ensure that tobacco vending machines are not accessible to minors and/or do not promote the sale of tobacco products to minors?

N/A

C328[1]. prohibiting and/or promoting the prohibition of the distribution of free tobacco products: [to the public?]

Yes

C328[2]. prohibiting and/or promoting the prohibition of the distribution of free tobacco products: [to minors?]

Yes

C329. prohibiting the sale of cigarettes individually or in small packets?

Yes

C3210. providing for penalties against sellers and distributors in order to ensure compliance?

Yes

C3211. prohibiting the sales of tobacco products by minors?

Yes

C3212. Please provide a brief description of the progress made in implementing Article 16 (Sales to and by minors) in the past two years or since submission of your last report.

Under Section 10 a of the Tobacco Act, it is forbidden to sell tobacco products from automatic vending machines. The ban entered into force on 1 January 2015.

C3213. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

C3214. Please attach the relevant documentation.

C3214[filecount]. filecount - Please attach the relevant documentation.

C42. Liability Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C421[SQ001]. Does your tobacco control legislation contain measures regarding criminal liability for any violations of that tobacco control legislation?

Yes

C422[SQ001]. Do you have separate criminal liability provisions in relation to tobacco control (outside of the tobacco control legislation)?

No

C423[SQ001]. Do you have any civil liability measures that are specific to tobacco control?

No

C424[SQ001]. Do you have any general civil liability provisions that could apply to tobacco control?

Yes

C425[SQ001]. Do you have civil or criminal liability provisions that provide for compensation for adverse health effects and/or for reimbursement of medical, social or other relevant costs?

No

C426[SQ001]. Has any person in your jurisdiction launched any criminal and/or civil liability action, including compensation where appropriate, against any tobacco company in relation to any adverse health effect caused by tobacco use?

Yes

C427[SQ001]. Have you taken, as appropriate, any legislative, executive, administrative and/or other action against the tobacco industry for full or partial reimbursement of medical, social and other relevant costs related to tobacco use in your jurisdiction?

No

C428. Please provide a brief description of any progress made, as appropriate, in implementing Article 19 (Liability) in the past two years or since submission of your last report.

C429. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

C4210. Please attach the relevant documentation.

C4210[filecount]. filecount - Please attach the relevant documentation.  
0

C43. Research, surveillance and exchange of information Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C431[1]. developing and/or promoting research that addresses: [determinants of tobacco consumption?]  
Yes

C431[2]. developing and/or promoting research that addresses: [consequences of tobacco consumption?]  
Yes

C431[3]. developing and/or promoting research that addresses: [social and economic indicators related to tobacco consumption?]  
Yes

C431[4]. developing and/or promoting research that addresses: [tobacco use among women, with special regard to pregnant women?]  
Yes

C431[5]. developing and/or promoting research that addresses: [the determinants and consequences of exposure to tobacco smoke?]  
Yes

C431[6]. developing and/or promoting research that addresses: [identification of effective programmes for the treatment of tobacco dependence?]  
Yes

C431[7]. developing and/or promoting research that addresses: [identification of alternative livelihoods?]  
No

C431[other]. developing and/or promoting research that addresses: [Other]

C432. training and support for all persons engaged in tobacco control activities, including research, implementation and evaluation?

Yes

C433[1]. a national system for epidemiological surveillance of: [patterns of tobacco consumption?]  
Yes

C433[2]. a national system for epidemiological surveillance of: [determinants of tobacco consumption?]  
Yes

C433[3]. a national system for epidemiological surveillance of: [consequences of tobacco consumption?]  
Yes

C433[4]. a national system for epidemiological surveillance of: [social, economic and health indicators related to tobacco consumption?]  
Yes

C433[5]. a national system for epidemiological surveillance of: [exposure to tobacco smoke?]  
Yes

C433[other]. a national system for epidemiological surveillance of: [Other]

C434. Please list all surveys, including the year of the survey, that you have undertaken in the past.

