B111. Please indicate the smoking tobacco products included in calculating prevalence for question B11:
Cigarettes, cigarillos, cigars and pipes
B112[1_SQ001]. Please indicate the age range to which the data used to answer question B11 refer: [Age range][From]
16
B112[1_SQ002]. Please indicate the age range to which the data used to answer question B11 refer: [Age range][To]
84
B113A. Please indicate the year of the data used to answer question B11:
2015
B113B. Please indicate the source of the data used to answer question B11:
Public Health Agency of Sweden (2015). The National Survey of Public Health - Health on Equal Terms. Please note that the data submitted is NOT age-standardised (in contrast to some previous report).
B114[SQ001]. Please provide the definitions of "current smoker", "daily smoker", "occasional smoker", "former smoker" and "never smoker" used in this report. [Current smoker]
Answered "Yes" to either the question "Do you smoke daily?" or "Do you smoke occasionally?"
B114[SQ002]. Please provide the definitions of "current smoker", "daily smoker", "occasional smoker", "former smoker" and "never smoker" used in this report. [Daily smoker]
Answered "Yes" to the question "Do you smoke daily?"
B114[SQ003]. Please provide the definitions of "current smoker", "daily smoker", "occasional smoker", "former smoker" and "never smoker" used in this report. [Occasional smoker]
Answered "Yes" to the question "Do you smoke occasionally?" but "No" to the question "Do you smoke daily?"

B114[SQ004]. Please provide the definitions of “current smoker”, “daily smoker”, “occasional smoker”, “former smoker” and “never smoker” used in this report. [Former smoker]

Answered "Yes" to the question "Have you ever smoked daily for a period of at least six months?" but "No" to the question "Do you smoke daily?" and "Do you smoke occasionally?"

B114[SQ005]. Please provide the definitions of “current smoker”, “daily smoker”, “occasional smoker”, “former smoker” and “never smoker” used in this report. [Never smoker]

Answered "No" to being a daily smoker, an occasional smoker or a former smoker.

B115. Please provide a brief explanation of the trend in smoking prevalence in the adult population in the past two years or since submission of your last report.

B121. Please indicate the smoking tobacco products included in calculating prevalence for question B12:

Cigarettes, cigarillos, cigars and pipes

B122A. Please indicate the year of the data used to answer question B12:

2015

B122B. Please indicate the source of the data used to answer question B12:

Public Health Agency of Sweden (2015). The National Survey of Public Health - Health on Equal Terms. Please note that the data is NOT age-standardised (in contrast to some previous report).

B123. Please provide a brief explanation of the trend in current smoking prevalence by age group in the past two years or since submission of your last report, if data are available.

No significant change in smoking prevalence has been observed, except for men 45-64 years of age. In this group the smoking prevalence have decreased from 24 to 20 percent since 2013.

B13. Prevalence of smokeless tobacco use in the adult population (all) (Please provide prevalence data for total adult population, and identify the age considered in B132, e.g. 15 years old and over, 18-64 years; see B132)

B13A[1_B13x1]. Males [Current users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

5
B13C[4_B13x1]. TOTAL (males and females) [Former users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]
B13C[5_B13x1]. TOTAL (males and females) [Never users][Prevalence (%) (please include all smokeless tobacco products in prevalence data)]
B131. Please indicate the smokeless tobacco products included in calculating prevalence for question B13:
Snus (moist snuff)
B132[1_SQ001]. Please indicate the age range to which the data used to answer question B13 refer: [Age range][From]
16
B132[1_SQ002]. Please indicate the age range to which the data used to answer question B13 refer: [Age range][To]
84
B133A. Please indicate the year of the data used to answer question B13:
2015

B133B. Please indicate the source of the data used to answer question B13:
Public Health Agency of Sweden (2015). The National Survey of Public Health - Health of Equal Terms. Please note that the data submitted relates to 2015 and that it is NOT age-standardised (in contrast to some previous report). Current snus-user refers to the sum of daily and occasional snus-users. Please also note that there is no data available regarding former and never use of smokeless tobacco.

