A. ORIGIN OF THE REPORT

A2. Information on national contact responsible for preparation of the report:
A2a. Title
Mr
A2a[other]. Title [Other]
A2b. Family name
DEMJEN
A2c. First name
TIBOR
A2d. Full name of institution
National Institute for Health Development Hungarian Focal Point for Tobacco Control
A2e[A122]. Mailing address [Mailing address 1]
A2e[A123]. Mailing address [Mailing address 2]
A2e[A124]. Mailing address [Post code]
1437
A2e[A125]. Mailing address [Post box]
Pf. 839/3.
A2e[A126]. Mailing address [City]
Budapest

A2f. Country	Hungary
A2g. E-mail	demjen.tibor@oeffi.antsz.hu
A2h. Alternative email address	tibor.demjen@gmail.com
A2i. Telephone number	+36 30 444 5682
A2j. Fax number	
A3. Signature of government official submitting the report:	
A3a. Title	Dr
A3a[other]. Title [Other]	
A3b. Family name	Beneda
A3c. First name	Attila
A3d. Full name of institution	Ministry of Human Capacities
A3e[A122]. Mailing address [Mailing address 1]	Arany János street 6-8.
A3e[A123]. Mailing address [Mailing address 2]	
A3e[A124]. Mailing address [Post code]	1051
A3e[A125]. Mailing address [Post box]	
A3e[A126]. Mailing address [City]	Budapest
A3f. Country	Hungary
A3g. E-mail	attila.beneda@emmi.gov.hu

B1. TOBACCO CONSUMPTION

B1. Prevalence of tobacco use
B11. Smoking prevalence in the adult population (all) (Please provide prevalence data for total adult population, and identify the age considered, e.g. 15 years old and over, 18-64 years; see B112)
B11A[1_SQ001]. Current smokers [MALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
33.4
B11A[1_SQ002]. Current smokers [MALE][Average number of the most-consumed smoking tobacco product used per day]
B11A[2_SQ001]. Current smokers [FEMALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
22.2
B11A[2_SQ002]. Current smokers [FEMALE][Average number of the most-consumed smoking tobacco product used per day]
B11A[3_SQ001]. Current smokers [TOTAL (males and females)][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
27.5
B11A[3_SQ002]. Current smokers [TOTAL (males and females)][Average number of the most-consumed smoking tobacco product used per day]
B11B[1_SQ001]. Daily smokers [MALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
31.5
B11B[1_SQ002]. Daily smokers [MALE][Average number of the most-consumed smoking tobacco product used per day]
B11B[2_SQ001]. Daily smokers [FEMALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
20.8
B11B[2_SQ002]. Daily smokers [FEMALE][Average number of the most-consumed smoking tobacco product used per day]

B11B[3_SQ001]. Daily smokers [TOTAL (males and females)][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

25.8

B11B[3_SQ002]. Daily smokers [TOTAL (males and females)][Average number of the most-consumed smoking tobacco product used per day]

B11C[1_SQ001]. Occasional smokers [MALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

1.9

B11C[2_SQ001]. Occasional smokers [FEMALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

1.5

B11C[3_SQ001]. Occasional smokers [TOTAL (males and females)][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

1.7

B11D[1_SQ001]. Former smokers [MALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

20.2

B11D[2_SQ001]. Former smokers [FEMALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

13.9

B11D[3_SQ001]. Former smokers [TOTAL (males and females)][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

16.9

B11E[1_SQ001]. Never smokers [MALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

44.4

B11E[2_SQ001]. Never smokers [FEMALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

62.4

B11E[3_SQ001]. Never smokers [TOTAL (males and females)][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

53.9

B111. Please indicate the smoking tobacco products included in calculating prevalence for question B11:

manufactured cigarettes, hand-rolled cigarettes, cigars, cigarillos and pipe tobacco

B112[1_SQ001]. Please indicate the age range to which the data used to answer question B11 refer: [Age range][From]

15

B112[1_SQ002]. Please indicate the age range to which the data used to answer question B11 refer: [Age range][To]

B113A. Please indicate the year of the data used to answer question B11:

2014

B113B. Please indicate the source of the data used to answer question B11:

2014, European Health Interview Survey

B114[SQ001]. Please provide the definitions of "current smoker", "daily smoker", "occasional smoker", "former smoker" and "never smoker" used in this report. [Current smoker]

those who smoke daily or occasionally

B114[SQ002]. Please provide the definitions of "current smoker", "daily smoker", "occasional smoker", "former smoker" and "never smoker" used in this report. [Daily smoker]

those who smoke at least one cigarette per day

B114[SQ003]. Please provide the definitions of "current smoker", "daily smoker", "occasional smoker", "former smoker" and "never smoker" used in this report. [Occasional smoker]

those current smokers who do not smoke every day

B114[SQ004]. Please provide the definitions of “current smoker”, “daily smoker”, “occasional smoker”, “former smoker” and “never smoker” used in this report. [Former smoker]
those who used to smoke but are not current smokers more than 12 month ago

B114[SQ005]. Please provide the definitions of “current smoker”, “daily smoker”, “occasional smoker”, “former smoker” and “never smoker” used in this report. [Never smoker]
those who never smoked

B115. Please provide a brief explanation of the trend in smoking prevalence in the adult population in the past two years or since submission of your last report.
We can compare the 2014 smoking prevalence data to the results of a similar population survey conducted in 2009. According to the data, we can observe some decrease in smoking prevalence in case of both sexes: among males aged 15+, the proportion of daily smokers decreased from 32.4% to 31.5%; among females from 22.3% to 20.8%.

B12[B12a_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]
15

B12[B12a_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - end age]
17

B12[B12a_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
22

B12[B12b_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]
18

B12[B12b_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - end age]
34

B12[B12b_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
42

B12[B12c_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]
35

B12[B12c_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - end age]
64

B12[B12c_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
35

B12[B12d_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]
65

B12[B12e_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B12[B12f_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]

15

B12[B12f_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]

17

B12[B12f_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

14

B12[B12g_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]

18

B12[B12g_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]

34

B12[B12g_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

29

B12[B12h_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]

35

B12[B12h_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]

64

B12[B12h_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

27

B12[B12i_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]

65

B12[B12i_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]

B12[B12i_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

7

B12[B12j_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]

B12[B12j_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]

B12[B12j_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B12[B12jj_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]

B12[B12jj_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]

B12[B12jj_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B12[B12jjj_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]

B12[B12jjj_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]

B12[B12jjj_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B12[B12jjjj_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]

B12[B12jjjj_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]

B12[B12jjjj_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B12[B12k_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - start age]

B12[B12k_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - end age]

17

B12[B12k_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

18

B12[B12l_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - start age]

18

B12[B12l_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - end age]

34

B12[B12l_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

35

B12[B12m_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - start age]

35

B12[B12m_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - end age]

64

B12[B12m_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

31

B12[B12n_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - start age]

65

B12[B12n_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - end age]

B12[B12n_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

11

B12[B12o_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - start age]

B12[B12o_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - end age]

B12[B12o_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B12[B12oo_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - start age]

B12[B12oo_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - end age]

B12[B12oo_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B12[B12ooo_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - start age]

B12[B12ooo_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - end age]

B12[B12ooo_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B12[B12oooo_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - start age]

B12[B12oooo_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - end age]

B12[B12oooo_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B121. Please indicate the smoking tobacco products included in calculating prevalence for question B12:

manufactured cigarettes, hand-rolled cigarettes, cigars, cigarillos and pipe tobacco

B122A. Please indicate the year of the data used to answer question B12:

2014

B122B. Please indicate the source of the data used to answer question B12:

2014, European Health Interview Survey

B123. Please provide a brief explanation of the trend in current smoking prevalence by age group in the past two years or since submission of your last report, if data are available.

