1) Lifetime smoking rate : Those who have smoked 100 cigarettes in their lifetime

2) Current smokers : Those who have smoked 100 cigarettes in their lifetime and been smoking cigarettes currently

3) Former smokers : Those who have smoked 100 cigarettes in their lifetime and used to smoke cigarettes in the past, but do not smoke cigarettes currently

4) Income level : Monthly income of household/ $\sqrt{\text{the number of household members}}$

5) Age-standardized by estimated population in 2005

* coefficient of variation 25-50%
