

WHO FRAMEWORK CONVENTION  
ON TOBACCO CONTROL

## **REPORTING INSTRUMENT OF THE WHO FRAMEWORK CONVENTION ON TOBACCO CONTROL**

In order to use the interactive features of the reporting instrument, please follow the instructions below. **It is essential to complete the reporting instrument by providing information/data in the required format to ensure consistency and for ease of data processing and analysis.**

### **If you use a version of Microsoft Word of before 2010:**

1. Save the Microsoft Word-based document (WHO FCTC reporting instrument) to a folder on the computer that will be used to complete the questionnaire.
2. Ensure your Microsoft Word security settings allow you to run macros in this document:
  - (i) Under the "Tools" menu, select "Macro".
  - (ii) In the "Macro" menu, select "Security".
  - (iii) In the "Security" pop up menu, please ensure that you have selected "Medium".
3. Close and re-open the WHO FCTC reporting instrument (Microsoft Word-based document which you saved to your computer under step 1).
4. As the document is opening, a box will appear asking if you want to enable macros. The answer is yes. Click "Enable macros".
5. Once you have clicked "Enable macros", the buttons indicating that you can add new rows or new categories to the tables provided will be functional.

### **If you use a newer version of Microsoft Word:**

1. When receiving the security warning "Some active content has been disabled", click "Enable content".
2. When receiving another security warning "Macros have been disabled", click "Enable content".

**I confirm that I read the note and followed the instructions therein**

2.1.1.1	Please indicate the smoking tobacco products included in calculating prevalence for question 2.1.1:
	All tobacco products smoked, incl. cigarettes, cigarillos, cigars, pipe
2.1.1.2	Please indicate the age range to which the data used to answer question 2.1.1 refer:
	15 and over
2.1.1.3	Please indicate the year and source of the data used to answer question 2.1.1:
	Nation-wide survey conducted in 2013 by Cancer Center and Institute and TNS Poland; data on number of cigarettes: GATS Poland 2009-2010
2.1.1.4	Please provide the definitions of “current smoker”, “daily smoker”, “occasional smoker”, “former smoker” and “never smoker” used in this report.
	Current smoker = daily + occasional smoker; daily smoker = smoking tobacco on daily basis; occasional smoker = smoking tobacco less than once a day; former smoker = former daily smoker; never smoker = former occasional smoker + never smoker
2.1.1.5	Please provide a brief explanation of the trend in smoking prevalence in the adult population in the past two years or since submission of your last report.
	At men, decline in smoking prevalence from 36.7% in 2009 to 33.8% in 2013; first signs of decline in smoking prevalence among women from 21.7% in 2009 to 19,6% in 2013; data from big nation-wide survey “Social Diagnosis 2013”

2.1.2	<b>Smoking prevalence in the adult population (by age groups)</b> <i>(If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years)</i>

<b>2.8</b>	<b>TAXATION OF TOBACCO PRODUCTS</b> <i>(with reference to Articles 6.2(a) and 6.3)</i>				
2.8.1	What proportion of the retail price of the most popular price category of tobacco product consists of taxes (e.g. sum of excise, sales and import duties (if applicable) and value added tax/goods and services tax (VAT/GST))? 84,60%				
2.8.2	How are the excise taxes levied (what types of taxes are levied)?				
	• Specific tax only	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No		
	• Ad valorem tax only	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No		
	• Combination of specific and ad valorem taxes	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No		
	More complex structure <i>(please explain:</i>				
	<ul style="list-style-type: none"> <li>• cigarettes - combination of specific and ad valorem excise duties</li> <li>• smoking tobacco - combination of specific and ad valorem excise duties</li> <li>• cigars and cigarillos - specific excise duties</li> <li>• raw tobacco - specific excise duties )</li> </ul>				
2.8.3	If available, please provide details on the rates of taxation for tobacco products at all levels of Government and be as specific as possible (specify the type of tax, e.g. VAT, sales, import duties)				
		Product	Type of tax	Rate or amount	Base of tax <sup>5</sup>
	Smoking tobacco products <input type="button" value="Add product"/>	Cigarettes 2012	• Specific excise duty	• 170,97 PLN	• per 1000 items
			• Ad valorem excise duty	• 31,41 %	• of retail price
			• VAT	• 18,70 %	• of retail price
		Cigarettes 2013	• Specific excise duty	• 188,00 PLN	• per 1000 items
				• 31,41 %	

<sup>5</sup> The “base of the tax” should clearly indicate the tax rate or amount the tax is based on. If the tax is expressed as a percentage (e.g. ad valorem tax), the base of the tax is the actual value of the good that is taxed; for example, 45% of the manufacturer’s price, 30% of the retail price. In this case the “base” is the manufacturer’s price or retail price. If the tax is expressed as an amount (e.g. specific tax), the base of the tax is the volume (number of pieces or by weight) of goods that is taxed. For example, if a tax is US\$ 5 per 100 cigarettes, the amount of tax is US\$ 5 and the base of the tax is 100 cigarettes.

