

**REPORTING INSTRUMENT
OF THE WHO FRAMEWORK CONVENTION ON TOBACCO CONTROL**

PLEASE READ THIS NOTE BEFORE COMPLETING THE QUESTIONNAIRE

In order to use the interactive features of the reporting instrument, please follow the instructions below.

1. Save the Microsoft Word-based document (WHO FCTC reporting instrument) to a folder on the computer that will be used to complete the questionnaire.
2. Ensure your Microsoft Word security settings allow you to run macros in this document:
 - (i) Under the "Tools" menu, select "Macro".
 - (ii) In the "Macro" menu, select "Security".
 - (iii) In the "Security" pop up menu, please ensure that you have selected "Medium".
3. Close and re-open the WHO FCTC reporting instrument (Microsoft Word-based document which you saved to your computer under step 1).
4. As the document is opening, a box will appear asking if you want to enable macros. The answer is yes. Click "Enable macros".
5. Once you have clicked "Enable macros", the buttons indicating that you can add new rows or new categories to the tables provided will be functional.

It is essential to complete the reporting instrument by providing information/data in the required format to ensure consistency and for ease of data processing and analysis.

I confirm that I read the note and followed the instructions therein

⁵ The “base of the tax” should clearly indicate the tax rate or amount the tax is based on. If the tax is expressed as a percentage (e.g. ad valorem tax), the base of the tax is the actual value of the good that is taxed; for example, 45% of the manufacturer’s price, 30% of the retail price. In this case the “base” is the manufacturer’s price or retail price. If the tax is expressed as an amount (e.g. specific tax), the base of the tax is the volume (number of pieces or by weight) of goods that is taxed. For example, if a tax is US\$ 5 per 100 cigarettes, the amount of tax is US\$ 5 and the base of the tax is 100 cigarettes.

	<p>Brief Summary: Finance Act 2005 prescribes that no cigarettes factory shall clear cigarettes unless they conform to the health standards prescribed by the federal government. This provision has not been operationalized in view of the absence of internationally accredited laboratory system capable of accurately testing and reporting tobacco products in Pakistan. GoP is actively following international developments on the matter. We understand that WHO Tobacco Laboratory Network has proposed to validate methods for testing and measuring cigarette contents and emissions. As per the Progress Report of the FCTC Working Group on the subject (dated 21st August 2008), this validation of the three methods for contents and the four methods for emissions by WHO is estimated to take five and a half.</p> <p>We are also looking forward to the evolution of the proposed global database regarding tobacco product contents and emission disclosure. We are considering the option of earmarking special funds to set up internationally accredited laboratory in Pakistan to test the contents and emissions, as has been done by some countries in the Region.</p>

3.3.1.14	<p>Please provide a brief description of the progress made in implementing Article 15 (<i>Illicit trade in tobacco products</i>) in the past two years or since submission of your last report.</p> <p>In Pakistan, illicit sector of about 17 % of the total domestic market of cigarette which include smuggled, counterfeit and non duty paid locally manufactured products.</p> <p>Government of Pakistan has already taken many steps to curb the share of the illicit sector. One key measure is the minimum price law. In addition to that, Government has mandated the following:</p> <ul style="list-style-type: none"> • Printing of manufacturer’s name & retail price • Third party Audits • Destruction of machinery and Confiscation of Conveyance used for counterfeit • Disclosure of Bank Accounts • Submission of Audited Bank Accounts to FBR • Sealing of excess capacity • Installation of CCTV Cameras. <p>Mobile enforcement teams</p> <p>However, due to weak enforcement levels these measures law have not been able to create any substantial dent in the share of the duty-non-paid sector, though it has not increased during the last few years. One critical factor in this is the nature of the retail universe in Pakistan. There are 600,000+ retail outlets and it is not easy to control all these outlets.</p> <p>The Tobacco Cell is working as a catalyst to increase awareness about the need for proper enforcement of laws related to illicit trade.</p>

	<p>Tobacco Control in your jurisdiction?</p> <p>Increasing capacity of the tobacco control unit in Cabinet Division.</p> <p>Review of legislation to bring it in conformity with FCTC.</p> <p>Increase in taxation and pricing.</p> <p>Research and communication to assist in advocacy related to hazards of smoking.</p> <p>Comprehensive ban on TAPS</p> <p>Encouraging provincial and district governments to initiate their own programmes</p>
5.2	<p>Have you identified any specific gaps between the resources available and the needs assessed for implementing the WHO Framework Convention on Tobacco Control? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p>
5.3	<p>If you answered “Yes” to question 5.2, please provide details in the space below.</p>
5.4	<p>What, if any, are the constraints or barriers, other than lack of resources, you have encountered in implementing the Convention?</p> <p><i>(Please refer to Article 21.1(b).)</i></p> <p>Pakistan is new to tobacco control. Government of Pakistan has made significant achievements in implementing the Convention in its letter and spirits. Most of it’s been done indigenously with indigenous resources. However, there are certain constraints which now are becoming more glaring than before and require assistance and support. They are as follows:</p> <p>Lack of scientific knowledge about technical aspects</p> <p>Non availability of data/research</p>