We can compare the 2014 smoking prevalence data to the results of a similar population health interview survey conducted in 2009. According to the data, we can observe some decrease in the smoking prevalence in the 18-34 age group in case of both sexes: while the proportion of current smokers was 44.3% for males and 34.1% for females in 2009, in 2014 it was 41.7% for males and 28.5% for females.

B13. Prevalence of smokeless tobacco use in the adult population (all) (Please provide prevalence data for total adult population, and identify the age considered in B132, e.g. 15 years old and over, 18–64 years; see B132)

B13A[1_B13x1]. Males [Current users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]
0.08

B13A[2_B13x1]. Males [Daily users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13A[3_B13x1]. Males [Occasional users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13A[4_B13x1]. Males [Former users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13A[5_B13x1]. Males [Never users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13B[1_B13x1]. Females [Current users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]
0.09

B13B[2_B13x1]. Females [Daily users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13B[3_B13x1]. Females [Occasional users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13B[4_B13x1]. Females [Former users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13B[5_B13x1]. Females [Never users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13C[1_B13x1]. TOTAL (males and females) [Current users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]
0.09

B13C[2_B13x1]. TOTAL (males and females) [Daily users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13C[3_B13x1]. TOTAL (males and females) [Occasional users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13C[4_B13x1]. TOTAL (males and females) [Former users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13C[5_B13x1]. TOTAL (males and females) [Never users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B131. Please indicate the smokeless tobacco products included in calculating prevalence for question B13:
snuff, chewing tobacco

B132[1_SQ001]. Please indicate the age range to which the data used to answer question B13 refer: [Age range][From]
15

B132[1_SQ002]. Please indicate the age range to which the data used to answer question B13 refer: [Age range][To]

B133A. Please indicate the year of the data used to answer question B13:
2014

B133B. Please indicate the source of the data used to answer question B13:
2014, European Health Interview Survey

B134[SQ001]. Please provide the definitions of “current user”, “daily user”, “occasional user”, “former user” and “never user” (of smokeless tobacco products) used in this report in the space below. [Current user]

B134[SQ002]. Please provide the definitions of “current user”, “daily user”, “occasional user”, “former user” and “never user” (of smokeless tobacco products) used in this report in the space below. [Daily user]

B134[SQ003]. Please provide the definitions of “current user”, “daily user”, “occasional user”, “former user” and “never user” (of smokeless tobacco products) used in this report in the space below. [Occasional user]

B134[SQ004]. Please provide the definitions of “current user”, “daily user”, “occasional user”, “former user” and “never user” (of smokeless tobacco products) used in this report in the space below. [Former user]

B134[SQ005]. Please provide the definitions of “current user”, “daily user”, “occasional user”, “former user” and “never user” (of smokeless tobacco products) used in this report in the space below. [Never user]

B135. Please provide a brief explanation of the trend in smokeless tobacco use in the adult population in the past two years or since submission of your last report.
In lack of previous data, we cannot make comparisons.

B14[B12a_B12x1]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Range - start age]

B14[B12a_B12x3]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Range - end age]

B14[B12a_B12x2]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B14[B12b_B12x1]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Range - start age]

B14[B12b_B12x3]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Range - end age]

B14[B12b_B12x2]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B14[B12c_B12x1]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Range - start age]

B14[B12eee_B12x3]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Range - end age]

B14[B12eee_B12x2]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B14[B12eeee_B12x1]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Range - start age]

B14[B12eeee_B12x3]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Range - end age]

B14[B12eeee_B12x2]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B14[B12f_B12x1]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers2][Range - start age]

B14[B12f_B12x3]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers2][Range - end age]

B14[B12f_B12x2]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers2][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B14[B12g_B12x1]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers2][Range - start age]

B14[B12g_B12x3]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers2][Range - end age]

B161. Please indicate the tobacco products included in calculating prevalence for question B16:
We calculated the prevalence based on the questions about different tobacco products consumption.

B162A. Please indicate the year of the data used to answer question B16:
2013

B162B. Please indicate the source of the data used to answer question B16:
Global Youth Tobacco Survey 2012, Global Youth Tobacco Survey 2013

B163. Please provide the definition of "current smoking/tobacco use" used to answer question B16 in the space below.
Smoking tobacco: cigarette;
Smokeless tobacco: snuff and chewing tobacco
Other tobacco: waterpipe
Current smoking: cigarette smoked/tobacco used in the last 30 days

B164. Please provide a brief explanation of the trend in tobacco use by young persons in the past two years or since submission of your last report.

In 2012, 27% of the students (7-8-9 grade students) used cigarette, 3% used smokeless tobacco (snuff, chewing tobacco) and 19% used waterpipe in the last 30 days. In 2013, 23,57% used cigarette, 2,02% used smokeless tobacco and 16,75% used waterpipe in the last 30 days.

In 2012, 7% of the students, who were current cigarette users, used cigarette on daily bases. 61% of the boys and 52% of the girls had ever tried smoking. 30,8% of the boys and 23,7% of the girls are current cigarette smokers.

Four important measures on tobacco control implemented since 2012 in Hungary: smoking ban in enclosed air space public places and in some of the open air space places, the significant tax increase on cigarettes, the warnings combined with pictures on cigarette packages and the drastic decrease in the number of stores selling tobacco products.

The Act XLII of 1999 on the Protection of Non-Smokers and Certain Regulations on the Consumption and Distribution of Tobacco Products

The Act CXXXIV of 2012 on „Reducing Smoking Prevalence among Young People and Retail of Tobacco Products

B2-B9. HEALTH, SOCIAL AND ECONOMIC INDICATORS

B2. Exposure to tobacco smoke

B21. Do you have any data on exposure to tobacco smoke in your population?
Yes
B22. Please provide details in the space below (e.g. exposure by gender, at home, in the workplace, on public transport).
84.5% of the population (82.3% for males and 86.4% for females) is never exposed to passive tobacco smoking in their home; 80.3% (76.1% and 84.1%) is never exposed to passive tobacco smoking in other places.
B23A. Please indicate the year of the data used to answer question B21:
2014
B23B. Please indicate the source of the data used to answer question B21:
2014, European Health Interview Survey

B3. Tobacco-related mortality
B31. Do you have information on tobacco-related mortality in your population?
Yes
B32. What is the estimated total number of deaths attributable to tobacco use in your population?
21746.0000000000

B33. If available, please provide any additional information on mortality attributable to tobacco use (e.g. lung cancer, cardiovascular diseases) in your jurisdiction.

B4. Tobacco-related costs
B41. Do you have information on the economic burden of tobacco use in your population, e.g. the overall cost of tobacco use imposed on your society?
Yes
B42. Please provide details (e.g. direct (health care-related) and indirect costs and, if possible, the method used to estimate these costs).
Direct and indirect costs deriving from smoking of the Hungarian population in 2010 were more than HUF 441 billion.

