Qui n'a pas fumé meme une fois

B115. Please provide a brief explanation of the trend in smoking prevalence in the adult population in the past two years or since submission of your last report.

J'estime que la tendance a augmenté en tant qu'informatrice clé car la dernière enquête sur la population générale qui n'avait eu lieu qu'à Conakry en 1998 n'était pas généralisable au pays, avait une prévalence de tabagisme de 57 % et les données ne sont plus valables après 28 ans sans enquête au niveau de cette cible.

L'enquête menée en 2001 au niveau des écoles de Conakry n'était pas elle-même représentative du pays et avait donné une prévalence de fumeurs de 27% avec 9% chez les jeunes filles

D'où la nécessité de mener une enquête nationale qui prend en compte toutes les cibles pertinentes pour avoir une meilleure idée de cette tendance et la possibilité de mettre en place de vrais programmes de lutte.

<b>E4. What, if any, are the constraints or barriers, other than lack of resources, you have encountered in implementing the Convention?</b>
Les obstacles sont liés en grande partie outre le manque de ressources a l'appui technique pour la réalisation des priorités ci-dessus citées. Les écarts partent de la budgétisation des priorités . A ce jour, aucun financement n'est attendu sauf pour la célébration de la journée mondiale sans tabac qui est financée par les fonds réguliers de l'OMS qui en général dépassent rarement 3000 USD
