B1. TOBACCO CONSUMPTION

| |
|---|
| B1. Prevalence of tobacco use |
| |
| B11. Smoking prevalence in the adult population (all) (Please provide prevalence data for total adult population, and identify the age considered, e.g. 15 years old and over, 18-64 years; see B112) |
| |
| B11A[1_SQ001]. Current smokers [MALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)] |
| 42.3 |
| B11A[1_SQ002]. Current smokers [MALE][Average number of the most-consumed smoking tobacco product used per day] |
| 15.5 |
| B11A[2_SQ001]. Current smokers [FEMALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)] |
| 5.1 |
| B11A[2_SQ002]. Current smokers [FEMALE][Average number of the most-consumed smoking tobacco product used per day] |
| 10.4 |
| B11A[3_SQ001]. Current smokers [TOTAL (males and females)][Prevalence (%) (please include all smoking tobacco products in prevalence data)] |
| 23.3 |
| B11A[3_SQ002]. Current smokers [TOTAL (males and females)][Average number of the most-consumed smoking tobacco product used per day] |
| 14.9 |
| B11B[1_SQ001]. Daily smokers [MALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)] |
| 38.6 |
| B11B[1_SQ002]. Daily smokers [MALE][Average number of the most-consumed smoking tobacco product used per day] |
| |
| B11B[2_SQ001]. Daily smokers [FEMALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)] |
| 4.1 |
| B11B[2_SQ002]. Daily smokers [FEMALE][Average number of the most-consumed smoking tobacco product used per day] |
| |

B11B[3_SQ001]. Daily smokers [TOTAL (males and females)][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

20.9

B11B[3_SQ002]. Daily smokers [TOTAL (males and females)][Average number of the most-consumed smoking tobacco product used per day]

B11C[1_SQ001]. Occasional smokers [MALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

3.7

B11C[2_SQ001]. Occasional smokers [FEMALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

1.0

B11C[3_SQ001]. Occasional smokers [TOTAL (males and females)][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

2.4

B11D[1_SQ001]. Former smokers [MALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

29.6

B11D[2_SQ001]. Former smokers [FEMALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

4.2

B11D[3_SQ001]. Former smokers [TOTAL (males and females)][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

16.6

B11E[1_SQ001]. Never smokers [MALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

28.1

B11E[2_SQ001]. Never smokers [FEMALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

90.6

B11E[3_SQ001]. Never smokers [TOTAL (males and females)][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

60.1

B111. Please indicate the smoking tobacco products included in calculating prevalence for question B11:

Cigarette

B112[1_SQ001]. Please indicate the age range to which the data used to answer question B11 refer: [Age range][From]

19

B112[1_SQ002]. Please indicate the age range to which the data used to answer question B11 refer: [Age range][To]

B113A. Please indicate the year of the data used to answer question B11:

2014

B113B. Please indicate the source of the data used to answer question B11:
Korea National Health & Nutrition Examination Survey 2014 (published by Ministry of Health and Welfare in 2015). Please refer to appendix 1.

B114[SQ001]. Please provide the definitions of "current smoker", "daily smoker", "occasional smoker", "former smoker" and "never smoker" used in this report. [Current smoker]
Those who have smoked more than 100 cigarettes in their lifetime and been smoking currently

B114[SQ002]. Please provide the definitions of "current smoker", "daily smoker", "occasional smoker", "former smoker" and "never smoker" used in this report. [Daily smoker]

B114[SQ003]. Please provide the definitions of "current smoker", "daily smoker", "occasional smoker", "former smoker" and "never smoker" used in this report. [Occasional smoker]

B114[SQ004]. Please provide the definitions of “current smoker”, “daily smoker”, “occasional smoker”, “former smoker” and “never smoker” used in this report. [Former smoker]
Those who have smoked more than 100 cigarettes in their lifetime and used to smoke cigarettes in the past, but do not smoke cigarettes any more

B114[SQ005]. Please provide the definitions of “current smoker”, “daily smoker”, “occasional smoker”, “former smoker” and “never smoker” used in this report. [Never smoker]

B115. Please provide a brief explanation of the trend in smoking prevalence in the adult population in the past two years or since submission of your last report.
Smoking prevalence in adults has decreased from 25.0% in 2012 to 23.3% in 2014. Smoking prevalence among male adults has slightly reduced then stagnated (43.3% in 2012, 41.4% in 2013, 42.3% in 2014). Smoking prevalence among female adults has gradually decreased over the last three years, from 7.4% in 2012 to 5.7% in 2013, then 5.1% in 2014.

B12[B12a_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]
19

B12[B12a_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - end age]
29

B12[B12a_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
35

B12[B12b_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]
30

B12[B12b_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - end age]
39

B12[B12b_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
53

B12[B12c_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]
40

B12[B12c_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - end age]
49

B12[B12c_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
54

B12[B12d_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]
50

B12[B12d_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - end age]

59

B12[B12d_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

39

B12[B12e_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]

60

B12[B12e_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - end age]

69

B12[B12e_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

36

B12[B12ee_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]

70

B12[B12ee_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - end age]

100

B12[B12ee_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

19

B12[B12eee_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]

B12[B12eee_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - end age]

B12[B12eee_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B12[B12eeee_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]

B12[B12eeee_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - end age]

B12[B12eeee_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B12[B12f_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]

19

B12[B12f_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]

29

B12[B12f_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

9

B12[B12g_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]

30

B12[B12g_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]

39

B12[B12g_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

7

B12[B12h_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]

40

B12[B12h_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]

49

B12[B12h_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

5

B12[B12i_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]

50

B12[B12i_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]

59

B12[B12i_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

3

B12[B12j_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]

60

B12[B12j_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]

69

B12[B12j_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

3

B12[B12jj_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]

70

B12[B12jj_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]

100

B12[B12jj_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

4

B12[B12jjj_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]

B12[B12jjj_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]

B12[B12jjj_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B12[B12jjjj_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]

B12[B12jjjj_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]

B12[B12jjjj_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B12[B12k_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - start age]

19

B12[B12k_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - end age]

29

B12[B12k_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

23

B12[B12l_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - start age]

30

B12[B12l_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - end age]

39

B12[B12l_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

30

B12[B12m_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - start age]

40

B12[B12m_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - end age]

49

B12[B12m_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

29

B12[B12n_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - start age]

50

B12[B12n_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - end age]

59

B12[B12n_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

21

B12[B12o_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - start age]

60

B12[B12o_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - end age]

69

B12[B12o_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

18

B12[B12oo_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - start age]

70

B12[B12oo_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - end age]

100

B12[B12oo_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

10

B12[B12ooo_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - start age]

B12[B12ooo_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - end age]

B12[B12ooo_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B12[B12oooo_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - start age]

B12[B12oooo_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - end age]

B12[B12oooo_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B121. Please indicate the smoking tobacco products included in calculating prevalence for question B12:
Cigarette

B122A. Please indicate the year of the data used to answer question B12:
2014

B122B. Please indicate the source of the data used to answer question B12:
Korea National Health & Nutrition Examination Survey 2014 (published by Ministry of Health and Welfare in 2015). Please refer to appendix 1.

B123. Please provide a brief explanation of the trend in current smoking prevalence by age group in the past two years or since submission of your last report, if data are available.

Smoking prevalence among males in their 20s has decreased, whereas smoking rates for males in their 40s and 60s have been slightly increased.

*Ages 19 to 29: 41.5% in 2012, 37.0% in 2013, 34.8% in 2014.

*Ages 40 to 49: 49.5% in 2012, 48.0% in 2013, 54.4% in 2014.

*Ages 60 to 69 : 26.9% in 2012, 32.5% in 2013, 35.8% in 2014.

Smoking rates among female adults have decreased in all age groups except for 60s.

*Ages 60 to 69 : 1.6% in 2012, 4.0% in 2013, 2.5% in 2014.