B61[B61iiii_B61x4]. Seizures of illicit tobacco [Other tobacco products][Quantity seized]

B62. Do you have any information on the percentage of illicit tobacco products on the national tobacco market?
Yes

B63. What percentage of the national tobacco market do illicit tobacco products constitute? (%)
8.8000000000

B64. What is the trend over the past two years or since submission of your last report in the percentage of illicit tobacco products in relation to the national tobacco market?
The former years emerging trends (2011: 3,8%, 2012: 4,1%) were very strong in 2013 (8,0%), but seemed to be managed in 2014. (slight increase to 8,8%), and a remarkable decrease (1,5 percentage points) was observed in 2015's draft numbers

B65. Please provide any further information on illicit tobacco products.
Counterfeit products' proportion is not significant, stays at 0,5%, but illicit whites dominates the smuggled cigarettes.

B66. Please indicate the source of the data used to answer questions in section B6:
2.6.1: National Tax and Customs Administration Centralized Excise Information System, Robotzsaru NEO (NTCA criminal field case-related database) Titan Information System, 2.6.2 – 2.6.5: KPMG's "Project Star"(2011-13) and "Project Sun" (2014), GfK Hungary: Empty-pack-survey 2015

B67. Please attach the relevant documentation.

C1. GENERAL OBLIGATIONS

C1. With reference to Article 5
C111. Have you developed and implemented comprehensive multisectoral national tobacco control strategies, plans and programmes in accordance with the Convention?
No
C112. Have you partially developed and implemented tobacco control strategies by including tobacco control in national health, public health or health promotion strategies, plans and programmes?
Yes
C113. Is any aspect of tobacco control that is referred to in the Convention included in any national strategy, plan or programme?
N/A
C114[C114a]. Have you established or reinforced and financed: [a focal point for tobacco control?]
Yes
C114[C114b]. Have you established or reinforced and financed: [a tobacco control unit?]
Yes
C114[C114c]. Have you established or reinforced and financed: [a national coordinating mechanism for tobacco control?]
Yes
C115. Please provide details (e.g. the nature of the national coordinating mechanism, the institution to which the focal point for tobacco control or the tobacco control unit belongs).
<p>The Tobacco Focal Point functions in one of The Ministry of Human Capacities' relevant agencies.</p> <p>The Tobacco Focal Point's main tasks:</p> <ul style="list-style-type: none"> a) Design and coordination according to the 4th article's 2nd paragraph: comprehensive multi-sectoral measures and the construction and support of coordinated answers; b) comprehensive strategy and program planning tasks (5th article, 1st point); c) comprehensive monitoring and evaluation tasks (5th article, 1st point) about tobacco politics' contents and effects; d) the coordination of national research projects (20th article, 1st point); e) the surveillance of the collecting of social, economic and health indicators concerning and related to the tobacco consumption (20th article, 3rd paragraph, point a); f) the development and the maintenance of an up-to-date database of the laws and regulations (and the information about the appliance of them) related to the tobacco consumption control. (20th article, 4th paragraph, point a); g) the coordination of the participation in the international cooperation, mostly in the aforementioned fields; h) Providing reports about the appliance of the Framework Convention for the Conference of the Parties (21st article, 1st paragraph); i) contact with persons working in the field of tobacco control, including non-governmental organisations as well as institutions and authorities led by other departments; j) Processing and evaluating the working documents and preparing the draft governmental negotiation position related to the Conference of the Parties of the Framework Convention. <p>The task of the National Koranyi Institute of TBC and Pulmonology</p> <p>The Országos Dohányzás Leszokás Támogatási Módszertani Központ (functional since 2012) (www.leszokaspont.hu) is aimed to provide methodological help to the evidence-based cessation support, as well as to combine and manage professional activities related to the tobacco control, moreover to initiate the construction of relevant professional guidelines, additionally to make sure that information and personalised help can reach the widest circle possible through its individual and group based guidance.</p> <p>Pulmonologies' work in tobacco control</p> <p>Group counselling activities about quitting smoking have been achieved in 86 pulmonologies.</p> <p>The 61 health-development agencies, which have been founded with the support of the European Union, must also do minimal intervention related to tobacco.</p> <p>In the framework of the comprehensive health promotion in schools, the suppression of smoking through preventing habituation and supporting cessation is a major task.</p> <p>National Public Health and Medical Officer Service</p> <p>Constantly monitors the restrictions and prohibitions related to smoking.</p>

C116. Please provide a brief description of the progress made in implementing Article 5.1 and 5.2 (General obligations) in the past two years or since submission of your last report.

In the period of reports the followings have been functioning constantly:

☒☒ The Tobacco Focal Point

☒☒ The Methodological Support Center for Smoking Cessation's call center (06 80 44-20-44, callable free of charge); website (www.leszokaspont.hu)

☒☒ The Health Communication Center's (founded in 2013) website (www.egeszseg.hu)

☒☒ Pulmonologies' personal and group cessation support

☒☒ The National Public Health and Medical Officer Service has been constantly monitoring the restrictions and prohibitions related to smoking.

Based on the results of the European Health Interview Survey, we can state that there has been a significant improvement regarding the exposure to passive smoking compared to the data collected in 2009.

Areas, premises and public places affected by smoking restrictions and smoking areas must be marked in a salient manner by a unified form of sign and signal with specified content.

The European Parliament and The Council released their 2014/40/EU directive on 3rd April 2014. (DIRECTIVE 2014/40/EU OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 3 April 2014 on the approximation of the laws, regulations and administrative provisions of the Member States concerning the manufacture, presentation and sale of tobacco and related products and repealing Directive 2001/37/EC), based on it, Hungary is obligated to take measures on the harmonising of legislations

Laws about the defence of non-smokers:

- Act XLII of 1999 on the Protection of Non-Smokers and Certain Regulations on the Consumption and Distribution of Tobacco Products

- The Act CXXXIV of 2012 on „Reducing Smoking Prevalence among Young People and Retail of Tobacco Products

- Act CXXVII of 2003 on Excise Taxes and Special Regulations on the Distribution of Excise Goods

- Government Decree 39/2013 of 14 February 2013 on the manufacture, placement on the market and control of tobacco products, combined warnings and the detailed rules for the application of the health-protection fine

C117. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

Based on the WHO FCTC enounced through the Act III of 2005, the Parties, as Hungary establishes or strengthens and finances a national coordination mechanism or focal points for combatting the tobacco consumption (Article 5, item 2.a.) in order to efficiently implement the Framework Agreement.

The Tobacco Focal Point is a national institution which provides decision-making and daily objects of the coordinating, policy-monitoring and evaluation, data-collectioning and planning, national reporting as well as international communication tasks during the implementation of national coordination activities related to the control of tobacco consumption.

Its further activities are:

Comprehensive and evaluation activities,

Supervision of collecting social, economic and health indicators related to the tobacco consumption, research, organization, coordination,

Implementation of multi-sectoral strategic planning and coordination activity related to the reduce of tobacco use,

Tobacco-using prevention related to the youth, preparing prevention programmes, collecting the best practices, registry-creating and suggesting programmes for the educational institutions. Preparation of framework of the national spreading and participation in the realisation process,

Implementation of model-programmes and supervision of its efficiency,

Implementation of national and international programmes, cooperation with several foreign partners at all levels active in the reducing of tobacco use, utilization of international experiences in the national programming,

Monitoring of activities of the NGOs, cooperation, joint programming,

Creating and running database related to the laws, regulations of the reducing of tobacco use and the information of their adaptations.

Participation in the preparation, implementation and evaluation processes related to the Framework Convention on Tobacco Control and in the national implementation of the convention.

C12. Protection of public health policies with respect to tobacco control from commercial and other vested interests of the tobacco industry Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C121. protecting public health policies with respect to tobacco control from commercial and other vested interests of the tobacco industry?

