B1. TOBACCO CONSUMPTION

B1. Prevalence of tobacco use
B11. Smoking prevalence in the adult population (all) (Please provide prevalence data for total adult population, and identify the age considered, e.g. 15 years old and over, 18-64 years; see B112)
B11A[1_SQ001]. Current smokers [MALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
37.9
B11A[1_SQ002]. Current smokers [MALE][Average number of the most-consumed smoking tobacco product used per day]
20.5
B11A[2_SQ001]. Current smokers [FEMALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
31.6
B11A[2_SQ002]. Current smokers [FEMALE][Average number of the most-consumed smoking tobacco product used per day]
15.7
B11A[3_SQ001]. Current smokers [TOTAL (males and females)][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
34.7
B11A[3_SQ002]. Current smokers [TOTAL (males and females)][Average number of the most-consumed smoking tobacco product used per day]
18.3
B11B[1_SQ001]. Daily smokers [MALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
32.7
B11B[1_SQ002]. Daily smokers [MALE][Average number of the most-consumed smoking tobacco product used per day]
21.4
B11B[2_SQ001]. Daily smokers [FEMALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
26.0
B11B[2_SQ002]. Daily smokers [FEMALE][Average number of the most-consumed smoking tobacco product used per day]
16.6
B11B[3_SQ001]. Daily smokers [TOTAL (males and females)][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
29.2
B11B[3_SQ002]. Daily smokers [TOTAL (males and females)][Average number of the most-consumed smoking tobacco product used per day]
19.2

B11C[1_SQ001]. Occasional smokers [MALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
5.2

B11C[2_SQ001]. Occasional smokers [FEMALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
2.6

B11C[3_SQ001]. Occasional smokers [TOTAL (males and females)][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
5.4

B11D[1_SQ001]. Former smokers [MALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
37.0

B11D[2_SQ001]. Former smokers [FEMALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
30.2

B11D[3_SQ001]. Former smokers [TOTAL (males and females)][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
34.0

B11E[1_SQ001]. Never smokers [MALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
39.0

B11E[2_SQ001]. Never smokers [FEMALE][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
53.3

B11E[3_SQ001]. Never smokers [TOTAL (males and females)][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
46.4

B111. Please indicate the smoking tobacco products included in calculating prevalence for question B11:
Tobacco products included were cigarettes.

B112[1_SQ001]. Please indicate the age range to which the data used to answer question B11 refer: [Age range][From]
15

B112[1_SQ002]. Please indicate the age range to which the data used to answer question B11 refer: [Age range][To]
100

B113A. Please indicate the year of the data used to answer question B11:
2013

B113B. Please indicate the source of the data used to answer question B11:
National Health Survey of the Republic of Serbia 2013. The survey was performed in 2013, but the data were released in 2014.

B114[SQ001]. Please provide the definitions of “current smoker”, “daily smoker”, “occasional smoker”, “former smoker” and “never smoker” used in this report. [Current smoker]
currently smoke daily or occasionally

B114[SQ002]. Please provide the definitions of “current smoker”, “daily smoker”, “occasional smoker”, “former smoker” and “never smoker” used in this report. [Daily smoker]
currently smoke daily

B114[SQ003]. Please provide the definitions of “current smoker”, “daily smoker”, “occasional smoker”, “former smoker” and “never smoker” used in this report. [Occasional smoker]
currently smoke occasionally

B114[SQ004]. Please provide the definitions of “current smoker”, “daily smoker”, “occasional smoker”, “former smoker” and “never smoker” used in this report. [Former smoker]
indirect measure, calculated when the number of those who ever smoked during lifetime stated that they do not smoke now

B114[SQ005]. Please provide the definitions of “current smoker”, “daily smoker”, “occasional smoker”, “former smoker” and “never smoker” used in this report. [Never smoker]
never smoked during lifetime

B115. Please provide a brief explanation of the trend in smoking prevalence in the adult population in the past two years or since submission of your last report.
No new data were presented in the previous report, as the last National Health Survey in Serbia was performed in 2006. Comparing smoking prevalence (daily and occasional) in 2013 vs. 2006 among adult population 20 and more years of age, we can see a slightly increasing trend. In 2013 total smoking prevalence was 35.8%, among men 39.4% and women 32.4%. In the same age group total smoking prevalence in 2006 was 33.6%, among men 38.1% and among women 29.9%. If we consider only daily consumption among adult population 15 and more years of age then we can notice the similar trend: in 2013 daily smoking prevalence was 29.2%, among men 32.6% and among women 26.0%, while in 2006 daily smoking prevalence was 26.2%, 30.7% and 22.6%, respectively.
B12[B12a_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]
15
B12[B12a_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - end age]
24
B12[B12a_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
27
B12[B12b_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]
25
B12[B12b_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - end age]
34
B12[B12b_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
48
B12[B12c_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]
35
B12[B12c_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - end age]
44
B12[B12c_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
50
B12[B12d_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]
45
B12[B12d_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - end age]
54

B12[B12d_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
46
B12[B12e_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]
55
B12[B12e_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - end age]
64
B12[B12e_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
38
B12[B12ee_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]
65
B12[B12ee_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - end age]
74
B12[B12ee_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
24
B12[B12eee_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]
75
B12[B12eee_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - end age]
84
B12[B12eee_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
13
B12[B12eeee_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - start age]
85
B12[B12eeee_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Range - end age]
100
B12[B12eeee_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]
5

B12[B12f_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]

15

B12[B12f_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]

24

B12[B12f_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

25

B12[B12g_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]

25

B12[B12g_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]

34

B12[B12g_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

41

B12[B12h_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]

35

B12[B12h_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]

44

B12[B12h_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

44

B12[B12i_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]

45

B12[B12i_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]

54

B12[B12i_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

45

B12[B12j_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]

55

B12[B12j_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]

64

B12[B12j_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

32

B12[B12jj_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]

65

B12[B12jj_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]

74

B12[B12jj_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

17

B12[B12jjj_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]

75

B12[B12jjj_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]

84

B12[B12jjj_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

6

B12[B12jjjj_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - start age]

85

B12[B12jjjj_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Range - end age]

100

B12[B12jjjj_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [FEMALES - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

3

B12[B12k_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - start age]

15

B12[B12k_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - end age]

24

B12[B12oo_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - start age]

65

B12[B12oo_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - end age]

74

B12[B12oo_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

20

B12[B12ooo_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - start age]

75

B12[B12ooo_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - end age]

84

B12[B12ooo_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

9

B12[B12oooo_B12x1]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - start age]

85

B12[B12oooo_B12x3]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Range - end age]

100

B12[B12oooo_B12x2]. Smoking prevalence in the adult population (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers1][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

4

B121. Please indicate the smoking tobacco products included in calculating prevalence for question B12:

Smoking tobacco products included are cigarettes.

B122A. Please indicate the year of the data used to answer question B12:

2013

B122B. Please indicate the source of the data used to answer question B12:

National Health Survey of the Republic of Serbia, published and released in October 2014

B123. Please provide a brief explanation of the trend in current smoking prevalence by age group in the past two years or since submission of your last report, if data are available.