B134[SQ001]. Please provide the definitions of "current user", "daily user", "occasional user", "former user" and "never user" (of smokeless tobacco products) used in this report in the space below. [Current user]
Answered "Yes" to either the question "Do you use snus daily?" or "Do you use snus occasionally?"

B134[SQ002]. Please provide the definitions of "current user", "daily user", "occasional user", "former user" and "never user" (of smokeless tobacco products) used in this report in the space below. [Daily user]
Answered "Yes" to the question "Do you use snus daily?"

B163. Please provide the definition of "current smoking/tobacco use" used to answer question B16 in the space below.

Current users of smoking tobacco: Those respondents that reported having smoked cigarettes during the last 12 month and answered yes to the next question "do you still smoke?"

Current users of smokeless tobacco: Those respondents that reported having used snus during the last 12 month and answered yes to the next question "do you still use snus?"

Current users of other tobacco: Those respondents that reported having smoked water pipe within the last 30 days.

B164. Please provide a brief explanation of the trend in tobacco use by young persons in the past two years or since submission of your last report.

Smoking: For girls and boys, 15-16 years old, the downward trend has continued. Among older youth, 17-18 years old, the prevalence of smoking seem more or less unchanged, but with a small decrease among girls.

Snus use: The proportion of snus users has been stable during the last years for boys and girls 15-16 years old and for 17-18 year old girls. Among boys, 17-18 years old, there has been a slight increase.

B3. Tobacco-related mortality

B31. Do you have information on tobacco-related mortality in your population?
Yes

B32. What is the estimated total number of deaths attributable to tobacco use in your population?
11881.0000000000

B33. If available, please provide any additional information on mortality attributable to tobacco use (e.g. lung cancer, cardiovascular diseases) in your jurisdiction.
Please note that the following numbers are for smoking related death only.
Incidence of smoking related death per year 2010-2012: 11 881
Cancer: 5 250 cases
Diseases of the lung: 2 855 cases

B4. Tobacco-related costs

B41. Do you have information on the economic burden of tobacco use in your population, e.g. the overall cost of tobacco use imposed on your society?
Yes

B42. Please provide details (e.g. direct (health care-related) and indirect costs and, if possible, the method used to estimate these costs).
The estimated total cost due to smoking in Sweden 2013 was 31 billion SEK. The cost for health care services (direct costs) accounted for 2.5 billion SEK and productivity losses (indirect costs) for 7.2 billion SEK. Productivity losses included costs due to early retirement and early death. Other costs associated with sick leave caused by smoking were approximately 21.3 billion SEK. The study employed a top-down methodology to estimate the different cost components and used lost gross annual income as the measure of lost production during a person-year. For the estimates on relative risks and Swedish smoking patterns, published studies on attributable risks for smokers and former smokers were used. These were applied to cost estimates for smoking-related diseases based on data from public Swedish registers.

B62. Do you have any information on the percentage of illicit tobacco products on the national tobacco market?
Yes

B63. What percentage of the national tobacco market do illicit tobacco products constitute? (%)
2.0000000000

B64. What is the trend over the past two years or since submission of your last report in the percentage of illicit tobacco products in relation to the national tobacco market?
A decrease.

B65. Please provide any further information on illicit tobacco products.
The figure above relates only to cigarettes. We do not have figures for snuff. 2,0% represents estimate of smuggled cigarettes. To this could be added another 8% of privately imported. The total sum of unrecorded (unregistered cigarettes) thus amounts to 10%.
The estimated share of illicit tobacco of the national cigarette market relates to research conducted by CAN (Swedish Council for Information on Alcohol and Other Drugs). The estimate stems from self-reported data. As respondents' knowledge of whether store-sold cigarettes were smuggled is limited.

C1. GENERAL OBLIGATIONS

C1. With reference to Article 5

C111. Have you developed and implemented comprehensive multisectoral national tobacco control strategies, plans and programmes in accordance with the Convention?

Yes

C112. Have you partially developed and implemented tobacco control strategies by including tobacco control in national health, public health or health promotion strategies, plans and programmes?

N/A

C113. Is any aspect of tobacco control that is referred to in the Convention included in any national strategy, plan or programme?

N/A

C114[C114a]. Have you established or reinforced and financed: [a focal point for tobacco control?]

Yes

C114[C114b]. Have you established or reinforced and financed: [a tobacco control unit?]

Yes

C114[C114c]. Have you established or reinforced and financed: [a national coordinating mechanism for tobacco control?]

Yes

C115. Please provide details (e.g. the nature of the national coordinating mechanism, the institution to which the focal point for tobacco control or the tobacco control unit belongs).

The focal point for tobacco control with regards to policymaking is a government official based at the Ministry of Health and Social Affairs.

The Public Health Agency, a government agency, functions as the national coordinating mechanism concerning evidence-based tobacco prevention and tobacco statistics. The agency has central supervisory responsibility with regard to the Tobacco Act (1993:581), relating to smoke-free environments, sales, labelling and product control.

The Swedish Consumer Agency exercise central supervisory responsibility regarding marketing.

The Swedish Work Environment Authority has central supervisory responsibility relating to smoke-free work environments.

The county administrative boards have regional supervisory responsibility whereas the municipalities and the police exercise immediate supervisory responsibility in accordance with the Tobacco Act (1993:581).

Swedish Customs is responsible for making sure that customs duties, taxes and charges associated with tobacco trade are collected and that illicit import of tobacco products is counteracted.

C116. Please provide a brief description of the progress made in implementing Article 5.1 and 5.2 (General obligations) in the past two years or since submission of your last report.

From 1st of May 2014 a method to improve age control by shopkeepers was implemented in 22 a) and 22 b) §§ of the Tobacco Act (1993:581). The method includes among others the following components: use adults over the legal limit i.e. 18 year - who look to be "younger", trying to purchase beer, tobacco or prescription free medication, be truthful about age, check if business operator ask for identification (ID), the result is documented outside the shop by the "control purchaser", immediate feedback by staff from the local authority to the business operator. The purpose of the method is to create a dialog with the shop keeper about current age-control mechanisms in place. The method can however not be used as a basis for administrative sanctions.

From 1st of April 2015 complementing regulations and advice was implemented by the Public Health Agency of Sweden. FoHMFS 2015:1 Folkhälsomyndighetens föreskrifter och allmänna råd om kontrollköp av folköl och tobaksvaror

<http://www.folkhalsomyndigheten.se/documents/publicerat-material/foreskrifter1/fohmfs-2015-1.pdf>

The Public Health Agency of Sweden has been commissioned to investigate and analyze the presence of passive smoking in public areas and particularly where children are present. The commission also involved providing proposals for measures to further reduce passive smoking in these areas. As indoor smoking is currently already regulated by the law, the commission entailed focusing on outdoor public places. A report on the findings and suggestions was published in 2014. <http://www.folkhalsomyndigheten.se/documents/om-myndigheten/uppdrag-styrdokument/avslutade/slutrapport-utredning-framtida-rokfria-miljoer.pdf>

The government gave 2015 the Swedish Customs, the Swedish Police, The Swedish Economic Crime Authority and the Swedish Tax Agency a commission to mapping how the work to prevent illegal handling of excise duty goods is done by of the agencies and analyze how co-operation can be improved. The initial results should be submitted 2016.

C127. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.
Sweden has not adopted any program or any legal measures explicitly aimed at protecting public Health policies from Commercial and other vested interests of the Tobacco industry. There are however general rules of public law, objectivity and impartiality. Provision relating to disqualification of officials due to personal interest serve a realted purpose.
The NGO, The Swedish Think Tank Tobaksfakta, has in 2014 published a guide about protecting public health policy against tobacco industry: Skydda folkhälsopolitiken mot tobaksindustrin – en vägledning. <http://tobaksfakta.se/bokbestalling2/>

C22. Protection from exposure to tobacco smoke Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

C221. banning tobacco smoking in indoor workplaces, public transport, indoor public places and, as appropriate, other public places ?