Yes

C122. ensuring that the public has access, in accordance with Article 12(c), to a wide range of information on tobacco industry activities relevant to the objectives of the Convention, such as in a public repository?
No

C123. Please provide details in the space below.
No further steps have been made in the implementation of Article 5.3.

C124. Please provide a brief description of the progress made in implementing Article 5.3 in the past two years or since submission of your last report.
In the beginning of the 21st century, smoking causes the most deaths related to behaviour. Hungary, realizing that the suppression of smoking is one of the most effective public health intervention fields, did and will do everything in its power to prevent smoking and lower the number of smokers.
In order to achieve this, Hungary has taken actions against the commercial and other financial interests of the tobacco industry when creating legislations in force and laws that might brought into force in the future.
Hungary will make use of the option that the aforementioned 2014/40/EU directive provides:
regulation of electronic cigarettes, the introduction of a single, neutral packaging system of tobacco products, the banning of menthol capsules, the use of combined health-warnings on all tobacco products, the regulation of additives in tobacco products.
The State Secretariat for Health of the Ministry of Human Capacities is not related to the representatives of the tobacco industry.
The website of the Tobacco Focal Point provides information on the practices of the tobacco industry.

C125. Have you utilized the "Guidelines for implementation of Article 5.3 of the WHO FCTC" when developing or implementing policies in this area?
N/A

C2. MEASURES RELATING TO THE REDUCTION OF DEMAND FOR TOBACCO

C2. With reference to Articles 6-14

C21. Price and tax measures to reduce the demand for tobacco Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C211. tax policies and, where appropriate, price policies on tobacco products so as to contribute to the health objectives aimed at reducing tobacco consumption?
Yes

C212. prohibiting or restricting, as appropriate, sales to international travellers of tax- and duty-free tobacco products?
Yes

C213. prohibiting or restricting, as appropriate, imports by international travellers of tax- and duty-free tobacco products?
Yes

C214. Please provide a brief description of the progress made in implementing Article 6 (Price and tax measures to reduce the demand for tobacco) in the past two years or since submission of your last report.

The specific and minimum excise duties were increased in 2015 (+25,6% and +12,36%) above inflation. The former years emerging trends (2011: 3,8%, 2012: 4,1%) were very strong in 2013 (8,0%), but seemed to be managed in 2014. (slight increase to 8,8%), and a remarkable decreasing was observed in 2015's draft numbers.

C215. Have you utilized the "Guidelines for implementation of Article 6 of the WHO FCTC" when developing or implementing policies in this area?

N/A

C216. Please provide details in the space below or refer to section H of the additional questionnaire. Response to this question or to the additional questionnaire is voluntary. <https://extranet.who.int/dataform/655321?token={TOKEN}&en>

C217. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

Passengers from third countries may import tobacco products in their personal luggage to Hungary without incurring customs duty and taxes: (these maximum quantities only applicable to passengers over the age of 17. Passengers under 17 are not allowed to import any tobacco products)

Air passengers:

- 200 cigarettes, or
- 100 cigarillos (not exceeding 3 grams per piece in weight), or
- 50 cigars, or
- 250 grams of tobacco

Other passengers:

- 40 cigarettes, or
- 20 cigarillos (not exceeding 3 grams per piece in weight), or
- 10 cigars, or
- 50 grams of tobacco

for consumption

C22. Protection from exposure to tobacco smoke Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C221. banning tobacco smoking in indoor workplaces, public transport, indoor public places and, as appropriate, other public places ?

Yes

C222[1]. What is the type/nature of the measure providing for the ban? [national law]

Yes

C222[2]. What is the type/nature of the measure providing for the ban? [subnational law(s)]

Yes

C222[3]. What is the type/nature of the measure providing for the ban? [administrative and executive orders]

Yes

C222[4]. What is the type/nature of the measure providing for the ban? [voluntary agreements]

No

C222[5]. What is the type/nature of the measure providing for the ban? [other measures (please specify in C223 below)]

No

C223. Please provide a brief explanation of the type/nature and content of the measures providing for the ban.

Based on the the Act XLII of 1999 on the protection of non-smokers and certain regulations of the distribution and the consumption of tobacco products, it is forbidden to smoke in commercial enclosed public spaces and community places. It is still forbidden to smoke in, apart from the selected sites, public institutions open to public premises, or public transport vehicles, workplaces, underpasses open to pedestrian traffic, and other, enclosed public traffic sites, connecting spaces, as well as in public playgrounds and within 5 meters measured from the outer zone of playgrounds.

It is also forbidden to smoke in areas used by passengers in railway stations, as well as in bus, trolleybus and tram stops, and in waiting areas and within their 5 meter zone.

It is forbidden to set up / establish smoking areas in public institutions and workplaces' enclosed premises, local public transport vehicles, in the HÉV (inter-urban train), in the coach, and in scheduled passenger trains.

Not only in the public education, child welfare and child protection institutions, but in the health care providers it is forbidden to set up / establish smoking areas, even in open air-space places. In correctional institutions, for the detainees - including the mentally ill -, in psychiatric institutes for the psychiatric patients, and for those employees working in places where the corrected workspace climate temperature exceeds 24 °, and under certain conditions in increased flammable and explosive areas, flammable and explosive areas, and also in flammable workplaces, it is possible to set up / establish enclosed smoking areas.

However, the workplaces were not indicated as a non-smoker workplace, an open air-space smoking area must be set up / established. It is prohibited to smoke in shared, enclosed premises in apartment-houses and housing cooperatives if minimum four-fifths of the owners or housing cooperative members do not decide otherwise.

The local government can mark public spaces as non-smoker public spaces in their regulation.

The legislative amendment, in effect from 2016.05.20., states that in places that are smoking restricted, electronic cigarettes and smoking imitating electronic devices must not be used.

C224. Do any of these measures provide for a mechanism/ infrastructure for enforcement?

Yes

C225. Please provide details of this system.

Yes the Article 12 of the Decree 39/2013 (II.14.) on the production, the entry into service and the controlling of tobacco products, the joint warnings and the detailed rules of the application of health-care fine includes the rules related to the health-care fine.

The government body responsible for health monitors the observing of smoking restrictions and in case of their breach, it imposes health-care fine on the infringing natural or legal person, additionally on the institution without legal personality. The amount of the fine did not change, it means:

a) in case of breach of smoking-related prohibitions or restrictions: minimum HUF 20,000, maximum HUF 50,000;

b) the non-execution or improper execution of the obligation of setting up smoking areas, as well as the failure to adhere to the obligation to oversee smoking-related prohibitions and restrictions:

ba) minimum HUF 100,000, maximum HUF 250,000 in case of the person responsible for the observation of these rules;

bb) minimum HUF 1,000,000, maximum HUF 2,500,000 in case of institutions, organisations, operators or business organisations.

The Office of the Chief Medical Officer constantly examines the observation of the smoking-related prohibitions and restrictions, in case of breach of the smoking prohibition, it is possible to make a report

C226cc. Please provide a brief explanation of any "other" policies in the space below

C227. Please provide a brief summary of complete and partial measures, with specific details of the partial measures that have been implemented:

C227a. Banning tobacco smoking in indoor workplaces

Under Legislation, the smoking in enclosed workplaces is forbidden, regarding the following exceptions.

