The funding has provided for the following elements in the countries:</p> <ol style="list-style-type: none"> <li>1. Have you identified any specific gaps between the resources available and the needs assessed, for the financial and technical assistance provided or received?  [Help](#)

Yes (please give details below)

No

Additional details: The countries have identified ongoing resource needs, particularly where sustainable funding mechanisms have not been able to be established. These largely relate to ongoing assistance for the funding of health promotion and smoking cessation activities. New Zealand is aware that a couple of countries have sought additional funding for further assistance on legislation implementation (particularly enforcement) as well. We are also aware that a number of other Pacific countries would value similar assistance to that provided to the existing six.

## 10. Questionnaire feedback

- (a) Please provide feedback for improvement of the Group 1 questionnaire.  [Help](#)

The template is not very user friendly. The formatting could be improved so that answers to questions can be provided more clearly and supporting notes or references included.

Also, a number of questions are not applicable to certain countries or are irrelevant once earlier questions have been answered, however, there is no space to indicate this.

The information contained in the 'Help' boxes is not very helpful. It would be more useful if examples could be provided or more explanation given as to what detail is being sought.

- (b) Please provide input for the future development of the Group 2 questionnaire.