Yes

C222[1]. What is the type/nature of the measure providing for the ban? [national law]

Yes

C222[2]. What is the type/nature of the measure providing for the ban? [subnational law(s)]

Yes

C222[3]. What is the type/nature of the measure providing for the ban? [administrative and executive orders]

Yes

C222[4]. What is the type/nature of the measure providing for the ban? [voluntary agreements]

Yes

C222[5]. What is the type/nature of the measure providing for the ban? [other measures (please specify in C223 below)]

Yes

C223. Please provide a brief explanation of the type/nature and content of the measures providing for the ban.

Smoking is banned in all described areas. It is however possible to arrange designated smoking areas. In addition to legal requirements, the social norm of none-smoking in public areas has been widely accepted which in turn has resulted in relatively few designated smoking areas. This is in a large part due to individual policy's on completely smoke-free airplanes, trains, ferries, hotels and health-care facilities.

C224. Do any of these measures provide for a mechanism/ infrastructure for enforcement?

Yes

C225. Please provide details of this system.

It is possible, according to 19 a 2.a § and 20 § of the Tobacco Act, for a local authority to apply an administrative injunction which can be combined with an administrative fine for the owner or user of the property. The sanction should be used to make the owner or user of the property to stop and to prevent that smoking occurs where it is forbidden according to e.g. 2 § of the Tobacco Act (1993:581).

C2211. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

All indoor public places are smoke-free including restaurants and bars. Designated smoking rooms are however permitted, but only if they are situated so that nobody has to pass through them in order to reach other parts of the premises. No serving is allowed in the smoking rooms. Smoking rooms must have adequate ventilation to ensure that pollutants from the smoking do not spread to other parts of the premises. Some areas do not have legal support to be qualified as non-smoking areas, but due to successful policies these areas are perceived as non-smoking areas. There is a notion that the law is "complete", when it is more accurate to say that it has contributed to a national standard stating that certain areas should be smoke-free

The Public Health Agency of Sweden has been commissioned to investigate and analyze the presence of passive smoking in public areas and particularly where children are present. The commission also involved providing proposals for measures to further reduce passive smoking in these areas. As indoor smoking is currently already regulated by the law, the commission entailed focusing on outdoor public places. A report on the findings and suggestions was published in 2014. <http://www.folkhalsomyndigheten.se/documents/om-myndigheten/uppdrag-styrdokument/avslutade/slutrapport-utredning-framtida-rokfria-miljoer.pdf>

Sweden has from 2015 been participating in the new Tobacco Products Committee under Dir. 2014/40/EU, which in due course (20 May 2019 respectively 20 May 2024) will increase the regulations particularly in the area or article 15.

C3115. If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

Regarding C315 the legal requirement are in place as describes in C311. However with regards to a specific form for the unique identifier this is awaiting implementation of article 15 of Dir. 2014/40/EU. Therefore the answer has been changed to "no".

Within Sweden, from 2014, EMCS (Excise Movement and Control System) is applicable as a control system. EMCS is an electronic system that must be used by authorized operators when products are moved under duty, which is meant to ease the administrative management of the company and to enable an effective fiscal control of the delivery of alcohol, tobacco and certain energy products across the EU.

From 1st of May 2014 a method to improve age control by shopkeepers was implemented in 22 a) and 22 b) §§ of the Tobacco Act (1993:581). The method includes among others the following components: use adults over the legal limit i.e. 18 year - who look to be "younger", trying to purchase beer, tobacco or prescription free medication, be truthful about age, check if business operator ask for identification (ID), the result is documented outside the shop by the "control purchaser", immediate feedback by staff from the local authority to the business operator. The purpose of the method is to create a dialog with the shop keeper about current age-control mechanisms in place. The method can however not be used as a basis for administrative sanctions.