Act XLII of 1999:

„2. §

(5) According to the provisions of Subsections (7)-(9) indoor smoking areas may be designated:

- a) in the cases described in Section 9;
- b) in penal institutions, police detention facilities, lockups and compounds of restricted access for the inmates and detainees, including those suffering in some form of mental disorder;
- c) in the psychiatric institutions referred to in Paragraph a) of Section 188 of the HCA, for psychiatric patients;
- d) for workers, where the adjusted effective temperature - defined in specific other legislation - in indoor workplaces is higher than 24 °C;
- e) for workers working in places rated extremely or highly flammable or in workplaces and facilities of moderate fire risk where areas may not be designated outdoors for smoking:
 - ea) in harmony with break-times provided under the Labor Code,
 - eb) in compliance with fire regulations, and
 - ec) in accord with the nature of the activity pursued,or may be designated only at the expense of causing serious danger to safety of life or property, or to the national economy.”

C227b. Banning tobacco smoking in public transport

The following rule is still in force..

No area can be designated for smoking in case of public transport local public transport services, trains local railway services, buses/coaches domestic intercity public transport services based on service schedules as well as of passenger trains in scheduled railway services.

The same rule applies for areas of railway operation facilities in place for the provision of public railway services and in the accessories of the railway track that are open to the public, in the stops and stations constructed or designated as passenger boarding or alighting from the means of public transport, in waiting areas or rooms, and within a distance of 5 metres of the external borderlines of outdoor stops or waiting areas.

In case of other means of public transport in service in the public transport system or in private transport services, decision on the designation of smoking areas shall be made by the operator of the service.

C227c. Banning tobacco smoking in indoor public places

No smoking area can be designated for smoking in public institutions, in rooms of closed air spaces, even in open air spaces in public education institutions, in child welfare and child protection institutions, in the premises of health service providers. Smoking area may also be designated in a closed air space for detainees held in penitentiary institutions and prisons, for psychiatric patients in psychiatric institutions.

Public spaces can be designated as non-smoking public space by the local government through regulations.

C228. Please provide a brief description of the progress made in implementing Article 8 (Protection from exposure to tobacco smoke) in the past two years or since submission of your last report.

In Hungary it is a milestone, that the Parliament decided the modification of the Act XLII of 1999 on the certain rules of the protection of non-smokers and of the consumption and marketing of tobacco products by extremely high – 84 % - qualified majority on 26 April 2011 whereby it has been forbidden since 1 January 2012 to smoke in enclosed public places and public spaces. According to the surveys and the monitorings it can be stated that the legislative amendment is highly appreciated (85%) in the society and people comply with it properly.

By modifying the law, Hungary has joined those countries, which had implemented one of the most modern anti-smoking legislation of Europe. Based on it, they meet the criteria of the health policy, technical requirements and recommendations of the EU and the WHO.

After the amendment of national property law, the average concentration of the indoor air pollution, which is mainly attributable to the tobacco smoke, has been reduced by 90% in the entertainment and dining areas. According to the results of the European population health survey done in 2014 it can be stated that there has been a further significant improvement in relation with the exposure to passive smoking compared to the 2009 data.

Smoke-free Hungary Case Study (2014)

The Smoking Focal Point (NOEFI) has prepared a case study (Smoke-free Hungary) on the impact assessment of the amendment of legislation on the protection of non-smokers with the support of WHO.

The case study is aimed to present the actions effectively enhancing the reduction of smoking which were introduced in the past years. The introduction of these measures is unique among the FCTC Parties of WHO and the Member States of the EU.

C229. Have you utilized the "Guidelines for implementation of Article 8 of the WHO FCTC" when developing or implementing policies in this area?
N/A

C2210. Please provide details in the space below or refer to section B of the additional questionnaire. Response to this question or to the additional questionnaire is voluntary. <https://extranet.who.int/dataform/655321?token={TOKEN}<=en>

C2211. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.
According to the Act XLII of 1999:
„Section 2
„(3) By way of derogation from Paragraph a) of Subsection (1), smoking is permitted without the designation of a smoking area:
a)
b) in the enclosed rooms of institutions providing accommodations, if let and expressly designated as a room for smokers; provided that smoking is not prohibited by other provisions of this Act or by fire regulations.”
„(6) The government body in charge of the healthcare system and the fire protection authority shall inspect designated smoking areas for compliance with the provisions of this Act and from the point of view of fire prevention, respectively.
(7) Areas and spaces where smoking and the use of electronic cigarette and electronic device imitating smoking is prohibited, and areas, spaces and public places designated for smoking and for the use of electronic cigarette and electronic device imitating smoking must be clearly indicated as such by means of a symbol or other explicit sign, or a standard prohibitive sign or pictogram in the event of prohibition under fire regulations.
(8) Where an enclosed area is designated for smoking under this Act, such smoking section can not be designated in the same room where a non-smoking area is also located. In the case of enclosed smoking areas, an adequate supply of fresh air must be ensured through windows or by the installation of other technical means, where tobacco smoke must not be allowed to enter the non-smoking areas. In the application of this Subsection, circulation of air shall be considered adequate if:
a) a ventilation mechanism providing a steady supply of fresh air and the removal of spent air is installed, and
b) the designation of the smoking areas and the air ventilation of the premises are designed in such a way that tobacco smoke flows directly from where it originates through the ventilation conduit without the non-smoking areas being in the direction of the flow.”

C25. Packaging and labelling of tobacco products Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C251. requiring that packaging, individual cigarettes or other tobacco products do not carry advertising or promotion?

Yes

C252. requiring that packaging and labelling do not promote a product by any means that are false, misleading, deceptive or likely to create an erroneous impression about its characteristics, health effects, hazards or emissions?

Yes

C253. requiring that each unit packet and package of tobacco products and any outside packaging and labelling of such products carry health warnings describing the harmful effects of tobacco use?

Yes

C254. ensuring that the health warnings are approved by the competent national authority?

Yes

C255. ensuring that the health warnings are rotated?

Yes

C256. ensuring that the health warnings are clear, visible and legible?

Yes

C257. Does your law mandate, as a minimum, a style, size and colour of font to render the warning clear, visible and legible?

Yes

C258. ensuring that the health warnings occupy no less than 30% of the principal display areas?

Yes

C259. ensuring that the health warnings occupy 50% or more of the principal display areas?

No

C2510. ensuring that health warnings are in the form of, or include, pictures or pictograms?

Yes

C2511. Does the Government own the copyright to these pictures and pictograms?

No

C2512. Would you grant a non-exclusive and royalty-free licence for the use of health warnings developed in your jurisdiction with other Parties?

No

C2513[1]. requiring that each unit packet and package of tobacco products and any outside packaging and labelling of such products contain information on relevant: [constituents of tobacco products?]

Yes

C2513[2]. requiring that each unit packet and package of tobacco products and any outside packaging and labelling of such products contain information on relevant: [emissions of tobacco products?]

No

C2514. requiring that the warnings and other textual information appear on each unit packet and package and on any outside packaging and labelling in the principal language or languages of the country?

Yes

C2515. Please provide a brief description of the progress made in implementing Article 11 (Packaging and labelling of tobacco products) in the past two years or since submission of your last report.

The amendment of Act XLII of 1999 adopted in April 2011 had introduced combined health warnings with an effect from 1 September 2012. From 1 September 2012 cigarettes can be produced only with combined warnings and from 1 January 2013, cigarettes can be marketed only with combined warnings. The pictorials shall be depicted on a main side of the packaging, covering at least 40 per cent of the surface.

We use the European Commission pictorial library.

The rules on health-warnings, tobacco labeling and packing of the directive 2014/40/EU of the European Parliament and the Council have been widely transferred to the Hungarian legislation.