B13. Prevalence of smokeless tobacco use in the adult population (all) (Please provide prevalence data for total adult population, and identify the age considered in B132, e.g. 15 years old and over, 18–64 years; see B132)

B13A[1_B13x1]. Males [Current users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13A[2_B13x1]. Males [Daily users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13A[3_B13x1]. Males [Occasional users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13A[4_B13x1]. Males [Former users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13A[5_B13x1]. Males [Never users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13B[1_B13x1]. Females [Current users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13B[2_B13x1]. Females [Daily users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13B[3_B13x1]. Females [Occasional users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13B[4_B13x1]. Females [Former users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13B[5_B13x1]. Females [Never users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13C[1_B13x1]. TOTAL (males and females) [Current users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13C[2_B13x1]. TOTAL (males and females) [Daily users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13C[3_B13x1]. TOTAL (males and females) [Occasional users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13C[4_B13x1]. TOTAL (males and females) [Former users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13C[5_B13x1]. TOTAL (males and females) [Never users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B131. Please indicate the smokeless tobacco products included in calculating prevalence for question B13:

B132[1_SQ001]. Please indicate the age range to which the data used to answer question B13 refer: [Age range][From]

B132[1_SQ002]. Please indicate the age range to which the data used to answer question B13 refer: [Age range][To]

B133B. Please indicate the source of the data used to answer question B13:

B134[SQ001]. Please provide the definitions of “current user”, “daily user”, “occasional user”, “former user” and “never user” (of smokeless tobacco products) used in this report in the space below. [Current user]

B134[SQ002]. Please provide the definitions of “current user”, “daily user”, “occasional user”, “former user” and “never user” (of smokeless tobacco products) used in this report in the space below. [Daily user]

B134[SQ003]. Please provide the definitions of “current user”, “daily user”, “occasional user”, “former user” and “never user” (of smokeless tobacco products) used in this report in the space below. [Occasional user]

B134[SQ004]. Please provide the definitions of “current user”, “daily user”, “occasional user”, “former user” and “never user” (of smokeless tobacco products) used in this report in the space below. [Former user]

B134[SQ005]. Please provide the definitions of “current user”, “daily user”, “occasional user”, “former user” and “never user” (of smokeless tobacco products) used in this report in the space below. [Never user]

B135. Please provide a brief explanation of the trend in smokeless tobacco use in the adult population in the past two years or since submission of your last report.
There is no official or available data on prevalence of smokeless tobacco.

B14[B12a_B12x1]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Range - start age]

B14[B12a_B12x3]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Range - end age]

B14[B12a_B12x2]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B14[B12b_B12x1]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Range - start age]

B14[B12b_B12x3]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Range - end age]

B14[B12b_B12x2]. B161. Please indicate the tobacco products included in calculating prevalence for question B16:
Smoking tobacco: cigarette / Other tobacco: e-cigarette
In case of e-cigarette, it includes both electronic nicotine delivery system (ENDS) and electronic non-nicotine delivery system (ENNDS).

B162A. Please indicate the year of the data used to answer question B16:
2015

B162B. Please indicate the source of the data used to answer question B16:
Korea Youth Risk Behavior Web-based Survey 2015 (published by Ministry of Health and Welfare in 2015). Please refer to appendix 2.

B163. Please provide the definition of "current smoking/tobacco use" used to answer question B16 in the space below.
Current users means those who have smoked at least one day (for cigarette) or at least once (for e-cigarette) over the last 30 days.

B164. Please provide a brief explanation of the trend in tobacco use by young persons in the past two years or since submission of your last report.
While cigarette smoking prevalence in adolescents has decreased in all age groups, e-cigarette use has slightly increased in almost age groups.

B165. Please attach the relevant documentation.

B2-B9. HEALTH, SOCIAL AND ECONOMIC INDICATORS

B2. Exposure to tobacco smoke

B21. Do you have any data on exposure to tobacco smoke in your population?

Yes

B22. Please provide details in the space below (e.g. exposure by gender, at home, in the workplace, on public transport).

1. Adults (19 years old and over): Rates of exposure to tobacco smoke among adults are 40.7 % (male 49.9%, female 33.2%) in the workplace, and are 10.3% (male 4.6%, female 13.7%) at home.

*These data show the rates of exposure to tobacco smoke for current non-smokers in the indoor workplace or home.

2. Rates of exposure to tobacco smoke (second-hand smoking) among adolescents are 29.0% (male 28.3%, female 29.7%).

*In accordance with the Korea Youth Risk Behaviour Web-based Survey 2015, rates of second-hand smoking mean adolescents who have been exposed to tobacco smoke from other family members or guests' smoking at home within 7 days.

B23A. Please indicate the year of the data used to answer question B21:

2015

B23B. Please indicate the source of the data used to answer question B21:

*The year of both data used to answer question B21 and B22 are as follows; 1. Adults: Korea National Health & Nutrition Examination Survey 2014 (published by Ministry of Health and Welfare in 2015). Please refer to appendix 1. 2. Adolescents: Youth Risk Behaviour Web-based Survey 2015 (published by Ministry of Health and Welfare in 2015). Please refer to appendix 2.

B24. Please attach the relevant documentation.

B24[filecount]. filecount - Please attach the relevant documentation.

2

B3. Tobacco-related mortality

B31. Do you have information on tobacco-related mortality in your population?

Yes

B32. What is the estimated total number of deaths attributable to tobacco use in your population?

58155.000000000

B33. If available, please provide any additional information on mortality attributable to tobacco use (e.g. lung cancer, cardiovascular diseases) in your jurisdiction.

*B32

- Tobacco related mortality in 2012 was 58,155(male 49,704; female 8,451).

*B33

-Male: 41.1% of all cancer deaths, 73% of lung cancer deaths, 72.5 % of laryngeal cancer deaths were attributed to tobacco use.

-Female: 5.1% of all cancer deaths, 19.8% of lung cancer deaths, 34.2% of laryngeal cancer deaths were attributed to tobacco use.

-If 30-year-old man lives until 90 years old, the life expectancy of Non-smoker is 54.05 years; former smoker is 52.23 years; and current smoker is 47.61 years.

B34A. Please indicate the year of the data used to answer question B32 and 33:

2012

B34B. Please indicate the source of the data used to answer questions B32 and B33:

*B22 -The year of the data used to answer question B32 and 33 are 2012 and 2009, respectively. *The data was based on the following resources. Please refer to appendix 3. 1) Keum Ji Jung et al., "Smoking-Attributable Mortality among Korean Adults, 2012", Journal of The Korea Society of Health Informatics and Statistics, 2013, 38(2), pp.36-48; 2) Young-ho Jeong, Effectiveness of Health Outcome in Health Plan 2020, 2011, The Korea Institute for Health and Social Affairs (KIHASA) and Korea Health Promotion Foundation

B35. Please submit a copy of the study you refer to:

```
[{"title":"Appendix 3","comment":"","size":"82.986","name":"Appendix%203_Studies%20on%20Smoking-Attributable%20Mortality.pdf","filename":"fu_59znzgxj2pxdfp","ext":"pdf"}]
```

1

B4. Tobacco-related costs

B41. Do you have information on the economic burden of tobacco use in your population, e.g. the overall cost of tobacco use imposed on your society?
Yes

B42. Please provide details (e.g. direct (health care-related) and indirect costs and, if possible, the method used to estimate these costs).
-Health insurance expenditure caused by tobacco use was about 2,427 billion KRW (2.01 billion USD) in 2013.
*Health insurance expenditure includes national insurance contribution and patients sharing.
*Health insurance expenditures have increased by 2.7 times compared with 935 billion KRW in 2005.

-Social economic cost caused by smoking was 7,126 billion KRW in 2013.
*Social economic cost has increased by 1.6 times, compared with 409 billion KRW in 2005.
*Social economic cost includes the direct cost (medical expenses) and indirect costs such as income and productivity losses by premature death.

B43A. Please indicate the year of the data used to answer question B42:
2013

B43B. Please indicate the source of the data used to answer question B42:
The data was based on the following resource. Please refer to appendix 4. *Sun Mi Lee et al. Socioeconomic impacts of major health risk factors and evaluation on effects of regulatory policy. 2015. Health Insurance Policy Institute of National Health Insurance Service.

B44. Please submit a copy of the study you refer to:

B84. Please briefly describe the trends in taxation for tobacco products in the past two years or since submission of your last report in your jurisdiction.

*Additional information on the rates of taxation for tobacco products other than reported in B83

-pipe tobacco

- 1) Health Promotion Fund : KRW 1,510(Per 50grams)
- 2) Excise tax : KRW 3,642(Per 50grams)

-cigar

- 1) Health Promotion Fund : KRW 4,290(Per 50grams)
- 2) Excise tax : KRW 10,465(Per 50grams)

-cut tobacco

- 1) Health Promotion Fund : KRW 1,510(Per 50grams)
- 2) Excise tax : KRW 3,642(Per 50grams)

*The National Health Promotion Act amended in July 2014 to impose the Health Promotion Fund on diverse tobacco products including pipe tobacco, cigar, cut tobacco, waterpipe, chew, snuff and snus.

*The proportion of tax on tobacco products has been increased in Jan 2015 in accordance with the amendment of related regulations listed in B87B.

- The proportion of tax of cigarette is 74%, consisting of following elements;

- 1) Health Promotion Fund : KRW 841 (The National Health Promotion Act, Article 23)
 - 2) Excise tax : KRW 1,007 (The Local Tax Act, Article 52)
 - 3) Local education tax : KRW 443 (The Local Tax Act, Article 151)
 - 4) Waste management charge : KRW 24(The Act on the Promotion of Saving Resources and Recycling, Article 11)
 - 5) Individual consumption tax : KRW 594 (Individual Consumption Tax Act, Article 1 (2) 6)
 - 6) Tobacco farming support fund : KRW 5 (Enforcement Regulation of the Tobacco Business Act, Article 17)
 - 7) Value-Added Tax(VAT): KRW 409(The VAT Law, Article 14)
- # Subtotal for taxes: KRW 3,323(74% of the retail price of 20 cigarettes(KRW 4,500))

B85. Do you earmark any percentage of your taxation income for funding any national plan or strategy on tobacco control in your jurisdiction?

Yes

B86. Please provide details in the space below.

KRW 24.5 billion in 2014 and KRW 147.5 billion in 2015 of Health Promotion Fund were used for national tobacco control policy and programs.

B87A. Please indicate the year of the data used to answer questions B81 to B86:

2016

C1. GENERAL OBLIGATIONS

C1. With reference to Article 5

C111. Have you developed and implemented comprehensive multisectoral national tobacco control strategies, plans and programmes in accordance with the Convention?

Yes

C112. Have you partially developed and implemented tobacco control strategies by including tobacco control in national health, public health or health promotion strategies, plans and programmes?

N/A

C113. Is any aspect of tobacco control that is referred to in the Convention included in any national strategy, plan or programme?

N/A

C114[C114a]. Have you established or reinforced and financed: [a focal point for tobacco control?]

Yes

C114[C114b]. Have you established or reinforced and financed: [a tobacco control unit?]

Yes

C114[C114c]. Have you established or reinforced and financed: [a national coordinating mechanism for tobacco control?]

Yes

C115. Please provide details (e.g. the nature of the national coordinating mechanism, the institution to which the focal point for tobacco control or the tobacco control unit belongs).

*Focal points for tobacco control

-Division of Health Promotion of the Bureau of Health Policy at the Ministry of Health and Welfare is responsible for the national tobacco control policies including pictorial warning, smoke free policy, public awareness programs and education, smoking cessation services and youth smoking prevention program in schools, etc.

-Six government officials including two deputy directors and four officers are fully involved in tobacco control policies and programs.

*Tobacco control units

- Division of Health Promotion of the Bureau of Health Policy at the Ministry of Health and Welfare :

- National Tobacco Control Centre: established in Korea Health Promotion Foundation, an affiliated agency of Ministry of Health and Welfare, in March 2015. NTCC is composed of two divisions and four teams. It supports and advocates policy implementation, develops guidelines and programmes, promotes cooperation among various stakeholders in tobacco control, and conducts monitoring and evaluation of the national tobacco control policies.

- Laboratory for Harmful Use of Tobacco: established in Korea Centres for Disease Control and Prevention, an affiliated agency of Ministry of Health and Welfare, in November 2015. It is composed of 11 members in charge of testing and measuring contents and emissions of cigarettes.

*National coordinating mechanism for tobacco control

- National Health Promotion Policy Committee: An inter-ministerial agency to examine and review the health promotion issues such as tobacco control. The chair of the committee is vice-minister of Ministry of Health and Welfare and the committee members consist of fifteen people from eight ministries' bureau directors and non-government sector.

- Tobacco Control Policy Advisory Group: The advisory group, managed by the NTCC, is composed of 7 sub-groups including the topics with respect to regulation, academic parts, education, communication, adolescents, monitoring and service with more than 40 experts in related areas.

C116. Please provide a brief description of the progress made in implementing Article 5.1 and 5.2 (General obligations) in the past two years or since submission of your last report.

*Multi-Ministerial National Tobacco Control Plan was announced in September 11th, 2014. The Plan had been prepared by related ministries including the Ministry of Health and Welfare, Ministry of Strategy and Finance and Ministry of the Interior. Purpose of this plan is to decrease the country's smoking rates among male adults to 29 percent by 2020. (43.1% in Korea National Health & Nutrition Examination Survey 2014) The major measures in the plan are as follows:

- 1) Increasing the share of the taxes in tobacco price from 62% to 73.7%, which led 80% increase in the retail tobacco price. (average price of a pack of cigarettes raised from 2,500 KRW to 4,500 KRW)
- 2) Introduction of pictorial warning on tobacco products. (entry into force on December 23th, 2016)
- 3) Ban on advertising of tobacco at point of sale. (in progress)
- 4) Reinforcing and expanding tobacco cessation programs

-reinforcing smoking cessation clinic service in public health Centres (KRW 12 billion in 2014, KRW 26 billion in 2015 and KRW 33 billion in 2016) and expanding youth smoking prevention program in schools.

-Providing a tobacco cessation services at hospitals and clinics for heavy smokers (Feb 25th, 2015)

- Authorizing 18 local hospitals to be Regional Tobacco Cessation Centre to offer local citizen comprehensive smoking cessation services. (April 29th, 2015)

*Expanding and reinforcing tobacco control units due to increase of tobacco tax.

-Establishing National Tobacco Control Centre and Laboratory for Harmful Use of Tobacco to advocate tobacco control policies. (Respectively in March and November 2015; please refer to the answers of C115.)

C117. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

C12. Protection of public health policies with respect to tobacco control from commercial and other vested interests of the tobacco industry Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C121. protecting public health policies with respect to tobacco control from commercial and other vested interests of the tobacco industry?
Yes

C122. ensuring that the public has access, in accordance with Article 12(c), to a wide range of information on tobacco industry activities relevant to the objectives of the Convention, such as in a public repository?
No

C123. Please provide details in the space below.
In accordance with Code of Conduct for Public Officials (Presidential Decree), it addresses the government officials' conduct in general. It prohibits officer to receive all sorts of treats from any individual or organization that will get advantages or disadvantages as a direct result of decision or implementation of government policies or public projects (defined in Article 2.1(g)) as well as encourages impartially performing their tasks.

C124. Please provide a brief description of the progress made in implementing Article 5.3 in the past two years or since submission of your last report.

C125. Have you utilized the "Guidelines for implementation of Article 5.3 of the WHO FCTC" when developing or implementing policies in this area?
Yes

C126. Please provide details in the space below or refer to section I of the additional questionnaire. Response to this question or to the additional questionnaire is voluntary. <https://extranet.who.int/dataform/655321?token={TOKEN}<=en>
* In accordance with Article 5.3, Korean Government prohibited tobacco industry to participate public hearing on introduction of pictorial health warning in 2014, before amending relevant provisions in National Health Promotion Act.

*The provision has been passed in June 23th 2015, and the lower regulation describing details of provisions is currently reviewed for amendment. Tobacco industry will be restricted in all relevant process of the amendments as well.

C127. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

C128. Please attach the relevant documentation.

C128[filecount]. filecount - Please attach the relevant documentation.

C2. MEASURES RELATING TO THE REDUCTION OF DEMAND FOR TOBACCO

C2. With reference to Articles 6-14

C21. Price and tax measures to reduce the demand for tobacco Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C211. tax policies and, where appropriate, price policies on tobacco products so as to contribute to the health objectives aimed at reducing tobacco consumption?
Yes

C212. prohibiting or restricting, as appropriate, sales to international travellers of tax- and duty-free tobacco products?
Yes

C213. prohibiting or restricting, as appropriate, imports by international travellers of tax- and duty-free tobacco products?
Yes

C214. Please provide a brief description of the progress made in implementing Article 6 (Price and tax measures to reduce the demand for tobacco) in the past two years or since submission of your last report.

*The National Health Promotion Act amended in July 2014 to impose the Health Promotion Fund on diverse tobacco products including pipe tobacco, cigar, cut tobacco, waterpipe, chew, snuff and snus.

*Increasing the share of the taxes in tobacco price from 62% to 73.7%, which led 80% increase in the retail tobacco price. (average price of a pack of cigarettes raised from KRW 2,500 to KRW 4,500, enforced in January 2015)

-The amount of manufactured cigarettes being carried out from the factory has reduced by 29.6% from 4.5 billion packs in 2014 to 3.2 billion packs in 2015. Sales volume of the cigarettes has also decreased by 23.7% from KRW 4.4 billion in 2014 to KRW 3.3 billion in 2015.

*As tobacco products have been excluded from tax-free shops (for international travellers after entering into the country) from January 2016, foreign tourists should pay tax including individual consumption tax and VAT when buying tobacco products.

C215. Have you utilized the "Guidelines for implementation of Article 6 of the WHO FCTC" when developing or implementing policies in this area?

Yes

C216. Please provide details in the space below or refer to section H of the additional questionnaire. Response to this question or to the additional questionnaire is voluntary. https://extranet.who.int/dataform/655321?token={TOKEN}&_en

*When preparing and consulting with relevant ministries and stakeholders regarding measures described in C214 (Imposing the National Health Promotion Fund on tobacco products other than cigarette, raising tobacco tax, restricting sales to international travellers of tax-free tobacco products), the Guideline has been widely used in order to advocate importance of implementing the measures.

C217. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

C218. Please attach the relevant documentation.

C218[filecount]. filecount - Please attach the relevant documentation.

0

C22. Protection from exposure to tobacco smoke Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C221. banning tobacco smoking in indoor workplaces, public transport, indoor public places and, as appropriate, other public places ?

Yes

C222[1]. What is the type/nature of the measure providing for the ban? [national law]

Yes

C222[2]. What is the type/nature of the measure providing for the ban? [subnational law(s)]

Yes

C222[3]. What is the type/nature of the measure providing for the ban? [administrative and executive orders]

Yes

C222[4]. What is the type/nature of the measure providing for the ban? [voluntary agreements]

Yes

C222[5]. What is the type/nature of the measure providing for the ban? [other measures (please specify in C223 below)]

Yes

C223. Please provide a brief explanation of the type/nature and content of the measures providing for the ban.

There are mainly five types of measures banning tobacco smoking in Korea.

- 1) National law: National Health Promotion Act 1995 sets the target facilities for the smoking ban and also imposes fines on offenders up to KRW 100,000 for smoking in non-smoking area.
- 2) Municipal by-laws: any municipalities are able to designate non-smoking areas and impose fines to the offenders through municipal by-laws.
- 3) Administrative order: Enforcement Regulations of National Health Promotion Act specifies the range of penalties to offenders like smoking in smoke-free zone or violation against smoke-free regulations.
- 4) Voluntary agreements: some institutions such as student clubs at universities, company, and apartment dwellers have their own self-regulating rules for banning tobacco smoking based on bottom-up voluntary movements.
- 5) Others: a number of private companies reflect employees' smoking habit in performance assessment as well as entrance examinations; and Ministry of Health and Welfare awards a prize every year, on the World No Tobacco Day, to the best company for its effort for employees' health promotion with smoking cessation programs.

C224. Do any of these measures provide for a mechanism/ infrastructure for enforcement?

Yes

C225. Please provide details of this system.

Amended National Health Promotion Act provides a legal ground. Mayors or governors of local governments are able to appoint officers called a smoking-surveillant for monitoring smoking behaviours in smoke-free areas and its compliance. This was entered into force in July 2014.

| C23. Regulation of the contents of tobacco products Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following: |
| C231. testing and measuring the contents of tobacco products? |
| Yes |
| C232. testing and measuring the emissions of tobacco products? |
| Yes |
| C233. regulating the contents of tobacco products? |
| No |
| C234. regulating the emissions of tobacco products? |
| No |
| C235. Please provide a brief description of the progress made in implementing Article 9 (Regulation of the contents of tobacco products) in the past two years or since submission of your last report. |
| *C231 -Testing constituents and emissions of cigarettes and analyzing its harmful effects by the Laboratory on Harmful Use of Tobacco in Korea Centres for Disease Control and Prevention.(established in November 2015) |
| C236. Have you utilized the "Guidelines for implementation of Articles 9 and 10 of the WHO FCTC" when developing or implementing policies in this area? |
| Yes |

C237. Please provide details in the space below or refer to section C of the additional questionnaire. Response to this question or to the additional questionnaire is voluntary. <https://extranet.who.int/dataform/655321?token={TOKEN}&=en>

Two provisions with respect to reduced ignition propensity (RIP) cigarette were newly established on Article 11 of Tobacco Business Act; manufacture and import of reduced ignition propensity and its performance certification on Article 11-5 and designation of certification authority to fire prevention performance on Article 11-6.(inserted on January 21, 2014, entered into force on July 22, 2015)

C238. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

* Review of Regulation on the Article 12 of Enforcement Decree of the Tobacco Business Act (Presidential Decree) mentions that in every three years the validity of labelling standard of tobacco product's contents should be reviewed pursuant to Article 9(2) and required improvement measures should be made. (inserted on December 30, 2013)

*Indication of tobacco products constituents(Article 25-2 of Tobacco Business Act)

-Article 25-2, indication of tobacco products constituents newly inserted on January 21, 2014. This provision states labelling of the emission contents in one cigarette and testing and measuring its emission is required.

*Research on analyzing constituents and emissions of tobacco products based on global standard is currently being conducted by Ministry of Food and Drug Safety (previous Korea Food and Drug Administration). The budget of KRW 8,100 million will be offered for 6 years until 2018.

C25. Packaging and labelling of tobacco products Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C251. requiring that packaging, individual cigarettes or other tobacco products do not carry advertising or promotion?

No

C252. requiring that packaging and labelling do not promote a product by any means that are false, misleading, deceptive or likely to create an erroneous impression about its characteristics, health effects, hazards or emissions?

Yes

C253. requiring that each unit packet and package of tobacco products and any outside packaging and labelling of such products carry health warnings describing the harmful effects of tobacco use?

Yes

C254. ensuring that the health warnings are approved by the competent national authority?

Yes

C255. ensuring that the health warnings are rotated?

Yes

C256. ensuring that the health warnings are clear, visible and legible?

Yes

C257. Does your law mandate, as a minimum, a style, size and colour of font to render the warning clear, visible and legible?

Yes

C258. ensuring that the health warnings occupy no less than 30% of the principal display areas?

Yes

C259. ensuring that the health warnings occupy 50% or more of the principal display areas?

Yes

C2510. ensuring that health warnings are in the form of, or include, pictures or pictograms?

Yes

C2511. Does the Government own the copyright to these pictures and pictograms?

Yes

C2512. Would you grant a non-exclusive and royalty-free licence for the use of health warnings developed in your jurisdiction with other Parties?

Yes

C2513[1]. requiring that each unit packet and package of tobacco products and any outside packaging and labelling of such products contain information on relevant: [constituents of tobacco products?]

No

C2513[2]. requiring that each unit packet and package of tobacco products and any outside packaging and labelling of such products contain information on relevant: [emissions of tobacco products?]

Yes

C2514. requiring that the warnings and other textual information appear on each unit packet and package and on any outside packaging and labelling in the principal language or languages of the country?

Yes

C2515. Please provide a brief description of the progress made in implementing Article 11 (Packaging and labelling of tobacco products) in the past two years or since submission of your last report.

* As the Health Promotion Act was amended, warning phrases shall be labelled on e-cigarette, smokeless tobacco products including chew and snus and waterpipe. (Article 9-2(3) was newly inserted in the Act in May 2014 then entered into force in November in the same year.)

*Introduction of pictorial health warning on tobacco products has been passed on 23th June 2015, and will enter into force from 23th December, 2016.

- The amended Health Promotion Act mandates all tobacco products to include pictorial image in the health warning. According to the new law, a health warning including text and pictorial image should cover at least 50% of the size of the tobacco package, where the size of pictorial image should be more than 30% of it. Before the amendment, a text-only health warning covering 30% of the package was mandated. Currently, Korean Government is developing pictorial images for the new health warnings. The lower statute describing detail implementation of pictorial warning is under review.

C2516. Have you utilized the "Guidelines for implementation of Article 11 of the WHO FCTC" when developing or implementing policies in this area?

Yes

C2517. Please provide details in the space below or refer to section D of the additional questionnaire. Response to this question or to the additional questionnaire is voluntary. <https://extranet.who.int/dataform/655321?token={TOKEN}&=en>

The Ministry of Health and Welfare has been utilizing the Guidelines for implementation of Article 11 and WHO Pictorial Warning Database in order to advocate the policy and to amend the relevant provisions with sound evidence. These sources of information have been also used when developing pictorial images for new health warnings.

C2518. If you have any other relevant information pertaining to or not covered in this section, please provide details in the space below.

In regard to the answer of C252, Korean government has restricted the labelling which possibly misleads the public from January 21, 2015 pursuant to Article 25-5 of Tobacco Business Act (inserted January 21, 2014). It states that manufacturers and importers should not use a false sense of any term, sentence, brand, shape, or signs on the packaging or advertising.

In regard to the answer of C2513, According to the Article 25-2 of Tobacco Business Act, Indication of Tobacco Ingredients, it stated that the major contents in the smoke of one cigarette are indicated on the wrapping paper of each tobacco pack. The contents in the smoke are not tobacco constituents but its emissions.

C2519. Please attach the relevant documentation.

C2519[filecount]. filecount - Please attach the relevant documentation.

Military men, riot policemen.

C268. Please provide a brief description of the progress made in implementing Article 12 (Education, communication, training and public awareness) in the past two years or since submission of your last report.

< Anti-smoking campaigns in 2014>

- Carrying out public campaign using a fear appeal to emphasize health risk of tobacco products.
- Developing Korean Antismoking Campaign Evaluation index (KACEI) to evaluate the effect of Korean anti-smoking campaigns.

< Anti-smoking campaigns in 2015>

- Implementing public advertisement under the theme "Smoking is a disease, Quitting is the cure" to promulgate tobacco control policy, particularly with respect to reinforcing and expanding of smoking cessation services.
- Producing 'web drama', 'web-toon' and 'viral video' for anti-smoking campaign beyond the traditional media such as TV, radio, print, outdoor.
- 2015 KACEI analysis was conducted a comprehensive impact assessment of public advertisements and campaign for tobacco control policies, and planning next strategies to reflect its implication.

C269. Have you utilized the "Guidelines for implementation of Article 12 of the WHO FCTC" when developing and implementing policies in this area?

No

C2610. Please provide details in the space below or refer to section E of the additional questionnaire. Response to this question or to the additional questionnaire is voluntary. <https://extranet.who.int/dataform/655321?token={TOKEN}<=en>

C2611. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

In 2015, the Korea Tobacco Retailer Association sued the Ministry of Health for defamation arguing that the TV anti-smoking ads are insulting the tobacco retailers, and filed for an injunction banning the ads from being broadcast. But the court dismissed the case and concluded that the anti-smoking ads explain the harmful effects of tobacco which is one of the responsibilities of the Government according to the National Health Promotion Act.

As for the nation-wide anti-smoking ads aired for the last two years, please refer to Appendix 5.

C2717. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

*Regarding restriction on tobacco advertising and promotion on television,

- According to the Article 28(Soundness) of the Broadcasting Review Regulations, broadcasting companies should take prudence when describing or airing contents related to smoking.
- Especially, a scene describing smoking of children or adolescent is banned in under Article 45(Appearance).
- In accordance with the Article 44(Acceptance level) of the Regulation, the Korea Communication Standards Commission warns the broadcasting companies not to air smoking scene during the Juvenile Protection Times(7~9 a.m., 1~10 p.m. in principle; 7 a.m.~10 p.m. on a national holiday or vacation)
- Furthermore, Korean Broadcasting System(KBS), after its announcement that drama scenes containing tobacco consumption leads to the enticement of smoking among viewers, declared December 1st, 2002 as "KBS Drama No Smoking Day" and eliminated all scenes containing tobacco in dramas. SBS (Seoul Broadcasting System) participated on the same month, and MBC (Munhwa Broadcasting Corporation) joined on 2004, and these three major public networks have essentially eliminated smoking scene in TV drama since then.
- Nowadays, all forms of tobacco scenes have disappeared in TV, unless unavoidable, as the viewers criticize the companies when showing smoking scenes.

No

C2812[other]. Which pharmaceutical products are legally available for the treatment of tobacco dependence in your jurisdiction? [Other]

C2813[1]. Are the costs of these products covered by public funding or reimbursement? [nicotine replacement therapy]
Partially

C2813[2]. Are the costs of these products covered by public funding or reimbursement? [bupropion]
Partially

C2813[3]. Are the costs of these products covered by public funding or reimbursement? [varenicline]
Partially

C2813[4]. Are the costs of these products covered by public funding or reimbursement? [other (please specify below)]
None

C2813b. Please provide other details in the space below.

C2814. Please provide a brief description of the progress made in implementing Article 14 (Demand reduction measures concerning tobacco dependence and cessation) in the past two years or since submission of your last report.
*Reinforcing and expanding national smoking cessation support services.

- Reinforcing and expanding of National Smoking Cessation Clinic (Budget: 2014 KRW 12 billion, 2015 KRW 26.2 billion, 2016 KRW 33 billion)
- Implementation of smoking cessation services at the hospitals/clinics (approx. 130 places) registered for smoking cessation service
- Designation of specialized smoking cessation centres (18 centres in total) at local level
- Expanding the smoking cessation program for military men and riot policemen (Limited access until 2014; since 2015, all military and riot policemen benefit the program.)
Please refer to section C2811 for details.

C2815. Have you utilized the "Guidelines for implementation of Article 14 of the WHO FCTC" when developing and implementing policies in this area?
No

C2816. Please provide details in the space below or refer to section G of the additional questionnaire. Response to this question or to the additional questionnaire is voluntary. https://extranet.who.int/dataform/655321?token={TOKEN}&_en

C2817. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

*C282

-In addition to the National Smoking Cessation Clinic which can be utilized in-person (refer to section C2811), to support smokers, and under the auspice of the Ministry of Health and Welfare, the quit-line under the National Cancer Centre has been implemented since 2006.

-The Internet is already being utilized to disseminate information on smoking cessation since 2002 in the form of a guide (<http://nosmokeguide.or.kr/>).

*C288

-In regards to C288, there is no separate restriction for smoking cessation counselling, so general medical practitioners including practitioners who complete public health are also able to provide counselling.

-In addition, only those in possession of a nursing license are able to conduct the services of a midwife in Korea, thus it'd be ambiguous and inefficient to distinguish the two in terms of licensing.