2.9.2	Please indicate the year and source of the data used to answer question 2.9.1.					
	Data of the Ministry of Finance for the year 2012 and 2013 and the studies of the tobacco market.					
2.9.3	Please provide the currency used to complete the “Rate or amount” section of question 2.8.3 and the “Retail price” section of question 2.9.1. If known, please provide the exchange rate of this currency to US dollars as well as the date of this exchange rate.					
	Polish zloty, PLN/USD exchange rate as of Apr. 15 <sup>th</sup> , 2014- 1USD= 3,0325PLN					
2.9.4	Please briefly describe the trend in the prices of tobacco products in the past two years or since submission of your last report in your jurisdiction.					
	Annual increases of the excise duties on tobacco products as well as the structure of excise duty based on the increases of the specific duty, with the ad valorem excise duty left at a fixed level, lead to increases of retail prices in all price segments of tobacco products. The price increases are higher than the scale of inflation.

3.2.1.2	6.2(b)	– prohibiting or restricting, as appropriate, sales to international travellers of tax- and duty-free tobacco products?	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
3.2.1.3		– prohibiting or restricting, as appropriate, imports by international travellers of tax- and duty-free tobacco products?	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
3.2.1.4	<p>Please provide a brief description of the progress made in implementing Article 6 (<i>Price and tax measures to reduce the demand for tobacco</i>) in the past two years or since submission of your last report.</p> <p>The Polish fiscal policy in the field of excise duties on tobacco products takes into account the provisions of Article 6 of the WHO Framework Convention on Tobacco Control and the guidelines of the Act of 9 November 1995 <i>on protection of health against the consequences of use of tobacco and tobacco products</i> (OJ of 2010, No. 81, item 529, consolidated text). The excise duty on tobacco products and its annual increases are essential to reduce the popularity of tobacco use among adults and young people in Poland. The structure of excise duties is also an important factor in terms of limiting and even stopping smoking. Since 2009 in Poland is functioning the specific and ad valorem excise duty system on cigarettes and smoking tobacco. The increases of excise duty on these products are made by increasing the specific excise duty rate and by leaving the ad valorem excise duty rate at a fixed level. This policy is in line with the recommendations of the European Commission and the WHO. The excise duty increases and consequently the retail prices increases on tobacco products - introduced in 2012 and 2013 - are higher than the inflation rate. The increasing retail prices are a major economic barrier for smokers, especially for young people, providing an incentive to reduce or even give up smoking. The consequence of the increases is an annual, ever higher decline in sales (in consumption), which is undoubtedly a positive development for the achievement of health objectives. The new regulation</p>			

	i.e. the excise duty on raw tobacco (tobacco leaves) introduced in 2013 has as a major goal to counter the illegal production and sales of tobacco products.

## 5. PRIORITIES AND COMMENTS

5.1	What are the priorities for implementation of the WHO Framework Convention on Tobacco Control in your jurisdiction?
	Complete ban of smoking in public places and worksites, implementing pictorial health warnings on all tobacco packages, eliminating promotion of tobacco products from points of sale, implementing progressive tax and price policy for tobacco products (excise tobacco tax on average EU level), sufficient funding for tobacco control
5.2	Have you identified any specific gaps between the resources available and the needs assessed for implementing the WHO Framework Convention on Tobacco Control? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
5.3	If you answered “Yes” to question 5.2, please provide details in the space below.
	The Tobacco Control Law calls for 0.5% levy from excise tobacco tax for government tobacco control programs; since many years (approx. 10 years), real expenditures for tobacco control have not exceeded 1-2 million Polish zlotys. It is 80-100 times less than results from the above provision on tobacco tax levy. It is

	approx. 200 times less than donations for tobacco growing
5.4	<p>What, if any, are the constraints or barriers, other than lack of resources, you have encountered in implementing the Convention?</p> <p><i>(Please refer to Article 21.1(b).)</i></p>
	<p>Tobacco industry is lobbying for blocking or delaying comprehensive tobacco control policies, also at EU level during debate on Directive on manufacturing and sale of tobacco products (industry is well represented on meetings of health committees in Polish parliament and some government bodies cooperate with industry within the corporate social responsibility programs), lack of comprehensive monitoring system for tobacco control law compliance, weak sanctions for breaking the provisions of tobacco control law.</p>
5.5	<p>Please provide any other relevant information not covered elsewhere that you consider important.</p>
5.6	<p>Your suggestions for further development and revision of the reporting instrument:</p>