Some clarifications have been introduced on tobacco products, smoking, combined health-warning, multipack concepts and the size of the health-warning signs has been increased.

With regard to the protection of non-smokers it has been determined, that the package unit, the package labeling and the tobacco products can not contain any element or solution as follows:

- Which advertises the tobacco product in a false impressive manner with regard to the product specifications, its effects on health, its risks or the emissions, moreover in this way, it encourages its consumption;
- Which does mark no information of the nicotine-, tar-, and carbon monoxide content of the tobacco product;
- Which suggests, that the particular tobacco product is less harmful than other products, or it refers to its revitalizing, energizing, healing, rejuvenating, natural and organic characteristics;
- Which refers to taste, smell, flavor or other additives or lack of them by misleading the consumers;
- Which reminds of food or cosmetic product;
- Which suggests, that certain tobacco products can decompose biologically easily or have other environmental benefits;
- Which refers to economic advantage (e.g.: „buy one, get one free“)

Introduced: 18 June 2015
Date of entry into force: 20 May 2016

C2516. Have you utilized the “Guidelines for implementation of Article 11 of the WHO FCTC” when developing or implementing policies in this area?

N/A

C2517. Please provide details in the space below or refer to section D of the additional questionnaire. Response to this question or to the additional questionnaire is voluntary. <https://extranet.who.int/dataform/655321?token={TOKEN}&=en>

C2518. If you have any other relevant information pertaining to or not covered in this section, please provide details in the space below.

For point 3.2.5.13: from emission tar, nicotine and carbone-monoxide shall be depicted on the packaging.

C2519. Please attach the relevant documentation.

C2519[filecount]. filecount - Please attach the relevant documentation.

C267[other]. Are appropriate and special training or sensitization and awareness programmes on tobacco control addressed to: [Other]

C268. Please provide a brief description of the progress made in implementing Article 12 (Education, communication, training and public awareness) in the past two years or since submission of your last report.

The Secretary of State for Public Education at the Ministry of Human Capacities organized a conference with the Hungarian Institute for Educational Research and Development (OFI) on 03.10.2014. The title was „Educators for health”. The aim of the conference was to introduce health prevention programs and best-practices, which are suitable from nursery to elementary and secondary schools for every age. One of the main purpose of the public education system is health education and to introduce healthy life paths as institutional actors. Previously OFI collected the exemplary and well established health programs in the educational institutions of the country. The prevention of smoking and the fight against smoking are essential parts of these programs.

C269. Have you utilized the “Guidelines for implementation of Article 12 of the WHO FCTC” when developing and implementing policies in this area?

N/A

C27. Tobacco advertising, promotion and sponsorship Have you adopted and implemented, where appropriate, any legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes:

C271. instituting a comprehensive ban on all tobacco advertising, promotion and sponsorship?

Yes

C272[1]. Does your ban cover: [display and visibility of tobacco products at points of sales?]

No

C272[2]. Does your ban cover: [the domestic Internet?]

Yes

C272[3]. Does your ban cover: [the global Internet?]

Yes

C272[4]. Does your ban cover: [brand stretching and/or brand sharing?]

No

C272[5]. Does your ban cover: [product placement as a means of advertising or promotion?]

Yes

C272[6]. Does your ban cover: [the depiction of tobacco or tobacco use in entertainment media products?]

Yes

C272[7]. Does your ban cover: [tobacco sponsorship of international events or activities and/or participants therein?]

Yes

C272[8]. Does your ban cover: [contributions from tobacco companies to any other entity for “socially responsible causes” and/or any other activities implemented under the umbrella of “corporate social responsibility” by the tobacco industry?]

No

C272[9]. Does your ban cover: [cross-border advertising, promotion and sponsorship originating from your territory?]

Yes

C272[10]. Does your ban cover: [the same forms of cross-border advertising, promotion and sponsorship entering your territory for which domestic regulation apply?]

Yes

C273. are you precluded by your constitution or constitutional principles from undertaking a comprehensive ban on tobacco advertising, promotion and sponsorship?	N/A
C274. applying restrictions on all tobacco advertising, promotion and sponsorship?	N/A
C275. applying restrictions on cross-border advertising, promotion and sponsorship originating from your territory with cross-border effects?	N/A
C276. prohibiting those forms of tobacco advertising, promotion and sponsorship that promote a tobacco product by any means that are false, misleading, deceptive or likely to create an erroneous impression about its characteristics, health effects, hazards or emissions?	N/A
C277. requiring that health or other appropriate warnings or messages accompany all tobacco advertising, promotion and sponsorship?	N/A
C278. restricting the use of direct or indirect incentives that encourage the purchase of tobacco products by the public?	N/A
C279. requiring the disclosure to relevant Government authorities of expenditures by the tobacco industry on advertising, promotion and sponsorship not yet prohibited?	N/A
C2710[1]. restricting tobacco advertising, promotion and sponsorship on: [radio?]	N/A
C2710[2]. restricting tobacco advertising, promotion and sponsorship on: [television?]	N/A
C2710[3]. restricting tobacco advertising, promotion and sponsorship on: [print media?]	N/A

C28. Demand reduction measures concerning tobacco dependence and cessation Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C281. developing and disseminating appropriate, comprehensive and integrated guidelines based on scientific evidence and best practices?

Yes

C282[1]. programmes to promote cessation of tobacco use, including: [media campaigns emphasizing the importance of quitting?]

Yes

C282[2]. programmes to promote cessation of tobacco use, including: [programmes specially designed for underage girls and young women?]

No

C282[3]. programmes to promote cessation of tobacco use, including: [programmes specially designed for women?]

No

C282[4]. programmes to promote cessation of tobacco use, including: [programmes specially designed for pregnant women?]

Yes

C282[5]. programmes to promote cessation of tobacco use, including: [telephone quitlines?]

Yes

C282[6]. programmes to promote cessation of tobacco use, including: [local events, such as activities related to World No Tobacco Day or National No Smoking Day, if appropriate?]

Yes

C282[7]. programmes to promote cessation of tobacco use, including: [other (please specify)?]

No

C282[other]. programmes to promote cessation of tobacco use, including: [Other]

C283[1]. design and implementation of programmes aimed at promoting the cessation of tobacco use, in such locations as: [educational institutions?]

Yes

C283[2]. design and implementation of programmes aimed at promoting the cessation of tobacco use, in such locations as: [health-care facilities?]

Yes

C283[3]. design and implementation of programmes aimed at promoting the cessation of tobacco use, in such locations as: [workplaces?]

Yes

C283[4]. design and implementation of programmes aimed at promoting the cessation of tobacco use, in such locations as: [sporting environments?]

Yes

C283[5]. design and implementation of programmes aimed at promoting the cessation of tobacco use, in such locations as: [other (please specify)?]

No

C283[other]. design and implementation of programmes aimed at promoting the cessation of tobacco use, in such locations as: [Other]

C284[1]. inclusion of diagnosis and treatment of tobacco dependence and counselling services for cessation of tobacco use in national programmes, plans and strategies for: [tobacco control?]

Yes

C284[2]. inclusion of diagnosis and treatment of tobacco dependence and counselling services for cessation of tobacco use in national programmes, plans and strategies for: [health?]

Yes

C284[3]. inclusion of diagnosis and treatment of tobacco dependence and counselling services for cessation of tobacco use in national programmes, plans and strategies for: [education?]

Yes

C285. inclusion of programmes on the diagnosis and treatment of tobacco dependence in your health-care system?

