## 10. Questionnaire feedback

- (a) Please provide feedback for improvement of the Group 1 questionnaire.  [Help](#)

As for the word based document -

- no place indicated to write the source or any other additional information

Some questions difficult to complete since proper 'skips' or 'instructions' are not provided in the instrument

All available instruments are in non-editable formats and hence the instrument has to be re-written to provide data

- protected text with writable response fields could have been more user friendly

- (b) Please provide input for the future development of the Group 2 questionnaire.

Current group 2 questions are adequate for Maldives but since some of the areas covered are not applicable it may be not be of great use to this country. Improving actions in achieving group 1 question targets are still more relevant and will be for a few years to come.