The age groups were slightly different in the survey performed in 2006 (20-34; 35-44; 45-54; 55-64; 75+) then in 2013 (15-24; 24-34; 35-44; 45-54; 55-64; 75-84; and 85+). Among men, no significant difference has been noticed in smoking prevalence in 2013 compared to 2006. Among women we noticed significantly lower smoking prevalence in age groups over 45 years of age, but higher among younger women, less than 35.

B13. Prevalence of smokeless tobacco use in the adult population (all) (Please provide prevalence data for total adult population, and identify the age considered in B132, e.g. 15 years old and over, 18-64 years; see B132)

B13A[1_B13x1]. Males [Current users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13A[2_B13x1]. Males [Daily users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13A[3_B13x1]. Males [Occasional users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13A[4_B13x1]. Males [Former users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13A[5_B13x1]. Males [Never users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13B[1_B13x1]. Females [Current users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13B[2_B13x1]. Females [Daily users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13B[3_B13x1]. Females [Occasional users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13B[4_B13x1]. Females [Former users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13B[5_B13x1]. Females [Never users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13C[1_B13x1]. TOTAL (males and females) [Current users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13C[2_B13x1]. TOTAL (males and females) [Daily users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13C[3_B13x1]. TOTAL (males and females) [Occasional users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13C[4_B13x1]. TOTAL (males and females) [Former users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B13C[5_B13x1]. TOTAL (males and females) [Never users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

B131. Please indicate the smokeless tobacco products included in calculating prevalence for question B13:

B132[1_SQ001]. Please indicate the age range to which the data used to answer question B13 refer: [Age range][From]

B132[1_SQ002]. Please indicate the age range to which the data used to answer question B13 refer: [Age range][To]

B133B. Please indicate the source of the data used to answer question B13:

B134[SQ001]. Please provide the definitions of "current user", "daily user", "occasional user", "former user" and "never user" (of smokeless tobacco products) used in this report in the space below. [Current user]

B134[SQ002]. Please provide the definitions of “current user”, “daily user”, “occasional user”, “former user” and “never user” (of smokeless tobacco products) used in this report in the space below. [Daily user]

B134[SQ003]. Please provide the definitions of “current user”, “daily user”, “occasional user”, “former user” and “never user” (of smokeless tobacco products) used in this report in the space below. [Occasional user]

B134[SQ004]. Please provide the definitions of “current user”, “daily user”, “occasional user”, “former user” and “never user” (of smokeless tobacco products) used in this report in the space below. [Former user]

B134[SQ005]. Please provide the definitions of “current user”, “daily user”, “occasional user”, “former user” and “never user” (of smokeless tobacco products) used in this report in the space below. [Never user]

B135. Please provide a brief explanation of the trend in smokeless tobacco use in the adult population in the past two years or since submission of your last report.

B14[B12a_B12x1]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Range - start age]

B14[B12a_B12x3]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Range - end age]

B14[B12a_B12x2]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B14[B12b_B12x1]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Range - start age]

B14[B12b_B12x3]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Range - end age]

B14[B12b_B12x2]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B14[B12c_B12x1]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Range - start age]

B14[B12c_B12x3]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Range - end age]

B14[B12c_B12x2]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [MALES - current smokers2][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B14[B120000_B12x1]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers2][Range - start age]

B14[B120000_B12x3]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers2][Range - end age]

B14[B120000_B12x2]. Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups) (If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years) [TOTAL (males and females) - current smokers2][Prevalence (%) (please include all smoking tobacco products in prevalence data)]

B141. Please indicate the smokeless tobacco products included in the answer to question B14:

B142B. Please indicate the source of the data used to answer question B14:

B143. Please provide a brief explanation of the trend in current use of smokeless tobacco by adult age groups in the past two years or since submission of your last report.

B15[B15a_B15x1]. Tobacco use by ethnic group(s) (please include all smoking or smokeless tobacco products in prevalence data) [Current users 3][Ethnic group(s)]

B15[B15a_B15x2]. Tobacco use by ethnic group(s) (please include all smoking or smokeless tobacco products in prevalence data) [Current users 3][MALES - Prevalence (%)]

B161. Please indicate the tobacco products included in calculating prevalence for question B16:

Data for 13 - 15 years old originate from the GYTS in Serbia (2103).

All tobacco products are defined according to the methodology used in GYTS in the following way:

- Smoking tobacco includes cigarettes being the most frequent, and fine-cut smoking articles (roll-your-own).
- Smoking other tobacco products includes pipes, cigars, mini cigars/cigarillos, waterpipes/hookah/shisha/narguileh/hubble-bubble.
- Smokeless tobacco includes snuff, snus, and chewing tobacco.

B162A. Please indicate the year of the data used to answer question B16:

2013

B162B. Please indicate the source of the data used to answer question B16:

Global Youth Tobacco Survey Serbia 2013

B163. Please provide the definition of "current smoking/tobacco use" used to answer question B16 in the space below.

According to the GYTS methodology current tobacco user in all three categories means using tobacco product anytime during the past 30 days.

B164. Please provide a brief explanation of the trend in tobacco use by young persons in the past two years or since submission of your last report.

The trend was already explained in the previous report. However, data presented in the report 2014 have been slightly changed by the CDC, therefore we presented the updated results.

Nevertheless, compared to the GYTS in 2008, in 2013 a slight increase in smoking tobacco (mostly cigarettes) has been found: among total population 3.7%, among boys 3.4% and among girls 4.4%. Prevalence of smoking cigarettes among girls exceeds the prevalence among boys: 13.3% vs. 12.7%. However, the prevalence of tobacco use is similar with the prevalence reported in the first GYTS in Serbia in 2003 (total 12.8%, boys 12.2% and girls 13.1%) The report can be found on the following website: <http://www.batut.org.rs/index.php?content=1173>.

B2-B9. HEALTH, SOCIAL AND ECONOMIC INDICATORS

B2. Exposure to tobacco smoke
B21. Do you have any data on exposure to tobacco smoke in your population?
Yes
B22. Please provide details in the space below (e.g. exposure by gender, at home, in the workplace, on public transport). Data on the representative sample of population of adults older than 18 years of age performed in the survey in December 2014 revealed the following exposure to SHS: - at work 29% of working population - in school/university - 7% - in restaurants/cafes/bars - 64% - in other houses of friends/relatives - 79%
B23A. Please indicate the year of the data used to answer question B21:
2014

B3. Tobacco-related mortality
B31. Do you have information on tobacco-related mortality in your population?
Yes
B32. What is the estimated total number of deaths attributable to tobacco use in your population?
B33. If available, please provide any additional information on mortality attributable to tobacco use (e.g. lung cancer, cardiovascular diseases) in your jurisdiction.
Unpublished data for total population in Serbia for 2014 revealed that SMR adjusted for world population for cardiovascular diseases was 251.4 and for lung cancer in men 55.6 and in women 18.0.
B34A. Please indicate the year of the data used to answer question B32 and 33:
2014

B83[B83iiiiii_B83x2]. If available, please provide details on the rates of taxation for tobacco products at all levels of Government and be as specific as possible (specify the type of tax, e.g. VAT, sales, import duties) [Other tobacco products][Type of tax]

B83[B83iiiiii_B83x3]. If available, please provide details on the rates of taxation for tobacco products at all levels of Government and be as specific as possible (specify the type of tax, e.g. VAT, sales, import duties) [Other tobacco products][Rate or amount]

B83[B83iiiiii_B83x4]. If available, please provide details on the rates of taxation for tobacco products at all levels of Government and be as specific as possible (specify the type of tax, e.g. VAT, sales, import duties) [Other tobacco products][Base of tax5]

B84. Please briefly describe the trends in taxation for tobacco products in the past two years or since submission of your last report in your jurisdiction.