Yes

C286[1]. Which structures in your health-care system provide programmes for the diagnosis and treatment of tobacco dependence? [primary health care]

Yes

C286[2]. Which structures in your health-care system provide programmes for the diagnosis and treatment of tobacco dependence? [secondary and tertiary health care]

Yes

C286[3]. Which structures in your health-care system provide programmes for the diagnosis and treatment of tobacco dependence? [specialist health-care systems (please specify below)]

No

C286[4]. Which structures in your health-care system provide programmes for the diagnosis and treatment of tobacco dependence? [specialized centres for cessation counselling and treatment of tobacco dependence]

Yes

C286[5]. Which structures in your health-care system provide programmes for the diagnosis and treatment of tobacco dependence? [rehabilitation centres]

Yes

C286[other]. Which structures in your health-care system provide programmes for the diagnosis and treatment of tobacco dependence? [Other]

C287[1]. Are the services provided in these settings covered by public funding or reimbursement schemes? [primary health care]

Partially

C287[2]. Are the services provided in these settings covered by public funding or reimbursement schemes? [secondary and tertiary health care]

Partially

C287[3]. Are the services provided in these settings covered by public funding or reimbursement schemes? [specialist health-care systems (please specify below)]

None

None

C2813[4]. Are the costs of these products covered by public funding or reimbursement? [other (please specify below)]

C2813b. Please provide other details in the space below.

C2814. Please provide a brief description of the progress made in implementing Article 14 (Demand reduction measures concerning tobacco dependence and cessation) in the past two years or since submission of your last report.

The National Tobacco Cessation Methodological Centre works at full scale. In the last two years several projects included smoking cessation programmes (TÁMOP 625) at primary health care setting, there is an increasing interest towards skill training of smoking cessation and several educational and training programme have been provided by the Methodological Centre. An active networking is in operation between different units dealing with smoking cessation. Special referral programmes have been developed for inpatients and group smoking cessation programmes are in operation at different institutions.

C2815. Have you utilized the "Guidelines for implementation of Article 14 of the WHO FCTC" when developing and implementing policies in this area?

N/A

C3. MEASURES RELATING TO THE REDUCTION OF THE SUPPLY OF TOBACCO

C3. With reference to Articles 15–17

C31. Illicit trade in tobacco products Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C311. requiring marking of all unit packets and packages of tobacco products and any outside packaging of such products to assist in determining the origin of the product?

No

C312. requiring marking of all unit packets and packages of tobacco products and any outside packaging of such products to assist in determining whether the product is legally sold on the domestic market?

Yes

C313. requiring that unit packets and packages of tobacco products for retail and wholesale use that are sold on the domestic market carry the statement: "Sales only allowed in ..." or carry any other effective marking indicating the final destination of the product?

Yes

C314. developing a practical tracking and tracing regime that would further secure the distribution system and assist in the investigation of illicit trade?

No

C315. requiring that marking is presented in legible form and/or appears in the principal language or languages of the country?

Yes

C316. requiring the monitoring and collection of data on cross-border trade in tobacco products, including illicit trade?

Yes

C317. facilitating the exchange of this information among customs, tax and other authorities, as appropriate, and in accordance with national law and applicable bilateral and multilateral agreements?

Yes

C318. enacting or strengthening legislation, with appropriate penalties and remedies, against illicit trade in tobacco products, including counterfeit and contraband cigarettes?

Yes

C319. requiring that confiscated manufacturing equipment, counterfeit and contraband cigarettes and other tobacco products derived from illicit trade are destroyed, using environment-friendly methods where possible, or disposed of in accordance with national law?

Yes

C3110. adopting and implementing measures to monitor, document and control the storage and distribution of tobacco products held or moving under suspension of taxes or duties?

Yes

C3111. enabling the confiscation of proceeds derived from illicit trade in tobacco products?

Yes

C3112. promoting cooperation between national agencies and relevant regional and international intergovernmental organizations in investigations, prosecutions and proceedings, with a view to eliminating illicit trade in tobacco products, with special emphasis on cooperation at regional and subregional levels?

Yes

C3113. licensing or other actions to control or regulate production and distribution in order to prevent illicit trade?

Yes

C3114. Please provide a brief description of the progress made in implementing Article 15 (Illicit trade in tobacco products) in the past two years or since submission of your last report.

C3115. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

C3116. Please attach the relevant documentation.

C3116[filecount]. filecount - Please attach the relevant documentation.

C32. Sales to and by minors Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C321. prohibiting the sales of tobacco products to minors?

Yes

C321a. Please specify the legal age:

18

C322. requiring that all sellers of tobacco products place a clear and prominent indicator inside their point of sale about the prohibition of tobacco sales to minors?

Yes

C323. requiring that, in case of doubt, each seller of tobacco products requests that the purchaser provides appropriate evidence of having reached full legal age?

Yes

C324. banning the sale of tobacco products in any manner by which they are directly accessible, such as open store shelves?

Yes

C325. prohibiting the manufacture and sale of sweets, snacks, toys or any other objects in the form of tobacco products which appeal to minors?

No

C326. prohibiting the sale of tobacco products from vending machines?

Yes

C327. Do you ensure that tobacco vending machines are not accessible to minors and/or do not promote the sale of tobacco products to minors?

N/A

C328[1]. prohibiting and/or promoting the prohibition of the distribution of free tobacco products: [to the public?]

Yes

C328[2]. prohibiting and/or promoting the prohibition of the distribution of free tobacco products: [to minors?]

Yes

C329. prohibiting the sale of cigarettes individually or in small packets?

Yes

C3210. providing for penalties against sellers and distributors in order to ensure compliance?

Yes

C3211. prohibiting the sales of tobacco products by minors?

Yes

C3212. Please provide a brief description of the progress made in implementing Article 16 (Sales to and by minors) in the past two years or since submission of your last report.

In September 2012 the Parliament adopted the Act on „Reducing Smoking Prevalence among Young People and Retail of Tobacco Products”, also known as the “Tobacco Shop Law”. In consequence of the Act, selling of tobacco products can only be permitted in supervised tobacco stores, where only adults above 18 can purchase. The aim of the Act is to restrict the widespread availability and presence of tobacco products in order to promote tobacco control among young people, furthermore to supply smokers with tobacco products professionally and satisfyingly in compliance with consumer protection rules, thereby to prevent the illegal trade of tobacco products.

As a result of the Act, from 1st July 2013, tobacco products can only be purchased in 7000 supervised tobacco stores with concession, instead of in more than 40 000 shops all over the country before. At retail, young people need to be prevented from buying tobacco products as much as possible. If there is a doubt about the age of the customer, the retailer must check the documents proving the age of the customer. In case of contravening these requirements, the consumer protection agency can impose a fine on the tobacco product retailer.

On the outer walls of the tobacco store it is prohibited to display any picture or visualization relating to tobacco products or smoking. As a result of these measures, purchasing tobacco products has become more difficult for young people.

Results of Youth Surveys in 2012 and 2013 The youth surveys in 2012 and 2013 were conducted within the WHO Global Youth Tobacco Survey (GYTS). Respondents of the surveys were pupils in the 7th, 8th and 9th grades in the age group of 13-15.

In 2012 the rate of current – both daily and occasional – smokers was 27%; 31% of boys and 25% of girls smoked. This rate decreased by 3% in 2013. The decrease was observed among boys: the rate of current smokers among boys fell to 24% by 2013 and there was no change among girls.

In 2012, 7% of the age group of 13-15 were daily smokers, that is, 9% of boys and 5% of girls. The rate of current smokers among young people rose to 9% by 2013. The increase was 1% among boys and 2% among girls.

In 2012, 45% of young people bought cigarettes in shops; this rate decreased significantly to 20% by 2013. In 2012, 43% of young people were not prevented by shop assistants in 56 service from buying cigarettes because of their age, this rate unfortunately increased by 2013: 50% of the age group of 13-15 were not refused during service because of their age.

The Adult Tobacco Survey 2013 contains that 58% of the smokers said, that it is more or much more difficult to buy a tobacco product than before decreasing the number of the tobacco-selling places.

Four important measures on tobacco control implemented since 2012 in Hungary:

smoking ban in enclosed air space public places and in some of the open air space places, the significant tax increase on cigarettes, the warnings combined with pictures on cigarette packages and the drastic decrease in the number of stores selling tobacco products.

A significant decline of the prevalence among adults and slight decline of the prevalence among the youth occurred related to the four measures.

The reduction of the number of smokers is expected to help reduce tobacco related morbidity, mortality and tobacco related economic and social burden.

The rules of the marketing of electronic cigarettes have been recorded during the transfer of the directive 2014/40/EU of the European Parliament and the Council to the Hungarian legislation..

Electronic cigarettes can be only purchased in the National Tobacco stores according to the amendment of the Act CXXXIV of 2012 on “Reducing Smoking Prevalence among Young People and Retail of Tobacco Products. (Introduced: 23 December 2015, entry into force: 20 May 2016)

D. INTERNATIONAL COOPERATION AND ASSISTANCE

D0. Pursuant to Article 21.1(c) and in accordance with Article 26, have you either provided or received financial or technical assistance (be it through unilateral, bilateral, regional, subregional or other multilateral channels, including relevant regional and international intergovernmental or nongovernmental organizations and financial and development institutions) for the development and strengthening of multisectoral, comprehensive tobacco control programmes of developing country Parties and Parties with economies in transition in any of the following areas:
D1[1]. development, transfer and acquisition of technology, knowledge, skills, capacity and expertise related to tobacco control? [Assistance provided]
No
D1[2]. development, transfer and acquisition of technology, knowledge, skills, capacity and expertise related to tobacco control? [Assistance received]
Yes
D2[1]. provision of technical, scientific, legal and other expertise to establish and strengthen national tobacco control strategies, plans and programmes? [Assistance provided]
No
D2[2]. provision of technical, scientific, legal and other expertise to establish and strengthen national tobacco control strategies, plans and programmes? [Assistance received]
Yes
D3[1]. appropriate training or sensitization programmes for appropriate personnel in accordance with Article 12? [Assistance provided]
No
D3[2]. appropriate training or sensitization programmes for appropriate personnel in accordance with Article 12? [Assistance received]
Yes
D4[1]. provision of the necessary material, equipment and supplies, as well as logistic support, for tobacco control strategies, plans and programmes? [Assistance provided]
No
D4[2]. provision of the necessary material, equipment and supplies, as well as logistic support, for tobacco control strategies, plans and programmes? [Assistance received]
Yes

D5[1]. identification of methods for tobacco control, including comprehensive treatment of nicotine addiction? [Assistance provided]
No

D5[2]. identification of methods for tobacco control, including comprehensive treatment of nicotine addiction? [Assistance received]
Yes

D6[1]. promotion of research to increase the affordability of comprehensive treatment of nicotine addiction? [Assistance provided]
No

D6[2]. promotion of research to increase the affordability of comprehensive treatment of nicotine addiction? [Assistance received]
Yes

D7. Please identify the Party or Parties from which assistance was received or to which assistance was provided.

Hungary participates in every European Union Commission and Committee work established to reduce the tobacco use, additionally Hungary is the member of the working groups and expert groups. The Hungarian experts have actively participated in the preparation and consultation process of the new 2014/40/EU directive and in the preparation of Commission resolutions related to its implementation. Hungary is represented in the following commissions and expert groups established by WHO and the European Union:

European Union:

- Tobacco Product Committee established under Article 25 of the Tobacco Products Directive (2014/40/EU)
- Expert Group on Tobacco Policy established under Commission Decision C(2014) 3509
- Expert Subgroup Group on E-cigarettes
- Subgroup on Traceability and Security Features of the Expert Group on Tobacco Policy
- Subgroup on Ingredients established by the Expert Group on Tobacco Policy

World Health Organization:

- Working group on sustainable measures to strengthen implementation of the WHO FCTC

The Hungarian expert delegates did presentations on the topic of reducing tobacco use in the following conferences and meetings in the last 2 years:

- V4 High-Level Meeting on NCDs

In 2015, Hungary also participated in the high level meeting in Paris which was aimed to introduce the single packaging of tobacco products.

D8. Please provide information about any assistance provided or received in the space below.

Received and the information provided in the majority of cases are mutual, in recent times occurred in the following areas:

- regulate the packaging of tobacco products, including single package
- regulation of additives used in tobacco products
- flavoring regulation of tobacco products
- herbal products for smoking control
- Opportunities to regulate electronic cigarettes
- Putting the new Tobacco Products Directive in domestic law,
- Tobacco product prices
- Smoking restrictions affected areas

D9. If you have not received or provided assistance in any of the aforementioned areas, please identify any financial or technical assistance that may be under consideration, if appropriate.

D10. Have you encouraged relevant regional and international intergovernmental organizations and financial and development institutions in which you are represented to provide financial assistance for developing country Parties and for Parties with economies in transition to assist them in meeting their obligations under the Convention?
No

D11. Please provide details in the space below.

E. PRIORITIES AND COMMENTS

E1. What are the priorities for implementation of the WHO Framework Convention on Tobacco Control in your jurisdiction?
Highest level of protection of health, protection from exposure to tobacco smoke, the composition of the tobacco legislation, tobacco packaging, labeling, education, training, public health conscious behavior strengthen, smoking cessation support, special protection of minors.

E2. Have you identified any specific gaps between the resources available and the needs assessed for implementing the WHO Framework Convention on Tobacco Control?
No

E3. Please provide details in the space below.

E4. What, if any, are the constraints or barriers, other than lack of resources, you have encountered in implementing the Convention?

E5[1]. Do you have any of the following products available on your national tobacco market? [smokeless tobacco products]
Yes

E5[2]. Do you have any of the following products available on your national tobacco market? [water pipe tobacco]
Yes

E5[3]. Do you have any of the following products available on your national tobacco market? [ENDS/ENNDS]
Yes

E5[other]. Do you have any of the following products available on your national tobacco market? [Other]

E6[1]. Have you adopted and implemented any policy or regulation that is specific to the following tobacco products? [smokeless tobacco products]
Yes

E6[2]. Have you adopted and implemented any policy or regulation that is specific to the following tobacco products? [water pipe tobacco]
Yes

E6[3]. Have you adopted and implemented any policy or regulation that is specific to the following tobacco products? [ENDS/ENNDS]
Yes

E6[other]. Have you adopted and implemented any policy or regulation that is specific to the following tobacco products? [Other]

E7. If you have any relevant information related to questions E5 and E6, please provide details in the space below.
The electronic cigarette or tobacco imitating electronic devices such information to show the products newly regulated in a separate chapter.

E8. Please provide any other relevant information not covered elsewhere that you consider important.

E9. Your suggestions for further development and revision of the reporting instrument:
We recommend for consideration to fill in a questionnaire to assist countries in the previous report data, displaying responses in the report as a possible answer to a specific question in the questionnaire.