- Health Behaviour and Health among the Finnish Adult population (AVTK)
- The Adolescent Health and Lifestyle Survey, every second year since 1978, the latest one in 2015
- School Health Promotion Study, annually

C435. Does your country have any plans to repeat any of the above or to undertake a new tobacco survey within three to five years of your last survey? Please provide details in the space below.

The surveys will be carried out regularly.

C436[1]. regional and global exchange of publicly available national: [scientific, technical, socioeconomic, commercial and legal information?]

No

C436[2]. regional and global exchange of publicly available national: [information on the practices of the tobacco industry?]

No

C436[3]. regional and global exchange of publicly available national: [information on the cultivation of tobacco?]

No

C437[1]. an updated database of: [laws and regulations on tobacco control?]

No

C437[2]. an updated database of: [information about the enforcement of laws on tobacco control?]

No

C437[3]. an updated database of: [pertinent jurisprudence?]

No

C438. Please provide a brief description of the progress made in implementing Article 20 (Research, surveillance and exchange of information) in the past two years or since submission of your last report.

The National Institute for Health and Welfare (THL) has been carrying out regularly three national surveys (Health behaviour and health among Finnish adult population survey, FINRISK-survey and School Health survey) that include several questions on tobacco use, passive smoking and cessation. The surveys have constantly been developed, and now they include also information on e.g. tobacco dependence. THL has also participated in European School Survey Project on Alcohol and Other Drugs (ESPAD) -study since the beginning. GYTS -study was carried out first time in 2013.

Finnish Tobacco Act has obligated THL and the Regional State Administrative Agency in cooperation with it to:

- 1) be responsible for the nation-wide and regional action to reduce smoking;
- 2) provide other State authorities and local authorities with health education programmes and other material on the dangers and harms to health originating from smoking;
- 3) issue instructions aimed in particular at persons working with children and young people, health care professionals, public figures, employers and mass-media journalists on recommendable methods for avoiding and reducing smoking.

C439. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

C4310. Please attach the relevant documentation.

C4310[filecount]. filecount - Please attach the relevant documentation.

## D. INTERNATIONAL COOPERATION AND ASSISTANCE

D0. Pursuant to Article 21.1(c) and in accordance with Article 26, have you either provided or received financial or technical assistance (be it through unilateral, bilateral, regional, subregional or other multilateral channels, including relevant regional and international intergovernmental or nongovernmental organizations and financial and development institutions) for the development and strengthening of multisectoral, comprehensive tobacco control programmes of developing country Parties and Parties with economies in transition in any of the following areas:

D1[1]. development, transfer and acquisition of technology, knowledge, skills, capacity and expertise related to tobacco control? [Assistance provided]  
Yes

D1[2]. development, transfer and acquisition of technology, knowledge, skills, capacity and expertise related to tobacco control? [Assistance received]  
No

D2[1]. provision of technical, scientific, legal and other expertise to establish and strengthen national tobacco control strategies, plans and programmes? [Assistance provided]  
Yes

D2[2]. provision of technical, scientific, legal and other expertise to establish and strengthen national tobacco control strategies, plans and programmes? [Assistance received]  
No

D3[1]. appropriate training or sensitization programmes for appropriate personnel in accordance with Article 12? [Assistance provided]  
Yes

D3[2]. appropriate training or sensitization programmes for appropriate personnel in accordance with Article 12? [Assistance received]  
No

D4[1]. provision of the necessary material, equipment and supplies, as well as logistic support, for tobacco control strategies, plans and programmes? [Assistance provided]  
Yes

D4[2]. provision of the necessary material, equipment and supplies, as well as logistic support, for tobacco control strategies, plans and programmes? [Assistance received]  
No

D5[1]. identification of methods for tobacco control, including comprehensive treatment of nicotine addiction? [Assistance provided]  
Yes

D5[2]. identification of methods for tobacco control, including comprehensive treatment of nicotine addiction? [Assistance received]  
No

D6[1]. promotion of research to increase the affordability of comprehensive treatment of nicotine addiction? [Assistance provided]  
Yes

D6[2]. promotion of research to increase the affordability of comprehensive treatment of nicotine addiction? [Assistance received]  
No

D7. Please identify the Party or Parties from which assistance was received or to which assistance was provided.  
National Institute for Health and Welfare (THL):  
1. Assistance provided to Serbia (country in transition), financed by EU-Twinning  
2. Assistance provided globally from FCTC Knowledge Hub related to article 20

D8. Please provide information about any assistance provided or received in the space below.

The Ministry of Social Affairs and Health is participating in the work of the Nordic Network of Tobacco control. The Network representatives are state authorities and the group meets once per year. The Network is sharing information and collaborating in tobacco control issues with colleagues from the other Nordic countries.

National Institute for Health and Welfare (THL):

1. Assistance for strengthening tobacco control in the Republic of Serbia
2. THL, Finland is an FCTC Knowledge Hub in the field of article 20 (surveillance)

NGOs:

Finnish Lung Health Association provides technical assistance and training to community -based tobacco control projects in Kyrgyzstan and Tajikistan. Main local collaboration partners are Ministry of Health, Ministry of Education (Kyrgyzstan) and Family Doctors Association (Tajikistan). Main target groups include Family doctors, teachers, local administration, media and population through Village Health Committees.

Finland's ASH is involved in INWAT (International Network of Women Against Tobacco) Europe Foundation and in the European Network for Smoking and Tobacco Network (ENSP). Finland's ASH is also a member of Framework Convention Alliance.

The Finnish Heart Association is an active partner in the European Heart Network. The activities of this Network cover multiple aspects of cardiovascular health, a major focus being tobacco control at the European level.

The Organisation for Respiratory Health in Finland is a member of the Nordic Heart and Lung Alliance (NHL).

D9. If you have not received or provided assistance in any of the aforementioned areas, please identify any financial or technical assistance that may be under consideration, if appropriate.

No specific country projects of providing or receiving assistance are in consideration at the moment.  
The Knowledge Hub's work is ongoing.

D10. Have you encouraged relevant regional and international intergovernmental organizations and financial and development institutions in which you are represented to provide financial assistance for developing country Parties and for Parties with economies in transition to assist them in meeting their obligations under the Convention?

Yes

D11. Please provide details in the space below.

Discussions with representatives of EU's DG NEAR, related to the above Twinning Project.

## E. PRIORITIES AND COMMENTS

E1. What are the priorities for implementation of the WHO Framework Convention on Tobacco Control in your jurisdiction?

In the Finnish Tobacco Act, Section 1, the goal is set for ending the use of tobacco products (the so-called endgame). This is planned to happen by 2030 (under 5 per cent of the population use nicotine products).

E2. Have you identified any specific gaps between the resources available and the needs assessed for implementing the WHO Framework Convention on Tobacco Control?

No

E3. Please provide details in the space below.

E4. What, if any, are the constraints or barriers, other than lack of resources, you have encountered in implementing the Convention?

None.

E5[1]. Do you have any of the following products available on your national tobacco market? [smokeless tobacco products]

Yes

E5[2]. Do you have any of the following products available on your national tobacco market? [water pipe tobacco]

Yes

E5[3]. Do you have any of the following products available on your national tobacco market? [ENDS/ENNDS]

Yes

---

E5[other]. Do you have any of the following products available on your national tobacco market? [Other]

E6[1]. Have you adopted and implemented any policy or regulation that is specific to the following tobacco products? [smokeless tobacco products]

Yes

E6[2]. Have you adopted and implemented any policy or regulation that is specific to the following tobacco products? [water pipe tobacco]

No

E6[3]. Have you adopted and implemented any policy or regulation that is specific to the following tobacco products? [ENDS/ENNDS]

No

E6[other]. Have you adopted and implemented any policy or regulation that is specific to the following tobacco products? [Other]

E7. If you have any relevant information related to questions E5 and E6, please provide details in the space below.

The reform of the Tobacco Act is almost finished, the bill is now in the Parliament. For example ENDS/ENNDS will be regulated in the new Tobacco Act.

E8. Please provide any other relevant information not covered elsewhere that you consider important.

E9. Your suggestions for further development and revision of the reporting instrument:

This new technical system for filling the questionnaire is much better than the previous one, thank you!