Since October 2012 every six months the Decision of the most popular prices has been adopted. The increase in specific excise since 2014 is as follows for cigarettes:

January 1 – June 30, 2014[?] - 48.03 RSD/per pack

July 1 – December 31, 2014 [?] - 50.08 RSD/per pack

January 1 – June 30, 2015 [?] - 53.01 RSD/per pack

July 1 – December 31, 2015 [?] - 55.61 RSD/per pack

January 1 – June 30, 2016[?] - 59.07 RSD/per pack

July 1 – December 31, 2016[?] - 61.72 RSD/per pack

Ad valorem excise on cigarettes is 33% of the retail price no matter of the period of implementation.

The excise tax for cigarillos and cigars has increased steadily being 21.53 RSD/per piece in 2014; 21.90 RSD/per piece in 2015; and 22.23 RSD/per piece in 2016.

The excise tax for other tobacco products such as cut tobacco, tobacco for pipes, chewing tobacco and snuff increases as well as follows: 39% in 2014; 41% in 2015; and 43% in 2016. The base for excise calculation for these tobacco products is retail price per kilogram, and for the products that are in the packages other than 1 kilogram, the excise rate is proportional to the package.

B85. Do you earmark any percentage of your taxation income for funding any national plan or strategy on tobacco control in your jurisdiction?

No

B86. Please provide details in the space below.

B87A. Please indicate the year of the data used to answer questions B81 to B86:

2016

C1. GENERAL OBLIGATIONS

C1. With reference to Article 5
C111. Have you developed and implemented comprehensive multisectoral national tobacco control strategies, plans and programmes in accordance with the Convention?
Yes
C112. Have you partially developed and implemented tobacco control strategies by including tobacco control in national health, public health or health promotion strategies, plans and programmes?
N/A
C113. Is any aspect of tobacco control that is referred to in the Convention included in any national strategy, plan or programme?
N/A
C114[C114a]. Have you established or reinforced and financed: [a focal point for tobacco control?]
Yes
C114[C114b]. Have you established or reinforced and financed: [a tobacco control unit?]
Yes
C114[C114c]. Have you established or reinforced and financed: [a national coordinating mechanism for tobacco control?]
No
C115. Please provide details (e.g. the nature of the national coordinating mechanism, the institution to which the focal point for tobacco control or the tobacco control unit belongs).
<p>The Ministry of Health of the Republic of Serbia has established the National Committee for Tobacco Control (previously National Committee for Tobacco Prevention) in 2003. At the same time the focal points for tobacco control have been selected and appointed usually within the members of the National Committee for Tobacco Control. A focal point closely communicates with the Sector for European Integration and International Cooperation of the Ministry of Health in all relevant matters regarding WHO and Secretariat of the WHO FCTC.</p> <p>Since October 2015 members of the National Committee for Tobacco Control have received the fee for attending the meetings of the Committee. However, the position of focal point is voluntary and is not paid.</p> <p>The National Office for Smoking Prevention has been established in 2006 within the Institute of Public Health of Serbia "Dr Milan Jovanovic Batut", with three employees. The main task of the National Office is to coordinate tobacco control activities with the National Committee, to implement them along with all public health institutes in Serbia, to prepare and perform studies regarding tobacco use prevalence, to propose the methods for smoking cessation, etc.</p> <p>The National multisectorial Council for Tobacco Control was established in 2006 and was active till 2011. Since then it has not been appointed again.</p>

C116. Please provide a brief description of the progress made in implementing Article 5.1 and 5.2 (General obligations) in the past two years or since submission of your last report.

The new National Committee for Tobacco Control was appointed in August 2015 with the mandate to intensify two main activities. First, to prepare amendments to the Law on Protection of the Citizens from Exposure to Tobacco Smoke (2010), and second to update the Strategy of Tobacco Control of the Republic of Serbia for the period 2016-2025. Since then the National Committee on Tobacco Control has finished the draft version of the amendments to the Law on Protection of the Citizens from Exposure to Tobacco Control. Two main changes have been proposed:

- total smoking ban in all enclosed public and working places, including the whole hospitality sector, with no designated smoking rooms allowed anywhere; and
- establishment of a multisectorial National Tobacco Control Council with a mandate to coordinate and evaluate all tobacco control activities in the country.

The Draft version of the amendments to the Law has been discussed so far within the different sectors of the Ministry of Health. The National Committee for Tobacco Control has been revising the previous Tobacco Control Strategy 2007-2015 and working on the new version for the period 2016-2025, with the aim to include as much as possible all effective and scientifically approved measures of tobacco control that are mentioned in the WHO FCTC and EU directives.

C117. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

C12. Protection of public health policies with respect to tobacco control from commercial and other vested interests of the tobacco industry Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C121. protecting public health policies with respect to tobacco control from commercial and other vested interests of the tobacco industry?

Yes

C122. ensuring that the public has access, in accordance with Article 12(c), to a wide range of information on tobacco industry activities relevant to the objectives of the Convention, such as in a public repository?

No

C123. Please provide details in the space below.

Ministry of Health has a policy not to accept any kind of financial support from tobacco industry, such as donations, sponsorship or any kind of partnership.

The previous Tobacco Control Strategy of the Republic of Serbia 2007-2015 in the article 4.4 "Financing tobacco control activities", emphasized that "by no means, partnership and direct funding from the tobacco industry for implementation of tobacco control activities will be accepted". The same statement will be included in the Strategy of Tobacco Control 2016-2025.

The Code of Procedure for the Tobacco Control Council and the National Committee for Tobacco Control specifies that each member should sign the statement that there is no any conflict of interest regarding connection to tobacco industry.

Law on Advertising (2016) bans tobacco industry sponsorship of all media, programs, athletes, sport clubs, sport completions, as well as individuals who participate in these events. It is also banned for tobacco industry to sponsor children and minors, their activities, as well as activities intended for children or minors.

C124. Please provide a brief description of the progress made in implementing Article 5.3 in the past two years or since submission of your last report.

No improvements have been made since 2014.

C125. Have you utilized the "Guidelines for implementation of Article 5.3 of the WHO FCTC" when developing or implementing policies in this area?

No

C126. Please provide details in the space below or refer to section I of the additional questionnaire. Response to this question or to the additional questionnaire is voluntary. <https://extranet.who.int/dataform/655321?token={TOKEN}&en>

C2. MEASURES RELATING TO THE REDUCTION OF DEMAND FOR TOBACCO

C2. With reference to Articles 6-14
C21. Price and tax measures to reduce the demand for tobacco Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:
C211. tax policies and, where appropriate, price policies on tobacco products so as to contribute to the health objectives aimed at reducing tobacco consumption?
Yes
C212. prohibiting or restricting, as appropriate, sales to international travellers of tax- and duty-free tobacco products?
Yes
C213. prohibiting or restricting, as appropriate, imports by international travellers of tax- and duty-free tobacco products?
Yes
C214. Please provide a brief description of the progress made in implementing Article 6 (Price and tax measures to reduce the demand for tobacco) in the past two years or since submission of your last report.
The Republic of Serbia changed the Excise Law in 2012 to regulate the excise policy related to cigarettes and other tobacco products until 2016 with the aim of harmonization with the European Union tax policy and total excise burden according to the Council Directive No. 2011/64. According to the Excise Law specific excise rate has been increasing every six months, while the ad valorem is constant. In this way the steady increase of the Government budget due to excise from cigarettes is established, since the budget is in a great extend dependent from the price policy of manufacturers and importers. The Government does not directly regulate the price policy of tobacco products, but through the tax policy measures indirectly influences on constant increase of tobacco product prices. As mentioned previously, the specific earmarking on all tobacco products according to the Tobacco Law, that was intended for preventive activities, was abolished, with the aim to make all obligations of tax payers more transparent. However, the consequence is that no fund for preventive activities exists any more.
C215. Have you utilized the "Guidelines for implementation of Article 6 of the WHO FCTC" when developing or implementing policies in this area?
No
C216. Please provide details in the space below or refer to section H of the additional questionnaire. Response to this question or to the additional questionnaire is voluntary. https://extranet.who.int/dataform/655321?token={TOKEN}&en
C217. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.
C218. Please attach the relevant documentation.
C218[filecount]. filecount - Please attach the relevant documentation.

C22. Protection from exposure to tobacco smoke Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:
C221. banning tobacco smoking in indoor workplaces, public transport, indoor public places and, as appropriate, other public places ?
Yes
C222[1]. What is the type/nature of the measure providing for the ban? [national law]
Yes

C222[2]. What is the type/nature of the measure providing for the ban? [subnational law(s)]
No

C222[3]. What is the type/nature of the measure providing for the ban? [administrative and executive orders]
No

C222[4]. What is the type/nature of the measure providing for the ban? [voluntary agreements]
No

C222[5]. What is the type/nature of the measure providing for the ban? [other measures (please specify in C223 below)]

C223. Please provide a brief explanation of the type/nature and content of the measures providing for the ban.
The Law on Protection of the Citizens from Exposure to Tobacco Smoke, has been in force since 2010, and no new amendments have been adopted since. Briefly, smoking is banned in all enclosed public and work places, and public transportation (including taxis and in all vehicles used as a work places, waiting rooms and lounges). Total ban of smoking is introduced in government and local authority administration, health care, education (all levels), child care, social care, culture, sport, recreation, production, control and sale of drugs, production, storage and sale of food, communal catering, media and areas designated for recording and public broadcasting, conferences and public meetings.
Employers may provide designated smoking places at the premises where the employer's business is not conducted that are enclosed, with separated ventilation, under very strict rules. These requirements apply for private and public/state owned work. Another exception is hospitality sector, where premises less than 80 m2 can choose to be completely smoke-free or smoking can be allowed and if the size is over 80 m2 non-smoking area should be at least 50% of the area with no physical separation. Regardless of the size, all hospitality premises can have separate designated smoking rooms that need to fulfill strict standards. Smoking is completely banned in all restaurants/cafes/bars which are a part of the premises where smoking is completely banned, such as shopping moles,enterprises, hospitals, schools, governmental and local authority buildings, etc.

C224. Do any of these measures provide for a mechanism/ infrastructure for enforcement?
Yes

C225. Please provide details of this system.
The Law imposes legal responsibilities for compliance for individuals, business establishments, their managers, employers, owners and any other responsible persons. It provides penalties for violations for individuals and for the employer who is according to the Law responsible for the implementation of the Law. Different inspectorates are responsible for the enforcement of the Law, such as: sanitary, health and medicines inspectorates of the Ministry of Health, inspectorate under the ministries of education, labor, trade and internal affairs. They control the enforcement of the Law during their regular activities, not particularly for this Law. Penalties cannot be charged on the spot, but are proceed to the judiciary system.

Partial

C226c[6]. Please specify the settings and extent/comprehensiveness of measures applied in indoor workplaces, public transport, indoor public places and, as appropriate, other public places. Indoor public places: [other (please specify below)]

C226cc. Please provide a brief explanation of any "other" policies in the space below

C227. Please provide a brief summary of complete and partial measures, with specific details of the partial measures that have been implemented:

C227a. Banning tobacco smoking in indoor workplaces

Smoking is banned in all enclosed public and work places. However, employers may provide designated smoking rooms at the premises where the employer's business is not conducted that are enclosed, with separated ventilation, under very strict rules. Exception for introduction of designated smoking areas are premises where the following activities are performed: in government and local authority administration, health care, education (all levels), child care, social care, culture, sport, recreation, production, control and sale of drugs, production, storage and sale of food, communal catering, media and areas designated for recording and public broadcasting, conferences and public meetings. These requirements apply for private and public/state owned work and public places.

There are exemptions for the special institutions such as institutions of social care for immobile patients, psychiatric departments and hospitals, departments for palliative care, and prisons. These institutions should have designated smoking rooms with strict requirements. Total smoking ban applies for employees of these institutions.

Another exemption is hospitality sector which is public place for customers but working places for the staff. The exemption is as follows for restaurants/cafes/bars/pubs:

- smoking can be completely banned regardless of the size of the premises;
- if the size of the hospitality premises is less than 80 m² the owner can choose to be completely smoke-free or smoking can be allowed;
- if the size is over 80 m² non-smoking area should occupy at least 50% of the area;
- regardless of the size, all hospitality premises can have separate designated smoking rooms that need to fulfill strict standards.

C227b. Banning tobacco smoking in public transport

Smoking is completely banned in all public transportation, including taxis and in all vehicles used as a work places, as well as in all waiting rooms and lounges.

C227c. Banning tobacco smoking in indoor public places

Smoking is banned at all public places, such as theaters and cultural premises, shopping malls, sports, conferences, and public meetings.

Hotels, hostels, motels etc. can have designated room where smoking is allowed according to the written documents in which exact number of rooms and floor are described. In other parts of the hotels smoking is banned. For the hotel's restaurants or bars the same rules are applied as for the whole hospitality sector.

C228. Please provide a brief description of the progress made in implementing Article 8 (Protection from exposure to tobacco smoke) in the past two years or since submission of your last report.

No changes have been adopted in the Parliament. However, the draft version of amendments to the Law of Protection of the Citizens from Exposure to Tobacco Smoke with the aim to completely ban smoking at all enclosed public and workplaces, including hospitality sector, have been prepared and has been discussed within the Ministry of Health.

C229. Have you utilized the "Guidelines for implementation of Article 8 of the WHO FCTC" when developing or implementing policies in this area?

Yes

C2210. Please provide details in the space below or refer to section B of the additional questionnaire. Response to this question or to the additional questionnaire is voluntary. <https://extranet.who.int/dataform/655321?token={TOKEN}&=en>

C2211. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

C2212. Please attach the relevant documentation.

C2212[filecount]. filecount - Please attach the relevant documentation.

C23. Regulation of the contents of tobacco products Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C231. testing and measuring the contents of tobacco products?

No

C232. testing and measuring the emissions of tobacco products?
Yes

C233. regulating the contents of tobacco products?
No

C234. regulating the emissions of tobacco products?
Yes

C235. Please provide a brief description of the progress made in implementing Article 9 (Regulation of the contents of tobacco products) in the past two years or since submission of your last report.
There is no progress since the previous report.
According to Law on Tobacco (Official Gazette of the Republic of Serbia, No. 101/05, 90/07, 95/10, 36/11, 93/12 and 108/13), article 74 defines that since January 1, 2011 the cigarettes sold on the territory of the Republic of Serbia could not contain more than: 10 mg of tar per cigarette, 1 mg of nicotine per cigarette and 10 mg of carbon monoxide per cigarette. Article 75 of the same Law defines ISO standard 4387 for tar measurements, ISO 10315 for nicotine measurements and ISO 8454 for carbon monoxide measurements.

C236. Have you utilized the "Guidelines for implementation of Articles 9 and 10 of the WHO FCTC" when developing or implementing policies in this area?
No

C237. Please provide details in the space below or refer to section C of the additional questionnaire. Response to this question or to the additional questionnaire is voluntary. <https://extranet.who.int/dataform/655321?token={TOKEN}<=en>

C25. Packaging and labelling of tobacco products Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C251. requiring that packaging, individual cigarettes or other tobacco products do not carry advertising or promotion?

No

C252. requiring that packaging and labelling do not promote a product by any means that are false, misleading, deceptive or likely to create an erroneous impression about its characteristics, health effects, hazards or emissions?

Yes

C253. requiring that each unit packet and package of tobacco products and any outside packaging and labelling of such products carry health warnings describing the harmful effects of tobacco use?

Yes

C254. ensuring that the health warnings are approved by the competent national authority?

Yes

C255. ensuring that the health warnings are rotated?

Yes

C256. ensuring that the health warnings are clear, visible and legible?

Yes

C257. Does your law mandate, as a minimum, a style, size and colour of font to render the warning clear, visible and legible?

Yes

C258. ensuring that the health warnings occupy no less than 30% of the principal display areas?

Yes

C259. ensuring that the health warnings occupy 50% or more of the principal display areas?

No

C2510. ensuring that health warnings are in the form of, or include, pictures or pictograms?

No

C2511. Does the Government own the copyright to these pictures and pictograms?

N/A

C2512. Would you grant a non-exclusive and royalty-free licence for the use of health warnings developed in your jurisdiction with other Parties?

N/A

C2513[1]. requiring that each unit packet and package of tobacco products and any outside packaging and labelling of such products contain information on relevant: [constituents of tobacco products?]

No

C2513[2]. requiring that each unit packet and package of tobacco products and any outside packaging and labelling of such products contain information on relevant: [emissions of tobacco products?]

No

C2514. requiring that the warnings and other textual information appear on each unit packet and package and on any outside packaging and labelling in the principal language or languages of the country?

Yes

C2515. Please provide a brief description of the progress made in implementing Article 11 (Packaging and labelling of tobacco products) in the past two years or since submission of your last report.

There has no progress since 2010 when the Tobacco Law entered into force.

C2516. Have you utilized the "Guidelines for implementation of Article 11 of the WHO FCTC" when developing or implementing policies in this area?

No

C2517. Please provide details in the space below or refer to section D of the additional questionnaire. Response to this question or to the additional questionnaire is voluntary. <https://extranet.who.int/dataform/655321?token={TOKEN}&=en>

C2518. If you have any other relevant information pertaining to or not covered in this section, please provide details in the space below.

No newly adopted or implemented legislative, executive, administrative or other measures since the latest WHO FCTC 2014 Report.

C2519. Please attach the relevant documentation.

C2519[filecount]. filecount - Please attach the relevant documentation.

0

C26. Education, communication, training and public awareness Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C261. educational and public awareness programmes? (Please refer to programmes implemented since submission of your two-year report.)

Yes

C262[1]. To whom are these programmes targeted? [adults or the general public]

Yes

C262[2]. To whom are these programmes targeted? [children and young people]

Yes

C267[8]. Are appropriate and special training or sensitization and awareness programmes on tobacco control addressed to: [other (please specify)]
No

C267[other]. Are appropriate and special training or sensitization and awareness programmes on tobacco control addressed to: [Other]

C268. Please provide a brief description of the progress made in implementing Article 12 (Education, communication, training and public awareness) in the past two years or since submission of your last report.
There has not been much progress since the previous report in 2014. Very limited amount of money has been allocated for prevention in tobacco control.
However, in 2014 the Twinning Light EU project Improving Tobacco Control in the Republic of Serbia" was performed by the Ministry of Health of the Republic of Serbia and Finnish Institute of Health and Welfare. One of the components was awareness raising and increased knowledge among decision makers, media and civil society about the current smoking problem in Serbia, heavy burden of tobacco attributable diseases, and their costs to society and health of individuals, as well as proper implementation of the WHO FCTC, EU and WHO best practice. One day workshop was organized only for the representatives from different sectors of the Government and representative of the National Parliament, and three more workshops for the health professionals, NGOs and media.

C269. Have you utilized the "Guidelines for implementation of Article 12 of the WHO FCTC" when developing and implementing policies in this area?
Yes

C2610. Please provide details in the space below or refer to section E of the additional questionnaire. Response to this question or to the additional questionnaire is voluntary. <https://extranet.who.int/dataform/655321?token={TOKEN}<=en>

N/A

C279. requiring the disclosure to relevant Government authorities of expenditures by the tobacco industry on advertising, promotion and sponsorship not yet prohibited?
N/A
C2710[1]. restricting tobacco advertising, promotion and sponsorship on: [radio?]
N/A
C2710[2]. restricting tobacco advertising, promotion and sponsorship on: [television?]
N/A
C2710[3]. restricting tobacco advertising, promotion and sponsorship on: [print media?]
N/A
C2710[4]. restricting tobacco advertising, promotion and sponsorship on: [the domestic Internet?]
N/A
C2710[5]. restricting tobacco advertising, promotion and sponsorship on: [the global Internet?]
N/A
C2710[6]. restricting tobacco advertising, promotion and sponsorship on: [other media (please specify below)?]
N/A
C2711[1]. restricting tobacco sponsorship of: [international events and activities?]
N/A
C2711[2]. restricting tobacco sponsorship of: [participants therein?]
N/A
C2712. cooperating with other Parties in the development of technologies and other means necessary to facilitate the elimination of cross-border advertising?
No
C2713. imposing penalties for cross-border advertising equal to those applicable to domestic advertising, promotion and sponsorship originating from your territory in accordance with national law?
No
C2714. Please provide a brief description of the progress made in implementing Article 13 (Tobacco advertising, promotion and sponsorship) in the past two years or since submission of your last report.
Since the last report, Serbia adopted in the Parliament two laws that are also relevant to the advertising of tobacco products: 1) Law on Electronic Media („Official Gazette of the Republic of Serbia“, No 83/14 and 6/16) which bans product placement. Product placement under this Law will be in effect until May 6, 2016 when the implementation of new Law on Advertising will start; and 2) New Law on Advertising („Official Gazette of the Republic of Serbia“, No 6 /16) which was adopted in the Parliament in February 2016 will be implemented starting May 6, 2016. This new Law on Advertising introduces a new article that bans advertising of electronic cigarettes, fluids and parts of electronic cigarettes that represent or replace cigarettes in the same way as for other tobacco products. Two articles (No. 28 and 29) are related to product placement.
C2715. Have you utilized the “Guidelines for implementation of Article 13 of the WHO FCTC” when developing and implementing policies in this area?
Yes
C2716. Please provide details in the space below or refer to section F of the additional questionnaire. Response to this question or to the additional questionnaire is voluntary. https://extranet.who.int/dataform/655321?token={TOKEN}&=en
Competent authority which is Market Inspection, Sector of the Ministry of Trade, Tourism and Telecommunications carried out inspection of the implementation of both laws and penalize all infringement of the laws.
C2717. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.
A great success has been made in preventing advertising and trade of tobacco products via Internet and banning other forms of advertising of illegal trade of tobacco. In addition of ban advertising, Market Inspection seized and destroyed illegal tobacco products.

C28. Demand reduction measures concerning tobacco dependence and cessation Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C281. developing and disseminating appropriate, comprehensive and integrated guidelines based on scientific evidence and best practices?
Yes

C282[1]. programmes to promote cessation of tobacco use, including: [media campaigns emphasizing the importance of quitting?]
Yes

C282[2]. programmes to promote cessation of tobacco use, including: [programmes specially designed for underage girls and young women?]
No

C282[3]. programmes to promote cessation of tobacco use, including: [programmes specially designed for women?]
No

C282[4]. programmes to promote cessation of tobacco use, including: [programmes specially designed for pregnant women?]
No

C282[5]. programmes to promote cessation of tobacco use, including: [telephone quitlines?]
No

C282[6]. programmes to promote cessation of tobacco use, including: [local events, such as activities related to World No Tobacco Day or National No Smoking Day, if appropriate?]
Yes

C282[7]. programmes to promote cessation of tobacco use, including: [other (please specify)?]
Yes

C282[other]. programmes to promote cessation of tobacco use, including: [Other]
Regular seminars have been organized by the Institute of Public Health of Serbia as follows: 2 in 2014, 5 in 2015 and 1 in 2016, total of 8 seminars, with approximately 70 participants per seminar. Seminars are organized for the health professionals for the different institute of public health in Serbia. The main topics of seminars are the actual principles in smoking prevention and cessation.

C283[1]. design and implementation of programmes aimed at promoting the cessation of tobacco use, in such locations as: [educational institutions?]
No

C283[2]. design and implementation of programmes aimed at promoting the cessation of tobacco use, in such locations as: [health-care facilities?]
Yes

C283[3]. design and implementation of programmes aimed at promoting the cessation of tobacco use, in such locations as: [workplaces?]
No

C283[4]. design and implementation of programmes aimed at promoting the cessation of tobacco use, in such locations as: [sporting environments?]
No

C283[5]. design and implementation of programmes aimed at promoting the cessation of tobacco use, in such locations as: [other (please specify)?]
Yes

C283[other]. design and implementation of programmes aimed at promoting the cessation of tobacco use, in such locations as: [Other]

No

C289[3]. training on tobacco dependence treatment incorporated into the curricula of health professional training at pre- and post-qualification levels at the following schools: [nursing?]

No

C289[4]. training on tobacco dependence treatment incorporated into the curricula of health professional training at pre- and post-qualification levels at the following schools: [pharmacy?]

No

C289[other]. training on tobacco dependence treatment incorporated into the curricula of health professional training at pre- and post-qualification levels at the following schools: [Other]

C2810. facilitating accessibility and/or affordability of pharmaceutical products for the treatment of tobacco dependence?
Yes

C2811. Where and how can these products be legally purchased in your country?
NRT and Cytisine are OCT and can be purchased in all pharmacies without the prescription. For Bupropion a physician's prescription is needed.

C2812[1]. Which pharmaceutical products are legally available for the treatment of tobacco dependence in your jurisdiction? [nicotine replacement therapy]
Yes

C2812[2]. Which pharmaceutical products are legally available for the treatment of tobacco dependence in your jurisdiction? [bupropion]
Yes

C2812[3]. Which pharmaceutical products are legally available for the treatment of tobacco dependence in your jurisdiction? [varenicline]
No

C2812[4]. Which pharmaceutical products are legally available for the treatment of tobacco dependence in your jurisdiction? [other (please specify)]
Yes

C2812[other]. Which pharmaceutical products are legally available for the treatment of tobacco dependence in your jurisdiction? [Other]
Cytisine

C2813[1]. Are the costs of these products covered by public funding or reimbursement? [nicotine replacement therapy]
None

C2813[2]. Are the costs of these products covered by public funding or reimbursement? [bupropion]
None

C2813[3]. Are the costs of these products covered by public funding or reimbursement? [varenicline]
None

C2813[4]. Are the costs of these products covered by public funding or reimbursement? [other (please specify below)]
None

C2813b. Please provide other details in the space below.

C2814. Please provide a brief description of the progress made in implementing Article 14 (Demand reduction measures concerning tobacco dependence and cessation) in the past two years or since submission of your last report.
Not much progress occurred since 2014, mostly due to the very limited funds for preventive activities in tobacco control. However, regular seminars have been organized by the Institute of Public Health of Serbia as follows: 2 in 2014, 5 in 2015 and 1 in 2016, total of 8 seminars, with approximately 70 participants per seminar. Seminars are organized for the health professionals for the different institute of public health in Serbia. The main topics of seminars are the actual principles in smoking prevention and cessation.

C2815. Have you utilized the "Guidelines for implementation of Article 14 of the WHO FCTC" when developing and implementing policies in this area?
Yes

C2816. Please provide details in the space below or refer to section G of the additional questionnaire. Response to this question or to the additional questionnaire is voluntary. <https://extranet.who.int/dataform/655321?token={TOKEN}&=en>

C3. MEASURES RELATING TO THE REDUCTION OF THE SUPPLY OF TOBACCO

C3. With reference to Articles 15–17

C31. Illicit trade in tobacco products Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C311. requiring marking of all unit packets and packages of tobacco products and any outside packaging of such products to assist in determining the origin of the product?

Yes

C312. requiring marking of all unit packets and packages of tobacco products and any outside packaging of such products to assist in determining whether the product is legally sold on the domestic market?

Yes

C313. requiring that unit packets and packages of tobacco products for retail and wholesale use that are sold on the domestic market carry the statement: "Sales only allowed in ..." or carry any other effective marking indicating the final destination of the product?

No

C314. developing a practical tracking and tracing regime that would further secure the distribution system and assist in the investigation of illicit trade?

Yes

C315. requiring that marking is presented in legible form and/or appears in the principal language or languages of the country?

Yes

C316. requiring the monitoring and collection of data on cross-border trade in tobacco products, including illicit trade?