*C289

-(Medicine, Pharmacology) To include curriculum on the diagnosis of smokers, circumstances and ingredients of medication

-(Dentistry) To include curriculum on the relationship between smoking and plaque, cavity and carcinoma of the oral cavity

-(Nursing) To include curriculum on community-based nursing interventions for the treatment of smoking

-(Health Sciences) To include content on smoking-related diagnosis and examination on medical records

C2818. Please attach the relevant documentation.

C2818[filecount]. filecount - Please attach the relevant documentation.

C3. MEASURES RELATING TO THE REDUCTION OF THE SUPPLY OF TOBACCO

C3. With reference to Articles 15-17

C31. Illicit trade in tobacco products Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C311. requiring marking of all unit packets and packages of tobacco products and any outside packaging of such products to assist in determining the origin of the product?

No

C312. requiring marking of all unit packets and packages of tobacco products and any outside packaging of such products to assist in determining whether the product is legally sold on the domestic market?

No

C313. requiring that unit packets and packages of tobacco products for retail and wholesale use that are sold on the domestic market carry the statement: "Sales only allowed in ..." or carry any other effective marking indicating the final destination of the product?

No

C314. developing a practical tracking and tracing regime that would further secure the distribution system and assist in the investigation of illicit trade?

No

C315. requiring that marking is presented in legible form and/or appears in the principal language or languages of the country?

No

C316. requiring the monitoring and collection of data on cross-border trade in tobacco products, including illicit trade?

No

C317. facilitating the exchange of this information among customs, tax and other authorities, as appropriate, and in accordance with national law and applicable bilateral and multilateral agreements?

No

C318. enacting or strengthening legislation, with appropriate penalties and remedies, against illicit trade in tobacco products, including counterfeit and contraband cigarettes?
Yes

C319. requiring that confiscated manufacturing equipment, counterfeit and contraband cigarettes and other tobacco products derived from illicit trade are destroyed, using environment-friendly methods where possible, or disposed of in accordance with national law?
Yes

C3110. adopting and implementing measures to monitor, document and control the storage and distribution of tobacco products held or moving under suspension of taxes or duties?
No

C3111. enabling the confiscation of proceeds derived from illicit trade in tobacco products?
Yes

C3112. promoting cooperation between national agencies and relevant regional and international intergovernmental organizations in investigations, prosecutions and proceedings, with a view to eliminating illicit trade in tobacco products, with special emphasis on cooperation at regional and subregional levels?
No

C3113. licensing or other actions to control or regulate production and distribution in order to prevent illicit trade?
Yes

C3114. Please provide a brief description of the progress made in implementing Article 15 (Illicit trade in tobacco products) in the past two years or since submission of your last report.
*The Korean government signed the Protocol to Eliminate Illicit Trade in Tobacco Products on January 1st, 2013 and has prepared for its ratification.

* C314
-To prevent any possible smuggling or bootlegging of duty-free cigarettes due to the price hike in January 2015, a monitoring mechanism to surveil entire processes including, but not limited to, manufacturing, logistics and distribution of tobacco is under development by the Korea Customs Service and Ministry of Interior. The idea is to liaise the "Import and Export System" and "Local Taxes Management System" of the Korean Customs Service and the Ministry of Interior respectively to create the "Integrated Tobacco Management System"

*C319
-Confiscated goods have been disposed of in accordance with the Anweisung of Korea Customs Service.

*C3111
-In accordance with Article 30 of the Tobacco Business Act, tobacco leaf and related products that are related to crime should be confiscated, and when confiscation is not possible, an estimated price of the products should be paid.

C3115. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

C3116. Please attach the relevant documentation.

C3116[filecount]. filecount - Please attach the relevant documentation.

C32. Sales to and by minors Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C321. prohibiting the sales of tobacco products to minors?
Yes

C321a. Please specify the legal age:
19

C322. requiring that all sellers of tobacco products place a clear and prominent indicator inside their point of sale about the prohibition of tobacco sales to minors?
Yes

C323. requiring that, in case of doubt, each seller of tobacco products requests that the purchaser provides appropriate evidence of having reached full legal age?

Yes

C324. banning the sale of tobacco products in any manner by which they are directly accessible, such as open store shelves?

No

C325. prohibiting the manufacture and sale of sweets, snacks, toys or any other objects in the form of tobacco products which appeal to minors?

Yes

C326. prohibiting the sale of tobacco products from vending machines?

No

C327. Do you ensure that tobacco vending machines are not accessible to minors and/or do not promote the sale of tobacco products to minors?

Yes

C328[1]. prohibiting and/or promoting the prohibition of the distribution of free tobacco products: [to the public?]

Yes

C328[2]. prohibiting and/or promoting the prohibition of the distribution of free tobacco products: [to minors?]

Yes

C329. prohibiting the sale of cigarettes individually or in small packets?

Yes

C3210. providing for penalties against sellers and distributors in order to ensure compliance?

Yes

C3211. prohibiting the sales of tobacco products by minors?

Yes

C3212. Please provide a brief description of the progress made in implementing Article 16 (Sales to and by minors) in the past two years or since submission of your last report.

C3213. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

*C321

- In accordance with Article 17(Cancellation, etc. of Designation as Retailer) of the Tobacco Business Act, when a retailer has sold tobacco to adolescents(minors), the city mayor, governor or head of Gu can order business suspension for up to a maximum of 1 year.

- Tobacco retailer or tobacco seller through vending machine shall indicate the phrase 'Ban on selling tobacco to minors' in retail store or front of the machine under Paragraph 1 of Article 25(Indication of harmfulness to juveniles, etc.) of Enforcement Decree of the Juvenile Protection Act. According to Paragraph 2 of the same Article, it is stipulated that the warning phrase of 'It is prohibited to sell cigarettes to minors under the age of 19' should be posted on the back of the cigarette pack.

*C3211

- Minors shall be prohibited from registering the business of importing and selling tobacco or the business of wholesaling tobacco under Article 14(Disqualification of the Registration of Tobacco Sales Business) of the Tobacco Business Act.

- In accordance with Article 16(Designation of the Retailers) of the Tobacco Business Act, the person wishing to conduct tobacco retail sales business (refers to the business of selling directly to consumers) shall be designated as the retailer by the mayor or governor. However, minors do not apply.

C3214. Please attach the relevant documentation.

C3214[filecount]. filecount - Please attach the relevant documentation.

C33. Provision of support for economically viable alternative activities Have you adopted and implemented, where appropriate, measures or programmes on any of the following:

| |
|---|
| C331[1]. promoting economically viable and sustainable alternatives for: [tobacco growers?] |
| No |
| C331[2]. promoting economically viable and sustainable alternatives for: [tobacco workers?] |
| No |
| C331[3]. promoting economically viable and sustainable alternatives for: [tobacco individual sellers?] |
| No |
| C332. Please provide a brief description of the progress made in implementing Article 17 (Provision of support for economically viable alternative activities) in the past two years or since submission of your last report. |
| |
| C333. Have you utilized the "Policy options and recommendations on economically sustainable alternatives to tobacco growing (in relation to Articles 17 and 18 of the WHO FCTC)" when developing and implementing policies in this area? |
| No |
| C334. Please provide details in the space below or refer to section I of the additional questionnaire. Response to this question or to the additional questionnaire is voluntary. https://extranet.who.int/dataform/655321?token={TOKEN}&=en |
| |
| C335. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below. |
| |
| C336. Please attach the relevant documentation. |
| |
| C336[filecount]. filecount - Please attach the relevant documentation. |
| 0 |

C4. OTHER MEASURES AND POLICIES

| |
|--|
| C4. With reference to Articles 18–21 |
| |
| C41. Protection of the environment and the health of persons Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following: |
| |
| C411[1]. implementing measures in respect of tobacco cultivation within your territory, which take into consideration: [the protection of the environment?] |
| No |
| C411[2]. implementing measures in respect of tobacco cultivation within your territory, which take into consideration: [the health of persons in relation to the environment?] |
| No |
| C412[1]. implementing measures in respect of tobacco manufacturing within your territory, which take into consideration: [the protection of the environment?] |
| Yes |
| C412[2]. implementing measures in respect of tobacco manufacturing within your territory, which take into consideration: [the health of persons in relation to the environment?] |
| No |
| C413. Please provide a brief description of the progress made in implementing Article 18 (Protection of the environment and the health of persons) in the past two years or since submission of your last report. |
| |
| C414. Have you utilized the "Policy options and recommendations on economically sustainable alternatives to tobacco growing (in relation to Articles 17 and 18 of the WHO FCTC)" when developing and implementing policies in this area? |
| No |

C415. Please provide details in the space below or refer to section I of the additional questionnaire. Response to this question or to the additional questionnaire is voluntary. <https://extranet.who.int/dataform/655321?token={TOKEN}&=en>

C416. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

*C412

-In accordance with Article 12 (1) of the Act on the Promotion of Saving and Recycling of Resources (waste management charge), the costs of disposal and its collection and processing of tobacco products will be imposed and collected annually.
- Manufacture and import of reduced ignition propensity and its performance certification on Article 11(5) and designation of certification authority to fire prevention performance on 11(6) of Tobacco Business Act were included on January 21, 2014. In accordance with these provisions, fire protection performance by presidential decree should be equipped in all domestic manufactured or imported cigarettes from July 21, 2015.

C417. Please attach the relevant documentation.

C417[filecount]. filecount - Please attach the relevant documentation.

0

C42. Liability Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C421[SQ001]. Does your tobacco control legislation contain measures regarding criminal liability for any violations of that tobacco control legislation?

Yes

C422[SQ001]. Do you have separate criminal liability provisions in relation to tobacco control (outside of the tobacco control legislation)?

No

C423[SQ001]. Do you have any civil liability measures that are specific to tobacco control?

No

C424[SQ001]. Do you have any general civil liability provisions that could apply to tobacco control?

Yes

C425[SQ001]. Do you have civil or criminal liability provisions that provide for compensation for adverse health effects and/or for reimbursement of medical, social or other relevant costs?

No

C426[SQ001]. Has any person in your jurisdiction launched any criminal and/or civil liability action, including compensation where appropriate, against any tobacco company in relation to any adverse health effect caused by tobacco use?

Yes

C427[SQ001]. Have you taken, as appropriate, any legislative, executive, administrative and/or other action against the tobacco industry for full or partial reimbursement of medical, social and other relevant costs related to tobacco use in your jurisdiction?

Yes

C428. Please provide a brief description of any progress made, as appropriate, in implementing Article 19 (Liability) in the past two years or since submission of your last report.

The National Health Insurance Service filed a lawsuit against three domestic and foreign tobacco manufacturing companies — KT&G, British American Tobacco and Philip Morris — in April of 2014, emphasizing the importance of Article 19(Liability) and seeking damages of 53.7 billion KRW for compensation over tobacco-related diseases including lung cancer. Currently (as of April 2016), the trial is in its 8th defence proceedings.

C429. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

*In regard to C421 answer, it is addressed in Penal Provisions, Chapter 5, Tobacco Business Act.

*In regard to C424 answer, it is addressed generally in Product Liability Act and Torts in Article 750 of Civil Act.

*In regard to C425 answers, it is addressed in Right of Indemnity, Article 58 of National Health Insurance Act. It stated that Article 58(1), When the Corporation (it means National Health Insurance Service) has provided an insurance benefit to a policyholder or dependent because the grounds for the insurance benefit have arisen due to the act of a third party, the Corporation shall have the right to claim compensation from the third party up to the amount of the expenses incurred for the benefit concerned.

C4210. Please attach the relevant documentation.

C4210[filecount]. filecount - Please attach the relevant documentation.
0

C43. Research, surveillance and exchange of information Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C431[1]. developing and/or promoting research that addresses: [determinants of tobacco consumption?]
Yes

C431[2]. developing and/or promoting research that addresses: [consequences of tobacco consumption?]
Yes

C431[3]. developing and/or promoting research that addresses: [social and economic indicators related to tobacco consumption?]
Yes

C431[4]. developing and/or promoting research that addresses: [tobacco use among women, with special regard to pregnant women?]
No

C431[5]. developing and/or promoting research that addresses: [the determinants and consequences of exposure to tobacco smoke?]
Yes

C431[6]. developing and/or promoting research that addresses: [identification of effective programmes for the treatment of tobacco dependence?]
Yes

C431[7]. developing and/or promoting research that addresses: [identification of alternative livelihoods?]
No

C431[other]. developing and/or promoting research that addresses: [Other]
Policy evaluation and effect analysis, Analysis on harm substance of e-cigarette, Development of policies and programs related to tobacco control, etc.

C432. training and support for all persons engaged in tobacco control activities, including research, implementation and evaluation?
Yes

C433[1]. a national system for epidemiological surveillance of: [patterns of tobacco consumption?]
Yes

C433[2]. a national system for epidemiological surveillance of: [determinants of tobacco consumption?]
Yes

C433[3]. a national system for epidemiological surveillance of: [consequences of tobacco consumption?]
Yes

C433[4]. a national system for epidemiological surveillance of: [social, economic and health indicators related to tobacco consumption?]
Yes

C433[5]. a national system for epidemiological surveillance of: [exposure to tobacco smoke?]
Yes

C433[other]. a national system for epidemiological surveillance of: [Other]
Recognition rates on Anti-smoking campaign; e-cigarette experience rates

C434. Please list all surveys, including the year of the survey, that you have undertaken in the past.

Appendix 1. Korea National Health & Nutrition Examination Survey 2014 (published by Ministry of Health and Welfare in 2015)
Appendix 2. Korea Youth Risk Behavior Web-based Survey 2015 (published by Ministry of Health and Welfare in 2015)

C435. Does your country have any plans to repeat any of the above or to undertake a new tobacco survey within three to five years of your last survey? Please provide details in the space below.

Under Article 16 of National Health Promotion Act, Korea National Health & Nutrition Examination Survey has been carried out annually for adults. It includes current smoking rates and second-hand smoking exposure rates. From 2014, urine cotinine test has been also added.

In addition, Korea Youth Risk Behavior Web-based Survey is conducted every year to determine adolescents' health risks including current smoking rates and age of first smoking.

C436[1]. regional and global exchange of publicly available national: [scientific, technical, socioeconomic, commercial and legal information?]

No

C436[2]. regional and global exchange of publicly available national: [information on the practices of the tobacco industry?]

No

C436[3]. regional and global exchange of publicly available national: [information on the cultivation of tobacco?]

No

C437[1]. an updated database of: [laws and regulations on tobacco control?]

Yes

C437[2]. an updated database of: [information about the enforcement of laws on tobacco control?]

Yes

C437[3]. an updated database of: [pertinent jurisprudence?]

Yes

C438. Please provide a brief description of the progress made in implementing Article 20 (Research, surveillance and exchange of information) in the past two years or since submission of your last report.

* Research projects funded by the National Health Promotion Fund from 2014 to 2015

- A Research on the Development of Pictorial Warnings for Korean Cigarette Packs (Sogang University, Hyunjae Yoo, 2014)
- A Panel Study on the Time-series Comparison of Effective International Tobacco Control Policies (National Cancer Centre, Honggwan Seo, 2015)
- A development and survey of analytical method for hazard substances in liquid phase of new type electronic cigarettes. (Gongju university, Hosang Shin, 2015)
- A Study on the Enforcement of Tobacco Control Policies and its Corresponding Changes on the Usage of Tobacco and its Regulation (National Evidence-based Healthcare Collaborating Agency, Sunggyu Lee, 2015)
- A Study on the Direction, Implementation and Capacity-building of Tobacco Control Policies in Regional Centres (National Tobacco Control Centre, Moonsung Ahn, 2015)
- A Study on the Production of Pictorial Warnings and Warning Phrases on Cigarette Packs (Phase 1) (National Tobacco Control Centre, Yoomi Oh, 2015)
- A Development of a Protocol Model on the Utilization of Traditional Oriental Medicine on the Treatment of Tobacco Dependence (Daejeon University, Sunjoo Park, 2015)
- A Study on the CSR (Corporate Social Responsibility) and the Effectiveness of Tobacco Advertising and Marketing (Seogang University, Hyunjae Yoo 2015)
- A Study on the Production of the Promotional Video on the Tobacco Industry (Korea Association on Smoking or Health, Honggwan Seo, 2015)
- A Study on the Effectiveness of Physical Activity Program in Association with Smoking Cessation Clinic (Myungji University, Janggeum Park, 2015)

D. INTERNATIONAL COOPERATION AND ASSISTANCE

D0. Pursuant to Article 21.1(c) and in accordance with Article 26, have you either provided or received financial or technical assistance (be it through unilateral, bilateral, regional, subregional or other multilateral channels, including relevant regional and international intergovernmental or nongovernmental organizations and financial and development institutions) for the development and strengthening of multisectoral, comprehensive tobacco control programmes of developing country Parties and Parties with economies in transition in any of the following areas:

| |
|---|
| D1[1]. development, transfer and acquisition of technology, knowledge, skills, capacity and expertise related to tobacco control? [Assistance provided] |
| Yes |
| D1[2]. development, transfer and acquisition of technology, knowledge, skills, capacity and expertise related to tobacco control? [Assistance received] |
| Yes |
| D2[1]. provision of technical, scientific, legal and other expertise to establish and strengthen national tobacco control strategies, plans and programmes? [Assistance provided] |
| Yes |
| D2[2]. provision of technical, scientific, legal and other expertise to establish and strengthen national tobacco control strategies, plans and programmes? [Assistance received] |
| Yes |
| D3[1]. appropriate training or sensitization programmes for appropriate personnel in accordance with Article 12? [Assistance provided] |
| Yes |
| D3[2]. appropriate training or sensitization programmes for appropriate personnel in accordance with Article 12? [Assistance received] |
| Yes |
| D4[1]. provision of the necessary material, equipment and supplies, as well as logistic support, for tobacco control strategies, plans and programmes? [Assistance provided] |
| Yes |
| D4[2]. provision of the necessary material, equipment and supplies, as well as logistic support, for tobacco control strategies, plans and programmes? [Assistance received] |
| Yes |
| D5[1]. identification of methods for tobacco control, including comprehensive treatment of nicotine addiction? [Assistance provided] |
| Yes |
| D5[2]. identification of methods for tobacco control, including comprehensive treatment of nicotine addiction? [Assistance received] |
| Yes |
| D6[1]. promotion of research to increase the affordability of comprehensive treatment of nicotine addiction? [Assistance provided] |
| Yes |
| D6[2]. promotion of research to increase the affordability of comprehensive treatment of nicotine addiction? [Assistance received] |
| Yes |
| D7. Please identify the Party or Parties from which assistance was received or to which assistance was provided. |
| |

D8. Please provide information about any assistance provided or received in the space below.

- Supporting the President of the 6th session of the Conference of the Parties to the WHO FCTC, Professor Changjin Moon, the Korean government assisted the President to perform his role during his presidency(November 2012 – November 2014), which resulted to an effective and one of the most successful Conference of the Parties with number of significant outcomes.
- Co-hosting a COP6 lunchtime seminar with the WPRO TFI on the Art. 19 implementation. This seminar emphasized the importance of Article 19 and tobacco litigation as a strategic tool for tobacco control and the need for stronger regional and global cooperation.
- Visits to the ASH(Action on Smoking and Health) in Thailand, McCabe Centre for Law and Cancer, and Department of Health of the Australian Government in March 2015. The visits aimed to learn from other Parties with successful implementation of the pictorial health warnings as well as to expand the collaborative networks.
- Participating the 16th World Conference on Tobacco or Health to share research outcomes in Korea and to explore key issues in tobacco control in March 2015.
- Participating the “FCTC South-South and Triangular Cooperation Meeting (September in 2015)” to share some best practices of Korea’s tobacco control policy and to enlarge international cooperation among various Parties and organizations in order to prepare for the establishment of the FCTC Knowledge Hub.
- Organizing the “Global Forum on Tobacco Control: 10th Anniversary of the WHO FCTC” in November 2015 to celebrate 10th anniversary of entry into force of the WHO FCTC and to review historical moments of the FCTC development, exploring an evolving trend of national tobacco control policies around the world.
- Participating the Fellowship program of the WHO Collaborating Centre in Hong Kong and completed 5-day curricula in November 2014 and November 2015.

D9. If you have not received or provided assistance in any of the aforementioned areas, please identify any financial or technical assistance that may be under consideration, if appropriate.

D10. Have you encouraged relevant regional and international intergovernmental organizations and financial and development institutions in which you are represented to provide financial assistance for developing country Parties and for Parties with economies in transition to assist them in meeting their obligations under the Convention?

Yes

D11. Please provide details in the space below.

- * Co-hosting a COP6 lunchtime seminar with the WPRO TFI on the Article 19 implementation in November 2014.
- Financial contribution for the organization of the seminar (approx. USD 4,000)
- Emphasized the importance of technical and financial support for developing countries and for the Parties with economies in transition to initiate and proceed with tobacco-related litigation.

E. PRIORITIES AND COMMENTS

E1. What are the priorities for implementation of the WHO Framework Convention on Tobacco Control in your jurisdiction?

Effective enforcement of pictorial health warnings, Ban on display of tobacco products at retail stores. Regulation on flavours in cigarettes, e-cigarettes and other emerging tobacco products.

E2. Have you identified any specific gaps between the resources available and the needs assessed for implementing the WHO Framework Convention on Tobacco Control?

No

E3. Please provide details in the space below.

E4. What, if any, are the constraints or barriers, other than lack of resources, you have encountered in implementing the Convention?

-The National Assembly passed a bill that mandates the tobacco manufacturer to include graphic health warnings on cigarette packs in May 2015. However, the bill includes a provision stipulating that the images on cigarette packs must not be “excessively” repulsive, which likely to leaves room for argument between the responsible authorities and tobacco industries. Ministry of Health and Welfare has been conducting a research on effectiveness of the measure based on the evidence from other Parties, and best practices of other Parties in order to respond to any possible situation.

- In relation to banning tobacco advertisement and promotion, the Ministry of Health and Welfare conducts monitoring on tobacco industry’s marketing activities and raise public awareness on the status of tobacco promotion in retail stores in order to create public supports on this issue.

E5[1]. Do you have any of the following products available on your national tobacco market? [smokeless tobacco products]

Yes

E5[2]. Do you have any of the following products available on your national tobacco market? [water pipe tobacco]
Yes

E5[3]. Do you have any of the following products available on your national tobacco market? [ENDS/ENNDS]
Yes

E5[other]. Do you have any of the following products available on your national tobacco market? [Other]

E6[1]. Have you adopted and implemented any policy or regulation that is specific to the following tobacco products? [smokeless tobacco products]
Yes

E6[2]. Have you adopted and implemented any policy or regulation that is specific to the following tobacco products? [water pipe tobacco]
Yes

E6[3]. Have you adopted and implemented any policy or regulation that is specific to the following tobacco products? [ENDS/ENNDS]
Yes

E6[other]. Have you adopted and implemented any policy or regulation that is specific to the following tobacco products? [Other]

E7. If you have any relevant information related to questions E5 and E6, please provide details in the space below.
*E5 and E6

- Warning texts shall be labelled on ENDS and smokeless tobacco products including chewing tobacco, snus, and waterpipe tobacco. (Please refer to the answer of C2515)
- Health Promotion Fund has been imposed on tobacco products other than cigarette including ENDS, smokeless tobacco products and waterpipe tobacco. (Please refer to the answer of B83 and B84)
- In case of ENNDS, if the product is approved by the Ministry of Food and Drug Safety (previously Korea Food and Drug Administration) as Quasi-Drug product, it can be advertised and sold in domestic market as a smoking cessation device.

E8. Please provide any other relevant information not covered elsewhere that you consider important.

E9. Your suggestions for further development and revision of the reporting instrument:
