	We have observed that the uptake of the use of tobacco in the youth in the Solomon Islands has increased over the past two years, however I would like to think that with the recent anti-tobacco campaigns and the awareness programs of the tobacco control legislature of recent months the opposite could be the case.

⁵ The “base of the tax” should clearly indicate the tax rate or amount the tax is based on. If the tax is expressed as a percentage (e.g. ad valorem tax), the base of the tax is the actual value of the good that is taxed; for example, 45% of the manufacturer’s price, 30% of the retail price. In this case the “base” is the manufacturer’s price or retail price. If the tax is expressed as an amount (e.g. specific tax), the base of the tax is the volume (number of pieces or by weight) of goods that is taxed. For example, if a tax is US\$ 5 per 100 cigarettes, the amount of tax is US\$ 5 and the base of the tax is 100 cigarettes.

	<p>A national coordinating mechanism for tobacco control in the country will be established May 2014 with the formulation of a national stakeholder group for tobacco control and also the endorsement of a technical advisory group. Prior to May 2014, the national coordinating group/committee for tobacco control in the country was the Tobacco Control Taskforce Committee (TCTFC). The TCTFC was mandated by the Minister of Health with the task of formulating the tobacco control regulations. However, in the absence of a national coordinating mechanism the TCTFC has been the interim advisory group for tobacco control in the country. This group consisted of a chairman (under secretary of Health Improvement), a vice chairman (National Director, Health Promotions), the national tobacco control focal point (National Director of NCD Prevention and Control) and members which also includes the National Tobacco Control Coordinator. Other members include a Ministry of Education representative, Ministry of Finance and Treasury and the civil society. TCTFC has been coordinating all the efforts geared towards tobacco control from 2010 up till the year of 2014,May, when a wider and more extended group of stakeholders met and the national tobacco control stakeholders committee was established along with the endorsement of the technical advisory group (TAG) for tobacco control. The TAG for tobacco control is generally an extension of the TCTFC.</p> <p>As mentioned above the national focal point for tobacco control is the Director for NCDs prevention and control, and this commenced in 2010. Before 2010, the focal point was the Director of Health Promotions. We now have a tobacco control unit, with two people coordinating this unit with support from the staff from both the NCD Department and the Health Promotions Department.</p>