Yes

C317. facilitating the exchange of this information among customs, tax and other authorities, as appropriate, and in accordance with national law and applicable bilateral and multilateral agreements?

Yes

C318. enacting or strengthening legislation, with appropriate penalties and remedies, against illicit trade in tobacco products, including counterfeit and contraband cigarettes?

Yes

C319. requiring that confiscated manufacturing equipment, counterfeit and contraband cigarettes and other tobacco products derived from illicit trade are destroyed, using environment-friendly methods where possible, or disposed of in accordance with national law?

Yes

C3110. adopting and implementing measures to monitor, document and control the storage and distribution of tobacco products held or moving under suspension of taxes or duties?

Yes

C3111. enabling the confiscation of proceeds derived from illicit trade in tobacco products?

Yes

C3112. promoting cooperation between national agencies and relevant regional and international intergovernmental organizations in investigations, prosecutions and proceedings, with a view to eliminating illicit trade in tobacco products, with special emphasis on cooperation at regional and subregional levels?

Yes

C3113. licensing or other actions to control or regulate production and distribution in order to prevent illicit trade?
Yes
C3114. Please provide a brief description of the progress made in implementing Article 15 (Illicit trade in tobacco products) in the past two years or since submission of your last report.
There were intensive activities regarding the ratification of the Protocol to Eliminate Illicite Trade of Tobacco Products. At the moment, Draft Law on Ratification is still within the Government (waiting for approval of relevant Ministries, Institute for Public Policies and Serbian Integration Office). However, as all of these institutions already approved the text of the Protocol and Justification for Ratification, we expect their positive responses very soon. After that stage the Draft will be submitted to the Parliament. However, there will be parliament elections on April 24, 2016, therefore probably the Law on ratification won't be approved till summer/autumn 2016.
C3115. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.
C3116. Please attach the relevant documentation.
C3116[filecount]. filecount - Please attach the relevant documentation.

C32. Sales to and by minors Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:
C321. prohibiting the sales of tobacco products to minors?
Yes
C321a. Please specify the legal age:
18
C322. requiring that all sellers of tobacco products place a clear and prominent indicator inside their point of sale about the prohibition of tobacco sales to minors?
Yes
C323. requiring that, in case of doubt, each seller of tobacco products requests that the purchaser provides appropriate evidence of having reached full legal age?
Yes
C324. banning the sale of tobacco products in any manner by which they are directly accessible, such as open store shelves?
Yes
C325. prohibiting the manufacture and sale of sweets, snacks, toys or any other objects in the form of tobacco products which appeal to minors?
Yes
C326. prohibiting the sale of tobacco products from vending machines?
Yes
C327. Do you ensure that tobacco vending machines are not accessible to minors and/or do not promote the sale of tobacco products to minors?
N/A
C328[1]. prohibiting and/or promoting the prohibition of the distribution of free tobacco products: [to the public?]
Yes
C328[2]. prohibiting and/or promoting the prohibition of the distribution of free tobacco products: [to minors?]
Yes
C329. prohibiting the sale of cigarettes individually or in small packets?
Yes
C3210. providing for penalties against sellers and distributors in order to ensure compliance?
Yes

C3211. prohibiting the sales of tobacco products by minors?
No

C3212. Please provide a brief description of the progress made in implementing Article 16 (Sales to and by minors) in the past two years or since submission of your last report.

Prohibition of sale of tobacco products to minors is regulated, apart from the Tobacco Law, by the new Law on Consumer Protection (Official Gazette of the Republic of Serbia, No 62/14, 6/16) that entered into force in 2014. According to the article 24 (1) of the Law on Consumer Protection, sale, serving and giving tobacco products as gifts to persons below the age of 18 is prohibited. Moreover, this article 24 (2) defined that, in case of doubt, seller of tobacco products can request from the purchaser to provide evidence of reaching the full legal age. For the infringement of the article 24 a fine for the legal entity is RSD 300,000 to 2,000,000,000, for entrepreneur RSD 50,000 to 150,000 and for the individual person RSD 50,000 to 500,000.

C33. Provision of support for economically viable alternative activities Have you adopted and implemented, where appropriate, measures or programmes on any of the following:

C331[1]. promoting economically viable and sustainable alternatives for: [tobacco growers?]

No

C331[2]. promoting economically viable and sustainable alternatives for: [tobacco workers?]

No

C331[3]. promoting economically viable and sustainable alternatives for: [tobacco individual sellers?]

No

C332. Please provide a brief description of the progress made in implementing Article 17 (Provision of support for economically viable alternative activities) in the past two years or since submission of your last report.

According to the National Strategy of Agriculture and Rural Development (2014) agricultural workers are free to choose the type of culture they would like to cultivate. The Ministry of Agriculture does not introduce any measure to encourage agricultural workers to any kind of herbal production. Since 2012, tobacco production has been integrated into the general system of subsidies for herbal production through direct payment per hectare of farmland. The production of tobacco itself has not been additionally subsidized.

C333. Have you utilized the "Policy options and recommendations on economically sustainable alternatives to tobacco growing (in relation to Articles 17 and 18 of the WHO FCTC)" when developing and implementing policies in this area?

No

C334. Please provide details in the space below or refer to section I of the additional questionnaire. Response to this question or to the additional questionnaire is voluntary. https://extranet.who.int/dataform/655321?token={TOKEN}&_en

C435. Does your country have any plans to repeat any of the above or to undertake a new tobacco survey within three to five years of your last survey? Please provide details in the space below.

There is a plan that National Health Survey and Global Youth Tobacco Survey should be repeated in 2018. However, due to the scarce financial resources for prevention in tobacco control, this could be postponed

C436[1]. regional and global exchange of publicly available national: [scientific, technical, socioeconomic, commercial and legal information?]

Yes

C436[2]. regional and global exchange of publicly available national: [information on the practices of the tobacco industry?]

No

C436[3]. regional and global exchange of publicly available national: [information on the cultivation of tobacco?]

No

C437[1]. an updated database of: [laws and regulations on tobacco control?]

No

C437[2]. an updated database of: [information about the enforcement of laws on tobacco control?]

No

C437[3]. an updated database of: [pertinent jurisprudence?]

No

C438. Please provide a brief description of the progress made in implementing Article 20 (Research, surveillance and exchange of information) in the past two years or since submission of your last report.

Since the previous report several surveys were conducted:

1. National Health Survey in 2013, published in 2014: data on smoking prevalence among adults 15 and+ years of age, as well as exposure to SHS.
2. Global Youth Tobacco Survey 2013, published 2014; smoking prevalence among youth 13 -15 years of age, exposure to SHS
3. National Survey on life styles of citizens in Serbia 2014 - substance use and gambling; smoking prevalence among adults 18-64; prevalence of electronic cigarette use
4. National Survey on effects and attitude regarding the Law on Protection of the Citizens from Exposure to Tobacco Smoke (2014), adults 18 +, smoking prevalence, exposure to SHS, cessation, attitude and knowledge on tobacco and the Law

C439. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

C4310. Please attach the relevant documentation.

