3.2(d)(i)	Do you have any information on the percentage of smuggled tobacco products in the national tobacco market?
	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
3.2(d)(ii)	If you answered ‘Yes’ to question 3.2(d)(i), according to the most recent information available, what percentage of the national tobacco market does smuggled tobacco products constitute?
	- %
3.2(d)(iii)	If you answered ‘Yes’ to question 3.2(d)(i) and you have information available, what is the trend over recent years in the percentage of smuggled tobacco products in relation to the national tobacco market?
	-
3.2(d)(iv)	Please provide any further information on illicit or smuggled tobacco products. Following the enlargement of the EU in mid 2004 and the advent of low air fares to/from countries with lower priced cigarettes, the extent of penetration of illicit product into the Irish market appears to have increased. This is reflected in the number and nature of detections and seizures made at our national airports, retail outlets, etc.
3.2(d)(v)	Please indicate the year and source of the data used to answer questions 3.2(c)(i)–(iv): <i>(Please ensure that you have used the latest available data.)</i>

4. Taxation

4.1	Please state the rates of taxation for tobacco products at all levels of Government and be as specific as possible (specify the type of tax, e.g. VAT, sales, import duties) <i>(Please refer to Article 6.3.)</i>				
		Product	Type of tax	Rate or amount	Base of the tax⁷
	Smoking tobacco products <input type="button" value="Add product"/>				
	Smokeless tobacco products <input type="button" value="Add product"/>	SALE OF THESE PRODUCTS PROHIBITED IN IRELAND			
	Other tobacco products <input type="button" value="Add product"/>				
	Please attach the relevant documentation in one of the six official languages, if available. <i>(Please refer to Article 6.3.)</i>				

⁷ The 'base of the tax' should clearly indicate on what the tax rate or amount is based. If the tax is expressed as a percentage, the base of the tax is the actual value of the good that is taxed. For example, a sales tax that is applied at the final stage of distribution will be calculated on top of those taxes that have previously been levied. If the tax is expressed as an amount, then the base of the tax is the volume of goods that is taxed. For example, if a tax is US\$5 per 100 cigarettes, the amount of tax is US\$5 and the base of the tax is 100 cigarettes.

4.2 Please provide retail prices for the three most widely sold brands of domestic and imported tobacco products at the most widely used point of sale in your capital city.
(Please refer to Article 6.2(a).)

		Ireland introduced comprehensive legislation providing for smoke free enclosed workplaces, with limited exceptions, in March 2004. Premises are exempted on the basis that they are a person's de facto place of residence - include prisons and places of detention, psychiatric hospitals, hospices, nursing homes and hotel and guesthouse bedrooms. However, it should be noted that an exemption does not constitute a right to smoke and employers are still bound by a duty of care to protect their employees