D. INTERNATIONAL COOPERATION AND ASSISTANCE

D0. Pursuant to Article 21.1(c) and in accordance with Article 26, have you either provided or received financial or technical assistance (be it through unilateral, bilateral, regional, subregional or other multilateral channels, including relevant regional and international intergovernmental or nongovernmental organizations and financial and development institutions) for the development and strengthening of multisectoral, comprehensive tobacco control programmes of developing country Parties and Parties with economies in transition in any of the following areas:

D1[1]. development, transfer and acquisition of technology, knowledge, skills, capacity and expertise related to tobacco control? [Assistance provided]

No

D1[2]. development, transfer and acquisition of technology, knowledge, skills, capacity and expertise related to tobacco control? [Assistance received]

Yes

D2[1]. provision of technical, scientific, legal and other expertise to establish and strengthen national tobacco control strategies, plans and programmes? [Assistance provided]
No

D2[2]. provision of technical, scientific, legal and other expertise to establish and strengthen national tobacco control strategies, plans and programmes? [Assistance received]
Yes

D3[1]. appropriate training or sensitization programmes for appropriate personnel in accordance with Article 12? [Assistance provided]
No

D3[2]. appropriate training or sensitization programmes for appropriate personnel in accordance with Article 12? [Assistance received]
Yes

D4[1]. provision of the necessary material, equipment and supplies, as well as logistic support, for tobacco control strategies, plans and programmes? [Assistance provided]
No

D4[2]. provision of the necessary material, equipment and supplies, as well as logistic support, for tobacco control strategies, plans and programmes? [Assistance received]
No

D5[1]. identification of methods for tobacco control, including comprehensive treatment of nicotine addiction? [Assistance provided]
No

D5[2]. identification of methods for tobacco control, including comprehensive treatment of nicotine addiction? [Assistance received]
No

D6[1]. promotion of research to increase the affordability of comprehensive treatment of nicotine addiction? [Assistance provided]
No

D6[2]. promotion of research to increase the affordability of comprehensive treatment of nicotine addiction? [Assistance received]
No

D7. Please identify the Party or Parties from which assistance was received or to which assistance was provided.
WHO Regional Office for Europe, EU (Instrument for pre-accession assistance/-IPA), National Cancer Institute, National Institutes of Health

D8. Please provide information about any assistance provided or received in the space below.
In 2014 WHO Regional Office for Europe supported participation of one representative at the GYTS Analysis Workshop, Tunisia, 13 - 16 May, 2014.
In 2015 U.S. National Cancer Institute supported participation of one country representative at The 1st International Tobacco Control Research Workshop in Ankara, 24-26 March, 2015;
WHO Regional Office for Europe supported participation of one Ministry of Health representative at Technical Consultation Meeting on the Roadmap of Actions to fully implement the WHO Framework Convention on Tobacco Control in Europe, Moscow, Russian Federation, 24-25 February 2015, and participation of three representatives in Sub-regional meeting on scaling up the implementation of the WHO Framework Convention on Tobacco Control in South-East European countries organized 18-20 November (Albania, Tirane)
EU financed (through the IPA funds) a six month project Improving the Tobacco Control in Serbia, implemented in 2014 by the Ministry of Health of the Republic of Serbia and National Finish Institute of Health and Welfare, which had three components: Assessment and recommendations for improvement of legal framework on tobacco control; 2. Strengthening tobacco monitoring and data collection systems, and 3. Fostering multi-sector cooperation in the field of tobacco control

D9. If you have not received or provided assistance in any of the aforementioned areas, please identify any financial or technical assistance that may be under consideration, if appropriate.

D10. Have you encouraged relevant regional and international intergovernmental organizations and financial and development institutions in which you are represented to provide financial assistance for developing country Parties and for Parties with economies in transition to assist them in meeting their obligations under the Convention?
No

D11. Please provide details in the space below.

E. PRIORITIES AND COMMENTS

E1. What are the priorities for implementation of the WHO Framework Convention on Tobacco Control in your jurisdiction?

1. The approval by the Parliament of the amendments to the Law on Protection of the Citizens from Exposure to Tobacco Smoke, that includes total smoking ban in all enclosed public and workplaces, particularly in the whole hospitality sector;
2. Renewal of the Tobacco Law with the aim to introduce pictorial health warnings, information on content and additives in tobacco products. etc.;
3. Ratification of the Protocol to Eliminate the Illicit Trade of Tobacco Products;
4. Increasing the price of all tobacco products;
5. Obtaining the steady and sufficient funding of all tobacco control activities;
6. Higher priority in national policy of tobacco control preventive activities;
7. In long term drafting and adopting one comprehensive law that will cover all tobacco control activities, now regulated in the several laws and jurisdictions with the aim of better implementation, and eventually higher reduction in tobacco consumption and tobacco related diseases.
8. Expanding the national network of smoking cessation services, including establishing quit line.

E2. Have you identified any specific gaps between the resources available and the needs assessed for implementing the WHO Framework Convention on Tobacco Control?

Yes

E3. Please provide details in the space below.

Since 2012 the earmarking from tobacco products was abolished. Funds devoted to tobacco control activities in the Budget of the Republic of Serbia are very scarce and cannot cover even basic activities. Moreover, due to restriction in employment, human resources in tobacco control are scarce.

E4. What, if any, are the constraints or barriers, other than lack of resources, you have encountered in implementing the Convention?

1. Lack of awareness and knowledge of obligations that originated from the WHO FCTC which has been in force since 2006 in Serbia;
2. Low priority of tobacco control in the Governmental policy, as economic crisis and transitions attract more attention;
3. Strong influence of tobacco industry through difference routes, such as various employers' organizations, foreign chamber of commerce, etc;
4. Insufficient multisectorial coordination;
5. Scarce and scattered human resources in tobacco control;
6. Insufficient involvement of civil society organizations in different aspects of tobacco control.

E5[1]. Do you have any of the following products available on your national tobacco market? [smokeless tobacco products]

No

E5[2]. Do you have any of the following products available on your national tobacco market? [water pipe tobacco]

Yes

E5[3]. Do you have any of the following products available on your national tobacco market? [ENDS/ENNDS]

Yes

E5[other]. Do you have any of the following products available on your national tobacco market? [Other]

E6[1]. Have you adopted and implemented any policy or regulation that is specific to the following tobacco products? [smokeless tobacco products]

No

E6[2]. Have you adopted and implemented any policy or regulation that is specific to the following tobacco products? [water pipe tobacco]

Yes

E6[3]. Have you adopted and implemented any policy or regulation that is specific to the following tobacco products? [ENDS/ENNDS]

Yes

E6[other]. Have you adopted and implemented any policy or regulation that is specific to the following tobacco products? [Other]

E7. If you have any relevant information related to questions E5 and E6, please provide details in the space below.

Water pipe tobacco is regulated in the Law on Tobacco (2005), as other tobacco products.

E-cigarettes, their parts and liquids as well as other products that represent or replace cigarettes is recently included in the Law on Advertising (2016). Advertising of these products is regulated in the same way as other tobacco products. The Law will enter into force on May 6, 2016.

Smokeless tobacco products are not available at the market in Serbia.

E8. Please provide any other relevant information not covered elsewhere that you consider important.

E9. Your suggestions for further development and revision of the reporting instrument:
